Subject: Berden Hall Farm (Pelham Solar)

Application number on S62A/22/0006 (and UTT/22/2046/PINS)

I am writing to object to the proposal by Statera to construct a solar farm on 177 acres of land at Berden Hall Farm.

My name is Jonathan Russell

[REDACTED]

The reason for my objection is as follows:

The size of the development simply too big!

- Uttlesford's Policy ENV15 says that small scale renewable energy development schemes to meet local needs will be supported providing it can be demonstrated that they do not adversely affect i) The character of sensitive landscapes; ii) Nature conservation interests; or iii) Residential and recreational amenity
- This is not a "small scale" scheme.
- The area covered by solar panels is even larger than the area which was contemplated at the time of the application to Uttlesford District Council for a Screening Opinion.
- The land identified by Statera as the site for Berden Hall solar Farm extends to 177 acres of productive farm land.
- The visual impact of such a huge solar farm would fundamentally change the character of the area.
- The scheme will not contribute to the energy needs of local residents.

The solar farm is inappropriate development in the countryside

- The development proposed by Statera can only be described as industrial.
- In addition to large numbers of solar PV panels (the exact quantity is not specified) the development will include containerised inverters and a substation.
- National policy includes an environmental objective - to protect and enhance our natural, built and historic environment; including making effective use of land, improving biodiversity, using natural resources prudently, minimising waste and pollution, and mitigating and adapting to climate change, including moving to a Statera economy.
- I do not understand how a massive solar farm which is an industrial development can possibly enhance the natural environment.

- The site is very close to the numerous listed buildings and scheduled monuments I do not accept that it can possibly enhance the historic environment.
- The development is not compatible with Uttlesford's policy S7 which says that the countryside will be protected for its own sake

Jonathan Russell
