[REDACTED]
Subject: Berden Hall Farm (Pelham Solar)

Application number on S62A/22/0006 (and UTT/22/2046/PINS)

I am writing to object to the proposal by Statera to construct a solar farm on 177 acres of land at Berden Hall Farm.

My name is [Keith bishop]
[REDACTED] [REDACTED]].

The reason for my objection is as follows:

A large number of solar farm applications are being rejected by the UK government at present the next PM has already stated that they will stop any more solar farms this is the reason the developers are trying to push this one through quickly.

We need to protect good quality agricultural land to feed the population not put solar panels on it one wind turbine would produce as much power as these solar panels .

A project of this scale has no place in a small rural village the battery storage is a fire risk as there is not enough water to extinguish it in the village's so it would be left to burn releasing Dangerous chemicals into the air.

Uttlesford has enough ground mounted solar to power 132% of their households,no more are needed!!

The heavy haulage will have a devastating affect on the small country roads,the pre school groups & all residents.

Please reject this ridiculous proposal.
