

Statistical release

The latest provisional monthly energy production, consumption and prices statistics produced by the Department for Business, Energy and Industrial Strategy were released on 29 September 2022.

Energy production and consumption statistics are provided in total and by fuel and provide an analysis of the latest 3 months data compared to the same period a year earlier. Energy price statistics cover domestic price indices, prices of road fuels and petroleum products and comparisons of international road fuel prices.

Energy production and consumption

Highlights for the 3-month period May 2022 to July 2022, compared to the same period a year earlier include:

- **Primary energy consumption in the UK on a fuel input basis rose by 2.3%, with petroleum consumption increasing as lockdown restrictions eased. On a temperature adjusted basis consumption rose by 3.9%. ([table ET 1.2](#) and [table ET 3.13](#))**
- **Indigenous energy production rose by 21%, boosted by strong growth in UKCS production. ([table ET 1.1](#))**
- **Gas exports up significantly; the UK has been playing a key role in supplying gas to Europe as it looks to move away from Russian gas. ([table ET 4.3](#))**
- **Electricity generation by Major Power Producers up 15%, with coal down 27%, but gas up 14%, nuclear up 13% and renewables up 19% due to increased capacity and more favourable weather conditions.* ([table ET 5.4](#))**
- **Gas provided 48.2% of electricity generation by Major Power Producers, with renewables at 31.6%, nuclear at 18.4% and coal at 1.1%.* ([table ET 5.4](#))**
- **Low carbon share of electricity generation by Major Power Producers up 1.0 percentage points to 50.0%, whilst fossil fuel share down 0.9 percentage points to 49.4%.* ([table ET 5.4](#))**

*Major Power Producers (MPPs) data published monthly, all generating companies data published quarterly.

Energy prices

Highlights for September 2022 compared to August 2022:

- **Petrol down 6.5 pence per litre and diesel down 2.7 pence per litre. ([table QEP 4.1.1](#))**

Data periods and coverage

Statistics on monthly production and consumption of coal, electricity, gas, oil and total energy include data for the UK for the period up to the end of July 2022.

Statistics on average temperatures, heating degree days, wind speeds, sun hours and rainfall include data for the UK for the period up to the end of August 2022.

Statistics on energy prices include retail price data for the UK for August 2022, and petrol & diesel data for September 2022, with EU comparative data for August 2022.

Next release

The next release of provisional monthly energy statistics will take place on Thursday 27 October 2022.

Data tables

To access the data tables associated with this release please click on the relevant subject link(s) below. For further information please use the contact details provided.

Please note that the links below will always direct you to the latest published data tables. If you are interested in historical data tables, please contact BEIS (kevin.harris@beis.gov.uk).
