## Introduction

The Asylum, Migration and Integration Fund (AMIF) was established on 16 April 2014 by the European Union as a Multi Annual Financial Framework to cover the period 2014 – 2020. The UK opted into AMIF and was allocated €370m for use on UK priorities in the field of migration and integration. The initial allocation has since been increased to €596,232,236.00 (£518,462,813.91).

AMIF is administered by the UK Responsible Authority, which is based in the Home Office European Funding Team. The Acts establishing AMIF are:

The AMIF Regulations set out 4 Specific Objectives for the funding, the UK participates in 3 of these objectives, they are: Asylum, including Resettlement Pledges; Legal Migration/Integration; and Returns. Funded activities are grouped together under these headings. This document is a list of all the actions that have received AMIF funds, or, are currently in receipt of AMIF funds in the UK up to 31 August 2022. This list is updated on an annual basis.

**Project title:** Analysing Asylum Claims to Direct COI Research and Fact-finding Missions

**National objective:** NO2 – Evaluation

**Project summary:** To support informed, high quality and consistent decision making in the asylum system by conducting detailed analysis of asylum interviews, decisions and appeals in order to identify the gaps in country information then undertaking research, including fact finding missions, to fill the identified gaps for 20 countries.

Currently the Home Office conducts country information research mainly by using internet-based reporting and information obtained by the Foreign and Commonwealth Office (FCO). Where this cannot fill the information gaps identified, the project will undertake other forms of research activities to fill the gaps e.g. interviewing sources in the UK; interviewing sources via phone or Skype; commissioning experts; translating non-English language documents and by conducting fact finding missions to obtain first-hand and targeted information required.

The project will enable to better identify the types of issues arising in asylum claims and the specific country information needs of caseworkers; and review and assess the extent to which the gaps were filled. It will contribute towards ensuring that informed and consistent decisions on asylum applications are made.

## **Project reference: UK/2017/PR/0045**

**Project title:** Asylum Childcare Provision

**National objective:** Reception/Asylum

**Project summary:** The overall aim of the project is to offer childcare to asylum seekers who would otherwise bring children to the substantive asylum interview.

It will conduct 820 asylum interviews using childcare provision for children (including siblings) who would otherwise be present in the asylum interview.

This childcare provision will be offered in-house or off-site to parents of children 5 years old and under with substantive asylum interviews in Cardiff, Croydon, Glasgow, Hounslow, Leeds, Liverpool, Newcastle and Solihull casework hubs. Subcontractors will be used for delivering the service as required.

The childcare provision is expected to reduce instances of parents recounting their traumatic experiences in front of their children, leaving children in potentially risky environments or reluctance to fully disclose critical evidence leading to allowed appeals.

The provision of childcare is a UK government commitment on the Violence Against Women and Girls (VAWG) Action Plan.

**Type of beneficiary:** State/federal authorities

## **Project reference: UK/2017/PR/0046**

**Project title:** Modern Slavery

**National objective:** NO1 - Reception/Asylum

**Project summary:** The overall aim of the project is to ensure that every vulnerable adult asylum seeker, who is also a potential victim of modern slavery (and their dependents), receives a comprehensive package of care to support their recovery and reflection and improve their ability to move forward positively in their lives once they leave support. It will provide a comprehensive package of support to 3,103 adult asylum seekers who are also potential victims of modern slavery.

The project service will be provided by The Salvation Army (TSA), an organisation contracted by the UK Government to support adult victims of modern slavery in England and Wales.

Awareness-raising activities will include workshops with first responders and those who routinely come into contact with asylum seekers.

The project will work with key source countries to identify best practice and understand the particular needs of their nationals whilst in support. Also, it will share lessons and best practice with other States through workshops and conferences,

with a view to helping partners to provide better support to victims of slavery in their territory and reducing the flow of potential victims from other countries to the UK.

Potential victims of modern slavery are referred to the service through the National Referral Mechanism (NRM), UK's framework for identifying and supporting victims of modern slavery.

Support will be provided to individuals given a positive Reasonable Grounds (RG) decision, which indicates there is reason to believe that they are a potential victim of modern slavery. Victims receive support until a higher threshold, Conclusive Grounds (CG) decision determines whether or not the individual is a victim of modern slavery. A negative CG decision means that the individual will exit the service within two working days while a positive CG decision sees the individual leaving the service within 14 days.

The project is in line with the UK Government obligation under Article 12 of the European Convention on Action Against Trafficking in Human Beings (ECAT) and Article 11 of the European Directive on Preventing and Combating Trafficking in Human Beings and Protecting its Victims (the Directive) to support potential victims of modern slavery.

The aim is to ease the pressure on other EU member states and help manage the wider migration situation across Europe. **Project title:** Charter Flights staffing and escort costs

**National objective:** NO2 - Returns Measures

**Project summary:** To undertake removals of irregular third country nationals to their country of origin on charter flights with escorts. The return of the individuals eligible for removal by charter is made in a safe and dignified manner, using escorting staff who have received specific training in control and restraint measures, including during a long haul flight. The project will undertake a total of 2,758 removals over the life time of the project.

The principal countries to which returns are made are currently Pakistan, Nigeria, Ghana, Jamaica and Albania. Other destination countries are included if there is an operational need, such as to remove a particularly violent individual or family where all attempts to remove on scheduled flights have failed. The project is aimed at returning all migrants who no longer have permission to remain in the UK or whose presence in the UK is no longer desirable.

The two main project activities – the provision of charter aircraft and related services, and escorting services (the escorts themselves and transportation of returnees under escort) are contracted out to Carlson Wagonlit Travel and Tascor respectively. The UK provides reintegration assistance in partnership with an NGO for Pakistani charter returnees in accordance with a MOU. These costs are not charged to this project. Measures are in place to help identify potential victims of trafficking among charter returnees from Nigeria and Ghana.

**Project title:** Voluntary Returns Service (VRS)

**National objective:** NO2 – Return Measures

**Project summary:** The aim of the Voluntary Returns Service (VRS) is to provide an alternative to enforced removal for those who have no legal basis on which to remain in the UK. The VRS is designed to achieve a dignified and sustainable return for any individual who opts to leave the UK voluntarily. Illegal migrants may choose to leave the UK promptly voluntarily by contacting the Home Office to discuss their Voluntary Return options. The Voluntary Returns Service commenced on 1st January 2016.

This project aims to achieve a total of 21,000 Voluntary Returns over the lifetime of the project period under the following categories:

1. Controlled Return:
  - Public funded: All illegal migrants and immigration offenders who chose to leave the UK voluntarily with some form of financial assistance (usually the cost of the return ticket in part or in full);

- Subject funded: All illegal migrants and immigration offenders who chose to leave the UK voluntarily without any form of financial assistance.

2. Assisted Return – this is for the following eligible categories of individuals who would receive a package comprising of a return flight, financial assistance and in some cases, reintegration up to the value of £2,000 per person available to persons who made an asylum claim in the UK; are vulnerable; or are a family including a dependent under the age of 18 years old.

The project is publicised via using leaflets, posters - as well as on external internet website. It is planned to be delivered by working collaboratively with European Reintegration Network (ERIN) programme to provide reintegration in 17 target countries (33 by late 2017) for VRS returnees. ERIN partner countries share the service of one service provider in each third country with each ERIN partner country providing basic counselling and referral services and reintegration assistance in accordance with its national policy. **Project title:** National Removal Command – Detained Removals

**National objective:** NO2 – Return Measures

**Project summary:** The project aims to facilitate enforced returns of detained non EU / EEA nationals and to professionalise Detained Casework. It will:

- Undertake enforced returns of 9,625 third country nationals (TCNs) from detention
- Review and revamp learning and development for Detained Casework through providing a new modular learning package / framework with mandatory and refresher to all 169 existing and new staff; and optional elements aimed at specific roles and for individual development and / or specialisation

Cases are referred into NRC on detention and any barriers to return identified and resolved before preparing cases for return. The returns overseas travel will be undertaken by Carlson Wagonlit Ltd – a current Home Office subcontractor.

The revamping of the learning and development will result in a more efficient detained casework process, equipping staff with skills to make better professional consistent decisions and reduce errors which in turn lead to reduced legal risk and more dignified departure for the TCNs. Currently learning and development consist mainly of staff reading documents on the internet and learning from colleagues.

**Project title:** Scheduled Flights

**National objective:** NO2 - Return Measures

**Project summary:** The project aims to facilitate the removal of 1,840 TCNs on scheduled flights to their country of origin with or without escorts. Trained staff with delegated powers of control and restraint under the Immigration Act 1971 (as amended) will be used.

The UK has operated regular scheduled flights with escorts return operations since 2001 through an experienced dedicated team. This project will help maintain this level of scheduled returns. Scheduled flights with escorts are operated for a number of reasons, which include:

- (i) The detainee represents some risk to the public and is deemed unsuitable for an unescorted return.
- (ii) Where removal by charter is impossible due to destination.
- (iii) Where removal by charter flight would involve an unacceptably long time in detention.
- (iv) Where there have been previous attempts to remove an individual on scheduled services without escorts, which have failed due to disruptive behaviour by the individual which is unacceptable to the airline.
- (v) Where agreement has been reached with the destination country that removal by scheduled flights with escorts represents the most practicable method of effecting removals.

Case Owners are informed of which subjects are suitable for a fully escorted return and they ensure that subjects are eligible for removal before tickets and escorts are booked. The provision of tickets for scheduled flights with escorts and related services, and the escorting services (escorts themselves and transportation of returnees under escort) are delivered by subcontractors Carlson Wagonlit Travel and Tascor respectively.

The following can also be provided if required: trace of family members by Foreign and Commonwealth Office, access to free healthcare, telephone and legal assistance and a small cash grant for destitute returnees.

**Project title:** Family Returns Unit (FRU) 3

**National objective:** NO2 - Return measures

**Project summary:** The overall aim of the project is to engage directly with families after all outstanding claims to remain in the UK have been refused to explain their options for leaving the UK and the support available. In doing so, the project helps to maintain the integrity of the United Kingdom immigration system. The project will meet the requirements to comply with the statutory child safeguarding duty under S55 of the Borders, Citizenship and Immigration Act 2009.

The project will complete 1,084 formal engagement events with family units that have no lawful right to remain in the UK or if they have indicated they wish to leave the UK voluntarily. The options for departing the UK and the support available to help families are provided through a series of 3 engagement events:

- (i) Contact Management Event (CME) that is usually carried out remotely by a member of the Home Office Compliance and Family Engagement Team;
- (ii) Family Return Conference (FRC) which is usually the first face to face meeting with a family and may be carried out by an FEO or FEM, usually in a Home Office building but it can also take place in the family's home.
- (iii) Family Departure Meeting (FDM) which is usually the final meeting with a family ahead of their return. At this stage, the family will usually be served self-check in removal directions which will specify a flight they should attend to leave the UK compliantly.

An ensured return used if families do not depart voluntarily. It involves seeking advice from the Independent Family Returns Panel (IFRP) prior to an escorted return to their country. The main focus of the project is to encourage families to return voluntarily through use of the Voluntary Returns Service (VRS), which the family is signposted to during each of the engagement events held with a Family Engagement Manager (FEM) or Family Engagement Officer (FEO). VRS return option includes a financial package used to access education, healthcare, training, accommodation etc, and allows families to have control over their return, affording them dignity, and safeguarding children.

**Project title:** DET (Detention Engagement Team) 2.0

**National objective:** NO2 - Return measures

**Project summary:** The project aims to maximise compliant returns from detention of third country nationals who have no basis of stay in the UK and have been detained for the purposes of return.

It will deliver a total of **2,066** beneficiaries who have received detention engagement activity and, following this engagement, have left the UK from detention.

It is hope that the project will better understand the vulnerabilities of the detainees in order to improve safeguarding measures; and also rapidly identify potential barriers to return, thereby reducing their detention duration.

Detention Engagement Teams (DETs) form a vital link between the caseworkers who manage detained immigration cases and the detainee. Engagement Officers undertake engagement events that include inductions, service of papers, explaining Home Office documentation, meeting with detainees to discuss their needs and circumstances including identifying any additional support that the detainees may require. The Engagement Officers also conduct asylum screening interviews in detention to ensure screening information on asylum applications is collected at the earliest opportunity. These engagement events provide the opportunity for return compliance to be promoted as well as barriers to return being identified and tackled thereby improving detainee compliance with the returns process and reducing detention duration.

The project will produce leaflets and posters to help promote the Engagement Officers and the service they offer.

**Project title:** The Facilitated Return Scheme – V2

**National objective:** NO2 - Return measures

**Project summary:** The project aims to provide support and reintegration assistance to non- EEA (European Economic Area) Foreign National Offenders (FNOs) who voluntarily depart the UK.

It will remove **1,168** non- EEA FNOs over 30 months through the FRS scheme providing reintegration assistance upon return to their home country.

The Facilitated Return Scheme (FRS) will promote and assist the voluntary removal of those FNOs (and their dependents where applicable) who have met the FRS criteria and accepted onto the scheme, helping them to leave the UK at the earliest possible opportunity and return to their home country with reintegration support.

The reintegration assistance and support will be provided via the International Organisation for Migration (IOM) who will facilitate and provide necessary information about accommodation, employment, education and training, whilst also supporting vulnerable returnees.

The scheme provides the FNO with a dignified return which benefits both the individual and the UK and acts as an incentive for the governments of each non-EEA receiving country as the returned FNOs are able to invest into the local economy.

**Project title:** Return of Irregular Migrants by Charter Flight 2020/21

**National objective:** NO2 - Return measures

**Project summary:** The aim of the project is to remove Third Country Nationals who have no right to remain in the UK on charter flights with escorts to country of origin, as well as TCNs who simply wish to return home as soon as possible.

The project will deliver a total of **496** returns on charter returns flights.

Removals will be made in a safe and dignified manner, using escorting staff who have received specific training in control and restraint measures, including during long-haul flights. These staff have delegated powers of control and restraint under the Immigration Act 1971 as amended.

Returns by charter flights are needed where there are limited scheduled flight services; are used to remove with disruptive behaviour that scheduled flights would not be able to accommodate; and cost-effective where there are a large number of returnees to a destination than by removing them individually on scheduled services. A role has also emerged of charter flights in place of scheduled flights due to limited scheduled flights due to the impact of the COVID-19 pandemic.

The project has already sub-contracted relevant project activities where the Home Office does not have the expertise to operate.

**Project title:** VRS Reintegration

**National objective:** NO2 - Return measures

**Project summary:** VRS provides an alternative to enforced removal offering reintegration assistance to people by way of a financial payment upon departure. Applicants can then use this money in their home country to help with reintegration / resettlement costs and considered a more dignified method of return for people who have no legal basis to remain in the UK.

During the life cycle of the project VRS will deliver a total of 1047 beneficiaries who have left the UK following receipt of a reintegration payment.

VRS offers a range of services to those who choose to leave the UK voluntarily. For some this will involve help with obtaining travel documents and support with other associated logistical matters while for others the reintegration payments will help around resettling in their home countries.

The project seeks to enhance returns compliance, support third country nationals resettle upon return and ultimately increase the number of incentivised voluntary returns.
