UK Government Ministers made the decision to implement a temporary suspension on the importation of commercial dog movements from Ukraine, Belarus, Poland and Romania taking into account advice from Defra’s Animal Disease Policy Group (ADPG). The ADPG provides the UK wide policy forum where disease control policy, and sanitary and phytosanitary system (SPS) and strategic recommendations should be presented, reviewed, discussed, challenged and agreed. Collective views reached are put to respective sets of Ministers for agreement. ADPG also has an important role in making sure policies are, as far as possible, consistent across the 4 administrations. ADPG membership includes the 4 CVOs from across the UK and other representatives from the four administrations, and public health bodies who provide advice on zoonotic disease.

ADPG meetings at which the temporary suspension on the importation of commercial dog movements from Ukraine, Belarus, Poland and Romania was discussed took place on the following dates:

- 28 March 2022
- 7 April 2022
- 28 April 2022
- 12 May 2022
- 26 May 2022
