

**THE DEPARTMENT FOR BUSINESS, ENERGY & INDUSTRIAL STRATEGY  
NOTICE OF PUBLICATION  
0072/22  
of 26 October 2022**

**of references to standards in support of The General Product Safety  
Regulations 2005 (S.I. 2005/1803)**

This notice confirms that:

- (a) Following an objection in respect of standard EN 1930:2011, 'Child use and care articles - Safety barriers - Safety requirements and test methods', the standard does not ensure full compliance with the general safety requirement of S.I. 2005/1803. The reference to standard EN 1930:2011 should therefore be published with restriction and conformity with the specific part of the standard covered by the restriction would not give the presumption of conformity so far as concerning the risks covered by that part.
- (b) The reference to the standard listed in Part 1 of Annex I to this notice is published for the purposes of regulation 6 of S.I. 2005/1803 in relation to England and Wales and Scotland. The list of published standards set out in Annex I to notice 0053/22 is amended in accordance with Annex I from the date of this notice. For clarity, Part 2 of Annex I to this notice sets out the complete list of references of standards which have been published and accordingly are referenced for the purposes of S.I. 2005/1803 as at the date of this notice.

## ANNEX I

## Part 1

The list of published standards in Annex I to notice 0053/22 is amended as follows:

(1) Row 16 is replaced with the following:

16.	<p>EN 1930:2011</p> <p>Child use and care articles - Safety barriers - Safety requirements and test methods</p> <p><i>Restriction:</i> For the purposes of presumption that the product is a safe product, referred to in regulation 6(2) of S.I. 2005/1803 so far as concerns the risks and categories of risk covered by this standard:</p> <p>(a) The standard warnings identified in clause 10.4.3 are not considered adequate to warn users about the dangers associated with the incorrect use of stairgates by stacking two gates above one another. The user instructions accompanying the product should contain an explicit warning against such an installation method, including the substance of the following text:</p> <p>'WARNING: To avoid the danger of death or serious injury never stack one barrier above another in an opening.'</p>
-----	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## Part 2

List of references of standards which have been published for the purposes of S.I. 2005/1803 as at the date of this notice:

No	Reference of standard
1.	<p>EN 581-1:2006</p> <p>Outdoor furniture - Seating and tables for camping, domestic and contract use - Part 1: General safety requirements</p>
2.	<p>EN 913:2018</p> <p>Gymnastic equipment - General safety requirements and test methods</p>
3.	<p>EN 914:2008</p> <p>Gymnastic equipment - Parallel bars and combination asymmetric/parallel bars - Requirements and test methods including safety</p>
4.	<p>EN 915:2008</p> <p>Gymnastic equipment - Asymmetric bars - Requirements and test methods including safety</p>
5.	<p>EN 916:2003</p> <p>Gymnastic equipment - Vaulting boxes - Requirements and test methods including safety</p>
6.	<p>EN 957-2:2003</p> <p>Stationary training equipment - Part 2: Strength training equipment, additional specific safety requirements and test methods</p>
7.	<p>EN 957-6:2010+A1:2014</p> <p>Stationary training equipment - Part 6: Treadmills, additional specific safety requirements and test methods</p>
