Subject: Bloor Site 200 homes

Dear sirs want to protest against a further development of 200 homes abutting Elsenham on Henham Parish Land

The point for consideration are as follow

a) Inadequacy of room on the current roads with long delays on Grove Hill, Stansted Lower Street, Chapel Hill, access through Ugley and Ugley green.

b) The lack of facilities to accommodate a larger population i.e 2 schools both fully used both on very small sites for any additional building.

One doctors surgery in Elsenham already coping with the additional population growth in Elsenham. No doctors at all in Henham despite the fact that you want to put a further 200 homes within the village. The other doctors surgery is in Stansted who are no doubt already coping with their own increased population.

Residents of Henham have to drive since we are a long walk on poor roads with limited footpaths to the station in Elsenham. The bus service is virtually useless for either work or shopping the Secretary of State has already turned down a development for 800 homes

but the developers seem determined to get what they want in smaller applications hoping to get them passed. However the problems for the village will

remain if this goes through to the detriment of all the inhabitants whether young or old.

Mr & Mrs Derek Green [REDACTED]
