Subject: Planning Application

Ref S62A/2022/0012 Land East of Station Elsenham

This latest planning application makes me feel sick to the stomach. When will it ever stop?? Seriously, will any member of the Planning Inspectorate visit Elsenham? Will they drive the roads through Elsenham? Will they try to get into Stansted Mountfitchet via Grove Hill and sit at the traffic lights while heavy goods lorries block the weight restricted roads..... the minor B roads.....the country roads.....the ONLY ROADS trying to get through?

Will they navigate up Chapel Hill at rush hour, or more commonly dodge the cars and endless traffic at any time of the day?

In fact will any of these objection letters ever get read?

The roads cannot cope ALREADY from the hundreds of new houses that have swamped Elsenham to date.

Furthermore the Secretary of State concluded in 2016 that 800 dwellings on the current application was not sustainable in any way, yet piecemeal developments are being considered to potentially total 1000 new dwellings. What an underhanded way of dealing with planning.

Elsenham WAS a small village and still has small village facilities, with an already full school, one doctors surgery and one convenience store. It also has limited buses so it doesn't take brains to work out how many more people and cars will be travelling out of Elsenham into Stansted Mountfitchet and Saffron Walden from 800+ more homes! How in the world is this village going to cope??

I sincerely hope this is all taken into consideration before Elsenham becomes an overcrowded nightmare to live in and travel to and from.

Therefore I deeply, strongly and whole-heartedly object to this absurd, disgusting and wholly inconsiderate application.

Mrs Vicky Bambridge
