Subject: S62A/2022/0012 Land East of Station, Elsenham

Good Evening,

I would like to object to the above planning application in the most strong terms, primarily because a proposal for a similar application was refused by yourselves in 2016, as unsustainable.

Since then, by stealth, many smaller applications for housing have gone through, resulting in the most appalling traffic issues which I don't feel are reflected on paper. I would ask that before considering this proposal, your members actually spend a week in the area.

I am completely aware of 'nimby' objections, but I ask that you look at the number of planning applications that have gone through in Elsenham in recent years and would reflect if any responsible person would consider this reasonable? The infrastructure is complete insufficient to sustain recent development and I only ask that you look at your own reasons for refusal in 2016, which can only be multiplied now,

With many thanks for your time,

Karen George-Lafferty
