

## Details for Enforcement Notice No. 05/2022

Notice Type            Enforcement

Operator                Shell U.K. Limited

Address                 Shell Centre  
London  
SE1 7NA

Details                  Shearwater Offshore Installation  
Since January 2021 (and on two isolated occasions prior to this), the corrosion inhibitor chemical CRW85440 has been continuously discharged via the produced water from the Shearwater offshore installation at concentrations in excess of its permitted discharge concentration and not in accordance with the permit description. This is in contravention of Condition 2 of the schedule of permit conditions, specifically the use and discharge description for CRW85440.

Legislation             Regulation 16A(1) of The Offshore Chemical Regulations 2002

Issue Date             14/10/2022
