

PELHAM SOLAR

APPENDIX 5.1, PART 1: PHOTOMONTAGES

November 2022

VIEWPOINT 2: View from PRoW 5/27 as it heads north along the access drive to the Pelham Substation

THE EXISTING VIEW

Direction of view: Northeast
 Distance to nearest site boundary: 5 m
 Elevation: 124 m AOD
 Grid reference: TL 45708 29178
 Date photo was taken: 20.01.2022

The photomontages have been produced in accordance with the Landscape Institute Technical Guidance Note 06/19 Visual Representation of Development Proposals 17 September 2019. The image is an accurate representation of as the eye sees the view if the page is printed at A1 length and held 400 - 500 mm in front of the eye. The image can be curved to reflect the rotation of the head when taking in the view. The photograph was taken using a Sony Alpha Camera which has a full frame sensor, set in panoramic portrait mode with a Zeiss FE 24 lens set at a focal length of 50mm.
