## **ANNEX 1**

### **Description of the extent of the demarcated area**

The boundary begins at SO233422, Hay-on-Wye on the B4348. It follows the B4348 eastbound for 3.5km to SO263439 at Hardwicke. At the 'T' junction the boundary continues on the B4348 heading towards Dorstone for 6.3km.

At SO316419 the boundary crosses a bridge over a tributary of the River Dore while continuing on the B4348. In 230m after the bridge the boundary follows a sharp right turn at SO317421 before following the B4348 in a south-easterly direction to Peterchurch for 5.1km.

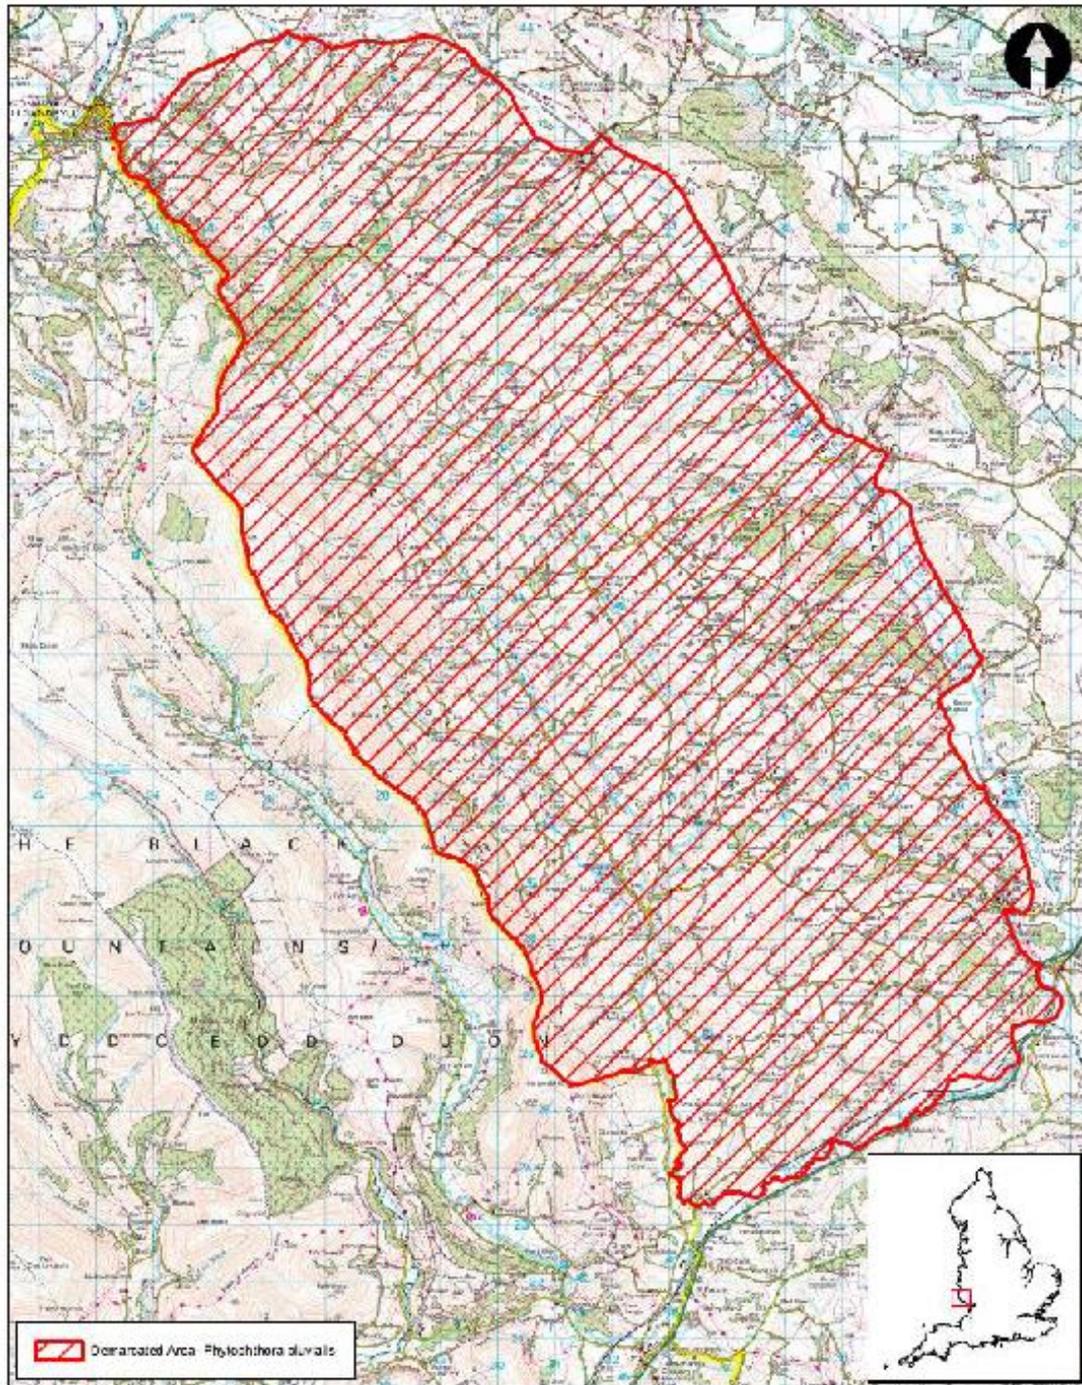

The boundary reaches a crossroads after Peterchurch at SO347382 and continues on the B4348 for another 2.7km passing Vowchurch. At SO367365 the boundary departs from the B4348 and joins the B4347 travelling southbound to Abbey Dore. The boundary continues on the B4347 for 4.7km crossing a bridge over the River Dore at SO381325. After the bridge it follows the B4347 southbound for another 6.3km passing through Abbey Dore then through Ewyas Harold onto Pontrilas.

At SO394275, Pontrilas the boundary leaves the B4347 and joins the A465 head west to Abergavenny for 1.4km at the end of an 'S' bend the boundary departs and follows the Wales/England border at SO395265.

The Demarcated Area boundary then traces the Wales/England border on a south-westerly trajectory roughly following the River Monnow for 8km to SO335233. There is a confluence of the River Monnow at SO335233 at this point the boundary follows the English Welsh border northwards for 3km to SO327257. From the undesignated road the boundary continues along the border travelling west climbing up Hatterrall Hill for 1.7km until the Wales/England border meets Offa's Dyke at SO311255.

From SO311255 the boundary follows the Offa's Dyke National Trail northwards along the Wales/England Border for 19km. The route is mainly along an upland ridge in the Black Mountains which rises to an altitude of 700m before travelling into Cusop and on to Hay-on-Wye. At SO233422 in Hay-on-Wye the boundary departs Offa's Dyke and joins the B4348 which it follows before returning to SO233422.
