

Aqualung i100 Dive Computer	
Aspect	Details
Images	
Alert Number	2301-0032
Product Type	Hobby / sports equipment - Dive Computer
Product Identifiers	Barcodes: 3665771036930 & 3665771063547 Batch: The range of serial numbers is large. The best way to identify the product is by the serial number prefix, which is "GE" and the firmware revision "2A"
Product Description	The affected product is a wrist mounted, watch type dive computer with digital transducer in two colours, a yellow model and a blue one.
Country of Origin	Taiwan
Counterfeit	No
Risk Type	Health risk
Risk Level	High
Risk Description	The equipment can randomly display the dive time incorrectly, there is a delay on it. A dive time of 12mins can display a dive time of 5mins. This could lead the diver to incorrectly measure their dive duration, which may result in decompression sickness.
Corrective Measures	The product has been recalled from end users. For more information, please access the Aqualung website at: https://uk.aqualung.com/en/recall-information/recall-information.html
Online Marketplace	N/A
Notifier	Office for Product Safety and Standards
