## EXPORT OF CANINE SEMEN TO THE NETHERLANDS

### NOTES FOR GUIDANCE (NFG) FOR OFFICIAL VETERINARIANS AND EXPORTERS

This document should not be read as a standalone document but in conjunction with 9066EHC.

#### **Scope of the certificate**

This certificate may be issued for the export of canine semen where the certification takes place in Wales, Scotland or England, i.e. Great Britain only.

#### **Country of origin**

Although the certificate has been prepopulated with UNITED KINGDOM, this certificate should and can only be issued for semen collections in England, Scotland and Wales (i.e. Great Britain).

#### **Certification**

The basic principles of certification apply and although this is not a harmonised EU level EU entry certificate, the general requirements that the EU specifies for its harmonised certificates should be followed.

Exporters should note that additional information regarding the donor, semen and its collection may be required in a private veterinary document as per importer's requirements.

**Disclaimer:** This certificate is provided based on information available at the time and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the APHA Centre for International Trade, in Carlisle, see the link below.
