Dear [REDACTED]

I am writing about your email of 07 November 2022, requesting the following information:

I am looking for information and history on 2 ex-military vehicles if you could help would be great.

*item 1 Defender 90 Wolf TUL
Reg LS45AA
service date - 28/04/1998
Vin - SALLDAA67WA144287
300TDI.*

*item 2 3/4Ton Sankey trailer
Reg- 26ET56
chassis No 381
Assembly No FV392970*

I am treating your correspondence as a request for information under the Freedom of Information Act 2000 (FOI Act).

A search for the information has now been completed within the Ministry of Defence (MOD), and I can confirm that information in scope of your request is held. The information identified relating to this vehicle is attached, as follows:

- Annex A – Owner History of LS45AA
- Annex B – Fault History of LS45AA (redacted)
- Annex C – Inspection History of LS45AA
- Annex D – Modification History of LS45AA
- Annex E – Servicing History of LS45AA

It has proved necessary to withhold some information in accordance with qualified exemptions of the FOI Act. Some of the commercially sensitive information in the Fault History (Annex B) relates to contractor repair times, which have been withheld under qualified exemption Section 43(2) (Commercial Interests). Section 43 concerns information

Defence Equipment & Support

which if disclosed would or would likely prejudice the commercial interests of any person (including defence contractors and the public authority holding it).

As the exemption is qualified, it was necessary to undertake a Public Interest Test to determine whether the balance for withholding the information outweighs that for disclosure. General arguments in favour of release were that full disclosure would demonstrate the MOD's commitment to openness and transparency; and make the UK Government more accountable to the electorate. The FOI Act also contains a presumption for release. However, reporting the time taken by MOD contractors to rectify fault reports could be used, along with already published contractor information, to reveal market sensitive information, such as hourly labour rates, that would likely allow the company's competitors to exploit when bidding for similar work.

Given the arguments described above, on balance, it was determined that the information should be withheld under Section 43(2) (Commercial Interests). The level of prejudice against release of this exempted information has been set at the higher level of "would" rather than "would be likely to".

You may wish to note that when the Management of Equipment, Resources, and Liabilities Information Network (MERLIN) database was archived into its current format some data may have been lost or corrupted. You should therefore be cautious that some of the owner history data may be inaccurate.

I can advise that no other information on this vehicle is held.

A search for information on a trailer with an Equipment Registration Mark of 26ET56 has now been completed within the Ministry of Defence (MOD), but I have been unable to locate any records.

Under Section 16 (Advice and Assistance) of the FOI Act, I can advise that vehicle records for vehicles that went to disposal prior to the introduction of the Management of Equipment Resources, Liabilities and Information Network (MERLIN) in the early 1990s have not been retained by the Ministry of Defence. You may wish to consider contacting the Royal Logistics Corps Museum who may be able to assist you with identifying information if your vehicle was in service with the Army. The contact details for the museum are below, but it is possible that the Museum may charge to use its services:
