Subject: Berden Hall Farm, Ginns Road, Berden

Dear Sir or Madam,

In relation to the above planning application, I continue to object to the proposals made.

The development proposed is in an agricultural area, where the emphasis should be on the production of food, which of itself will cut down on the need to bring food supplies into the country, and thereby further damage the environment.

There are any number of brown field sites and building developments which could host solar panels, and efforts to provide generation of electricity should be concentrated on these sites, rather than changing the use an important agricultural area.

Furthermore, the rural nature of this area is reflected in the narrow roads and poor access. The construction traffic would be a hazard to all in the neighbourhood and damage the roads and verges.

I hope you will consider my views and find against this application.

Liz Sweetman
