| Country of Origin | China |
| Counterfeit | Genuine |
| Risk Type | Electric shock |
| Risk Level | High |
| Risk Description | The product presents a high risk of electric shock as there is inadequate creepage and clearance, so there is access to live parts. Electrical insulation between mains/accessible parts may degrade over time due to this inadequate creepage & clearance. There is no insulation under USB socket where live conductor runs, and the transformer does not use triple insulated wire. The product does not comply with the Electrical Equipment (Safety) Regulations 2016. |
| Corrective Measures | OPSS is requiring the recall of the product from end users. |
