Part II. Certification

I, the undersigned official veterinarian, hereby certify that:

- II.1** (name of exporting country) ⁽²⁾ has been free from rinderpest and foot-and-mouth disease during the 12 months immediately prior to collection of the semen for export and until its date of dispatch and no vaccination against these diseases has taken place during the same period.
- II.2** The semen described above was collected before 31 December 2004 at the semen collection centre which:
- II.2.1** meets the conditions laid down in Chapter I of Annex A to Directive 88/407/EEC;
- II.2.2** is operated and supervised in accordance with the conditions laid down in Chapter II of Annex A to Directive 88/407/EEC.
- II.3** The centre at which the semen to be exported was collected was free from rabies, tuberculosis, brucellosis, anthrax and contagious bovine pleuropneumonia during the period commencing 30 days prior to the date of collection of the semen to be exported and the 30 days after collection.

II.a. Certificate reference no.	II.b.
--	--------------

- II.4** At the time semen described above was collected, all bovine animals standing at the semen collection centre:
- II.4.1** came from herds and/or were born to dams which satisfy the conditions of paragraph 1(b) and (c) of Chapter I of Annex B to Directive 88/407/EEC;
 - II.4.2** had tested negative, within the 30 days preceding the quarantine isolation period, to:
 - the tests referred to in points 1(d)(i), (ii) and (iii) of Chapter I of Annex B to Directive 88/407/EEC, and
 - a serum neutralisation test or an ELISA test for infectious bovine rhinotracheitis/infectious pustular vulvo-vaginitis, and
 - a virus isolation test (fluorescent antibody test or immunoperoxidase test) for bovine viral diarrhoea, deferred until the animal reached the age of 6 months in the case of younger animals;
 - II.4.3** had undergone the 30-day quarantine isolation period and had tested negative to the following health tests:
 - a serological test for brucellosis carried out in accordance with the procedure described in Annex C to Directive 64/432/EEC,
 - either an immunofluorescent antibody test or a culture test for *Campylobacter fetus* infection on a sample of preputial material or artificial vagina washings, or, in the case of a female animal, a vaginal mucus agglutination test,
 - a microscopic examination and culture test for *Trichomonas foetus* on a sample of preputial material or artificial vagina washings, or in the case of a female animal a vaginal mucus agglutination test;
 - II.4.4** had tested negative, at least once a year, to the routine tests referred to in points 1(a), (b) and (c) of Chapter II of Annex B to Directive 88/407/EEC.
- II.5** At the time the semen described above was collected,
- II.5.1** all female bovine animals in the centre had tested negative at least once a year to a vaginal mucus agglutination test for *Campylobacter fetus* infection, and
 - II.5.2** all bulls used for semen production had tested negative either to an immunofluorescent antibody test or to a culture test for *Campylobacter fetus* infection on a sample of preputial material or artificial vagina washings carried out in 12 months prior to collection.
- II.6** The semen to be exported was obtained from donor bulls which
- II.6.1** satisfy the conditions laid down in Annex C to Directive 88/407/EEC;
 - ⁽¹⁾ *either* **II.6.2** were resident in the exporting country during the 6 months immediately prior to collection of the semen for export;]
 - ⁽¹⁾ *or* **II.6.2** were imported from ⁽²⁾ after spending less than 6 months in the exporting country and at the time of import satisfied the animal health conditions applying to donors of the semen which is intended for export to Great Britain;]
 - II.6.3** stand in a semen collection centre at which:

II.a. Certificate reference no.	II.b.
--	--------------

⁽¹⁾*either* [all bovine animals were not vaccinated against infectious bovine rhinotracheitis and tested negative at least once a year to a serum neutralisation test or an ELISA test for infectious bovine rhinotracheitis/infectious pustular vulvo-vaginitis;]

⁽¹⁾*or* [bovine animals not vaccinated against infectious bovine rhinotracheitis tested negative, at least once a year, to a serum neutralisation test or an ELISA test for infectious bovine rhinotracheitis/infectious pustular vulvo-vaginitis, at which testing for infectious bovine rhinotracheitis was not carried out on bulls which had received their first vaccination against infectious bovine rhinotracheitis at the insemination centre after they had tested negative to a serum neutralisation test or an ELISA test for infectious bovine rhinotracheitis/ infectious pustular vulvo-vaginitis and which had been regularly re-vaccinated at intervals of not more than 6 months since the first vaccination;]

⁽¹⁾*either* [II.6.4 have not been vaccinated against infectious bovine rhinotracheitis,]

⁽¹⁾*or* [II.6.4 have been vaccinated against infectious bovine rhinotracheitis in accordance with point II.6.3,]

II.6.5 fulfil the import conditions for bovine semen laid down in the bluetongue chapter of the Terrestrial Animal Health Code of the World Organisation for Animal Health (WOAH (formerly OIE)), depending on the status of the country or zone of residence; ****

II.6.6 were resident in the country of export in which the following serotypes of epizootic haemorrhagic disease (EHD) exist: and tested negative on two occasions not more than 12 months apart to an agar gel immunodiffusion test ⁽³⁾ and to a virus neutralisation test for all above-listed serotypes of EHD, carried out in approved laboratory on samples of blood taken prior to and not less than 21 days following collection of the semen; ***

II.6.7 were resident in the country of export in which the following serotypes of epizootic haemorrhagic disease (EHD) exist: and tested negative, prior to entry and at 6-monthly intervals, to an agar gel immunodiffusion test ⁽³⁾ and a virus neutralisation test for all above-listed serotypes of EHD, carried out in approved laboratory; **

II.6.8 tested negative on two occasions not more than 12 months apart to a serum neutralisation test for Akabane virus carried out in approved laboratory on samples of blood taken prior to and not less than 21 days following collection of the semen. *

II.7 The semen to be exported was collected after the date on which the centre was approved by the competent national authorities of the exporting country.

II.8 The semen to be exported was processed, stored and transported under conditions which satisfy the terms of Directive 88/407/EEC prior to its amendment by Directive 2003/43/EC.

Notes

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

Part I:

Box reference I.6: Person responsible for the load in Great Britain: this box is to be filled in only if it is a certificate for transit commodity.

**Bovine semen – Section B
from non-EU countries
GBHC004X**

II.a. Certificate reference no.	II.b.

- Box reference I.11: Place of origin shall correspond to the semen collection centre where the semen was collected.
- Box reference I.12: Place of destination: this box is to be filled in only if it is a certificate for transit commodity.
- Box reference I.22: Number of packages shall correspond to the number of containers.
- Box reference I.23: Identification of container and seal number shall be indicated.
- Box reference I.26: Fill in according to whether it is a transit or an import certificate.
- Box reference I.27: Fill in according to whether it is a transit or an import certificate.
- Box reference I.28: Donor identity shall correspond to the official identification of the animal; date of collection shall be prior to 31 December 2004 and indicated in the following format: dd/mm/YYYY; approval number of the centre shall correspond to the approval number of the approved semen collection centre where the semen was collected.

Part II:

- (1) Delete as necessary.
- (2) Only third countries listed in a document relating to 'bovine semen' published on gov.uk, in accordance with Commission Decision 2011/630/EU.⁽⁴⁾
- (3) Standards for EHD virus diagnostic tests are described in the bluetongue chapter of the Manual of Diagnostic Tests and Vaccines for Terrestrial Animals.
- (4) A document relating to 'bovine semen' published by the Secretary of State, with the consent of the Scottish and Welsh Ministers, may be found here:

[EU and EFTA states approved to export animals and animal products to Great Britain - data.gov.uk](#)

[Non-EU countries approved to export animals and animal products to Great Britain - data.gov.uk](#)

**** To be used only by Australia, Canada and the USA.

*** To be used only by Australia and the USA.
