Subject: OBJECTION to Berden Hall Solar Farm: Section 62A Planning Application: S62A/22/0006

I attach my original letter of objection to the proposed solar farm.
My views have not been changed by the amendments made to the original application but I would also like to reinforce the objection raised by the owner of Berden Hall who is most concerned about the impact on the setting of Berden Hall which is a building of considerable historic interest.
If there is an opportunity to make personal representations at some point in your process, I would wish to do so.
Regards,
John Arnell
