Subject: objection to solar farm on land east of pelham substation,maggots end manuden.
application number S62A/2022/0011

I am writing to object to the application to construct a solar farm comprising ground mounted solar arrays together with(among other things)battery storage,inverter cabins,a substation,fencing and CCTV cameras on land near Pelham Substation Maggots End road CM231BE.

My name is Ann Haskins and I live at [REDACTED]

Reasons for objection are as follows.

This is not a small scale scheme.

The site proposed by low carbon for Pelham spring Solar Farm extends to 196 acres

The visual impact would completely change the character of the area.

The site for the development is also rich in ecology.

I have often see deer wandering across the site when out walking as they shelter in Stiles Wood.

Solar panels are for roofs not green fields.

Yours Sincerely
Ann Haskins
