Subject: Objection to Solar Farm on land east of Pelham substation, Maggots End, Manuden - Application number S62A/2022/0011

I am writing to object to the application to construct a solar farm comprising ground mounted solar arrays together with (among other things) battery storage, inverter cabins, a substation, fencing and CCTV cameras on land near Pelham Substation Maggots End Road Manuden CM23 1BJ

My name is Wayne Lysaght-Mason and I live at [REDACTED].

The reasons for my objection are as follows:

1. Solar panels can be and should be better placed examples are; Roof tops, new housing developments' redundant waste land ie motorway corridors .
2. Solar farms are inappropriate developments on high grade agricultural land, where such grain crops are now in a greater need with the Ukraine war.
3. I do not understand how such a large industrial project such as a solar farm can enhance the natural environment - this is a rural area with rich agricultural land and it should stay productive.

Wayne Lysaght-Mason.
