Part II. Certification

II.1 Animal health attestation

I, the undersigned official veterinarian, hereby certify, that the day-old chicks ⁽¹⁾ described in this certificate:

II.1.1 meet the provisions of Directive 2009/158/EC;

II.1.2 have been hatched on:

⁽²⁾⁽³⁾ *either* [the territory of code;]

⁽³⁾⁽⁴⁾ *or* [compartment(s);]

where the flocks from which the hatching eggs come were imported into the country, territory, zone or compartment of origin, this took place in accordance with veterinary conditions at least as strict as the relevant requirements of Directive 2009/158/EC and any subsidiary Decisions;

II.1.3 come from:

⁽²⁾⁽³⁾⁽⁸⁾ *either* [the territory of code;]

⁽³⁾⁽⁴⁾ *or* [compartment(s);]

⁽³⁾ *either* [(a) which at the date of issue of this certificate was (were) free from Newcastle disease as defined in Regulation (EC) No 798/2008;]

⁽³⁾⁽⁵⁾ *or* [(a) which at the date of issue of this certificate was not free from Newcastle disease as defined in Regulation (EC) No 798/2008;]

II.a. Certificate reference no.	II.b.

(b) where a surveillance programme for avian influenza according to Regulation (EC) No 798/2008 is carried out;

⁽²⁾⁽³⁾ *either* [the territory of code];

⁽³⁾⁽⁴⁾ *or* [compartment(s)];

⁽³⁾ *either* [II.1.4.1 which, at the date of issue of this certificate was (were) free from highly pathogenic and low pathogenic avian influenza as defined in Regulation (EC) No 798/2008;]

⁽³⁾ *or* [[II.1.4.1 which at the date of issue of this certificate was (were) not free from **highly pathogenic or low pathogenic avian influenza** as defined in Regulation (EC) No 798/2008, and, where they have occurred:

⁽³⁾ *either* [(a) following case(s) of **highly pathogenic avian influenza**, a `stamping out` policy has been implemented to control the disease, and

- i) adequate cleansing and disinfection had been carried out on all previously infected establishments; and
- ii) following completion of the cleansing and disinfection referred to in point (i) of this paragraph, avian influenza surveillance has been carried out at least by randomised representative sampling of the populations at risk to demonstrate the absence of infection, (taking into account the specific epidemiological circumstances in relation to the occurred outbreak(s)), with negative results; and
- iii) an opening date has been entered in column 6B in the list of approved countries ('Poultry and poultry products') published on gov.uk⁽¹⁰⁾, in accordance with Regulation (EC) No 798/2008;]

⁽³⁾ *and/or* [(b) following case(s) of **low pathogenic avian influenza**,

⁽³⁾ *either* [(b) a stamping out policy has been implemented or the poultry have been slaughtered to control the disease, and

- i) adequate cleansing and disinfection had been carried out on all previously infected establishments; and
- ii.) following completion of the cleansing and disinfection referred to in point (i) of this paragraph, avian influenza surveillance has been carried out at least by randomised representative sampling of the populations at risk to demonstrate the absence of infection, (taking into account the specific epidemiological circumstances in relation to the occurred outbreak(s)), with negative results;]

⁽³⁾ *and/or* [(b) day old ratites were derived from flocks which have been kept in an establishment:

- i) in which low pathogenic avian influenza has not been present within the last 30 days prior to the time of collection of the eggs from which the day old chicks were hatched;
- ii.) located in an area which is not placed under official veterinary restrictions by the competent authority in relation to an outbreak of low pathogenic avian influenza and in any case around which, in a 1 km radius, low pathogenic avian influenza has not been present within the last 30 days prior to the time of collection of the eggs from which the day old chicks were hatched on any establishment;

II.a. Certificate reference no.	II.b.
--	--------------

iii.) where there has been no epidemiological link to an establishment where low pathogenic avian influenza has been present within the last 30 days prior to the time of collection of the eggs from which the day old chicks were hatched;]]

- II.1.5** (a) have not been vaccinated against avian influenza;
 (b) were derived from parent flocks which
⁽³⁾either [have not been vaccinated against avian influenza;]
⁽³⁾or [have been vaccinated against avian influenza in accordance with a vaccination plan under Regulation (EC) No 798/2008 using:
 (name and type of used vaccine(s)) at the age of weeks;]

- II.1.6** have been hatched in the establishment(s) defined in Box 1.11 of Part I, officially approved in accordance with requirements which are at least equivalent to those laid down in Annex II to Directive 2009/158/EC:
- (a) the approval of which has not been suspended or withdrawn;
 (b) which is (are), at the time of consignment, not subject to any animal health restriction;
 (c) within a 10 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of highly pathogenic avian influenza or Newcastle disease for at least the previous 30 days;

- II.1.7** have been hatched from eggs from flocks which
- (a) have been kept for at least the previous six weeks in officially approved establishments, the approval of which, at the time of consignment of the hatching eggs to the hatchery, had not been suspended or withdrawn;
⁽³⁾either [(b) have been kept in establishments located in a country, territory, zone or compartment which is free from Newcastle disease;]
⁽³⁾⁽⁵⁾or [(b) have been kept in establishments located in a country, territory or zone which is not free from Newcastle disease;]
 (c) at the time of consignment, were not subject to any animal health restriction;
⁽³⁾either [(d) have not been vaccinated against Newcastle disease;]
⁽³⁾or [(d) have been vaccinated against Newcastle disease:

Identification of the flock	Age of the birds	Date of vaccination [dd/mm/yyyy]	Name and type (live or inactivated) of ND virus strain used in vaccine(s)	Batch number	Name and manufacturer of vaccine

⁽⁶⁾and/or [(e) have been vaccinated using officially approved vaccines:

II.a. Certificate reference no.	II.b.
--	--------------

Identification of the flock	Age of the birds	Date of vaccination [dd/mm/yyyy]	Vaccinated against	Batch number	Name, manufacturer, and type of officially approved vaccines

II.1.8 have been hatched from eggs which:

- (a) prior to the consignment to the hatchery had been marked in accordance with the instructions of the competent authority;
- (b) were disinfected in accordance with the instructions of the competent authority;

II.1.9 hatched on (dd/mm/yyyy);

⁽⁶⁾[**II.1.10** have been vaccinated using officially approved vaccines on (against) (repeat as necessary);]

II.1.11 at the time of consignment were examined and showed no clinical signs of or grounds for suspecting any disease;

II.1.12 have had no contact with ratites or other poultry not meeting the requirements laid down in this certificate.

II.2 Additional guarantees

I, the undersigned official veterinarian, further certify that:

⁽⁹⁾[**II.2.1** the day-old chicks have hatched from eggs collected from breeding ratites which have been examined and tested in accordance with point 8 of Section I of Annex 3 to Regulation (EC) No 798/2008.]

II.3 Additional health requirements for countries not free from Newcastle disease

⁽⁵⁾[I, the undersigned official veterinarian, further certify that:

II.3.1 the breeding ratites from which the day-old chicks are derived:

- (a) were placed in isolation under official surveillance not less than 30 days before laying the hatching eggs from which the day-old chicks for import to Great Britain are derived;
- (b) underwent a virus isolation test for Newcastle disease, carried out in an official laboratory seven to 10 days after their entry into isolation on either cloacal swabs or faeces samples from each bird and in which no avian paramyxovirus type 1 isolates with an intracerebral Pathogenicity Index (ICPI) of more than 0,4 were found. Favourable results were available for all tests carried out before the day-old chicks left the hatchery for import to Great Britain;
- (c) during the last 30 days prior to and during laying of the hatching eggs from which the day-old chicks for import to Great Britain are derived, have not been in contact with poultry (including ratites) which do not fulfil the guarantees mentioned under (a), (b) and (d);
- (d) come from flocks in which surveillance for Newcastle disease has been carried out under a statistically based sampling plan which produced negative results for at least six months immediately prior to import to Great Britain;]

II.a. Certificate reference no.	II.b.
---------------------------------	-------

⁽⁵⁾[II.3.2 the hatching eggs from which the day-old chicks have been hatched and the day-old chicks have not been in contact in the hatchery or during transport with eggs or poultry including ratites which do not fulfil the abovementioned requirements.]

⁽⁷⁾II.4 Animal transport attestation

I, the undersigned official veterinarian, further certify that the day-old chicks are transported in perfectly clean, disposable boxes used for the first time which:

- (a) contain only day-old chicks of the same species, category and type coming from the same establishment;
- (b) bear the following information in legible writing and in at least English:
 - the name of the country, territory, zone or compartment of consignment,
 - the species of ratites concerned, - the number of chicks,
 - the category and type of production for which they are intended,
 - the name, address and approval number of the breeding establishment,
 - the name, address and approval number of the establishment of origin,
 - the date of dispatch,
 - the country of destination in Great Britain:
- (c) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents.
- (d) the containers and vehicles in which the boxes mentioned above have been transported have been cleansed and disinfected before loading in accordance with the instructions of the competent authority.

Notes

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

Part I:

- Box reference I.8: Provide the code for the zone or the compartment of origin, if necessary, as defined under code in column 2 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008.⁽¹⁰⁾
- Box reference I.11: Names, addresses and approval numbers of hatcheries and breeding establishment.
- Box reference I.15: Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and where there is a serial number of the seal it has to be indicated in box I.23.
- Box reference I.28: (Category) Select one of the following: Pure line/grandparents/parents/others.

Part II:

- ⁽¹⁾ 'Day-old chicks' means ratites less than 72 hours old.

**Day-old chicks of ratites from non-EU countries
GBHC031X**

II.a. Certificate reference no.	II.b.
--	--------------

- (2) Code of the territory as it appears in column 2 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008.⁽¹⁰⁾
- (3) Keep as appropriate.
- (4) Insert the name of compartment(s).
- (5) This is applicable only to the countries with the entry 'II' in column 5 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008.⁽¹⁰⁾ However, this does not apply to day-old chicks of ratites coming from compartments.
- (6) Keep if appropriate.
- (7) Please note that according to Regulation (EC) No 1/2005 animals will be checked by the competent authorities if they are fit to continue the journey after entry into Great Britain. In the case the requirements are not fulfilled, the animals need to be unloaded and further measures taken.
- (8) For countries or territories with the entry 'N' in column 6 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008⁽¹⁰⁾, for day-old chicks of ratites (DOR) only, this means that in the case of an outbreak of Newcastle disease as defined in Regulation (EC) No 798/2008 then the country code or territory code shall continue to be used but this will exclude any area under official restrictions, by the third country concerned in relation to Newcastle disease, at the date of issue of this certificate.
- (9) This guarantee is only required for day-old chicks coming from countries, territories or zones with the entry 'X' in column 5 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008.⁽¹⁰⁾
- (10) A document relating to 'poultry and poultry products' for non-EU countries published by the Secretary of State, with the consent of the Scottish and Welsh Ministers, may be found here:

[Non-EU countries approved to export animals and animal products to Great Britain - data.gov.uk](https://data.gov.uk/non-eu-countries-approved-to-export-animals-and-animal-products-to-great-britain)

This certificate is valid for 10 days.
