

Planning Committee
Milton Keynes District Council

My objections to planning application
George Paddock, Tiddelen Road, Elmton.
562A/2023/0015

Elmton is a small picturesque gem of a village, where deer and badgers feel free to roam.

The proposed building plan does not fit in with the village. It would dominate the whole area, and causing problems with increased traffic. Most households have at least two cars there days. All coming on to a narrow congested village road. Access would have to be provided for dustcarts, ambulance, fire service etc, if required.

It would put a strain on water and sewage services.

There is no shop, post office, pub or school. Local schools and G.P.s surgeries near to busking point.

It does not fulfil any useful purpose for the village.
