**Subject:** Objection to Pelham Spring Solar Farm

Dear Sirs,

Re: Application No. S62A/2022/0011:Land East of Pelham Substation, Maggots End, Manuden

Attached are two letters that relate to this application -

1) Letter 1 - 26 Nov '21 - Original Application  
UTT/21/3356/FUL

Despite the new application by Low Carbon having some changes, much of what is included in this objection from 2021 is still relevant to the current application.  
This application was refused by Uttlesford DC.

2) Letter 2 - 4 Mar '23 - New Application  
S62A/2022/0011

These additional objections should be taken into account when the review scheduled shortly takes place.

I sincerely trust that the level of local objections and the opportunity for better alternatives will ensure that the latest application is also refused.

Yours sincerely  
Alan Stoyell  
Concerned Resident
