Subject: Ref. : Land East of Maggots End, Manuden 62A/22/0011

Dear Sirs

I wish to register an objection to the planning proposal "Land East of Maggots End, Manuden 62A/22/0011", seeking permission to construct a solar panel farm.

While there is a need to generate energy from renewable sources, there is also a need to produce food, and the proposed installation would occupy good agricultural land. There are better places to use for energy generation.

As a secondary issue, the proposal promises screening. But this land occupies a low hillside, so screening is impracticable.

Please reject the proposal.

Regards
R S Hurst
