1 Introduction

1.1 Context

The Whole of Government Accounts (WGA) are prepared by HM Treasury in accordance with the Government Resources and Accounts Act 2000.

These financial statements consolidate more than 10,000 entities that appear to HM Treasury to exercise functions of a public nature or to be entirely or substantially funded from public money and as such includes central government departments, non-departmental public bodies, public corporations, local authorities, the National Health Service and the devolved administrations.

This guidance is for those within central government that are involved in the production of Whole Government Accounts and includes Public Corporations.

Data is collected from entities using the OSCAR II system.

The external auditors of a central government entity have a statutory responsibility to review and report on the 'Whole of Government Accounts' return if the entity is above the audit threshold.

1.2 OSCAR II – key points and new for 2021-22

- Organisations can run the counterparty Matches report themselves and are able to see live published data from other organisations for easier rectification of counterparty transactions
- CG-01 and CG-02 forms will be online and prepopulated with entered counterparty data. These forms will still have to be downloaded and emailed to agree balances, but increased visibility of mismatches should make agreement more straightforward
- For Restatements there is only single input required that will feed into the relevant proforma tabs
- More than one person can work on the submission at the same time on near real time data
- SCOA codes will be available on the OSCAR II and on [GOV.UK](https://www.gov.uk)
- CG01 and CG02 forms can be downloaded from OSCAR II
- Historic DCTs for 2020-21 can be viewed on Oscar II with the facility to toggle between 2020-21 and 2021-22 financial years. They can also be downloaded to Excel by each individual tab (see section 4.2.3).
- Ability to download the individual tabs of the DCT instead of the Audit Report, and also run the primary financial statements report, accessed alongside the Audit Report options. This could be used to provide the auditors with assurance (see section 7.2.6).
- Less time taken to run Audit Reports due to the facility of being able to limit the number of CPID transactions processed for your entity (see section 7.2.6) – **NEW FOR 2021-22.**
- Frequently asked questions – see Section 1.8 - **NEW FOR 2021-22.**

1.3 Purpose of this document

The purpose of this document is to provide users with information on the processes related to Whole of Government Accounts (WGA) which will be performed within OSCAR II.

1.4 Related materials

This guidance is to be read in conjunction with the following materials:

- WGA finance guidance including forms and associated guidance (available on [GOV.UK - https://www.gov.uk/government/collections/whole-of-government-accounts](https://www.gov.uk/government/collections/whole-of-government-accounts))
- Guidance Videos.

1.5 How to use this guidance

The guidance has been divided into sections to meet the reporting requirements of the WGA process. Users should be able to refer to specific sections to achieve a task e.g. submit counterparty transactions, or to enter financial information into the proforma tabs.

1.6 Additional support

If you have any issues or queries do not hesitate to get in touch.

- For technical queries relating to OSCAR II access and the WGA application, please contact oscar@support.deloitte.co.uk
- For any queries relating to the requirements and definitions for the WGA data please contact wga.team@hmtreasury.gov.uk.
- For devolved administrations, please refer to your devolved administration contacts:
Northern Ireland Bodies contact: wga.afmd@finance-ni.gov.uk

1.7 Key Dates, Deadlines and Thresholds

1.7.1 Key Dates and Deadlines

The WGA deadlines apply to all central government bodies (including Public Corporations) with the exception of the bodies listed below.

Submissions	28 February 2023	31 March 2023
Data Collection Tool	Unaudited Data DCT (Cycle 1)	Audited Data DCT (Cycle 2)
Forms & Documents	CG01 Balance Agreement Form CG02 Completion of Balance Agreement Process Form CG02 Annex Balances with Local Authorities Form CG03 Minor Bodies form	Final CG04 Management Review Checklist Copy of Final Published Accounts CG05 Audit Completion Form (signed and counter-signed)

It is essential that these deadlines are met, so that the overall process and publication of the accounts are not delayed. Any delays must be notified to the WGA Team at the earliest opportunity.

The timetable above does not apply to the Devolved Administrations and their sponsored bodies, or NHS entities, who are covered by separate arrangements.

1.7.2 Actions required

Consolidation Officers and Consolidation Managers should note these deadlines and ensure appropriate action is taken to meet deadlines.

Consolidation Managers should draw the contents of this note to the attention of all staff that will be involved in the preparation and submission of data for the Whole of Government Accounts.

The process of agreeing large balances with other central government bodies must be completed in advance of the deadline for the CG01 and CG02 forms. Further information on this can be found in Chapter 6.

1.7.3 Thresholds

DCT Audit: A central government entity's DCT must be audited if it breaches any of the below thresholds:

Any of the below items above £2bn:

- ❖ Total assets excluding PPE
- ❖ Total liabilities less pension liabilities (note – for pension schemes, pension liabilities are included)
- ❖ Total income
- ❖ Total expenditure

For entities below the audit threshold, we still require a completed and signed CG-04 Management Review Checklist. The audit thresholds above do not apply to the devolved administrations and their sponsored bodies. Please refer to the guidance provided by devolved administrations in relation to these.

The Comptroller and Auditor General (C&AG) is the group auditor of the WGA in line with Government Resource and Accounts Act 2000, section 11 (GRAA). In line with the GRAA, a person who acts as auditor for the purposes of section 10(2)(c) or (8)(c) shall give to the Comptroller and Auditor General such information and explanations as he may reasonably require for the purposes of this section. Under ISA 600, the group auditor has the right to direct component auditors to carry out specific work to support their audit of the group. The work of the C&AG is carried out by the National Audit Office (NAO).

The rights and requirements of the NAO can extend beyond the thresholds set by HMT, which do not prejudice the rights of the NAO. The NAO have informed us that they will need to consider the revised HMT thresholds alongside HMT's developing analytical review controls to determine whether they require, for their purposes, any assurances from auditors of components who are below the HMT thresholds. If/where additional work is required the NAO will contact the relevant component auditor(s) regarding the scope and timing of this work.

Minor Bodies:

Any entity that believes they are exempt from the WGA process due to being a minor body must complete and submit form CG03 by 31 January 2023. The minor body thresholds can be found within the CG03 form, which is published on the Treasury WGA website. For reference, the minor bodies thresholds are as follows:

All these items must be below £30m for 2020-21 **and** 2021-22 to qualify as a minor body:

- ❖ Gross expenditure for both years
- ❖ Gross income for both years
- ❖ Gross assets as at 31 March 2021 and 31 March 2022
- ❖ Gross liabilities as at 31 March 2021 and 31 March 2022

Reporting Balances on the CPID Transactions sheet:

There is no threshold, please report all balances with WGA counterparties to the granularity level which you have available.

Balances with Central Government Bodies:

Please agree all balances above £5m. Further information can be found in Chapter 6.

Balances with Local Authorities:

Balance agreement is not required.

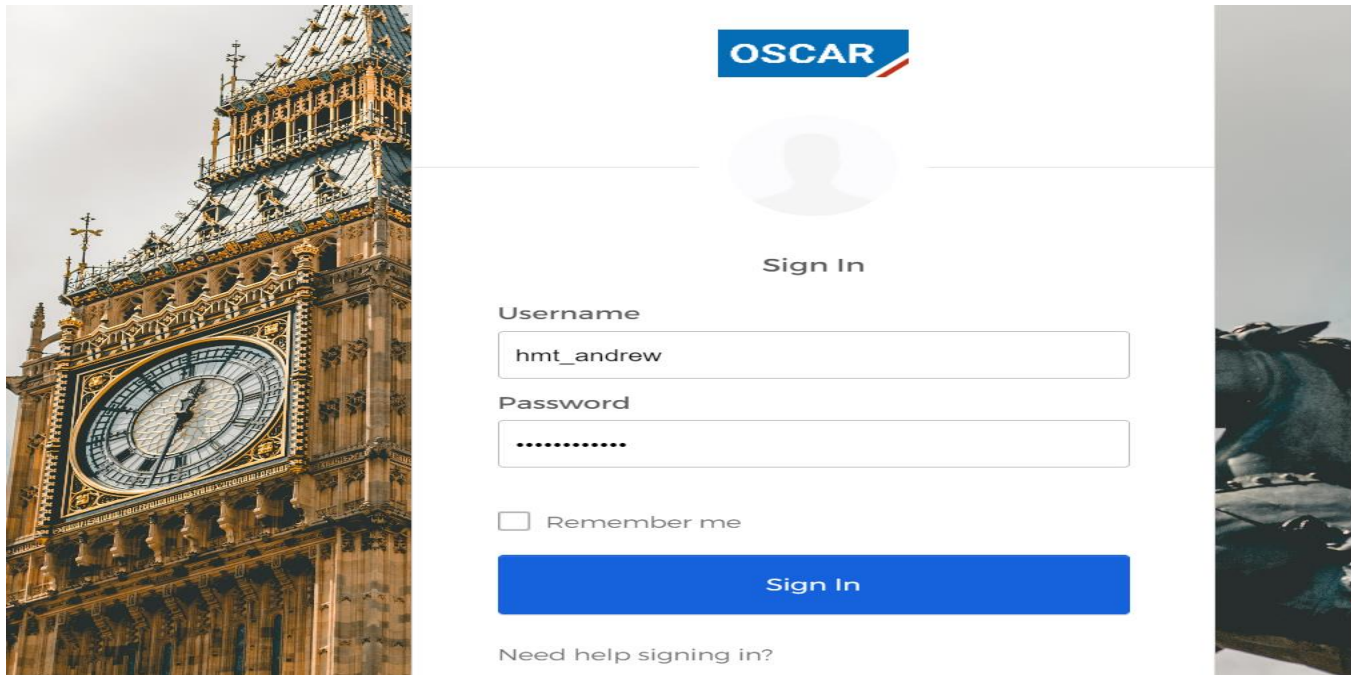

1.8 Frequently asked questions

How do I log on?

This is covered in Section 3.2.

How do I change my password?

Access the login page for Oscar II as follows - <https://oscar.okta-emea.com/login/login.htm>

Click on “need help signing in?” and then “forgot password?”.

Enter your Oscar II user name and then click on “reset via email” to change your password. You will receive notification by email.

Reset Password

Email or Username

Reset via Email

[Back to sign in](#)

How do I set myself up on Oscar II?

The user access forms are on One Finance – link as follows: <https://gff.civilservice.gov.uk/>

From the home page, put Oscar 2 in the search engine, accessing the following page - <https://gff.civilservice.gov.uk/standards-policy-and-procedures/oscar/>

Select user forms from the Oscar page.

What is OSCAR and what is it used for?	OSCAR II Users & User Authorisers: Forms	OSCAR II User Guidance and Information	Support Contact Details
--	--	--	---

OSCAR II Processes: Guidance and further information

Scroll down the screen and select the type of form relevant to your organisation. Follow the instructions provided.

WGA (Central Government only)	General OSCAR II User Form (Word)	User Authorisers (Excel)
WGA (Local Government and Public Corporations)	WGA LG & PC User Form (Excel)	Email the WGA team for approval

How do I access and run Audit Reports?

This is covered in Section 7.2.6.

How do I access and run the summary Audit Reports?

This is covered in Section 7.2.6.

There is no data in the TB output tab on the Audit Report, why is this the case?

This will be due to the Trial Balance input method been chosen (auto-population of the DCT tabs) instead of the pro-forma method (manual completion of the DCT tabs). On the Audit Report, the DCT input tabs and posted tabs will be populated with TB data instead.

How do I view Historic DCT data?

This is covered in Section 4.2.3.

My opening balances are not pulling through correctly, how do I rectify this?

This may be due to your submission not being completed or completely submitted for the prior year. You may need to get Deloitte to re-input your opening balances to present a balanced position by raising a ticket. In the first instance, you should contact the WGA Team. Alternatively, you may have restated last year's closing balances and hence opening balances for the current year. In this case, you will need to restate your opening balances. Guidance on this is covered in Section 7.2.4.3.

Why is my CPID data not showing on the Matches Analysis Tool?

You will need to publish your data so that others can see the data. This can be done via the Home page in your DCT. Click on "publish".

Step 2 - Publish CPID transactions

Publish the CPID transaction to matches report.

(Matches will now be visible to counterparties)

PUBLISH

Hard Validations 0	Soft Validation: 0
------------------------------	------------------------------

The validations for this step are det on the CPID Transactions

[WGA 2020-21: match relationships](#)

If you subsequently update your CPID transactions, you can re-populate the Matches Analysis Tool with the updated data via the populate button on the CPID transactions tab.

Select to populate the latest data into the Matches Analysis Report

POPULATE

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method: CPID Transaction

SWITCH METHOD

I have selected the incorrect audit threshold on my DCT, how do I rectify this?

You should contact the WGA Team who will be able to alter this in your workflow status. The alternative is to reset your DCT to “open” status but this will clear any data that has been submitted.

Is there a mapping tool for SCOA codes in the DCT?

There is a mapping tool on the WGA website – link as follows:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1071838/WGA_DCT_Documentation_mapping_tool_2020-21.xlsx

How do I rectify an invalid CPID code?

This is covered in Section 6.3.3. You should also refer to the tab alongside the Matches Analysis Tool which has the complete list of CPID codes which are valid. This can be downloaded to excel.

Matches Analysis CPID List SCOA List

	Long Name	Return_Required	Org Detailed Type	Org LG/CG
BISADJ	BISADJ - BIS ADJUSTMENT	N - Adjustment		
BISCLS	BISCLS - CLS - DEPT FOR BUSINESS, ENERGY & INDUSTRIAL STRAT

C...	COL084 - Coal Authority	N - Consolidated in Parent Return	BEIS Group	Central Gov
DL...	DLS084 - Diamond Light Source Ltd	N - Consolidated in Parent Return	BEIS Group	Central Gov

The complete list of SCOA codes can also be accessed here (third tab) for each match relationship. Both lists are also published on the WGA website - <https://www.gov.uk/government/publications/whole-of-government-accounts-2020-to-2021-guidance-for-preparers>

What do the workflow statuses mean when completing DCT's?

This is covered in Section 4.2.2.

Why can't I enter any data into the DCT?

This may be due to the DCT being locked at Cycle 1 or Cycle 2 submission status – locked for audit acceptance. To unlock the DCT, you will need to re-visit Step 5 on the Homepage and reopen the cycle. You will then be able to enter data into your DCT.

Steps for Cycle 2

Step 5 - Reopen for Cycle 2 changes

If your return is below the audit threshold, select to reopen DCT for cycle 2 changes. For audited organisations, unlock to enter auditor agreed revisions.

REOPEN FOR CYCLE 2 CHANGES

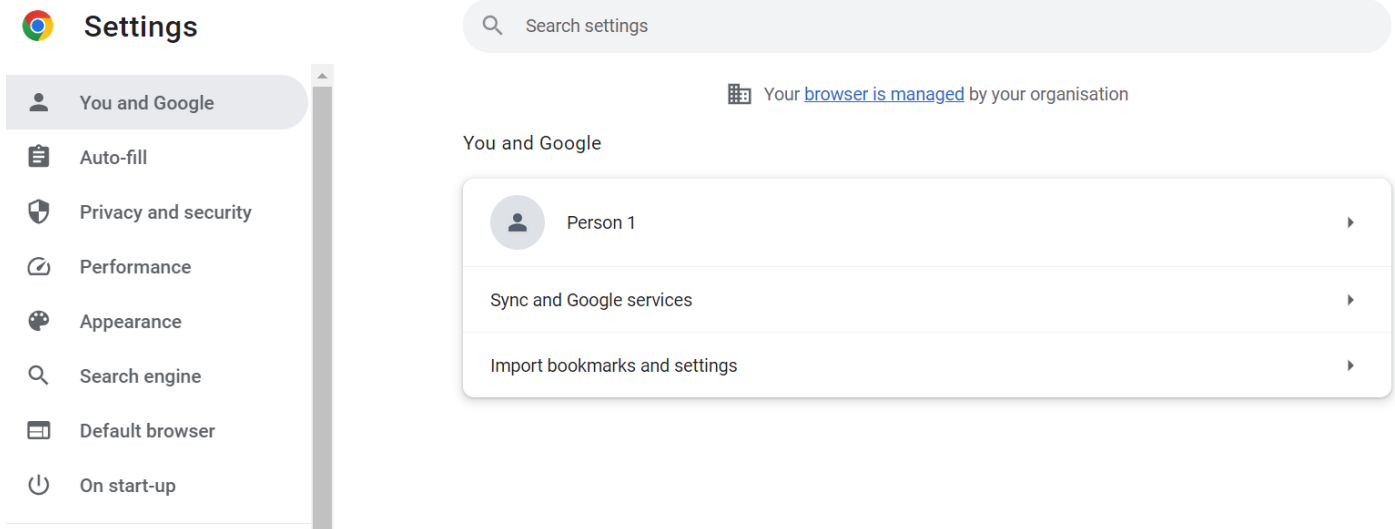

Why can't I view the CPID transactions on the CPID transactions tab?

You will need to zoom out to see the CPID transactions. This is covered in Section 5.2.7.

Why won't pages load within the DCT and why is no data being displayed?

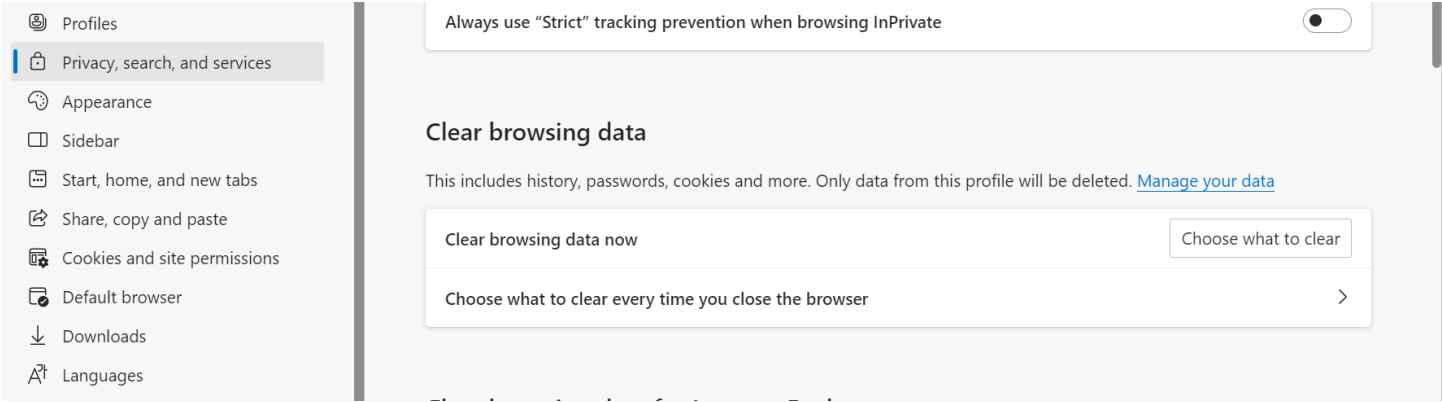

Oscar II data is displayed via a series of web sheets. You may need to clear cookies and the cache within the browser settings as follows:

Within Google Chrome, select Privacy and Security within the settings option.

Then select Clear browsing data and follow the instructions.

Within Microsoft Edge, select Privacy, search and services within the settings option.

Then select Clear browsing data now and follow the instructions.

Can I re-publish my updated CPID data?

If you subsequently update your CPID transactions, you can re-populate the Matches Analysis Tool with the updated data via the populate button on the CPID transactions tab and re-publish the data.

Select to populate the latest data into the Matches Analysis Report

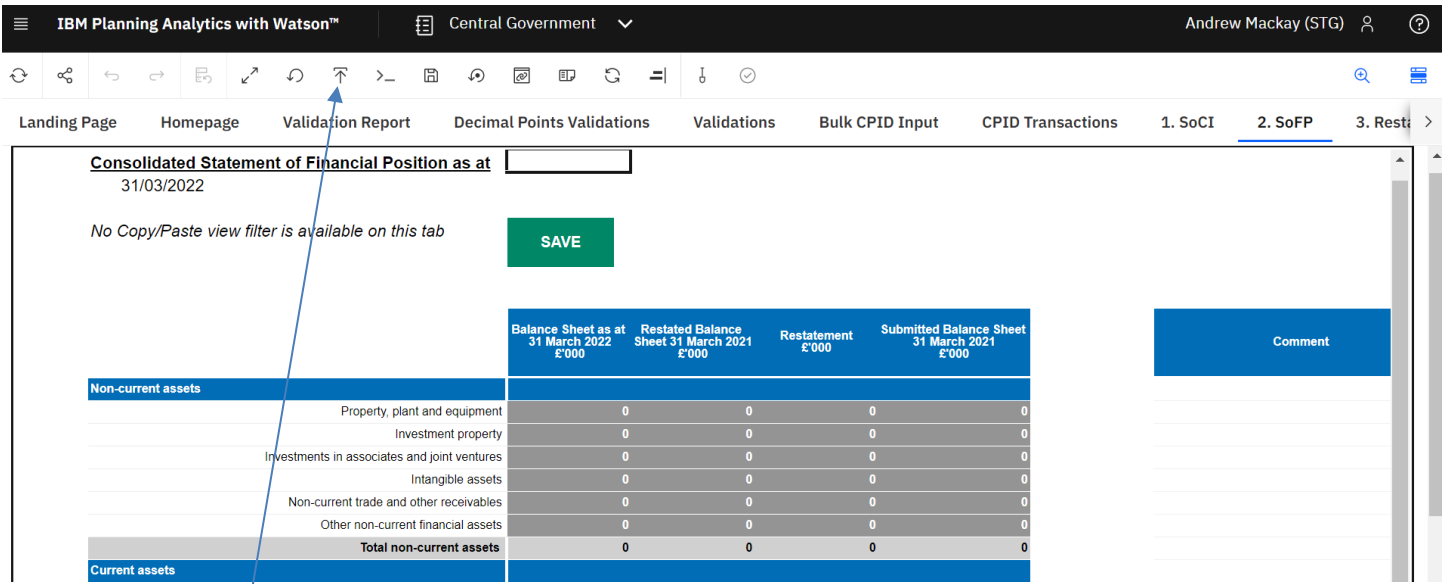

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"
 Current input method: CPID Transaction

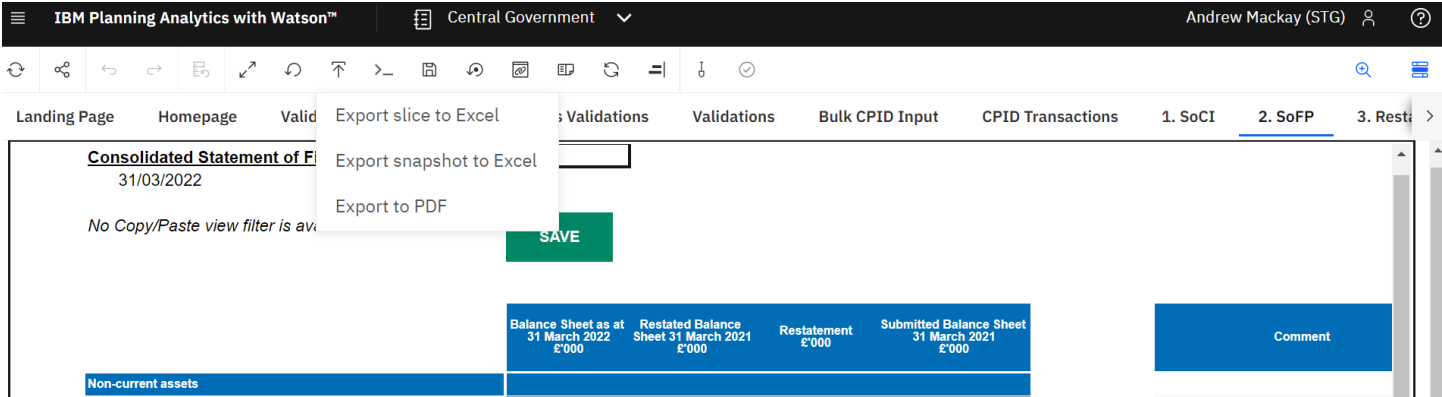

How do I download DCT extracts to excel?

Go to the tab you want to download in the DCT. Click on anywhere on the tab screen to reveal the toolbar.

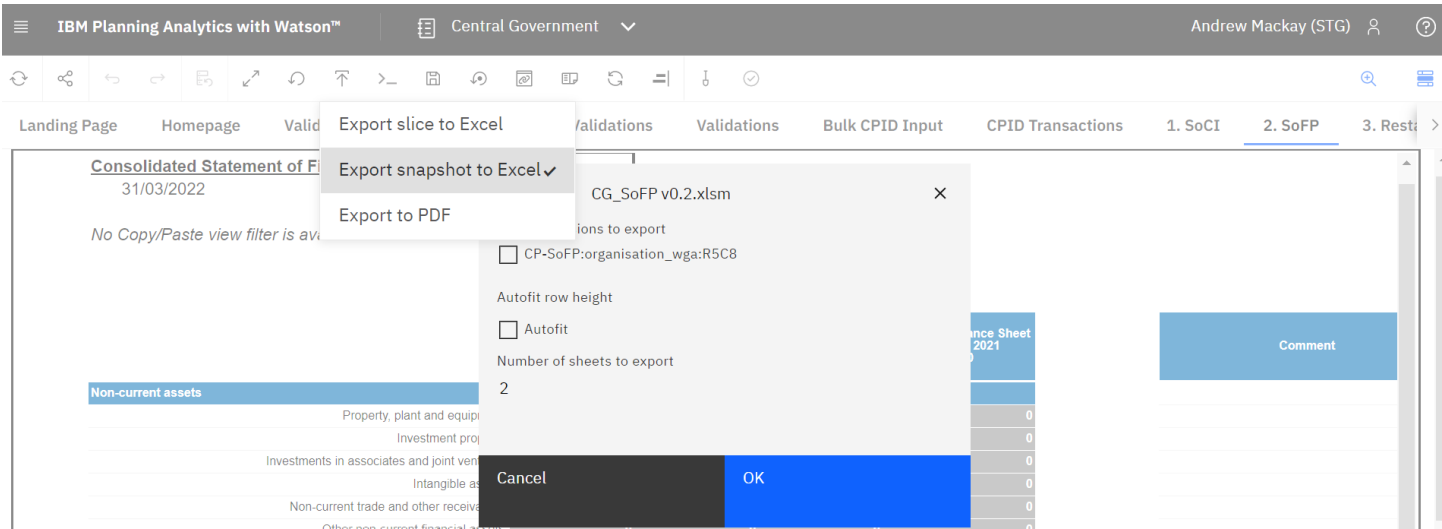

Click on the download button on the toolbar. Select download snapshot to excel.

OSCAR II WGA - Central Government Guidance

Select ok and the file will be downloaded to your desktop.

How do I delete multiple or individual rows from the CPID transactions tab?

Within the CPID transactions tab, you can either delete single or multiple rows using the functionality shown below. Note that key rows will not be deleted in their entirety only the CPID data will be deleted (key rows are where account balances are shown and external balances).

Delete Rows

There are two methods of deleting rows- either select an individual account and a row no. to delete (as well as the option to delete 'All' rows), or select a range of accounts and rows to delete.

Select Account	<input type="text"/>	OR	Enter row no. to delete	<input type="text"/>	<input type="button" value="DELETE ROW"/>
Select Range of Accounts			Enter range of rows to delete		
Lowest Account	<input type="text"/>		Lowest Row no.	<input type="text"/>	<input type="button" value="DELETE RANGE"/>
Highest Account	<input type="text"/>		Highest Row no.	<input type="text"/>	

How do I add multiple or individual rows in the CPID transactions tab?

Within the CPID transactions tab, you can add multiple or single rows using the functionality shown below.

OSCAR II WGA - Central Government Guidance

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button.

"Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

Add Rows Select Account: Enter no. of rows: **ADD ROWS**

Note that to amend and edit the CPID transactions tab, you have to select the switch method and not the bulk CPID method. You can also copy / paste directly into the tab from a spreadsheet or use the bulk CPID tab to enter multiple rows.

How do I clear hard and soft validations on the CPID transactions tab?

Hard validations will need clearing and explanations provided for both hard and soft validations before you can submit the DCT. In some instances, hard validations can become soft validations if an explanation is provided – all explanations need to be provided in the "User comment" column of the CPIDs transactions tab.

Filters Account Code: Total SCOA or Match Relationship:

Row No	Account Code	Account Code Description	MR	Trial Balance	Total External Balance	User Comment
1	18414000	CA - LIQUID DEPOSITS	11	0	0	
1	18511000	CA - DEPOSITS	11	0	0	
1	18521000	CA - DERIVATIVES	11	0	0	
1	18531000	CA - SHARES AND EQUITY TYPE INV	11	0	0	

Examples of common errors are covered in Section 6.3.3.

When you have cleared the errors – click on validate.

The screenshot shows the IBM Planning Analytics interface. At the top, it says "IBM Planning Analytics with Watson™" and "Central Government". The user is identified as "Andrew Mackay (STG)". The navigation bar includes tabs for "Validations", "Bulk CPID Input", "CPID Transactions", "1. SoCI", "2. SoFP", "3. Restatement Analysis", "4. Tax", "5. Operating Income", "6. Operating Cost", and "7.". Below the tabs, a dialog box is open with the text: "Select 'Switch Method' of Input for CPID Data to switch to 'CPID Transaction'". It shows the "Current input method" as "Bulk CPID Input". There are two buttons: "SWITCH METHOD" and "VALIDATE".

You should then check on the Homepage the number of errors remaining (published):

tep 2 - Publish CPID transactions

Publish the CPID transaction to matches report.
(Matches will now be visible to counterparties)

PUBLISH

<p>Hard Validations</p> <p>0</p>	<p>Soft Validations</p> <p>0</p>
---	---

The validations for this step are detailed on the CPID Transactions tab as 'Publish' validation errors.

[NGA 2020-21: match relationships](#)

[NGA 2020-21: counter-party identifier \(CPID\) list](#)

You should also check the total validation errors before submitting (also on the Homepage) – these include CPID transaction errors as well as other DCT validation errors which are shown on the validation report.

SUBMIT FOR CYCLE 1

REFRESH VALIDATIONS

Hard Validations
2

Soft Validations
5

Submission Deadline
28-06-2022

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

Steps for Cycle 2

Using the TB input method for my DCT, how do I clear SCOA's not valid errors?

You will need to use valid SCOA's – these are listed on the WGA website. Note you can only use SCOA's that map across to the DCT. These codes can also be found in the DCT mapping tool on the WGA website.

I have used the TB input method but the TB hasn't posted?

You will need to validate the trial balance and then populate the DCT to post the figures. These steps are carried out on the TB input tab of the Trial Balance Input section of Oscar II. The trial balance will only post if there are no validation errors.

I have completed my DCT but need to reload an updated TB via the TB input method, how do I do this?

You can reload an updated TB at any time of the process using the Trial Balance input section in Oscar II. Please note that the revised figures will completely overwrite the previous set of figures posted to the DCT and you will need to go through the DCT proforma tabs to check whether there are any errors. You should also check opening balances as errors can arise where your opening balance does not match the opening balances

on Oscar II. These may need to be dealt with through the Restatements tab where opening balances can be restated.

The screenshot shows the 'Reports and Analysis' section of the IBM Planning Analytics interface. The breadcrumb path is 'Shared / WGA / Data Collection'. A table lists several reports:

<input type="checkbox"/>	Name	Location	Type	Last modified	
<input type="checkbox"/>	Process Own...tches Report	Shared/WGA/Data Collection	Book	08/09/2022 17:19	♥ ⋮
<input type="checkbox"/>	Journal Report	Shared/WGA/Data Collection	Book	27/06/2022 17:07	♥ ⋮
<input checked="" type="checkbox"/>	Trial Balance...cal Government	Shared/WGA/Data Collection	Book	13/04/2022 12:02	♥ ⋮
<input checked="" type="checkbox"/>	Trial Balance...ral Government	Shared/WGA/Data Collection	Book	13/04/2022 09:02	♥ ⋮

The screenshot shows the 'OSCAR Whole of Government Accounts' interface. The breadcrumb path is 'Trial Balance Inp ... Government'. The main content area includes:

- Entity Selection:** A dropdown menu showing 'organisation_wga' and 'BoE Asset Purchase Facility'.
- Link to CG Homepage:** A button labeled 'CG HOMEPAGE' with a text box explaining: 'To start trial balance workflow, please select the button below to be directed to the central government homepage and select 'Start' for your selected organisation. Then use the Trial Balance tabs above to load data and map to the input tabs. You can then go back to the Central Government tabs for editing.'

This is covered in Section 7.2.3 in detail.

How do I clear hard validation errors on the DCT?

You should refer to the validation report tab of the DCT. It is good practice to press the validate button to ensure you are looking at the current state of play.

OSCAR II WGA - Central Government Guidance

Filter Failed Validations Only

Total No. of Failed Validations 7

Hard Validations	2	Hard validations must be resolved before submission to WGA
Soft Validations	5	Un-resolved soft validations must have a full Explanation added to them before submission to WGA

If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock

Validation Code	Validation Category	Validation Type	Validation Description
899I0021	Internal Consistency	Soft	Staff numbers information must be filled in.
899M0001	Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation.
899N0129	Admin	Hard	All mandatory questions must be answered. Please check the box at the top of the sheet.
899N0130	Admin	Hard	All mandatory questions must be answered.

REFRESH **VALIDATE**

The number of hard validations is displayed and these must be cleared prior to submitting the DCT data. These are also listed in the table below with an explanation for why validations have failed. The validations are also covered in more detail by clicking the validations tab and scrolling down for individual validation errors. Please note that the trial balance must balance before your DCT can be submitted. This will often be shown as a generic hard validation error and will clear when other hard validation errors have been cleared.

When you have cleared a hard validation error, you need to click on the validate button to refresh the errors and to see whether these have been cleared.

How do I clear soft validation errors on the DCT?

You should refer to the validation report tab of the DCT. It is good practice to press the validate button to ensure you are looking at the current state of play.

Filter Failed Validations Only

Total No. of Failed Validations 7

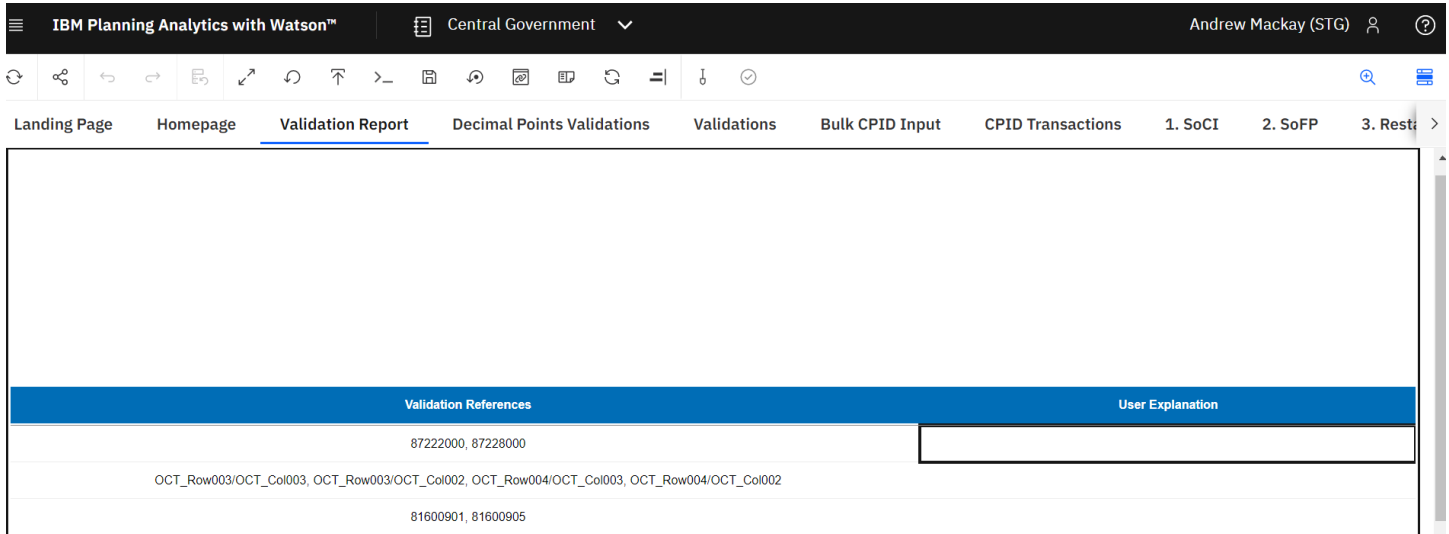

Hard Validations	2	Hard validations must be resolved before submission to WGA
Soft Validations	5	Un-resolved soft validations must have a full Explanation added to them before submission to WGA

If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock

Validation Code	Validation Category	Validation Type	Validation Description
899I0021	Internal Consistency	Soft	Staff numbers information must be filled in.
899M0001	Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation.
899N0129	Admin	Hard	All mandatory questions must be answered. Please check the box at the top of the sheet.
899N0130	Admin	Hard	All mandatory questions must be answered.

REFRESH **VALIDATE**

The number of soft validations is displayed and each of these must be given a user explanation, note – most soft validations will just be consistency checks. Again, details of the validations can be found on the validations tab, scrolling down to individual validations.

My restatements are not flowing through to the primary statements, what do I do?

You will need to populate your restatements into the primary statements tab. To do this you should check for any validation errors by clicking on the validate restatements button. No validation errors must be displayed. Then click on Refresh restatements to populate the primary statements.

How do I remove restatements from the restatements tab?

You can delete individual rows in the restatements tab. Then click on clear restatements (which removes everything from the primary statements tabs), followed by validate restatements (to check the validity of entries still there) followed by refresh restatements (which ensures that the remaining entries flow through to the primary statements tabs).

I am out of balance due to pensions costs entries, how do I clear this?

This is covered in Section 7.2.4.17. This will be due to the fact that certain pension entries in the pensions liabilities tab auto-populate the pensions costs in the SOCI and hence double counting can occur. Screenshots below demonstrate this.

Account	Value
Provision for nuclear decommissioning	0
Provision for clinical negligence	0
Provision for bad debts on loans	0
Provision for legal claims	0
Provision for EU disallowances	0
Provisions - Other	0
Total provisions	0
Pension costs	
Explanation: This is for recording the SOCNE costs associated with pension schemes such as the Principal Civil Service Pension Scheme, NHS Pensions and local pension schemes. It should not be used to record staff costs that are reported	
Employers pension current service costs	1,000
Employers pension past service costs	2,000
Recognition of gain on settlement of pension liability	4,000
Pensions costs - enhancements	3,000

OSCAR II WGA - Central Government Guidance

Item	Value
CP-Pensions - Adjustment - Funded pension schemes - Liabilities - 821211BA	0
Restated balance	0
Liabilities brought forward at 1 April	0
Current service costs	-1,000
Past service costs	-2,000
Enhancements	-3,000
Transfers in/out	0
Interest on Scheme Liabilities	0
Contributions by scheme participants	0
Payment of Pensions - UK based staff	0
Payment of Pensions - Locally employed staff	0
Gains/Losses on settlements and curtailments	-4,000
Premeasurement (gains) / losses:	
Experience gains & losses on scheme liabilities	0
Changes in actuarial assumptions	0
Liabilities carried forward at 31 March 2022	-10,000

Why can't I enter data into most of the cells on the Financial Instruments tab?

Most of the cells on the Financial Instruments are derived from other cells within the DCT (for example, Trade and Other Payables is populated from the Trade and Other Payables balance on that tab less any balances internal to WGA on the CPID transactions tab). The Financial instruments tab will only show balances external to WGA for disclosure purposes.

The majority of inputs on this tab comprise answering the mandatory questions and providing a further breakdown of balances by credit rating level etc.

I have cleared validations but these have not been updated on the DCT, how do I update?

You will need to perform a master validate of the DCT. Go to the Homepage and click on the validate button and then check the number of validations on the Homepage and the validations report tab.

CG01 Confirmation CG02 Annex

The CG03, CG04 and CG05 forms can be found on the WGA website – guidance for prepares. These can be downloaded and completed. Details of these forms are also included in Section 9.

How do I complete the administration section on the DCT?

It is mandatory to complete this section and you will not be able to submit your DCT until this is completed.

From the Landing page, navigate to the Homepage and scroll down to the bottom of the page.

The screenshot shows a web application interface with a navigation bar at the top containing tabs: Landing Page, Homepage, Validation Report, Decimal Points Validations, Validations, Bulk CPID Input, CPID Transactions, 1. SoCI, 2. SoFP, and 3. Re. Below the navigation bar, the text reads: "Please complete the following details before locking for submission:". The form is divided into two columns: "Update value" and "Current value".

Field	Update value	Current value
Entity's Contact Name	Fred Bloggs	Fred Bloggs
Entity's Contact Telephone Number	01234 567890	
Entity's Contact E-mail Address		
Auditor's Name		
Auditor's Contact Name		
Auditor's Contact Telephone Number		
Auditor's Contact E-mail Address		
Link to published financial statements		

An "UPDATE" button is located at the bottom right of the form.

Populate the left hand side (Update value) with all your details. These will be highlighted in green prior to update. Click on update and the values will be updated and populated under current value.

This screenshot shows the same interface as above, but with a confirmation dialog box overlaid in the center. The dialog box has a title bar with a close button (X) and contains the text: "Are you sure you want to execute the process?". Below the text are two buttons: "Cancel" and "Continue". The "Continue" button is highlighted in blue. The background form is dimmed, showing the "Update value" and "Current value" sections with the "UPDATE" button at the bottom right.

Please complete the following details before locking for submission:

	Update value	Current value
Entity's Contact Name	Fred Bloggs	Fred Bloggs
Entity's Contact Telephone Number	01234 567890	01234 567890
Entity's Contact E-mail Address		
Auditor's Name		
Auditor's Contact Name		
Auditor's Contact Telephone Number		
Auditor's Contact E-mail Address		
Link to published financial statements		

UPDATE

What documentation is available on the WGA website?

The following documents are published on our website:

- Data Collection Tool Central Government User Guidance
- Data Collection Tool Local Government User Guidance
- Counter party identifier (CPID) List (useful for checking CPID codes for agreeing balances)
- List of standard chart of accounts (SCOAs) (useful for checking account codes and their validity)
- Standard chart of accounts to data collection tool cell reference document (useful for resolving DCT validation cell errors and also checking the account code mapping to DCT cells)
- Match relationships list (useful in the balance agreement process)
- CG02 template for agreement of balances
- CG03 template (for minor body status)
- CG04 Management checklists (Central and Local Government)

- CG05 template for notification of audit completion

I have completed my DCT submission, what documentation do I need to complete?

Details of the forms required to be submitted are covered in Section 9. Entities should also forward a final copy of the Audit Report to their auditors, together with a list of adjusted and unadjusted errors (on the CG-05 form).

What intra-group balances don't I need to agree?

Intra-group transaction streams and balances are not required to be agreed with the following entities/sectors:

- HMRC IRT813 (in relation to tax and duties)
- National Insurance Funds
- Academies
- Local Authorities
- Clinical Commissioning Groups

- Public Corporations
- Minor bodies (transactions with minor bodies should be treated as if they are with external bodies)
- Consolidated Fund (covered via Exchequer Fund Accounts)

2 Roles and Responsibilities – Forms and Balance Agreement Process

Forms

The key deliverable for departments is the DCT.

Other forms which may need to be completed to support completion of the DCT are:

- **CG-01 – WGA Agreement of Balances and Transactions Form**
- **CG-02 – Notification of Completion of WGA Agreement Process.**

The deadline for completion is detailed in Chapter 1.

The above forms can be found on OSCAR II, in the CG Forms book. For more information on CG Forms please refer to section 9 Annex B – CG forms.

Shared / WGA / Data Collection

<input type="checkbox"/>	Name	Location	Type	Last modified	↓

<input type="checkbox"/>	Process Owner Matches Report	Shared/WGA/Data Collection	Book	08/09/2022 17:19		♡ ⋮

Further forms that may need to be completed:

- **CG-03 – Confirmation of Minor Body status (if under the minor bodies’ threshold)**

The deadline for completion is detailed in Chapter 1 in the Thresholds section.

- **CG-04 – Management Review Checklist (for all WGA submissions)**

The deadline for completion is detailed in Chapter 1.

- **CG-05 – Notification of Audit Completion (only for entities above the audit threshold)**

Links to these forms can be found on the Central Government '**Homepage**' for OSCAR II. These forms are also available on the HM Treasury WGA website:

<https://www.gov.uk/government/collections/whole-of-government-accounts>

For additional guidance on CG forms, please see section 9 in this document.

Roles and Responsibilities

Since 2011-12, the Clear Line of Sight initiative has required departments to consolidate all ALB's within their departmental group reporting boundary. A single DCT return is therefore required for the Departmental Group although the department's ALB's still need to supply counterparty (CPID) information on transactions and balances outside their Organisational Boundary.

Entities are also responsible for coordinating the DCT returns for linked entities and accounts that are not consolidated within the departmental group. These include Trust Statements, Fund Accounts and Public Corporations.

In accordance with Annex 4.1 of 'Managing Public Money' the Finance Director is responsible for preparing the WGA return for Treasury. He or she is the Consolidation Manager, although in practice this function is normally delegated.

The Consolidation Officer is the person who signs the Resource Accounts and the final WGA return. This Consolidation Officer will normally be the Accounting Officer or Financial Controller.

If the Accounting Officer is unavailable to sign off WGA returns, in the first instance we recommend that you send an email to the Treasury WGA team at wga.team@hmtreasury.gov.uk outlining the situation. Generally, we would suggest that, in order not to delay the DCT process, a person with delegated authority act on the Accounting Officer's behalf in their absence, and that the Accounting Officer then signs off the WGA return later.

Balance Agreement process – Further information

Central government departments, ALBs and administered funds should formally agree transaction streams and balances that are above £5 million with central government counterparties.

The £5 million threshold applies to the aggregate of each type of balance or transaction stream with a counterparty. For example, if a body has a number of receivable balances with a counterparty which are each below £5 million but when aggregated exceed £5 million, then the aggregate balance should be agreed. Receivable and payable balances with the same counter party should be reported gross and not netted-off.

The recorded balances will be made up of two elements:

- Payables: Invoices issued up to 31 March, which must be agreed with the counter party; and
- Accrued amounts: This can comprise invoices issued after the year-end, but relating to goods or services supplied in the previous year or accruals based on agreed documentation between two bodies. Departments may wish to specify a date by which such invoices must be issued within their own consolidation groups.

The initiating body (or service provider) is the WGA body that originates a transaction with another WGA body.

The receiving body (or purchaser) is the other WGA body.

The initiating body should use the CG-01 Agreement of Balances form and take the lead in confirming both the balance outstanding at the year-end together with the total value of transactions between the bodies during the year. The receiving body should agree or disagree with the figures issued.

The receiving body should use the CG-01 form and take the lead if they have not received an Agreement of Balances form from the initiating body in time to meet the deadline.

If the entries are agreed, the Agreement of Balances form should be signed off on and returned to the originating body.

If the balances cannot be agreed, significant non-agreed balances (£200,000+) require further information to be provided. This could include copies of paperwork or contract details.

Provider bodies should ensure when they complete the Agreement of Balances form that they include the SCOA code to which they are allocating the balance or the transaction. This is essential to help the receiving bodies ensure they use the appropriate SCOA codes that are in the same match relationship as the ones used by the provider bodies.

As part of the agreement process, adjustments may be required to adjust the balances initially recorded. Agreement is the responsibility of the transacting bodies. Where a dispute cannot be resolved the usual practice is that the entity owing money to another entity should always accrue for the amount notified to them (i.e. the purchaser's ledger is adjusted). However, there may be a small number of instances where differences between balances or transaction streams recorded by bodies cannot be resolved because of differences in the way the bodies account for them. Such differences should be reported to the Treasury WGA Team (wga.team@hmtreasury.gov.uk) as soon as the differences are known.

Where services are contracted out from another WGA body, the income and expenditure transaction reported in the DCT should be net of VAT, i.e., exclude VAT, as the net amounts need to be eliminated during the WGA consolidation process. Where VAT is irrecoverable by one of the parties to the transaction the CPID reported income and expenditure amounts should also be net of VAT, i.e., exclude VAT. This is so that both sides of the transaction are viewed on the same net basis to facilitate elimination.

Recharged costs are a common example where two counter-parties may recognise a balance or transaction in their accounts on a differing (gross or net) basis. This is when balances reported by two WGA bodies do not agree because one body recharges another for an expense and nets-off any contribution received against the cost, rather than recognising the contribution as income. For example, a body may sub-lease part of a building to another WAG body which it recharges for the cost. This body then might record this contribution as a negatives expense against the cost rather than as income.

We require the service provided (e.g., the landlord) accounts for the cost of the services on a GROSS basis and records the recovered costs as income from the service user (e.g. the tenant). The service user should record the payment to the service provides as an expense. Both the service provider and service user should agree the transaction streams so they can be eliminated on WGA consolidation. Although this approach may mean the WGA data is not in line with the departmental resource accounts, it is necessary to correctly eliminate these transactions and minimise the risk of misstatement of income and expenditures leading to qualification of WGA.

An agency transaction is where a body acts as an agent for another body. Agency transactions are quite common and have often given rise to mismatches in prior years when the counter-parties involved have used different CPIDs. If a body believes that it is involved in an agency transaction, it should contact the other WGA counter-parties involved in the agency transaction to ensure that the transaction has been consistently treated and reported for WGA purposes. Bodies should determine how the other counter-parties account for the transaction and agree how to report the transaction.

The Principal Civil Service Pension Scheme (PCSPS) will provide reports to Consolidation Managers containing details of pension contributions receivable during 2020-21 and those unpaid at 31 March to initiate the agreement process. As these figures are one of the key areas of elimination within WGA it is important that bodies reach agreement on these numbers. That is, bodies will have to confirm that they agree where the balances or transactions are over £5m and that differences do not exceed £200,000.

Those bodies that have transactions with the other WGA pension schemes (i.e. Armed Forces Pension Scheme, Judicial Pension Scheme, NHS Pension Scheme, Research Councils Pension Scheme, Teachers Pension Scheme and UK Atomic Energy Authority Pension Scheme) should initiate the process themselves. Bodies are not required to report or agree transactions and balances with local government pension schemes since these are outside the WGA boundary.

The Treasury WGA team maintains a current contact list for agreement of balance contacts. Please send them an email at wga.team@hmtreasury.gov.uk if there are any changes to the current contact in your organisation for the WGA agreement of balance process, or if you are unsure of contact details for another central government body.

Intra-group transaction streams and balances are not required to be agreed with the following entities/sectors:

- HMRC IRT813 (in relation to tax and duties)
- National Insurance Funds
- Academies
- Local Authorities
- Clinical Commissioning Groups
- Public Corporations
- Minor bodies (transactions with minor bodies should be treated as if they are with external bodies)
- Consolidated Fund (covered in Exchequer Fund Accounts)

2.1 Requesting access to OSCAR II

2.1.1. Central Government and Public Corporations

To submit a request to become an OSCAR user, you must complete a new user form available on [Onefinance](#) and obtain approval from a User Authoriser.

Your User Authoriser will confirm if your request has been successful. Shortly after this, you will receive an activation email from noreply@okta.com to set up your OSCAR account. You can find further details on the **OSCAR User Guide** at:

<https://www.gov.uk/government/collections/the-online-system-for-central-accounting-and-reporting-oscar-tool>.

For clarification purposes, User Authorisers (UAs) are nominated users who are authorised to add new users, amend existing user access and remove users from the OSCAR all system. For Central Government entities, there are nominated users and the list is on One Finance.

3 Accessing OSCAR II

3.1 Brief description

This section explains how to obtain access to the OSCAR II system and navigate to the WGA area.

3.2 Activities

The activities to carry out this step are as follows:

- Log in page
- Navigating to WGA.

3.2.1 Log in page

After you have successfully created an account (<https://www.gov.uk/government/publications/the-online-system-for-central-accounting-and-reporting-oscar-user-guide>), you will be able to access the login page (you can also do so by using the link provided in the 'Welcome to OSCAR' email).

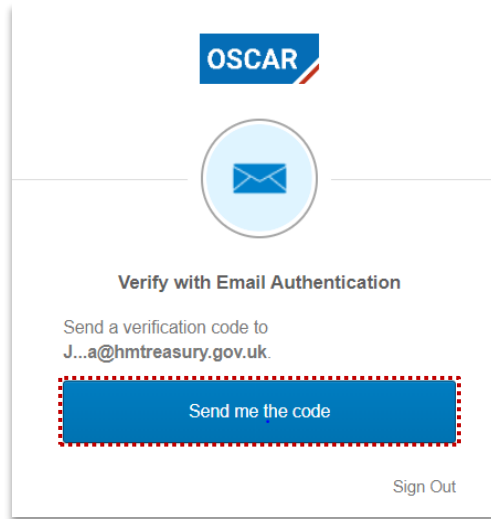

In the login page, you will find 'Email authentication', with your email address partly masked. Email authentication provides an additional layer of information security and will be required every time you log into OSCAR II. The authentication process includes three steps:

- Generate a single-use authentication code
- Retrieve the code from your inbox; and
- Enter the code in the login page.

To log into OSCAR II, use the link <https://oscar.hmt.gov.uk> and you will arrive at the log in page to enter your username and password:

To generate the single-use authentication code click on **'Send me the code'** in the Email Authentication Form.

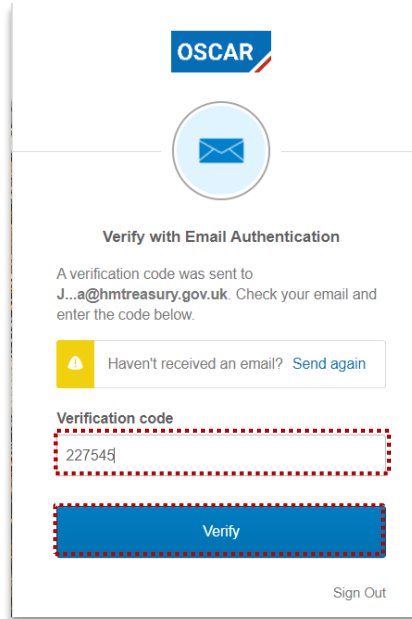

Once done, an email will be sent to your inbox, with subject **'One-time OSCAR verification code'**. In the email you will find a code, as shown in the example below.

IMPORTANT:

Your code might arrive in your Junk/Spam inbox, please check these folders for email from OKTA

In the OSCAR II Email Authentication Form, you will find an empty field titled **'Verification code'**. To access the system, you will need to copy the verification code from the email, paste it into the field (or type it in manually) and click on the blue **'Verify'** button.

3.2.2 Navigating to WGA

Once you have successfully logged in using your credentials you will be able to navigate to the WGA area by the following steps.

In the OSCAR II landing page, you will find two options:

- | | |
|---------------------|--|
| <i>Enter data</i> | <i>This directs users to the data entry pages</i> |
| <i>View Reports</i> | <i>This directs users to the OSCAR II reporting interface.</i> |

Click the **'Enter Data'** tile to proceed to the area that contains access to all the processes required for data submission (including WGA).

After clicking on the **'Enter Data'** tile, you will reach a screen titled "IBM Planning Analytics". This is where you will find folders which relate to different processes. To proceed to the WGA area, click **'Reports and Analysis'** followed by **'WGA'**.

- Matches Analysis Tool – section 6.2.4
- Trial balance Input – section 7.2.3
- CG Forms – section 9 Annex B

4 WGA on OSCAR II

4.1 Brief description

Data collection for the Whole of Government Accounts return has been organised into 'books' for data providers to enter. This section will outline the 'books' and activities which can be completed in each. Please note that the screenshots show 2019-20 but equally apply to 2020-21.

4.2 Activities

The activities to carry out this step are as follows:

- Introduction to WGA books
- Overview of the WGA process.

4.2.1 Introduction to WGA books

There are several WGA books where you can perform a number of different tasks:

Reports and Analysis

Shared		Personal	Favorites	Recents		
Shared / WGA / Data Collection						
<input type="checkbox"/>	Name	Location	Type	Last modified	↓	
<input type="checkbox"/>	Central Government	Shared/WGA/Data Collection	Book	14/12/2022 10:46		♥ ⋮

<input type="checkbox"/>	Process Owner Matches Report	Shared/WGA/Data Collection	Book	08/09/2022 17:19		♥ ⋮

<i>Central Government</i>	<i>Entry and submission of Central Government financial information</i>
<i>Matches Analysis Tool</i>	<i>Dynamic table to view published counter party transactions</i>
<i>Trial balance input</i>	<i>Where an organisation has opted to use the Trial balance method to populate the proformas with financial information</i>
<i>CG Forms</i>	<i>Additional Forms that may need to be completed.</i>

4.2.2 Overview of the WGA process

The flowchart below shows the steps involved in the WGA submission process:

Start	This step is to begin the input process
Publish CPID transactions	Users are able to enter counterparty transactions and publish at any point of the input process before submission
Lock submission for review/audit acceptance	Above audit threshold: This indicates to the WGA team input is ready for audit acceptance
	Below audit threshold: Select once you have completed input and progress to Cycle 1 submission step
Submit and close for Cycle 1	Above audit threshold: Submit to finalise Cycle 1 data and commence the audit process
	Below audit threshold: Review data and submit for Cycle 1
Reopen for Cycle 2 changes	Above audit threshold: Select reopen to enter any audit revisions
	Below audit threshold: Select reopen for any Cycle 2 changes
Lock for Cycle 2	Above audit threshold: Select to lock the submission and generate a final pack for audit completion
	Below audit threshold: Select once you have completed any changes and progress to Cycle 2 submission step
Submit to finalise Cycle 2 and complete WGA Return	Above audit threshold: Once the audit has completed and changes agreed and processed, submit to finalise the WGA return
	Below audit threshold: Review data and submit to finalise the WGA return

4.2.3 Historic DCT's

There is now the facility on Oscar II to view both 2020-21 and 2021-22 DCT's alongside each other by toggling between the two financial years. These can be accessed as follows by selecting "Data Collection Historic" and then "Local Government Historic" or "Central Government Historic" sets of books as follows (example shows a central government organisation but a local government organisation or Public Corporation can be selected):

5 Step: Data entry features

5.1 Brief description

This section describes the steps for data providers submitting data to the OSCAR II system.

The input screen is the focal point to the WGA book as it allows data providers to enter data for the current year, forecast data, and view historical data once this has been migrated to the new system.

5.2 Activities

The activities to carry out this step are as follows:

- Select the organisation
- Navigating tabs
- Entering data
- Saving and refreshing data
- Copy / paste input view
- Exporting data.

5.2.1 Selecting the organisation

Click on Data collection within Data entry to access the Central Government set of books for entering DCT data.

Wales Office

Navigating the Central Government book

Welcome to the Whole of Government Accounts Data Collection Tool for Central Government entities.

This is a new landing page that will take you directly into your DCT input tabs to do your submission. This will facilitate speedier navigation within your This landing page will help you navigate the different tabs that are available at the top of the screen.

Note: the Homepage is not required to be opened unless you are wanting to start your submission or change the workflow of your entity. In all other in to the tab you wish to work on.

You can then select your organisation from the drop down list and navigate to the individual tabs of your Data Collection Tool.

The screen below is from the 'Homepage' which the is the main form for inputting data. You will only be able to see organisations for which your access security has been set for (in practice this means most users will see only one organisation).

Once you have selected the appropriate organisation, the selection will be applied to all other proforma tabs.

OSCAR II WGA - Central Government Guidance

5.2.2 Navigating tabs

The below screenshot shows the areas presented as tabs along the top of each page and are accessible from any area.

At the top of each screen you are presented with tabs which lists activities which can be performed as shown below and you scroll along to display additional tabs using the forward and back buttons:

You can navigate from tab to tab by simply clicking on a tab, scrolling to the relevant tab.

The current tab will be highlighted as blue underlined, while hovering over a tab will highlight the tab as shown below.

5.2.3 Entering data

When you enter data and move to a different cell, the recent inputs will turn green. This is to differentiate between new data entry and data which has already been committed to the database. When you 'Save' or 'Refresh' the page, entered data will turn to black and be saved into the proforma.

IMPORTANT:

Please note negative numbers are to be entered with a minus sign (-). Using brackets to indicate negatives e.g. (1,000) will return an error.

Please be mindful of this when copying and pasting from your own workbook.

30,917.70	32,604.12	33,447.33	32,041.98
7,000.00	399.00	245.00	237.80
600.00	10,000.00	666.00	795.00

In the proforma templates different colour of cells have different functionality

1. *White cells* - allow data input and will be saved into the database when you click 'Save' or 'Refresh'.
2. *Light grey cells* – these cells represent calculated cells, prior year data, or pull data from other proforma tabs e.g. restatement data. You may be able to enter data into these cells, however when you click 'Save' or 'Refresh', entered data disappear and will not save into the database.
3. *Dark grey cells* – these not required for data entry. You may be able to enter data into these cells, however when you click 'Save' or 'Refresh', entered data disappear and will not save into the database.

	Development Expenditure £'000	Patents £'000	Information Technology £'000	Other software & software licences £'000	Goodwill £'000
Intangible Assets Cost					
Carried forward at 31 March (as shown in last year's accounts)	6,288	0	6,170	14,739	1,772
Adjustment	0	0	0	0	0
Restated balance	6,288	0	6,170	14,739	1,772
Balance brought forward at 1 April	0	0	0	0	0
Additions	0	0	0	0	0
Donations	0	0	0	0	0
Impairment losses	0	0	0	0	0
Impairment reversal	0	0	0	0	0
Disposals	0	0	0	0	0
Revaluations	0	0	0	0	0
Reclassifications	0	0	0	0	0
Transfers	0	0	0	0	0
As at 31 March 2020	0	0	0	0	0

IMPORTANT:

You can enter data into the dark grey cells, and it will impact on any subtotals/totals that are in this sheet. However, the data will not be saved to the database (and therefore will not count as part of your return), it may cause validations to fail and will disappear if you refresh the tab.

5.2.4 Saving and refreshing data

Once you have entered data, saving or refreshing the page will turn the text black and commit the data to the database.

Clicking the 'Save' button will commit data to the database per the screenshot below

You can also click on the refresh button indicated below which will also commit the data to the database and act as a saving function.

Refresh your data

Please note that if you do not 'Save' or 'Refresh' your tab and navigate away, or close the web page, entered data will be lost.

IMPORTANT:

Please do not use the Refresh button on your web browser, please use Refresh/Save buttons on your worksheet.

5.2.5 Copy / paste input view

Some proforma tabs which have multiple tables have the ability to select a copy and paste spreadsheet view. This will allow you to easily copy and paste blocks of data from your own workbooks directly into OSCAR II.

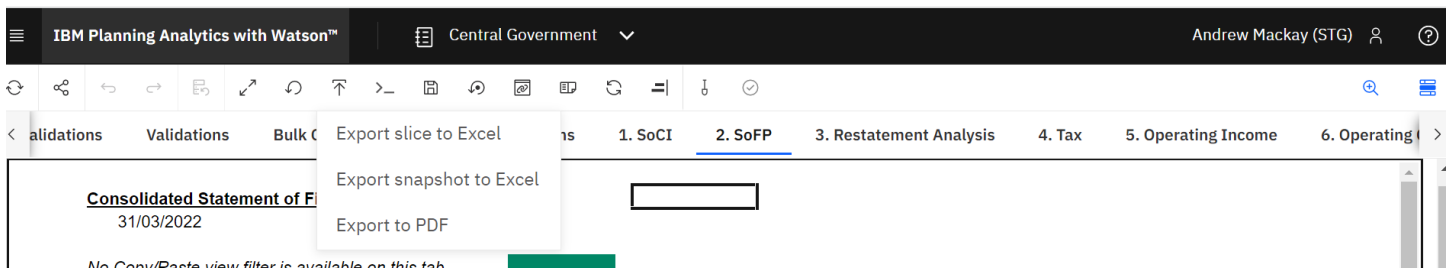

The relevant tabs will have the below drop-down menu, where you can select Copy/Paste and then 'Rebuild view' to change the sheet view.

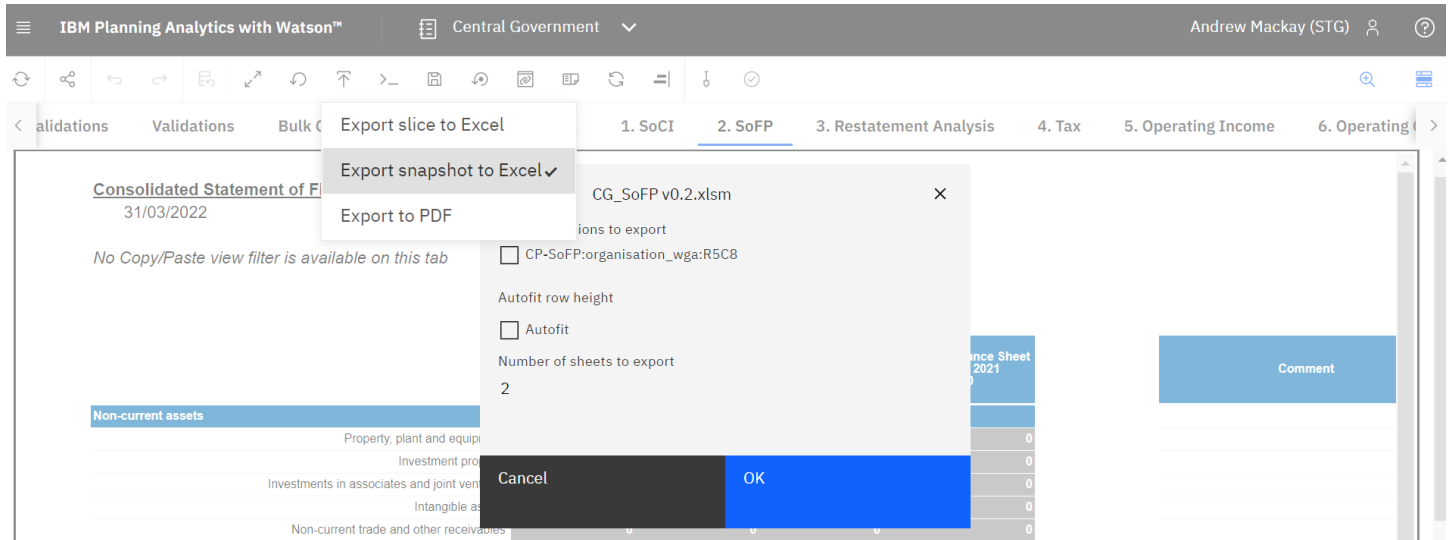

5.2.6 Exporting data

Users have the ability to export the current proforma tab into an excel document.

Click on anywhere within the tab to reveal the full toolbar as follows and select export:

Click on export snapshot to excel and follow the instructions to download the excel file to your desktop.

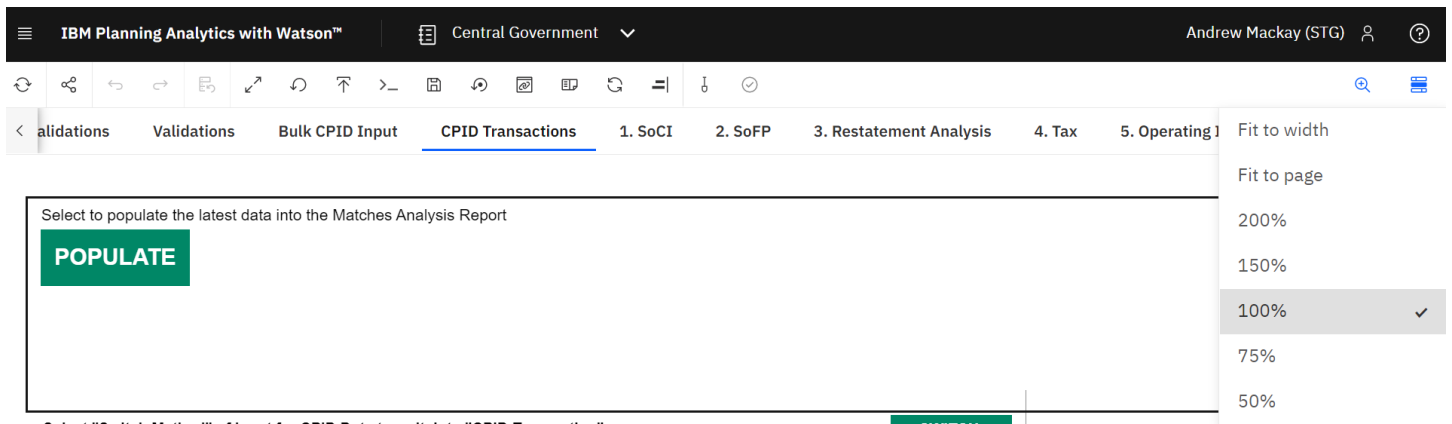

Please note that no formulas will be downloaded when you export the document.

5.2.7 Zoom Function

You can use the zoom functionality to be able to zoom in / out to view data within the tabs on the screen. There is a zoom button to the far right of the toolbar as follows:

Clicking on this will give you options to zoom in / out. Select the relevant option you require.

This is especially useful to display data in the CPID transactions tab. Click on 75% as follows:

Scroll down the screen to view transactions as follows:

5.3 Next steps

You will now be aware of the features found within the data input books to navigate, enter data effectively, save, and export data.

6 Step: Counter party transactions

6.1 Brief description

Departments that consolidate their NDPBs under CLOS need to split out CPID data into the contributing bodies. In this context, Instigating Entity means the core department or one of the NDPBs that make up the CLOS group.

Once you have clicked 'Start' on the Homepage you will be able to input counter party data. There are two options for entering counterparty transactions, either via the CPID transactions method, or bulk CPID input method. If you have few counterparty transactions you may want to use 'CPID transactions', otherwise if you have a significant amount of counterparty transactions you may want to use 'Bulk CPID input'.

6.2 Mismatches - overview

Mismatches occur when there are differences between what you are pointing to another WGA organisation and what the corresponding organisation is pointing back

This chapter will cover some broad categories of mismatch. It should be noted that there are many more individual reasons why data may not match which would require investigation on a case-by-case basis.

A mismatch analysis tool, or the mismatch report generated using this tool, is available to you. This will show your mismatches with other entities based on the current dataset available in OSCAR on that date.

Alternatively, you may be sent a mismatch report by the WGA team when a mismatch is being investigated. If this is before Cycle 2, then data can be amended within the DCT to resolve the mismatch. If the involved party's data has already been submitted, this may require a manual journal by the WGA team (therefore we would want to pick up on mismatches to prevent or correct them at an early stage).

Difference in amounts

This mismatch type occurs when the entities record the transaction to each other at differing amounts.

The balance agreement process should minimise the occasions when this occurs within central government for significant balances and ensure that evidence is recorded via the CG forms when significant mismatches do still exist.

Difference in counterparty allocation

One counterparty may have omitted to point to the other counterparty. This can be corrected within that parties CPID transactions sheet if picked up before the Cycle 2 stage.

This can also occur where there is confusion as to the correct counterparty due to an agency relationship. The resolution to such an issue would need to ensure that all balances internal to WGA are eliminated. Ideally the solution is agreed between all the parties to the transaction so that each step in the transaction is recorded in a way that aligns.

If one party reports a balance of say £900k, and the other doesn't due to materiality, the other party should report an equal amount in a similar MR to eliminate the balances.

Error in positive/negative signage

If you are allocating part of a negative signage amount to an entity on the CPID transactions sheet, you will need to ensure your allocation uses negative signage. If you use the opposite signage to what is expected, and the other party uses the correct signage, this causes a mismatch of double the value of the balance.

Please be alert to the warning messages within the CPID transactions tab which appear if unexpected signage is used.

Different match relationships

Agreement on use of match relationships forms part of the balance agreement process, so we would expect that occurrence of this issue on significant balances within central government would be limited.

The issue would occur when counterparties are classifying the balance differently, for instance one party treating an amount as a loan, while the other party records a trade receivable. The two sides of the transaction would then fall into different match relationships (which are designed to group together similar transaction types) and this causes a mismatch.

Resolution of this issue would require agreement of how the balance should be treated and corresponding amendment of the data in one parties DCT.

6.3 Activities

- CPID transactions
- Bulk CPID input
- Counterparty validation errors
- Matches analysis
- CG forms.

6.3.1 CPID transactions

If you have chosen to enter your Counterparty Transactions via CPID Transaction method, please follow the steps below:

1. Under 'Add Rows', select the account code that you wish to enter CPID transactions

- Enter the number of rows / transactions for the selected account code and select 'Add rows'

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method: *CPID Transaction*

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button. "Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

SWITCH METHOD

Add Rows Select Account Enter no. of rows ADD ROWS 2

- Under the Instigating Entity Code, enter in the organisation codes from your group that have instigated the CPID transaction
- After selecting the instigating entity, select the organisation ID for the Counter party Code
- When you have the list of instigating and counterparty organisations you can enter the values of the transactions between the organisations that make up the TB amount, in the CPID Amount column. Remember to use '-' to signify negative numbers, not '()

Total External Balance	Instigating Entity Code	Counter Party Code	CPID Amount	Instigating Entity Description	Counter Party Description	Total CPID Balance
-4,744	CAB010	BIS084	100	Cabinet Office	Dept. for Business, Energy & Industrial Strategy	4,877
		3	4,777	5		
0			0			0
0			4			0
0			0			0
10,163			0			0
			0			
			0			

- Mach Relationship Code will be presented in the 'MR' column
- You can add comments in the 'User Comments' column, if needed

MR	Trial Balance	User Comment	Auditor Comment	CPID Input Latest User and Timestamp
22	0			
22	0			
12	0			
10	0	7		
10	0			
10	0			
11	0			
10	0			

- 8. Select validate when you have completed your data entry
- 9. Your validation errors will appear in the 'Publish' and 'Submission' columns

Please make sure that all 'Hard Validation Errors' are resolved and for all 'Soft Validation Errors', comments are provided. You will not be able to Publish counter party transaction if there are Hard Validation Errors.

Publish validation errors prevent you from being able to share CPID transactions (e.g. incorrect CPID code) for other organisations to view, while submission validation errors prevent you from progressing in the workflow steps (e.g. entering a negative where a positive value is expected).

Please note:

The total amount for the CPID transactions that make up the Trial Balance Account Balance will be automatically populated on the top row of the data set for that transaction. This will allow you to compare the total value of your CPID transactions, particularly if there are numerous transactions for that CPID, against the Trial Balance Value. Internal SCOAs should be 100% allocated to a CPID code.

6.3.2 Bulk CPID input

If you do have multiple CPID transactions to enter at once, you can use 'Bulk CPID Input' method.

- 1. If there is already data in this worksheet, that you would like to clear, select 'Clear data'

Select "Clear Data" to remove all data in the input grid.

2. Please make sure your current input method is 'Bulk CPID Input' before entering data on this worksheet

3. Select the number of Counter Party Transactions and select 'Add CPID Rows'

4. Once you have entered the "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount £000s" and "User Comment (Optional)" if desired, for each of your lines then press "Validate CPID Input" to validate data

Account Code	Instigating Entity Code	Counter Party Code	CPID Amount £000s	Instigating Entity Description	Counter Party Description	Description	Status	Complete
14912000	BIS004	CPS016	350	Dept. for Business, Energy & Industrial Strategy	The Crown Prosecution Service	IA - EMISSIONS ALLOWANCES - COST - ADDITIONS	G	Complete

5. Any Validation errors will appear in this section'

6. Once you have completed and validated your 'CPID INPUT', select 'Refresh CPID Transactions'. Please note data entered and refreshed will also appear in the 'CPID Transactions' worksheet.

6.3.3 Counterparty validation errors

Please be aware of counterparty validation errors listed below which will prevent your ability to 'Publish' counterparty transaction:

- Incomplete data fields
- Account code does not exist
- Instigating Entity does not exist
- Counter Party does not exist
- The column CPID Amount £000 contains a decimal place. Please remove the decimal place
- This SCOA must be 100% Allocated
- If the TB amount is zero, there should be no CPID amount
- Please delete the Instigator or CPID from the row
- Please delete the Instigator/CPID as there is no CPID value
- Invalid CPID Entity in column Counter Party Code
- Invalid Instigator Entity. The counter party is in your group
- Your chosen CPID is within your Instigator group
- Incomplete CPID entities provided
- The Counterparty code has been entered more than once for the same SCOA. Please aggregate the amounts and report as one line entry.

Please ensure these issues are resolved to allow you to 'Publish' your counterparty transactions.

6.3.4 Matches analysis

You are able to run the Matches Analysis tool where you are able to view other organisations published counterparty transactions. This can be run at any time and is dependant on organisations inputting and publishing counterparty transactions via the Homepage.

This is one of the most significant changes to OSCAR II compared to OSCAR 1. The ability to create a matches report and review mismatches before you make your cycle 1 submission should reduce the number of adjustments needed between cycle 1 and cycle 2.

To navigate to the Matches Analysis Tool, return to the WGA landing page and select Matches Analysis Tool as highlighted below:

Reports and Analysis

Shared Personal Favorites Recents

Shared / WGA / Data Collection

<input type="checkbox"/>	Name	Location	Type	Last modified	↓	
<input type="checkbox"/>	Trial Balance...ral Government	Shared/WGA/Data Collection	Book	13/04/2022 09:02		♥ ⋮
<input type="checkbox"/>	Elim Error Report	Shared/WGA/Data Collection	Book	18/02/2021 10:16		♥ ⋮
<input type="checkbox"/>	Group Journals	Shared/WGA/Data Collection	Book	13/01/2021 16:29		♥ ⋮
<input type="checkbox"/>	Matches Analysis Tool	Shared/WGA/Data Collection	Book	06/01/2021 20:13		♥ ⋮

This will open the below tab with multiple filters, which will generate a report of counterparty transactions based on selections to identify counterparty mismatches:

1. *MR* – filter for specific match relationships
2. *Account filter* – for specific SCOA codes
3. *Organisaton* – filter for Organisations
4. *Org LG/CG* – filter for Local or Central Government bodies
5. *Org Detailed Type* – filter for a specific organisation types within the organisational hierachy e.g. Departmental Group, or England Central government
6. *CPID* – filter for a specific counterparty
7. *CPID LG/CG* – filter for the counterparty Local or Central Government bodies
8. *CPID Detailed type* – filter for a counterparty organisational type within the organisational hierachy e.g. Departmental Group, or England Central government

Display TOP -you can select the number of transactions to display in the drop down box.

MR	Account	Organisation	Org LG/CG	Org Detailed Type	CPID	CPID LG/CG	CPID Detailed Type	Display TOP
All	Total SCOA	HMT087	All	All	Select an existing CPID	All	All	10
All	Total SCOA	Select an existing organisation	All	All	Select an existing CPID	All	All	Mismatches by
All	Total SCOA	Select an existing organisation	All	All	Select an existing CPID	All	All	Absolute Value
All	Total SCOA	Select an existing organisation	All	All	Select an existing CPID	All	All	REFRESH
All	Total SCOA	Select an existing organisation	All	All	Select an existing CPID	All	All	

MR	SCOA	Organisation	CPID	Instigated	Received	Mismatch	Absolute Value	CPID Status

Click the 'Refresh' button to update the view of transactions

The Matches tool is flexible enough to allow you to select up to five sets of filters based on selections for specific matches to view. Select your CPID in column 3 to see all items you have entered, or select your CPID in column 4 to see all items others have pointed at you.

6.3.5 CG Forms

In order to help the balance of agreement process, the CG01 and CG02 forms have been automated to pull data populated in the counterparty transaction tabs (Bulk CPID Input of CPID Transactions) of the Central Government book.

To navigate to the CG forms, return to the WGA landing page and select CG Forms as highlighted below:

Reports and Analysis

The screenshot shows a file management interface with tabs for 'Shared', 'Personal', 'Favorites', and 'Recents'. The 'Shared' tab is active, showing a breadcrumb path: 'Shared / WGA / Data Collection'. Below the path is a table of files. The table has columns for 'Name', 'Location', 'Type', and 'Last modified'. There are also icons for search, refresh, filter, and list view. The table contains four rows of data:

<input type="checkbox"/>	Name	Location	Type	Last modified	
<input type="checkbox"/>	Central Government	Shared/WGA/Data Collection	Book	14/12/2022 10:46	♥ ⋮
<input type="checkbox"/>	Process Management	Shared/WGA/Data Collection	Book	13/12/2022 17:18	♥ ⋮
<input type="checkbox"/>	CG Forms	Shared/WGA/Data Collection	Book	22/11/2022 10:59	♥ ⋮
<input type="checkbox"/>	Process Owne...tches Report	Shared/WGA/Data Collection	Book	08/09/2022 17:19	♥ ⋮

This book contains both the CG01 Confirmation and CG02 Annex. The first tab relates to CG01 Confirmation.

6.3.5.1 CG01 Confirmation

1. Select the initiating organisation. This will be based on the organisations you have access to
2. Select the receiving counterparty for which to populate the template
3. A timestamp is included for the purposes of version control
4. You are able to set the materiality and agreement level where necessary, there are default values included
5. Once all the filters have been selected click the Refresh button to populate the forms below.

Balances and Transactions Between

Initiator: HMT087 1

Receiver: Select an existing CPID 2

Receiver workflow status: 3

For period ended: 2019-20

Timestamp: 31-05-2020

Materiality set at (in £'000s): 5000 (£5,000k is default) 4

Agreement level set at (£'000s): 200 (£200k is default)

REFRESH 5

Available Match Relationships:

The form is now ready for export.

Once exported you can enter the sign off details and forward the document to the counter party for agreement. OSCAR II does not include functionality to communicate with other users, so you will need to download the form and email it to the counterparty to agree balances.

6.3.5.2 CG02 Annex

1. Complete balances with counter parties in either part (a) or (b) of the form
2. Select the initiating authority in the dropdown
3. Click 'Refresh' which should populate Name of counter party, CPID code, Account description, SCOA and Match relationships columns
4. When part (a) has been completed, you are able to export the document to excel.

Initiator: HMT087 2

1 Part (a)
Complete this table where accrual adjustments/cash payments can be identified (preferred method):

Name of Local Authority Body	CPID Code	PY Reversal of Accrual £000	Cash Paid £000	Year End Accrual £000	Total £'000

1 Part (b)
OR: Complete this table if accrual adjustments/cash payments cannot be reasonably identified without considerable additional work:

Name of Local Authority Body	CPID Code	PY Reversal of Accrual £000	Cash Paid £000	Year End Accrual £000	Total

Where necessary copy and paste lines from part (a) to part (b), this is only for values greater than £1m. You can enter the sign off details and forward the document (offline) to the counter party for agreement.

6.4 Next steps

Once you have entered your CPID information you can navigate to the Homepage and 'Publish' your CPID data for other organisation's to view via the Matches Analysis Tool. After publishing your CPID data you will also be able to utilise the prepopulated CG form.

7 Step: Central Government data entry

7.1 Brief description

In this section you will be able to enter and submit your financial data.

7.2 Activities

- Selecting your organisation and starting your submission
- Homepage and Submission cycles
- Trial balance method
- Proformas
- Restatements
- Validations.

7.2.1 Selecting your organisation and starting your submission

By selecting Central Government Book you will be presented with the following 'Homepage' screen which is the start point for the data collection, following access to the landing page, navigate to the Homepage screen.

You will be able to select your organisation for which to submit data for in the Entity selection drop down box. Once selected here, the organisation will be applied to all other input tabs.

A summary of the workflow steps is also shown here for reference.

You will have a chance to review before submitting cycle 1. • For audited organisations, select this step to lock your submission for audit acceptance.
	SUBMIT and close FOR CYCLE 1	<ul style="list-style-type: none"> • If your return is below the audit threshold, select to submit the DCT for cycle 1. • For audited organisations, submit to finalise your cycle 1 WGA return and commence the audit process.

7.2.2 Homepage and submission cycles

Step 1 – start submission

To start inputting data, you will need to select

- If your organisation is a Minor body Yes/No
- If your organisation is above or below the WGA audit threshold
- If you are below the minor bodies' threshold, you will need to complete a CG03 form. OSCAR II provides a link to this form.

You can then select the 'Start' button as indicated below to begin the submission.

Steps for Cycle 1

Step 1 - Start submission

Press 'Start' to commence DCT Input.

Is your organisation a minor body?

Select

Are you above or below the audit threshold?

Select

START

Please provide an alternative contact, this can be a line manager, colleague or senior member of the finance team. This will allow us to keep in touch if you move on or are not available.

Alternate Email

Current value

test1@email.com

Update value

UPDATE

[WGA 2018-19 form: CG-03 template for minor body exemption from completing WGA returns](#)

An alternative contact can be provided and saved in the form. You will find the OSCAR II General Data Protection Regulation (GDPR) policy at <https://www.gov.uk/government/collections/the-online-system-for-central-accounting-and-reporting-oscar-tool>.

Step 2 – Publish CPID transactions

Once you have started the submission you are able to enter counterparty transactions in either the Bulk CPID Input or CPID Transaction input forms

When you have completed entering CPID data, click 'Publish' on the Homepage for all other counterparties to view.

This will enable organisations to work with other organisations to resolve counterparty balances at any point before Cycle 2 submission.

Step 2 - Publish CPID transactions

Publish the CPID transaction to matches report.
(Matches will now be visible to counterparties)

PUBLISH

[WGA 2018-19: match relationships](#)
[WGA 2018-19: counter-party identifier \(CPID\) list](#)
[WGA 2018-19 form: CG-01 template for agreeing balances with other WGA bodies](#)

Hard Validations 0	Soft Validations 0
------------------------------	------------------------------

The validations for this step are detailed on the CPID Transactions tab as 'Publish' validation errors.

You will only be able to 'Publish' if there are no hard validation errors, therefore all these need to be resolved before publishing counterparty data

There are links which allow you to download useful document such as the match relationships, list of counterparty identifiers, and the CG-01 templates

Please Note:

There is a separate book where you will find CG-01 and CG-02 forms which can be prepopulated from already entered counter party data. This explained in Annex B – CG forms of this guidance.

Step 3 – Lock submission for review/audit acceptance

Once you have completed the proformas you can 'Lock submission' which will indicate the submission is ready to proceed to the next stage.

For organisations below audit threshold you will be able to lock and progress to Cycle 1 submission

Step 3 - Lock submission for review/audit acceptance

If your organisation is below the audit threshold, select this step to proceed to cycle 1 submission. You will have a chance to review before submitting cycle 1.
For audited organisations, select this step to lock your submission for audit acceptance.

LOCK SUBMISSION **BACK TO STEP 2 PUBLISH CPID**

You can also run the Audit Rport at this point. Instructions for running the Audit Report can be found at '7.2.6 Audit Report'.

Step 4 – Submit and close Cycle 1

To complete Cycle 1, click the 'Submit for Cycle 1' button which also allows the audit process to begin.

For organisations below audit threshold you will be able to submit for Cycle 1 after locking the submission.

IMPORTANT:

Please note you will not be able to submit if there are hard validation errors, and once submitted you will not be able to make changes to your submission. If you do need to make changes, please make changes in Cycle 2.

For organisations above the audit threshold you should run the Audit Report at this point. Instructions for running the Audit Report can be found at '7.2.6 Audit Report'.

Step 4 - Submit and close Cycle 1

If your return is below the audit threshold, select to submit the DCT for cycle 1.

For audited organisations, submit to finalise your cycle 1 WGA return and commence the audit process.

NOTE: Once submitted, you will not be able to move back to previous workflow step without Central WGA team's unlock request.

SUBMIT FOR CYCLE 1 **REFRESH VALIDATIONS**

Hard Validations 0	Soft Validations 0	Submission Deadline 01-01-2019
------------------------------	------------------------------	--

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

Step 5 - Reopen for Cycle 2 changes

Following audit review, you can reopen the submission to make any changes agreed with your auditor to your data. Do not proceed to step 6 until mismatches identified have been investigated and actioned.

For organisations below audit threshold you will be able to reopen your submission for Cycle 2 after you have submitted Cycle 1.

Steps for Cycle 2

Step 5 - Reopen for Cycle 2 changes

If your return is below the audit threshold, select to reopen DCT for cycle 2 changes.

For audited organisations, unlock to enter auditor agreed revisions.

REOPEN FOR CYCLE 2 CHANGES

Step 6 – Lock for Cycle 2

To complete Cycle 2, click the 'Lock for Cycle 2' button.

There are also links which download the *CG-04 management review checklist* and *CG-05 template for the notification of audit completion*.

Please note you will not be able to submit if there are hard validation errors.

Step 6 - Lock for Cycle 2

If you are above the audit threshold, please click to lock for cycle 2 and provide the updated auditor report to your auditors. If they confirm they are happy with the final numbers, please proceed to step 7. If not, please make changes as agreed with your auditors before proceeding to step 7.

If your return is below the audit threshold, select to lock for cycle 2. You will have the chance to review before submitting.

LOCK FOR CYCLE 2 **BACK TO STEP 5 REOPEN FOR CYCLE 2**

Hard Validations 0	Soft Validations 0	Submission Deadline 01-04-2019
------------------------------	------------------------------	--

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

[WGA 2018-19 form: CG-04 management review checklist for central government](#)

[WGA 2018-19 form: CG-05 template for the notification of audit completion](#)

You can also run the Audit Report at this point. Instructions for running the Audit Report can be found at **'7.2.6 Audit Report'**.

Step 7 – Submit to finalise Cycle 2 and complete WGA return

To finalise your submission, enter the contact details for your organisation and also auditor details before clicking the 'Submit to finalise WGA return' to complete the WGA process. **You should only lock the cycle 2 submission on completion of your audit and you have received confirmation from the auditors.**

Please note once you have submitted the final return you will not be able to make any changes to data. If you do need to make changes please contact the central WGA team at WGAOSCAR@hmtreasury.gov.uk.

There is no confirmation email following final submission. You can check whether you have submitted on your Homepage – workflow status should show this.

Step 7 - Submit to finalise Cycle 2 and complete WGA return

If your return is below the audit threshold, submit to finalise your WGA return.

For audited organisations, submit to finalise your WGA return once audit is completed and changes are agreed and processed.

NOTE: Once submitted, you will not be able to move back to previous workflow steps, your WGA return will be complete.

**SUBMIT TO FINALISE
WGA RETURN**

7.2.3 Trial balance method

The Trial Balance functionality is used to automatically post your TB values to the Proformas depending on the mappings you provide.

To enter your Trial Balance, select your Trial Balance Input Book:

Reports and Analysis

Shared Personal Favorites Recents

Shared / WGA / Data Collection

Name	Location	Type	Last modified
Journal Report	Shared/WGA/Data Collection	Book	27/06/2022 17:07

Trial Balance...ral Government	Shared/WGA/Data Collection	Book	13/04/2022 09:02

Under the Trial Balance Input book, you will find the following tabs:

Trial Balance entry steps outlined:

To input your Trial Balance data, you must first map your TB codes to the OSCAR II Standard Chart of Accounts (SCOA) codes.

Follow the steps as outlined in the SCOA Mapping Tab:

1. Select "Clear Mapping" button if you would like to clear the current mappings from the input table

2. Enter the number of accounts that you would like to map against available SCOA and select create mapping rows. The system supports 3,000 rows, to allow for mass population

OSCAR II WGA - Central Government Guidance

- Input your Trial Balance codes in column "Your Code" and the OSCAR II codes to be mapped in column "OSCAR Code". Reference to 'Your Code' is your organisational account code (sometimes referred to as 'Local Chart of Accounts (LCOA)'. The system can accommodate account codes made up of letters, numbers or combination of both. Once you have completed your mapping move to step 4. You can find a list of OSCAR II Standard Chart of Accounts (SCOA) available for use in Trial Balance mapping on the "Available SCOA" tab. Some entities use the OSCAR chart of accounts for their own local account codes. You will still need to map these codes, but it should be as straightforward as having the same data in the 'your code' and 'OSCAR code' columns

3

	Your Code	OSCAR Code	OSCAR Description	Status	Status Comments/User Action
1	12345	11111000	PPE - LAND (OWNED) - COST - O/BAL	G	Passed
2					
3					

- Map each of your account codes against available SCOA and select 'Validate Mapping'

No validation errors

VALIDATE MAPPING

4

- Only account codes mapped to existing OSCAR II SCOA'S can be validated. Validation checks exists on this page to ensure this. Please Validate and Submit mapping

If there are any incorrect or incomplete mappings you will see that the 'Status' box will turn red. You will be notified of the lines that need to be corrected in the Status Comments box. You will also see that the individual mappings have their own status and comments, which will guide you in how to rectify any errors.

The following steps are for inputting the mapping for your TB

Steps

1

1.1. Enter number of rows required for your TB mapping and select "Create Mapping Rows" button. 50 CREATE MAPPING ROWS

1.2. Select "Clear Mapping" button if you would like to clear the current mappings from the input table. CLEAR MAPPING

1.3. Then place your Trial Balance codes in column "Your Code" and the OSCAR codes to be mapped in column "OSCAR Code". Once completed move to step 2.

You can find a list of OSCAR Standard Chart of Accounts (SCOA) available for use in Trial Balance mapping on the "Available SCOA" tab.

2

Select "Validate Mapping" button to proceed. Check the status and correct any errors identified. Repeat steps 1 and 2 until status on step 2 is Green.

- After correcting any errors press the 'Validate Mapping' button and 'Submit Mapping'.

SUBMIT MAPPING 6

7.2.3.1 Trial balance input

After you have mapped and submitted your mapping on your chart of accounts against available SCOA, the next step would be to input or copy and paste your trial balance and your codes will be mapped to SCOA's

This is a change from the Excel Based DCT. In that, it was possible to place validations on each proforma tab meaning that decimal places could not be entered. The OSCAR II platform does not have this functionality. This means that users can enter decimal places, but this validation prevents them from being written to the database.

1. On the Trial Balance Input worksheet, enter the number of rows required for your Trial Balance and select 'Create Trial Balance Rows'

Steps

4

4.1. Enter number of rows required for your Trial Balance and select "Create Trial Balance Rows" button.
Number of rows created: 50

4.2. Select "Clear Trial Balance" button if you would like to clear the current data from the input table.

4.3. Then place your Trial Balance codes in column "Your Code" and the amount in column "Amount £". Ensure all Trial Balance codes used have been entered and mapped in the SCOA Mapping tab first.

Link to CG Homepage

To start trial balance workflow, please select the button below to be directed to the central government homepage and select 'Start' for your selected organisation. Then use the Trial Balance tabs above to load data and map to the input tabs. You can then go back to the Central Government tabs for editing.

5 **CG HOMEPAGE**

Please note:

Please Note the default rows on the 'SCOA Mapping' and 'Trial Balance Input' worksheet is 50. This means if you input more 50 rows on these worksheets, on the subsequent login to OSCAR II Trial Balance, you will be able to see only 50 rows. Your Trial balance mapping and posted amount will remain the same as previously posted and you will be able to see all posted rows by increasing the number of rows in create rows sections.

The next step in your DCT is to go through the worksheets tabs proformas and input any additional data that is required by the DCT, but not provided by your TB, for example statistical data such as staff numbers.

7.2.4 Proformas

Before you start entering data in your DCT navigate to the SOFP and SOCI tab and check that your opening balances have populated correctly by checking to last year’s closing balances. Opening balances provided will be based on prior year submitted data. If, for example, you did not submit a cycle 2 submission in the prior year then you may have data that does not agree to your published financial statements. If you are unsure how to proceed please contact the WGA team at WGAOSCAR@hmtreasury.gov.uk.

7.2.4.1 SoCI - Statement of Comprehensive Income

The Income and Expenditure account is populated from the other worksheets within the DCT once they are complete. You will notice that this tab does not have an option to input or copy and paste data because the data in this worksheet is entirely feeding from the rest of the worksheets or is formulae (other than comments added). Last year’s balances are already populated.

1. Please leave comments regarding any restatements of prior year balances that you may have
2. Save your data.

Comment

7.2.4.2 SoFP - Consolidated Statement of Financial Position

The SOFP is populated from the other worksheets within the DCT once they are complete. Last year’s opening balances will be automatically pre-populated.

This worksheet collects data on: Non-current assets, Current assets, Current Liabilities, Non-current Liabilities and Taxpayers funds.

You will notice that this tab does not have an option to input or copy and paste data because the data in this worksheet is entirely populated from the rest of the worksheets or is formulae (other than comments added).

Check that your opening balances show correctly, and prior year balance sheet does balance, then make adjustments in the ‘Restatements analysis’ tab, if necessary.

If you have any restatements due to changes arising from machinery of government changes (MOG), accounting policy changes and other changes, complete the Re-Statement analysis tab and provide comments in the section below.

1. Please leave comments regarding any restatements of prior year balances that you may have
2. Select ‘Save’ to finalise SoFP worksheet.

Comment

7.2.4.3 Re-Statement Analysis

The aim of this sheet is to provide further details of any prior period restatements, which have been entered onto your primary statements and onto the relevant worksheets of the DCT.

To those familiar with the previous Excel DCT, this is probably the largest change in the process. In the

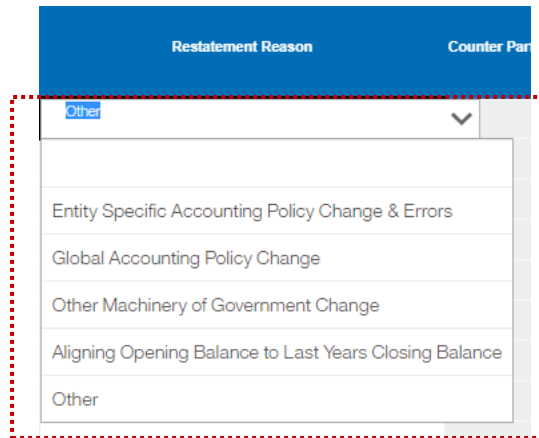

past, users would have to manually enter restatements into this tab, into the individual proformas and again into the primary statements. In OSCAR II, users will only need to enter restatement information here, and it will then populate the relevant proformas, which in turn will populate the relevant primary statements.

Any entity who has made a prior period adjustment must complete this tab.

1. Select Primary Statement from the drop-down list in the first column
2. Select "Update Note Drop Down" to filter the second column based on the Primary Statement you have selected and select a Note. The list of note level codes here will not be filtered to the relevant primary statement, so please take care to make sure you select the appropriate primary and note level code

Restatements which are not shown on individual tabs will display the following: "N/A - Restatements not shown on individual note tabs

3. Select your restatement reason from the drop-down list, please note the examples of when the restatement reasons should be used below:
 - *Entity Specific Accounting Policy Change & Errors* - for example, if there is a prior period error that is corrected, or a change in accounting policy that only affects your organisation
 - *Global Accounting Policy Change* - implementation of new IFRS, for example IFRS 16 and 17
 - *Other Machinery of Government Change* - if you are receiving or giving balances to another WGA body
 - *Aligning Opening Balance to Last Year's Closing Balance* - if the balances from last year's DCT which have been brought forward do not align to the opening balances in your own financial statements
 - *Other* - anything else

4. Then enter the debits and credits into the schedule with (-) sign where appropriate.
5. Validate and refresh data and then check if it has been brought through to the SOFP tab or the SOCI tab (depending on whether it is a SOFP or I&E restatement).

OSCAR II WGA - Central Government Guidance

Restatement Analysis

Please complete this schedule if you have made Prior Period Adjustments, detailing transactions at SCOA level, which affect your Statements. This sheet will auto populate the proforma sheet restatements.

Select a Primary Statement from the first column.

Click "Update Note Drop Down" to filter the second column based on the Primary Statement you have selected and select a Note. Restatements which are not shown on individual tabs will display the following: "N/A - Restatements not shown on individual note tabs"

Complete the remaining columns: Restatement Reason, Counter Party Code (if applicable), Debit or Credit and Comment.

Select "Validate Re-Statements" to proceed. Check the Validation column and correct any hard validation errors.

Once you have cleared all hard validations, select "Refresh Re-statements" to update the Primary Statement and Note tabs with data from the below grid.

Primary Statement		Note		Restatement Reason		Counter Party Code		Debit	Credit	Primary Statement
Please select from drop down		Please select from drop down						£'000	£'000	Restated Balance
CP-SoFP - Other non-current financial assets C0201726	CP-O-Fin-Assets - Deposits - 816612BA	-	-	Global Accounting Policy Change				(100)	-	(100)
CP-SoFP - Current trade and other payables C0201637	CP-T&CP - Other borrowings - 826122BA	(175,098)	-	Global Accounting Policy Change				1,100	-	(173,998)
Total								3,367	(3,367)	

6. If Debits and Credits do not match, the following Validation error will occur:

Debit	Credit	Validation	Status
Total 115	115	Debits and credits do not match - DO NOT SUBMIT.	R

Correct the validation errors, if any, and 'Validate' and select 'Refresh Re-statement'.

Please note that if you wish to remove any restatements you should delete any lines in the restatements tab and then click on "clear restatements". This will then take the restatements out of the primary statements tab. You should then click on "validate restatements" before clicking on "refresh restatements" to re-populate the primary statements tab.

7.2.4.4 Tax-Taxation Income

The worksheet should only be used to record taxation income

Please input your taxation Income as per defined categories in the worksheet, enter any comments if applicable and select 'Save'.

Restated taxation income will be populated automatically once the 'Restatement Analysis' tab is completed.

Taxation income from previous year will be already populated.

Note: Data entered in the dark grey cells will not be saved!

Note that you can't split the prior year provisions data between less than and greater than one year. Oscar 2 defaults to disclosing the total amount greater than one year.

7.2.4.8 Contingent Liabilities - Contingent Assets and Liabilities

Under IAS 37 bodies are required to disclose contingent assets and liabilities.

In addition to the requirements of IAS 37, central government departments and ALB's are also required to report remote contingent liabilities (guarantees, indemnities or letters of comfort).

The tables below collect information on contingent assets and liabilities disclosed under IAS 37 and remote contingent liabilities disclosed per the FReM. Also show those balances (over a specific threshold) that are reported to Parliament.

Completion of the worksheet is compulsory. Failure to enter data in a cell (if there is no balance to record) will result in data validation errors. Please take note of when data required is for total balances, and when it is only within the WGA boundary.

1. Enter your Remote Contingent Liabilities

1

Remote contingent liabilities		Balance 1 April 2019 £'000	Increase in year £'000	Liabilities crystallised in year £'000	Obligations expired in year £'000	Balance 31 March 2020 £'000	Amount reported to Parliament £'000	Comment

- Split the balances between external balances (outside the WGA boundary) and internal balances (within the WGA boundary). The balances disclosed as internal must agree with the total counterparty balances recorded on the CPID Transactions sheet. Please re-check this tab after you complete the CPID Transactions sheet to ensure this agrees.

Bodies that are within the WGA boundary are listed on the "CPID list" worksheet. For example, deposits with the Debt Management Account (DMA888) are with an entity within the WGA boundary

since it appears on the "CPID list". However, deposits with a commercial bank are with an entity outside the WGA boundary.

Transfers	0	0	0	0	0	0	0	0	0	0	0	0

IMPORTANT:
Data entered in the dark grey cells will not be saved.

Please note:

To copy and paste your data, you may wish to download this worksheet in excel by selecting the export option below:

Select the export icon

Select 'Export snapshot to Excel'

The screenshot shows the IBM Planning Analytics with Watson™ interface. The top navigation bar includes 'Central Government' with a dropdown arrow. Below the navigation bar is a toolbar with various icons. A menu is open over the 'Export slice to Excel' option, showing three choices: 'Export slice to Excel', 'Export snapshot to Excel', and 'Export to PDF'. The background shows a worksheet with a tab labeled '1. SoCI' and a cell containing 'Property, plant & equipment' and '31/03/2022'.

Once you have exported the worksheet you will be able to enter your data in excel and copy and paste, back in the worksheet.

3. The worksheet also asks for details of asset financing and asset ownership. The details must be provided otherwise data validations will fail
4. Please note additional cash flow information which may be required at the bottom of the tab
5. Select 'Save'.

Enter your details on asset financing and asset ownership in this section.

3

7.2.4.19 Financial Instruments

IFRS 9 applies to Financial Instruments and has an effective date of application of 1 April 2018.

Please note:

The financial instruments table will contain data fed through from the financial assets and financial liabilities tabs, as well as from trade and other payables and trade and other receivables. Therefore, please ensure you have entered data into those tabs before beginning financial instruments.

The tables on this worksheet ask for details which need to be disclosed in order to comply with IFRS requirements. As a minimum, you will need to provide details on categories of financial instruments, fair values and derivatives. There are additional tables which you may need to complete depending on the answers you give to four questions at the top of the worksheet.

DCT preparers need to complete the financial instruments disclosures in line with WGA disclosure requirements, which are in accordance with IFRS, and which must be standardised to record information from all WGA bodies. While bodies should provide information that is consistent with their accounts, they must ensure that they complete the standardised format and disclosures required for WGA purposes to comply with the requirements of the FRM.

Definitions and classifications of financial assets and liabilities can be found in IAS 32, IFRS 9 and IFRS 7. Financial guarantees are a common form of financial instrument and should be disclosed as such, rather than in provisions or elsewhere.

Please refer to Government Financial reporting manual link below:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/946940/MASTER_2020-21_FReM_FINAL.pdf

Chapter 8 Adapting and interpreting IFRS Standards, Section 8.2 Interpretations and adaptations for the public sector context, Table 8.2 IFRS 9 Financial instruments.

This document will be updated every year, in December, therefore, please check the updated version from Gov.uk site every year to make sure they have the latest information.

The disclosure of risk exposures arising from financial instruments is intended to capture material exposures for the purposes of WGA.

Credit risk disclosures

On the 'Financial Instruments' worksheet, in the 'Credit Risk' section, there is a table entitled 'Gross credit exposure by credit rating at year end' that requires financial assets to be categorised by their credit rating from external rating agency designation or equivalent at year end. The column 'Not rated' is for those financial assets that have no rating because, for example, the financial asset relates to a company in liquidation. If a body has not undertaken the exercise of rating its financial assets for its statutory accounts because the credit risk is not material; there is no need to complete this table. If credit risk is material, the body should look at each category of financial asset and consider how it would be rated. For example, if investments or financial guarantees relate to a company owned by the government, a government rating (AAA) might be appropriate.

When completing the Financial Assets table, following IFRS 9, on initial recognition of a relevant financial asset, an allowance for receivables and expenses in the P&L should be created by identifying the present value of lifetime expected credit loss and multiplying by the probability of default in the next 12 months. This is then reviewed and updated in subsequent periods. Where the loss allowance has been calculated based on this method, it should be entered into the appropriate cell for 12 months expected credit losses.

You need to identify expected credit loss impacting financial assets held at amortised costs, split between the categories for Stage 1, 2 and 3 or the simplified impairment rule & paragraph 5.5.15 of IFRS 9 (trade receivable, contract assets or lease receivables for which the loss allowances are measured in accordance with paragraph 5.5.15).

Please ensure you complete T&OP, Fin Assets and O-Fin Liab before completing this section

1. Select your answers from the drop-down list in the Questions list
2. Select 'Save' when you have completed the relevant data entry sections.

Financial Instruments

As at 31/03/2020

Cells shaded in dark grey will not be loaded to the database.

No Copy/Paste view filter is available on this tab

Instructions for completing this tab:

"Categories of financial instruments" will be automatically completed for you with data brought through from other tabs. Therefore please ensure you complete C-T&OP, C-O-Fin-Assets, and C-O-Fin-Liab before completing this tab. All entities who have financial instruments will need to complete the "fair value" tables for financial assets and financial liabilities, and the "valuation hierarchy" tables for financial assets and liabilities.

There are some additional sections on the tab which only some entities need to complete. Please answer the questions below, your answers will indicate which of the additional sections you will need to complete.

Questions

Were your total assets or total financial liabilities at the year end greater than £50m, and:

- 1) did you need to disclose Credit Risk as a material risk in your accounts?
- 2) did you need to disclose Liquidity Risk as a material risk in your accounts?
- 3) did you need to disclose Interest Rate Risk as a material risk in your accounts?
- 4) did you need to disclose Foreign Exchange Rate Risk as a material risk in your accounts?
- 5) did you need to disclose Market Price Risk as a material risk in your accounts?

Categories of financial instruments

This data is your current + non-current external balances with non-WGA counterparties only and is already completed for you based on data populated on other tabs of the DCT.

	Amortised Cost £'000	Fair Value Through Profit or Loss (FVPL) £'000	Fair Value Through OCI (FVOCI) £'000	TOTAL £'000	Comment

	All other assets held at FVOCI	0	0	0	0	0	0	0
	As at 31 March	0	0	0	0	0	0	0

Guidance Notes for completion of Financial Assets - Expected Credit Loss table

On initial recognition of a relevant financial asset, an allowance for receivables and expenses in the P&L should be created by identifying the present value of lifetime expected credit loss (potential total impairment) and multiplying by the probability of default in the next 12 months. This is then reviewed and updated in subsequent periods. Where the loss allowance has been calculated based on this method, it should be entered the appropriate cell for 12 month expected credit losses.

When credit risk for a relevant financial asset has increased significantly since initially recognised, IFRS 9 requires the allowance for the item be changed to reflect the present value of lifetime expected credit loss.

When a financial asset has become credit impaired, IFRS 9 requires that the allowance for the items be changed to reflect the present value of lifetime expected credit loss.

Paragraph 5.15 & simplified impairment rule: trade receivables, contract assets or lease receivables for which the loss allowances are measured in accordance with paragraph 5.5.15 of IFRS 9.

Financial Assets - expected credit loss for assets held at amortised cost Identify expected credit loss impacting financial assets held at amortised cost, split between the categories shown Enter negative balances for amounts external to the WGA boundary only	Gross Financial Assets £'000	Expected Credit Loss				Net Financial Assets £'000
		STAGE 1 Where loss allowance = 12 month expected credit losses £'000	STAGE 2 Where loss allowance = lifetime expected loss, as credit risk > significantly £'000	STAGE 3 Where loss allowance = lifetime expected loss, as asset now credit impaired £'000	Paragraph 5.5.15 & simplified impairment rule £'000

Loans held at amortised cost	0	0	0	0	0	0
Total financial assets	0	0	0	0	0	0

END OF DATA ENTRY

7.2.4.20 Assocs and JVs - Joint Ventures and Associates

This worksheet collects details of the share of post-tax results of associates and joint ventures (JV’s), accounted for on an equity basis and details of the share of total assets and liabilities of associates and joint ventures.

The tables on this tab ask for details which need to be disclosed in order to comply with IAS 28 requirements.

This tab allows you to show the investment in JV’s and Associates together with some disclosure requirements thereof. Furthermore, ability to show non-current assets (PPE) that are now classified as being held for sale as per IFRS5. We have included the liabilities for completeness but would expect only assets such as PPE to form the majority of items.

The DCT is governed by the disclosure of IAS 28 and follows the FReM: Joint ventures and associates are accounted for on an equity basis, meaning that only a body’s proportion of its holding is shown in the accounts. The initial investment is recorded as an asset and is then adjusted to any subsequent movement on post-acquisition reserves. We would expect the following double entries and SCOA’s to be used:

Initial recording of investment:

DR Asset to SCOA 16612000 (NCA – Joint Ventures- Additions) or 16622000 (NCA – Associates – Additions)
CR Bank

Subsequent recording of profit:

DR Asset to SCOA 16616000 (NCA-Joint Ventures Profit/(Loss)) or 16626000 (NCA-AssociatesProfit/(Loss))
CR Profit to SCOA 63311500 (Other I&E –Share of Loss JV&A)

Subsequent recording of loss:

DR Loss to SCOA 63311500 (Other I&E –Share of Loss JV&A)
CR Asset to SCOA 16616000 (NCA-Joint VenturesProfit/(Loss)) or 16626000 (NCA-AssociatesProfit/(Loss))

Other scenarios: Dividends received from the associate of joint venture are treated as a reduction in the asset, so the double entry is:

DR Bank
CR Dividends to SCOA 16617000 (NCA-Joint Ventures-Dividends) or 16627000 (NCA Associates-Dividends).

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data
2. Select 'Rebuild View' if you have changed your spreadsheet view
3. Select 'Save' to commit data to the database.

Joint ventures balance		

7.2.4.21 Add Information - Additional Information

The information is required to produce notes to the accounts. The worksheets are for information on:

- Leases, PFI, capital commitments, accounting policies, audit qualifications etc.

DCT preparers need to complete the private finance initiative (PFI) disclosures in the DCT in line with WGA disclosure requirements which are in accordance with FReM.

Projects are required to be disclosed as follows:

- For each 5-year banding disclose the total payments (i.e. not an annual payment) for contracts expiring within that period.

Essentially the PFI disclosure explicitly asks for capital, interest and service cost element of the contract which must be analysed over the various time brackets on a cash flow basis.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data
2. Select 'Rebuild View' if you have changed your spreadsheet view
3. Select 'Save' commit data to the database.

Additional Information
As at 31/03/2020

The tables below ask for details of: (1) Leases; (2) PFI contracts; (3) Other information; and (4) Non-Current Assets Held for Sale.

1 Spreadsheet View: Input REBUILD VIEW SAVE 3

Leases

Obligations under operating leases - Record the total future lease payments under operating leases
 Obligations under finance leases - Record the total future lease payments under finance leases
 Present value of future obligations under finance leases (£000s) - Take above present value of obligations and allocate these over the 3 time brackets below (in effect allocating interest payments over the years)

	2019-20 £'000	Comment
Obligations under operating leases		
Land		
Total lease payments due within one year	0	
Total lease payments due between 1 and 5 years	0	
Total lease payments due after 5 years	0	
Total lease payments	0	
Buildings		

(2) PFI Contracts

Charge to Statement of Comprehensive Income - PFI contracts. Record the amount charged in the current year to the Statement of Comprehensive Income in respect of off-balance sheet PFI transactions and the service element of on-balance sheet PFI transactions. (Do not include interest charges, interest or financing costs for on-balance sheet PFI contract here)

Commitments under on-balance sheet PFI contracts - Record the total future payments in respect of on balance sheet PFI transactions to which your body is committed, in £000s, analysed on a cash flow basis.

Commitments under off-balance sheet PFI contracts - Record the total future payments in respect of off balance sheet PFI transactions to which your body is committed, in £000s, analysed on a cash flow basis.

	2018-19 £'000	Comment
Charge to Statement of Comprehensive Income - PFI contracts

Total payments due within one year	0	
Total payments due between 1 to 5 years	0	
Total payments due after 5 years	0	

7.2.5 Validations

Validations exist on all tabs and there are specific areas you can investigate to get greater detail on the validation errors.

7.2.5.1 Validation Report

Validations can be viewed on the 'Validations Report' worksheet on OSCAR II.

1. Select if you would like to view all validations – 'Select All' or 'Failed Validations Only'

2. Select 'Refresh' to adjust your worksheet view according to the applied filter in Step 1
3. Total number of Validations will appear in this section

Total No. of Failed Validations	15
Hard Validations	13
Soft Validations	2

3

Hard validations must be resolved before submission to WGA
Un-resolved soft validations must have a full Explanation added to them before submission to WGA

2

4

REFRESH VALIDATE

4. Select 'Validate' to reflect on recent changes made
5. In the Validation Report output section, you will find the following details:
 - *Validation Code* – automated code allocated to each validation error, for internal purposes
 - *Validation Category* – internal consistency, materiality, numerical accuracy
 - *Validation Type* – Soft/Hard. Hard validation failures will need to be resolved before submission and on all soft validations, comments must be provided. DCT can still be validated with soft validation failures, as long as you provide comments. Soft validations are warnings only and you can still proceed.
 - *Validation Description* - details and guidance on each validation error for example:
NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation
 - *Status* – used to describe the status for example FAIL, please provide cometary/PASS

OSCAR II WGA - Central Government Guidance

If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock

Validation Category	Validation Type	Validation Description	Status
Internal Consistency	Soft	Staff numbers information must be filled in.	FAIL, Please check or provide commentary
Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you	FAIL, Please check or provide commentary
Numerical Accuracy	Hard	The top half of the SOFP must equal the bottom half of the SOFP (i.e.-the SOFP must	FAIL
Numerical Accuracy	Hard	Current OFA total balances must equal the sum of the internal and external balances reported	FAIL
Numerical Accuracy	Hard	The external asset type breakdown total must equal the external OFA current balance on the movement table	FAIL
Numerical Accuracy	Hard	Where a financial asset type has a carrying value, a fair value must also be recognised	FAIL
Numerical Accuracy	Hard	In the step 3 table, make sure that your amortised cost + FVPL + FVOCI amount for each line, tallies to the total external balance as shown in the left hand column	FAIL
Internal Consistency	Hard	In the valuation hierarchy table, make sure that the total you have split out between levels 1, 2 and 3, tallies back to the total at FVPL and/or FVOCI available to be categorised as shown	FAIL

- *Value Returned* – the value of the validation error
- *Validation Message* – details on why validation has failed for example 'values do not balance'
- *Used In* – location of the validation error for exaple 'Financial Instruments ' worksheet

Value Returned	Validation Message	Used In
1	Fair value must be completed where carrying value exists	Fin Instruments
2	The sum of the amortised, FVPL & FVOCI split for each line must equal the external totals from Step 2	Other Fin Assets
1	Level 1+2+3 hierarchy split on each line in the valuation hierarchy table must match total categorised at FVPL (and FVOCI for assets) for each line	Fin Instruments
5	There are unanswered questions on sheet "CP-Fin Inst"	Fin Instruments
10	Sub Validation FAIL	Add Information
100	Please ensure that the values balance	SoFP
0	NO CASH MOVEMENT DURING YEAR? PLEASE COMPLETE THE ADDITIONAL CASH FLOW BOXES	IFA
0	NO CASH MOVEMENT DURING YEAR? PLEASE COMPLETE THE ADDITIONAL CASH FLOW BOXES	Other Fin Assets
0	NO CASH MOVEMENT DURING YEAR? PLEASE COMPLETE THE ADDITIONAL CASH FLOW BOXES ABOVE TO REMOVE THIS WARNING	Other Fin Liabilities

- *Validation References* – account codes and other internal reference code concerned with specific validation error
- *User Explanations* – any comments entered on the validation errors.

OSCAR II WGA - Central Government Guidance

	16									Scoa	11112900			+		
17									Scoa	11812900			+			

In the Validation Report you can find the following selection criteria:

PLEASE NOTE:

Please refer to video guidance on Validation Report for more details on this worksheet.

7.2.5.3 Decimal Points Validation

This worksheet is designated for errors on decimal points. If you have entered decimal points across the DCT, these will display as errors on this tab.

Please note, no decimal points entry should be made, all entries should be rounded to the nearest whole number.

Make sure all errors are corrected as per the information provided in this worksheet and select 'Refresh'.

This is a change from the Excel Based DCT. In that, it was possible to place validations on each proforma tab meaning that decimal places could not be entered. The OSCAR II platform does not have this functionality. This means that users can enter decimal places, but this validation prevents them from being written to the database.

7.2.6 Audit Report

The Audit report is a view of all data submitted on the proforma tabs for the current year WGA return. This can be downloaded and shared with auditors to aide their review of your organisations' return. This only relates to organisations above the audit threshold. Please note that the Audit Report can take over one hour to run, depending on the number of CPID transactions. Limiting the number of CPID transactions will reduce the time taken. The time can be minimised by selecting "run as" and selecting "excel" when running the report, this will download an excel file to your desktop. However, note that this will still take a significant time to run.

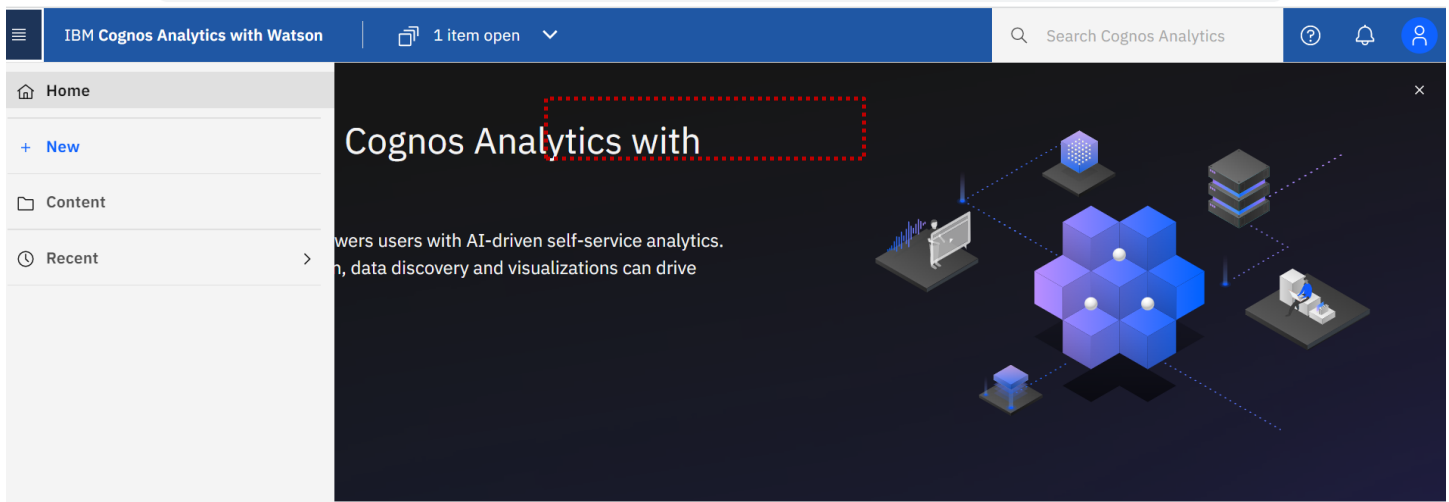

In some scenarios, it may be appropriate to download the individual tabs of the DCT instead, and also run the new primary financial statements report, accessed alongside the Audit Report options. The new primary financial statements report provides a header sheet with headline details, Statement of Comprehensive Income, Statement of Financial Position and Reserves. This could be used to provide the auditors with assurance.

7.2.6.1 Accessing the Audit Report

To access and view reports in OSCAR II, select 'View Reports':

Select content via the top left hand corner of the screen.

Select WGA.

The screenshot shows the IBM Cognos Analytics interface. The top navigation bar includes 'IBM Cognos Analytics with Watson', a 'Content' dropdown menu, a search bar for 'Cognos Analytics', and user profile icons. The main heading is 'Content', with a 'New +' button on the right. Below the heading, there are tabs for 'My content' and 'Team content'. The 'Team content' tab is active, displaying a grid of folders. The folders shown are: 'Security Testing' (Last Accessed 7/22/2020, 10:59 AM), 'testing' (Last Accessed 6/30/2021, 11:09 AM), and 'WGA' (Last Accessed 7/8/2020, 9:11 AM). There are also partially visible folders above: 'Security Testing Reports' (Last Accessed 4/21/2021, 5:09 PM), 'Management' (Last Accessed 10/13/2020, 6:13 PM), and '...' (Last Accessed 10/3/2019, 5:23 PM). A toolbar with various icons is located above the folder grid.

Select Audit Reports.

The screenshot shows the IBM Cognos Analytics interface, similar to the previous one. The top navigation bar is the same. The main heading is 'Content', with a 'New +' button on the right. Below the heading, there are tabs for 'My content' and 'Team content'. The 'Team content' tab is active, displaying a grid of folders. The folders shown are: 'Audit Reports' (Last Accessed 4/4/2022, 5:03 PM), 'Consolidation' (Last Accessed 5/5/2020, 9:30 AM), and 'DCT' (Last Accessed 3/16/2021, 6:33 PM). A breadcrumb trail at the top left of the content area reads 'Team content / WGA'. A toolbar with various icons is located above the folder grid.

Select Central Government – right clicking on the 3 dots.

OSCAR II WGA - Central Government Guidance

The screenshot shows the IBM Cognos Analytics interface. At the top, there is a navigation bar with "IBM Cognos Analytics with Watson", a "Content" dropdown menu, a search bar for "Cognos Analytics", and help and notification icons. Below the navigation bar, the "Content" section is active, with a "New +" button. The main area shows "Team content" selected, with a breadcrumb trail: "Team content / WGA / Audit Reports / Audit Reports". A report view titled "Central Government" is selected, and a context menu is open over it. The menu options are: "Run as", "Edit report", "Create report view", "View versions", "Copy to", "Add shortcut", "Properties", and "Details". The report view card shows "Last Accessed 9/27/2022, 9:39 AM".

Click on run as and select excel, click on run.

The screenshot shows the "Run as" dialog box in IBM Cognos Analytics. The dialog has a search bar labeled "Find". Under the "Format" section, there are radio buttons for "HTML" (selected), "Excel Data", "PDF", "CSV", "Excel", and "XML". Under the "Accessibility" section, there is a checkbox for "Enable accessibility support". On the right side, the "Delivery" section shows "Save as a report view (Name: Report view of Central Government, Location: My content)" and the "Languages" section shows "English (United States)". There is a "Reset defaults" link. At the bottom right, there are "Cancel" and "Run" buttons.

7.2.6.2 Running the Audit Report

Once you have selected the Central Government report:

1. Select your organisation from the selection box using the radio buttons, click on Display to select the number of CPID transactions recommended (this will display below), Cycle 1 or Cycle 2 and click on the number of CPID transactions.
2. Click 'Finish' to run the report. This will download to your desktop in excel.
3. This will populate all the tabs based on your submission, use the arrows to scroll through the tabs

Organisation	Number of CPID Transactions Required
HM Treasury	100

7.2.6.3 Proforma tabs in the Audit Report

Proforma tabs from the data input screens are replicated in the Audit Report. There are some added items to be aware of on the Audit Report as described below:

1. On the proforma tabs there are SCOA codes included for reference
2. To scroll through the page you can use the 'Page up' and 'Page down' buttons highlighted
3. Auditor comments can be captured

OSCAR II WGA - Central Government Guidance

CI&E Account: Net Operating Expenditure and Surplus/Deficit for the Year			
As at 31/03/2019

↑ Top ↑ Page up ↓ Page down ↓ Bottom

IMPORTANT:

The Audit Report should be run and shared with your auditors at 'Step 4 – Submit and close Cycle 1' and again at 'Step 6 – Lock for Cycle 2'.

7.2.6.4 Additional tabs in the Audit Report

There are some addition tabs on the Audit Report which are presented in a different format or not included on the data input screen.

Front Page

This page shows key information including validations, contact details, and timestamps for the key workflow stages. A report generation date is included to ensure version control is preserved.

OSCAR II WGA - Central Government Guidance

The screenshot shows the 'Administrative Information' and 'Validation Status' sections of the reporting tool. The 'Administrative Information' section includes:

- Name of Entity : Cabinet Office
- Report Generated by : Vijay Sima
- Report Generated Date : Jul 6, 2020 6:52:56 PM

The 'Validation Status' section includes:

- Hard Validations Remaining :
- Soft Validations Remaining :
- Above / Below Threshold : Above

The 'Contact Details' section includes:

- Entities Contact Name :
- Entities Contact Telephone Number :
- Entities Contact E-mail Address :
- Auditors Name :
- Auditors Contact Name :
- Auditors Contact Telephone Number :
- Auditors Contact E-mail Address :

The 'Workflow Status' section includes:

- Submission started : 2020-06-09 15:05:07
- Publish :
- Locked for Audit :
- Reopened For Cycle 2 :
- Locked For Cycle 2 :

Variance Analysis

This shows the difference in data from Cycle 1 to Cycle 2.

The screenshot shows the 'Variance Analysis' section of the reporting tool. It includes a table with the following data:

	Cycle 1	Cycle 2	Variance
11211000	633,436	633,436	
11221000	-32,811	-32,811	
11311000	1,664,774	1,664,774	
11321000	-8,309	-8,309	
11511000	64,984	64,984	
11521000	-31,953	-31,953	
11711000	19,038	19,038	
11911000	297,286	297,286	
11921000	-35,846	-35,846	
12411000	8,266	8,266	
12421000	-166	-166	
12511000	42,041	42,041	
12521000	-259	-259	
12611000	201,094	201,094	
12621000	208	208	
14211000	20,464	20,464	

CPID_Transaction_PY

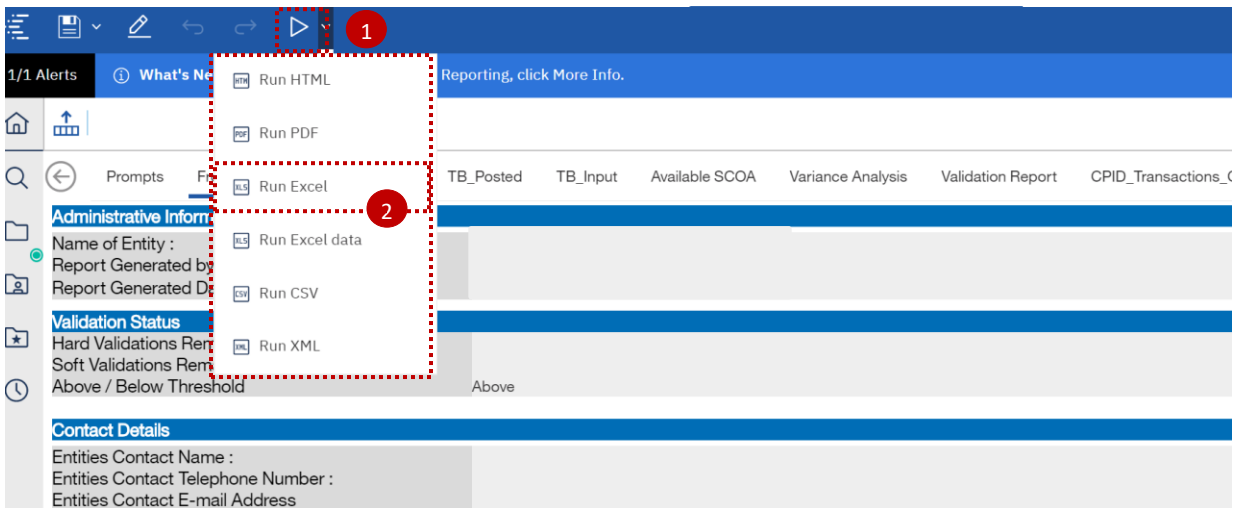

This shows the prior year CPID transactions data.

Account Code	Status	Status Comment
1111000	G	This code cannot be used for CPID input.
1112000	G	This code cannot be used for CPID input.
1112900	G	This code cannot be used for CPID input.
1113000	G	This code cannot be used for CPID input.
1114000	G	This code cannot be used for CPID input.

7.2.6.5 Exporting the Audit Report

You can export the Audit Report in multiple formats to share with your auditors for review:

1. Select your preferred option from the drop-down list to run or export the report indicated by the 'play' button
2. It is advised to export the report in excel, please select 'Run Excel'.

3. The following screen will be presented to indicate the report is being downloaded and can be saved to your device.

7.3 Next steps

After completing the proformas and passed all validations, you would have successfully submitted the WGA return.

8 Annex A – Proforma tabs

Worksheet Description	Comments	Action
SoCI	Statement of Comprehensive Income	The SOCI provides a summary of a company's net assets over a given period. The Income and Expenditure account is populated from the other worksheets within the DCT once they are complete. You will notice that this tab does not have an option to input or copy and paste data because the data in this worksheet is mainly feeding from the rest of the worksheets or is for a calculation/formulae. Last year's balances are already populated.
SoFP	Consolidated Statement of Financial Position	The SOFP is populated from the other worksheets within the DCT once they are complete. Last year's opening balances will be automatically pre-populated.
Restatement Analysis		<p>The Restatement tab represents a single entry for restatements which auto-populates the relevant proforma tabs.</p> <p>Any entity who has made a prior period adjustment must complete this tab, detailing transactions at SCOA level, that affect their statements.</p>
Tax	Taxation Income	The worksheet should only be used to record taxation income.
Operating Income		The worksheet should be used to record operating income such as grants, levies, fees, and rental income, amongst others.
Operating Costs		This worksheet includes profit and/or loss on disposal of PPE, IFA, financial assets/liabilities and on noncurrent assets held for sale.
FinCost	Finance income and expenses including all interest income/expense, dividends income/expense and fair value gains/losses and FX movements	The worksheet should be used to record interest due, interest receivable, the unwinding of discounts on provisions, fair value gains and losses on financial assets/liabilities; interest element of PFI contract and other items such as discontinued operations
PP&E	Property, Plant & Equipment	This tab includes Property, Plant and Equipment Costs. Last year's brought forward balances are included. any changes to these must be made in the Restatement Analysis tab and entered on the SOFP tab.

OSCAR II WGA - Central Government Guidance

		The worksheet also asks for details of asset financing and asset ownership. The details must be provided otherwise the data validation will fail.
IFA	Intangible Fixed Assets	This is set up in a similar way to the PP&E tab. Please note the additional cash flow information which may be required at the bottom of both tabs.
T&OR	Non-current & Current trade and other receivables	This tab includes details of Non-current & Current trade and other receivables. Last year's brought forward balances are included. Any changes to these must be made in the Restatement Analysis tab. Closing balances are shown gross of impairment allowance.
T&OP	Non-current & current trade and other payables	This tab includes details of Non-current & Current Trade and other Payables. There is another information section and additional analysis section for other current and non-current payables at the bottom of the page. The total should match the amount mentioned in the tables.
Other Fin-Assets	Other Financial Assets	The worksheet is included in the DCT to comply with the requirements of the IFRS 9. This approach is based on the financial asset's contractual cash flow characteristics and business model in which it is held that will see financial assets classified and measured at amortise cost, fair value through comprehensive income or fair value through profit and loss. The top table asks for asset held by the entities as shown in their resource accounts (100%). The worksheet goes on to ask for a split between internal and external balances. Please ensure this internal/external split aligns with your CPID transaction entry later on.
Other-Fin-Liabilities	Other Financial Liabilities	This includes requirements for accounting for changes in the fair value of an entity's own debt instruments when the fair value option has been applied. Again, this tab asks for an internal/external split, which must match to your CPID data. Please note the lines which are only included to be used by specific entities, which are marked accordingly.
Fin Instruments	Financial Instruments	The financial instruments table will contain data fed through from the financial assets and financial liabilities tabs, as well as from trade and other payables and trade and other receivables. Therefore, please ensure you have entered data

		<p>into those tabs before beginning financial instruments.</p> <p>The tables on this worksheet ask for details which need to be disclosed in order to comply with IFRS requirements. As a minimum, you will need to provide details on categories of financial instruments, fair values and derivatives. There are additional tables which you may need to complete depending on the answers you give to four questions at the top of the worksheet.</p> <p>DCT preparers need to complete the financial instruments disclosures in line with WGA disclosure requirements which are in accordance with IFRS and which must be standardised to record information from all WGA bodies. While bodies should provide information that is consistent with their resource accounts, they must ensure that they complete the standardised format and disclosures required for WGA purposes.</p> <p>Definitions and classifications of financial assets and liabilities can be found in IFRS 9 and IFRS 7. Financial guarantees are a common form of financial instrument and should be disclosed as such, rather than in provisions or elsewhere.</p> <p>The disclosure of risk exposures arising from financial instruments is intended to capture material exposures for the purposes of WGA. Credit risk disclosures On the 'Financial Instruments' worksheet, in the 'Credit Risk' section, there is a table entitled 'Gross credit exposure by credit rating at year end' that requires financial assets to be categorised by their credit rating from external rating agency designation or equivalent at year end. The column 'Not rated' is for those financial assets that have no rating because, for example, the financial asset relates to a company in liquidation. If a body has not undertaken the exercise of rating its financial assets for its statutory accounts because the credit risk is not material; there is no need to complete this table. If credit risk is material, the body should look at each category of financial asset and consider how it would be rated. For example, if investments or financial guarantees relate to a company owned by the government, a government rating (AAA) might be appropriate.</p>
--	--	---

OSCAR II WGA - Central Government Guidance

		<p>The Financial Assets – expected credit loss table on this worksheet has changed when compared with the previous years. According to IFRS 9, on initial recognition of a relevant financial asset, an allowance for receivables and expenses in the P&L should be created by identifying the present value of lifetime expected credit loss and multiplying by the probability of default in the next 12 months. This is then reviewed and updated in subsequent periods. Where the loss allowance has been calculated based on this method, it should be entered into the appropriate cell for 12 months expected credit losses.</p> <p>You need to identify expected credit loss impacting financial assets held at amortised costs, split between the categories for Stage 1, 2 and 3 or the simplified impairment rule & paragraph 5.5.15 of IFRS 9 (trade receivable, contract assets or lease receivables for which the loss allowances are measured in accordance with paragraph 5.5.15).</p>
Cash & Inventories	Cash & Inventories	<p>Collects Information on Inventories, Cash Balance & Cash Equivalents including Funds held with National Lottery Distribution Fund.</p> <p>Last year’s brought forward balances are included. Any changes to these must be made in the Restatement Analysis tab.</p>
Provisions	Provisions	<p>This worksheet collects data of discounted cash flows along with the expected timings.</p> <p>Using the timings of expected cash flows, we are showing the provisions as current and non-current on the face of the SOFP. In this respect, we are following the proforma’s found in IAS1</p>
Reserves	Reserves	<p>General fund table and Revaluation & Reserves Table. Please note that pensions are now no longer separated out from reserves. These are included within the general reserve. An accounting test has been added to maintain oversight of pension balances in reserves and the income statement.</p>
Contingent Liabilities	Quantifiable and unquantifiable contingent liabilities	<p>Completion of the worksheet is compulsory. Failure to enter data in a cell (0 if there is no balance to record) will result in the failure of data validation tests. Please take note of when data required is for total balances, and when it is only within the WGA boundary.</p>

OSCAR II WGA - Central Government Guidance

<p>Assocs and JVs</p>	<p>Joint Ventures and Associates</p>	<p>Ability to show the investment in JV's and Associates together with some disclosure requirements thereof.</p> <p>The DCT is governed by the disclosure of IAS 28 and follows the FReM: Joint ventures and associates are accounted for on an equity basis, meaning that only a body's proportion of its holding is shown in the accounts. The initial investment is recorded as an asset and is then adjusted to any subsequent movement on post-acquisition reserves. We would expect the following double entries and SCOA's to be used:</p> <p>Initial recording of investment:</p> <p>DR Asset to SCOA 16612000 (NCA – Joint Ventures- Additions) or 16622000 (NCA – Associates – Additions)</p> <p>CR Bank</p> <p>Subsequent recording of profit:</p> <p>DR Asset to SCOA 16616000 (NCA-Joint VenturesProfit/(Loss)) or 16626000 (NCA-AssociatesProfit/(Loss))</p> <p>CR Profit to SCOA 63311500 (Other I&E –Share of Loss JV&A)</p> <p>Subsequent recording of loss:</p> <p>DR Loss to SCOA 63311500 (Other I&E –Share of Loss JV&A)</p> <p>CR Asset to SCOA 16616000 (NCA-Joint VenturesProfit/(Loss)) or 16626000 (NCA-AssociatesProfit/(Loss))</p> <p>Other scenarios: Dividends received from the associate of joint venture are treated as a reduction in the asset, so the double entry is:</p> <p>DR Bank</p> <p>CR Dividends to SCOA 16617000 (NCA-Joint Ventures-Dividends) or 16627000 (NCAAssociates-Dividends)</p>
<p>Add Information</p>	<p>Additional Information</p>	<p>The information is required to produce notes to the accounts. The worksheets are for information on leases, PFI, capital commitments, accounting policies, audit qualifications etc.</p> <p>DCT preparers need to complete the private finance initiative (PFI) disclosures in the DCT in line with WGA disclosure requirements which are in accordance with the 2020-21 FReM. in line</p>

OSCAR II WGA - Central Government Guidance

		<p>with paragraph 7.6.14 of the 2020-21 FReM, PFI projects are required to be disclosed as follows: for each 5-year banding disclose the total payments (i.e. not an annual payment) for contracts expiring within that period. Essentially the PFI disclosure explicitly asks for capital, interest and service cost element of the contract which must be analysed over the various time brackets on a cash flow basis.</p>
Pensions	Funded and unfunded pension schemes	<p>This worksheet will be used by the main pension bodies and those bodies that have stand-alone pension arrangements. It should not be used by bodies that contribute only to a centrally funded pension scheme such as the 'Principal Civil Service Pension Scheme'.</p>

9 Annex B – CG forms

9.1 CG-01 – WGA Agreement of Balances and Transactions Form

This form is to document the agreement of transactions and balances between central government WGA bodies. The form includes further instructions on how to complete it.

Consolidation Managers should ensure that the form is completed in respect of all balances and transactions above £5 million with other WGA bodies.

Where there are significant differences (more than £200,000) between amounts recorded by two bodies, the CG-01 should include details of the differences, including supporting papers. The supporting papers should include detailed explanations and further details that may be relevant, such as extracts from the accounts and nominal amounts of contracts.

A copy of the CG-01 and supporting papers should be attached to CG-02 'Notification of Completion of WGA Agreement Process'.

If an anticipated Agreement of Balances form has not been received in a timely manner from the provider entity, then the receiving or purchasing entity should initiate the process and forward an Agreement of Balances form with a view to completing the process by the deadline date.

9.2 CG-02 – Notification of Completion of WGA Agreement Process & CG02 Annex – Departmental Balances with Local Authorities

This form is to confirm that transactions and balances have been agreed with other WGA bodies and to detail where there have been any differences in the amounts to be agreed.

Alongside to the CG-02 should be:

- a copy of the CG-01 and supporting papers where there are significant differences (more than £200,000) between amounts recorded by two bodies,
- annex 'Departments balances with Local Authorities' which records transaction amounts between central government departments and local authorities (it is not required that you agree these balances directly with the local authority)

9.3 CG-03- Confirmation of Minor Body status

This form is to confirm minor body status. Consolidation Managers of minor bodies should complete the form.

Completed forms should be sent to the Treasury WGA Team at wga.team@hmtreasury.gov.uk.

9.4 CG-04 -Management Review Checklist

All entities that submit a WGA return must complete a CG-04 form. This form is to document management's review of the WGA submission. **There is no longer a requirement for CEO's to lock the Oscar II submission prior to submission.**

The Management Review Checklist provides assurance that proper procedures are in place for providing WGA data in line with the entity's accounts and that the quality of WGA data is of the standard required for a true and fair audit opinion. This checklist informs and records the management processes of preparation, review and validation of WGA submissions.

Part 1 - should be completed by central government bodies consolidated within WGA, including departments (and sub-consolidating departments in respect of the departmental submission), ALBs (ALB's that are consolidated will not need to complete such forms), public corporations, pension schemes and managed funds.

Part 1b – has additional questions only for public corporations.

This needs to be completed and signed by a relevant certifying officer. We are happy to accept electronic signatures but the forms must be emailed as an attachments to the WGA Team.

9.5 CG-05 - Notification of Audit Completion

This form is completed at the end of the DCT audit process and signed-off by the Consolidation Manager. This should then be forwarded to the auditors, who will provide it to Treasury along with the version of the Auditor Report that they signed off on.

10 Annex C - Acronyms (A-Z)

Acronym	Description
%	Percentage
£	Pounds sterling
£k	Thousands, pounds sterling
ALB	Arm's length body
CG	Central Government
CLOS	Clear line of sight
CPID	Counter party identification
CR	Credit
Cycle	Collection year
DCT	Data collection tool
DR	Debit
FinCost	Financial costs
FReM	Financial Reporting Manual
FVOCI	Fair Value through Other Comprehensive Income
FVPL	Fair value through profit or loss
FX	Foreign exchange
Hard validation	Will show a warning which will prevent a user from moving onto the next step i.e. submit
HMT	Her Majesty's Treasury
I&E	Income and Expenditure
IAS	International Accounting Standard
IFA	Intangible fixed asset
IFRS	International Financial Reporting Standard
JV	Joint Venture
JV&A	Joint venture and associates
LG	Local Government
MOG	Machinery of Government
MR	Match relationship
N/A	Not applicable
NAO	National Audit Office
NCA	Non-current asset
NDPB	Non departmental public body
O-Fin-Assets	Other financial assets
O-Fin-Liab	Other financial liabilities
OSCAR	Online System for Central Accounting and Reporting
PFI	Private Finance Initiative
PFI team	Private Finance Initiative team
PPE	Property, Plant, and Equipment
PPP	Public Private Partnerships

OSCAR II WGA - Central Government Guidance

Acronym	Description
SCOA	<i>Standard chart of account</i>
SOCI	<i>Statement of Comprehensive Income</i>
SOPF	<i>Statement of Financial Position</i>
<i>Soft validation</i>	<i>Will show a warning that the value entered may need to be checked however will not prevent a user from progressing to the next step</i>
T&OP	<i>Trade and other payable</i>
T&OR	<i>Trade and other receivable</i>
TB	<i>Trial balance</i>
WF	<i>Workflow</i>
WGA	<i>Whole of Government Accounts</i>
