28<sup>th</sup> April

Land at Tilekiln Green, Start Hill, Gt Hallingbury  
Consultation On S62A/2023/0017- Development of the site to create an open logistics facility with associated new access and ancillary office and amenity facilities

We strongly object to this development. The infrastructure and the roads in the surrounding area cannot cope with any more traffic. We have experienced vast housing developments over the recent years with more still to start meaning more vehicles travelling on the roads to Work, Schools and shopping mostly on B1256 and junction 8 of M11. Often there is traffic at a standstill on the roundabout due to vehicles (cars & HGV) trying to access The Welcome Break from A120 and M11.

Gordon Silvester
