# Reimagining Government Property through Strategic Partnerships

Creating great spaces to work

We recognise our success is equally the success of our clients and our partners. We partner with private sector experts to develop new ways of thinking; to challenge the standards; to ensure we're improving; to identify efficiencies and innovations, together.

Our Strategic Partner Charter recognises the ten principles that underpin our commitment to always delivering better for our clients, customers and stakeholders.

- Partnership
- Clients and customers
- People
- Environment
- Strategy and planning
- Responsibility
- Data
- Communication
- Innovation
- Value
