Subject: s62a/2023/0017-land at Tilekiln green start hill gt hallingbury

I have had to write to you again on this planning application for Wren kitchen.

This should be rejected again by you for the same reasons as before, They were declined due to the impact this will have on the local area and the wildlife. The roads can't cope with the traffic and any more will just sent lorries and car through a small village so they can get to the A120 without going over and around the M11 junction.

Do they not understand that when planning has been declined they cant just submit another application and grind us all down.

No should mean No

Regards

Duncan Goodacre
