

**NOTES FOR GUIDANCE (NFG) FOR OFFICIAL VETERINARIANS AND EXPORTERS**

This document should not be read as a standalone document but in conjunction with 9085EHC.

**Scope of the certificate**

This certificate may be issued for the export of primates where the certification takes place in Wales, Scotland or England, i.e. Great Britain only.

This certificate may be issued only for movement of primates from an approved confined establishment. OV may certify compliance of being a confined establishment based on previous and continuing Balai approval.

**Country of origin**

Although the certificate has been prepopulated with UNITED KINGDOM, this certificate should and can only be issued for animals that are certified in England, Scotland and Wales (i.e. Great Britain).

**Certification**

The basic principles of certification apply and although this is not a harmonised EU level EU entry certificate, the general requirements that the EU specifies for its harmonised certificates should be followed.

**Place of loading**

In the case of traveling by plane, write "name of the airport". In case of traveling by sea, write "name of the port". In case of traveling by land, write "name of the establishment where the animals are loaded onto means of transport".

**Means of transport**

Select one or more of the following means of transport for animals or goods leaving the country of dispatch, and indicate its identification:

- aircraft (indicate the flight number);
- vessel (indicate the ship name and number);
- railway (indicate the train identity and wagon number);
- road vehicle (indicate the registration number with trailer number, if applicable).

In the case of a ferry, tick 'vessel' and identify the road vehicle(s) with registration number (with trailer

number, if applicable), in addition to the name and number of the scheduled ferry.

### **Journey log**

A journey log is not required for primates, therefore 'no' should be selected.

### **Total number of packages**

Enter the number of containers or cages in which the animal(s) travel.

### **Animal Health Attestations**

II.1.1. At the time of publication of these notes for guidance, the diseases listed which are relevant to primates, according to Regulation (EU) 2018/1882 are:

- Infection with rabies virus
- Ebola

II.2.1. Approval of the premises (Balai or Confined Establishment status) requires that all deaths of unknown causes are investigated thoroughly. Therefore, if there are no 'current' deaths at the establishment (this is not limited to the species being exported) that are still under investigation, even though there have been deaths in the history of the establishment, the attestation can be certified.

**Disclaimer:** This certificate is provided based on information available at the time and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the APHA Centre for International Trade, in Carlisle, see the link below.
