Subject: Section 62A /2023/0017

I Am objecting to this application on the grounds it does not belong on a small entrance to the village plus they want 24/7.access In the last meeting it was rejected by all 10 officials this is the third application that has has been turned down. This B8 facility is not suitable next door to a listed building. Laws are made to be followed we cannot just say they're out of date because it suits them. Either is the law or not. Noise levels,from open yards light pollution/ intrusion will impact mental health, 24/7 plus they are saying will employ 130 staff they are simply moving from the Stansted depot up the road. Again they are lies. Are they going to terminate them and re employ them plus to show that they will be employing or create new jobs if they are here. 3500 HGV movements every week this lorry depot is in the wrong location, country lane, When the councillor asked on of senior representatives of wren why was no one there to open the gate when the councillors came to inspect the land he did not looked bothered. Why was he not bothered does he know the outcome just watch the video hearing. We all feel that they wanted it to go to the Secretary of State Are only fear is that we are dealing with one of the biggest contributors to the Conservative Party and We are worried.
Kind regards
Nigel hall.
