

### **Third party response to provisional findings**

We are a very large [redacted] Cat B buyer of vehicles. We sell [redacted] parts nationwide. If the merger goes ahead, Copart can control the Cat B cars. They would control everything. We employ [redacted] staff. We buy [redacted] per week. Hills is [redacted] from us. Would it affect us .... I think so. Copart have taken over America ... is the UK next? Personally it's a tough one.

I think my company would struggle. They could take all the best stock and control what they want to go to UK market for auction.
