Subject: S62A/2023/0016

We wish to object to the above planning application in the strongest possible terms, for the rolling reasons-

Bulls Field is designated as a CPZ [Countryside Protection Zone] No development should even be considered.

Our area already suffers with chronically bad water pressure.

Bulls Field and the adjacent Priors Wood are havens for wildlife , and any development would be hugely detrimental.

Smiths Green /Bambers Green road is a protected lane and would not cope with the extra traffic.

Bulls Fields has always been a productive arable farming asset, only brown field sites should be considered for development.

The streetlights that the development would require are totally out of keeping.

Any development would destroy the rural nature nature of Smiths Green.

Yours sincerely
Michael and Jan Smith
