## Have your say, inform key decisions

The DESNZ Public Attitudes Tracker is an official Government study that allows your views to be heard on a wide range of issues affecting how people live and work in the UK.

Please answer as honestly as you can. If you would prefer not to answer a question, you have the option to leave it blank.

### Who should complete the questionnaire?

Up to four people in your household can complete the questionnaire as long as they are all aged 16 or over. If you need more paper questionnaires, please use the contact details in your invitation letter.

### How do I fill in the questionnaire?

1. Most questions can be answered by putting a cross in the box next to the answer that applies to you, like this:
2. Some questions will ask you to: ➔ **Please cross one box only** and some will ask you to:  
➔ **Please cross all boxes that apply.**
3. Some questions may not apply to you and you will be taken to the next one that does by following an arrow like this: ➔ **Go to Q50** or a box like this: **Go to Q26**
4. Please try to answer every question that applies to you. If you cannot remember or do not know, please cross the relevant box where shown or leave the question blank.
5. If you change your mind about an answer you have given, completely block out the box you have crossed like this,  and then put a cross in your preferred box.

- Very concerned
- Fairly concerned
- Not very concerned
- Not at all concerned
- Don't know

**Q9** The UK government is aiming to reduce UK greenhouse gas emissions to 'net zero' by 2050. This will involve significantly reducing emissions produced by our industries, transport, food, and homes. Any remaining emissions will be balanced by actions that reduce greenhouse gases already in the atmosphere, such as planting trees.

**Before today, how much, if anything, did you know about the concept of 'net zero'?**

- Never heard of this
- Hardly anything but I've heard of this
- A little
- A fair amount
- A lot

**Q10** The next question is about renewable energy. This includes a number of different forms of energy, such as wind power, solar energy and biomass.

**Q12 In the lead up to 2050, the way we heat almost all of our homes and buildings will need to change in order to reach the UK government's net zero target.**

**Before today, how much, if anything, did you know about this?**

- Never heard of this
- Hardly anything but I've heard of this
- A little
- A fair amount
- A lot

**Q13 The next question is about low-carbon heating systems.**

**By this we mean environmentally friendly heating systems which no longer rely on conventional gas central heating but instead use energy from low-carbon alternatives such as hydrogen, the sun, or heat pumps which draw heat from the ground, air or water to heat your home.**

- Oppose
- Strongly oppose
- Don't know

**Q16 Carbon capture and storage is a technology that stops greenhouse gases entering the atmosphere.**

**It typically involves capturing carbon dioxide (CO<sub>2</sub>) emissions from power stations or industrial facilities where emissions are high. The CO<sub>2</sub> is then piped to offshore underground storage sites, where it can be safely and permanently stored.**

**Before today, how much, if anything, do you know about carbon capture and storage?**

- I don't think it would be a long term solution
- Other (please specify)
