

## Overseas Trade Statistics (OTS): Revisions to Data (July 2015)

This revision involves 2 separate trade challenges. The first trade challenge involves amending trade declarations for values of UK imports from Norway between 2011 and 2014. The changes for this challenge will affect six commodity codes over thirty eight months. This will result in value increases of £1.4 billion for 2011, £2.5 billion for 2012, £3.1 billion for 2013, and £2.2 billion for 2014. Net mass changes will result in increases of 5.2 billion kg for 2011, 8.5 billion kg for 2012, 8.8 billion kg for 2013, and 8.3 billion kg for 2014.

Table 15 shows the impact the changes will have on the annual values for the individual commodities involved in this revision.
