**Q068 - QDataLink: Whether they agree to data linkage to other sources [SINGLE CODED]**

Thank you for taking part in this interview.

Would it be possible for DIT to link your responses to data sources held by the following government departments:?

- Department for International Trade (DIT)
- Department for Business Energy and Industrial Strategy (BEIS)
- Her Majesty's Revenue and Customs (HMRC)

By linking this data, we can reduce the burden of our surveys on your business and can improve the evidence that we use.

Consent will remain indefinite but if you wish to withdraw consent at any point, you can contact the research team at Ipsos MORI. Any data linked up to that point will remain but no future linking will take place. Data will only be used to inform DIT operations – we will never release information that identifies any individual business publically – and your survey responses remain strictly confidential. Do you give your consent for us to do this?

INTERVIEWER NOTE: IF NECESSARY: These data sources include:

- DIT records hold information on which services provided by DIT you have accessed and when. This data allows us to see a complete picture of how you use exporting services offered by DIT without needing to survey you on all services you have used.
- The Business Structures Database held by BEIS contains information businesses record through VAT and PAYE (Pay As You Earn).
- HMRC hold data on export outcomes across all UK businesses.

IF NECESSARY: We learn a lot about your experiences from the questions we ask in the study, but adding extra information from administrative records helps us to build a more complete picture of other ways which the service you have used has helped your business.
