Part II. Certification

Animal Health

I, the undersigned official veterinarian/official inspector, hereby certify that the composite product described in Part I of this certificate:

(*) EITHER [AH/P302B Requirements for meat products, treated stomachs, bladders and intestines

Meat products, treated stomachs, bladders and intestines in any quantity which meet GB animal health requirements and contain the following meat constituents which meet the criteria indicated below:

Species (A)	Treatment (B)	Origin (C)
]		

(*) AND/OR [AH/P303B Processed dairy products requirements

Processed dairy products in an amount of half or more of the substance of the composite product or not shelf stable dairy products in any quantity that meet the following criteria:

Version 1.1 Aug-23 2 / 4

II.a. Certificate reference no.	II.b.

(a)	have been	produced in the	following	country/ies:
-----	-----------	-----------------	-----------	--------------

Origin		

- (b) have been produced from milk obtained from animals:
 - (i) under the control of the official veterinary service;
 - (ii) belonging to holdings which were not under restrictions due to foot-and-mouth disease or rinderpest; and
 - (iii) subject to regular veterinary inspections to ensure that they satisfy the GB animal health conditions as listed in the accompanying notes for completion under AH/303B(b);
- (c) are dairy products made from raw milk obtained from:
 - (*) **EITHER** [cows, ewes, goats, buffaloes and prior to import into the territory of Great Britain have undergone or been produced from raw milk which has undergone at least one of the following treatments, according to GB animal health requirements as listed in the accompanying notes for completion under AH/303B(c):
 - (*) **EITHER** [(i) a pasteurisation process;]
 - (*) AND/OR (*)[(ii) a sterilization process;]
 - (*) AND/OR [(iii) an ultra-high temperature (UHT) treatment;]
 - (*)**AND/OR** [(iv) a high temperature-short time pasteurisation treatment (HTST) of milk with a pH below 7.0;]
 - (*) **AND/OR** [(v) a high temperature-short time pasteurisation treatment (HTST) of milk with a pH equal to or greater than 7.0, immediately followed by:]

(*) **EITHER** [lowering the pH below 6 for one hour;]

(*) OR [additional heating equal to or greater than 72°C, combined with desiccation;]]

(*)AND/OR

[animals other than cows, ewes, goats or buffaloes and prior to import into the territory of Great Britain have undergone or been produced from raw milk which has undergone at least one of the following treatments, according to GB animal health requirements as listed in the accompanying notes for completion under AH/303B(c):

- (*) **EITHER** [(ii) a sterilization process;]
- (iii) an ultra-high temperature (UHT) treatment;

(*) AND/OR [AH/P304 Processed egg products requirements

Processed egg products that originate from the approved country/ies

were produced from eggs coming from an establishment which at the date of issue of the certificate is free from highly pathogenic avian influenza, satisfies GB requirements, and

(*) **EITHER** [within a 10 km radius of which (*) [including, where appropriate, the territory of a neighbouring country,] there has been no outbreak of highly pathogenic avian influenza or Newcastle disease for at least the previous 30 days;]

(*) **AND/OR** [the egg products were processed in compliance with Notes for Completion statement reference(s) (*)[A1] (*)[A2] (*)[B] (*)[C1] (*)[D1] (*)[D2] (*)[E1] (*)[E2];]

Official Veterinarian / Official Inspector				
By signing this certificate, I certify that the requirements laid out above and in the accompanying notes for completion have been met.				
Name (in capital letters):	Qualification and title:			
Date: Stamp:	Signature:			

Version 1.1 Aug-23 4 / 4

^(*) Keep as appropriate.

Part III. Notes for completion

These notes for completion must be read and understood by the certifying officer before signing the certificate. Notes are set out in sections that correspond to the sections in the certificate. By signing this certificate, certifiers are verifying that the consignment meets the requirements set out in the certificate and any relevant corresponding notes for completion.

These notes do not need to be printed as part of a paper certificate that accompanies the consignment or in any electronic copy of the certificate.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

References to GB requirements refer to the requirement(s) of Great Britain as set out in the accompanying notes for completion.

Part I

Box reference I.7: Insert ISO code of the country of origin of the meat product, treated stomachs,

bladders and intestines as listed in a document relating to 'meat products' published on gov.uk, in accordance with Decision 2007/777/EC and/or for processed dairy product as listed in a document relating to 'milk and milk products' published on gov.uk, in accordance with Commission Regulation (EU)

No 605/2010. (†)

Box reference I.11: Name, address of the establishments of production of the composite product(s).

Name of the country of origin which must be the same as the country of origin in

box I.7

Approval number is not applicable.

Box reference I.15: Registration number (railway wagons or container and road vehicles), flight

number (aircraft) or name (ship). In the case of transport in containers, the total numbers of containers and their registration number and where there is a serial number of the seal it must be indicated in box I.23. In case of unloading and reloading, the consignor must inform the border control post if introduction into

Great Britain.

Box reference I.19: Use the appropriate Harmonised System (HS) code of the World Customs

Organisation such as: 16.01; 16.02; 16.03; 16.04; 16.05; 19.01; 19.02; 19.05;

20.04; 20.05; 21.03; 21.04; 21.05; 21.06.

Box reference I.20: Indicate total gross weight and total net weight.

Box reference I.23: For containers or boxes, the container number and the seal number (if

applicable) must be included.

Box reference I.28: Manufacturing Plant: insert the name and approval number if available of the

establishments of production of the composite product(s). Nature of commodity: in case of composite products containing meat products, treated stomachs, bladders and intestines indicate" meat product", "treated stomachs", "bladders" or

"intestines". In case of composite product containing dairy products indicate

"dairy product".

Version 1.1 Aug-23 NFC 1 / 4

Part II

Animal Health

AH/P302B Requirements for meat products, treated stomachs, bladders and intestines

Meat products as defined in point 7.1 of Annex I to Regulation (EC) No 853/2004 and treated stomachs, bladders and intestines as defined in point 7.9 of Annex I to Regulation (EC) No 853/2004 that have undergone one of the treatments laid down in Part 4 of Annex 2 to Decision 2007/777/EC.

GB animal health requirements are in Commission Decision 2007/777/EC.

For completion of the table:

- (A) Insert the code for the relevant species of meat product, treated stomachs, bladders and intestines where:
 - BOV = domestic bovine animals (Bos Taurus, Bison bison, Bubalus bubalis and their cross breeds);
 - OVI = domestic sheep (Ovis aries) and goats (Capra hircus);
 - EQI = domestic equine animals (Equus caballus, Equus asinus and their cross breeds):
 - POR = domestic porcine animals (Sus scrofa);
 - RM = Domestic rabbits;
 - PFG = domestic poultry and farmed feather game;
 - RUF = farmed non-domestic animals other than suidae and solipeds;
 - RUW = wild non-domestic animals other than suidae and solipeds;
 - SUW = wild non-domestic suidae;
 - EQW = wild non-domestic solipeds;
 - WL = wild lagomorphs;
 - WGB = wild game bids
- **(B)** Insert A, B, C, D, E or F for the required treatment as specified and defined in a document relating to 'meat products' published on GOV.UK, in accordance with Commission Decision 2007/777.
- (C) Insert the ISO code of the country of origin of the meat product, treated stomachs, bladders and intestines as listed in Table 2 in a document relating to 'meat products' published on GOV.UK, in accordance with Commission Decision 2007/777 and, in the case of regionalization by retained EU law for the relevant meat constituents, the region as indicated in Table 1 in a document relating to 'meat products' published on GOV.UK, in accordance with Commission Decision 2007/777 or Great Britain.^(†)

The country of origin of the meat products must be one of the of following:

EITHER the same as the country of export in box reference I.7,

AND/OR Great Britain,

AND/OR a third country or parts thereof authorised to export to Great Britain meat products treated with treatment A in accordance with Commission Decision 2007/777.

AH/P303B Processed dairy products requirements

Dairy products are defined in point 7.2 of Annex I to Regulation (EC) No 853/2004.

(a) For completion of the table:

Origin (A)

Insert the country of origin of the dairy products, which must be one of the following:

EITHER the same as the country of export in box reference I.7:

Version 1.1 Aug-23 NFC 2 / 4

AND/OR Great Britain;

AND/OR a third country authorised to export to Great Britain milk and dairy products in

accordance with Regulation (EÜ) No 605/2010 listed in Column A or B as set out in a document relating to 'milk and milk products' published on GOV.UK, where the third country where the composite product is produced is also authorised under the same

conditions, to export to Great Britain milk and dairy products. (†)

The country of origin indicated in box reference I.7 must be listed in accordance with Regulation (EU) No 605/2010 in a document relating to 'milk and milk products' published on GOV.UK, ^(†) and the treatment applied must conform to the treatment provided for in that document for the relevant country

- **(b)** Relevant GB Animal health conditions are laid down in Chapter I of Section IX of Annex III to Regulation (EC) No 853/2004 and in Directive 2002/99/EC.
- (c) (i) Pasteurisation process: The relevant GB animal health standard with regards to the pasteurisation process refers to a treatment involving a single heat treatment with a heating effect at least equivalent to that achieved by a pasteurisation process of at least 72°C for 15 seconds and where applicable, sufficient to ensure a negative reaction to an alkaline phosphatase test applied immediately after the heat treatment.
 - (ii) Sterilization process: The relevant GB animal health standard with regards to the sterilization process to achieve an F_0 value equal to or greater than three.
 - (iii) Ultra-high temperature (UHT) treatment: The relevant GB animal health standard with regards to ultra-high temperature (UHT) treatment is at not less than 135°C in combination with a suitable holding time.
 - (iv) A high temperature-short time pasteurisation treatment (HTST) of milk with a pH below 7.0: The relevant GB animal health standard with regards to a high temperature short time pasteurisation treatment (HTST) at 72°C for 15 seconds or a treatment with an equivalent pasteurisation effect, applied to milk with a pH lower than 7.0 achieving, where applicable, a negative reaction to an alkaline phosphatase test.
 - (v) A high temperature-short time pasteurisation treatment (HTST) of milk with a pH equal to or greater than 7.0: The relevant GB animal health standard refers to a HTST pasteurisation treatment at 72°C for 15 seconds or a treatment with an equivalent pasteurisation effect, applied twice to milk with a pH equal to or greater than 7.0 achieving, where applicable, a negative reaction to an alkaline phosphatase test, immediately followed by either by (1) lowering the pH below 6 for one hour; or (2) additional heating equal to or greater than 72°C combined with desiccation.
- (d) Insert date or dates of production. Imports of raw milk and dairy products shall not be allowed when obtained either prior to the date of authorisation for exportation to Great Britain of the third country or part thereof mentioned under I.7 and I.8, or during a period where restrictive measures have been adopted by Great Britain against imports of raw milk and dairy products from this third country or part thereof.

AH/P304 Processed egg products requirements

Processed egg products must originate from countries authorised to export to Great Britain. (†)

Eggs must come from an establishment which satisfies the requirements of Section X of Annex III to Regulation (EC) No 853/2004.

Highly pathogenic avian influenza is as defined in Regulation (EC) No 798/2008.

With respect to the presence of Highly Pathogenic Avian Influenza, the egg products were processed as follows:

Liquid egg white was treated:

A1 with 55.6°C for 870 seconds; or

A2 with 56.7°C for 232 seconds

Version 1.1 Aug-23 NFC 3 / 4

10% salted yolk was treated:

B with 62.2°C for 138 seconds

Dried egg white was treated:

C1 with 67°C for 20 hours; or

C2 with 54.4°C for 513 hours

Whole eggs were at least treated:

D1 with 60°C for 188 seconds; or

D2 completely cooked

Whole egg blends were at least treated:

E1 with 60°C for 188 seconds; or

E2 with 61.1°C for 94 seconds

<u>EU and EFTA countries approved to export animals and animal products to Great Britain</u> (Available at: https://www.data.gov.uk/dataset/4698a65d-1a3b-42d1-981e-df869e04185b/eu-and-efta-countries-approved-to-export-animals-and-animal-products-to-great-britain)

Non-EU countries approved to export animals and animal products to Great Britain (Available at: https://www.data.gov.uk/dataset/b92627b0-dd7b-4e1d-ba36-e25424f55eeb/non-eu-countries-approved-to-export-animals-and-animal-products-to-great-britain)
