**This Sellafield Ltd Policy is approved by the SL Board; it represents the SL Board's direction to the business on this topic. Compliance with this policy is mandatory through aligning Sellafield Ltd Management System processes and people behaviours to the commitments below.**

## **Environment Policy**

### **Policy Statement**

Sellafield Ltd is creating a clean and safe environment for future generations. Through safe, secure, sustainable site stewardship, we will protect the environment and demonstrate continual improvement by ensuring environmental management and sustainability is integral to our decision making.

Our overriding commitment is to deliver the priority of site decommissioning and clean-up, reducing hazard and risk for current and future generations.

### **Commitments**

We shall be a company that:

1. Develops a strong culture of environment and sustainability leadership and awareness, that drives commitment and responsibility amongst our employees, contract partners and supply chain colleagues.
2. Operates in accordance with all environmental legislation and compliance obligations, seeking to prevent environmental incidents and events.
3. Strives for continuous improvement in environmental performance, driven through an accredited Environmental Management System.
4. Takes a lifecycle approach to ensure decision-making processes account for and manage the impacts of our significant environmental aspects, proportionate to risk.
5. Applies the principles of Best Available Techniques and good practice to prevent pollution and seek opportunities to protect and enhance the environment.
6. Minimises our carbon footprint and drives efficient use of resources, reducing the demand (including fossil fuels, energy, water, and materials), and minimising waste through application of the waste hierarchy.
7. Measures, reviews, investigates, and reports across all aspects of our environmental performance, sharing and embedding the learning from our own and others experience.
