Part II. Certification

Animal Health

I, the undersigned official inspector, hereby certify that the aquaculture animals or products thereof referred to in Part 1 of this certificate:

AH/T157E Territory requirements (freedom from disease)

(*)[requirements for species susceptible to Viral haemorrhagic septicaemia (VHS), Infectious haematopoietic necrosis (IHN), Infectious salmon anaemia (genotype HPR deleted) (ISA), Koi herpes virus (KHV), Marteilia refringens, Bonamia ostreae, and/or White spot disease

the aquaculture animals or products thereof referred to above originate from a territory, zone or compartment declared free from (*)[VHS] (*)[IHN] (*)[ISA] (*)[KHV] (*)[Marteilia refringens] (*)[Bonamia ostreae] (*)[White spot disease].]

AH/T158D Territory requirements (freedom from disease)

(*)[requirements for species susceptible to Spring viraemia of carp (SVC), Bacterial kidney disease (BKD), and Infection with Gyrodactylus salaris (GS)

the aquaculture animals referred to above, originate from a country/territory, zone or compartment or part thereof:

- (a) which meet GB requirements for (*)[SVC] (*)[GS] (*)[BKD] and
- (b) where all aquaculture animals of species susceptible to the relevant diseases introduced into (*)[Jersey] or (*)[Guernsey] or (*)[Isle of Man] or (*)[Northern Ireland] comply with the requirements set out in AH/T of this certificate;

II.a. Certificate reference no.	II.b.
---------------------------------	-------

- (c)
- (*) **EITHER** [in the case of BKD, complies with requirements for disease freedom equivalent to those laid down in retained Decision 2009/177.]
 - (*) **AND/OR** [in the case of (*)[SVC] (*)[GS], complies with requirements for disease freedom laid down in the relevant WOA Standard.]
 - (*) **AND/OR** [in the case of (*)[SVC] (*)[BKD], comprises one individual farm which under the supervision of the competent authority:
 - (i) has been emptied, cleansed and disinfected, and fallowed in at least 6 weeks,
 - (ii) has been restocked with animals from areas certified free from the relevant disease by the competent authority;]]

AH/T159D Territory requirements (freedom from disease)

(*)[requirements for species susceptible to **Ostreid herpesvirus 1 µvar (OsHV-1 µvar)**

originate from a country/territory, zone or compartment

- (a) where OsHV-1 µvar is notifiable to the competent authority in accordance with GB requirements,
- (b) where all aquaculture animals of species susceptible to OsHV-1 µvar introduced into (*)[Jersey] or (*)[Guernsey] or (*)[Isle of Man] or (*)[Northern Ireland] or parts thereof comply with the requirements set out in AH/T (freedom from disease) of this certificate,
- (c) (*) **EITHER** [which comply with GB requirements for disease freedom,]
- (*) **AND/OR** [in the case of consignments intended for a zone or compartment with a surveillance or eradication programme, meet GB requirements,]]

AH/T510B Territory requirements

(*)[attestation for consignments originating from an area subject to disease control measures

- (*) **EITHER** [the animals referred to above have been inspected within 24 hours of loading, and showed no clinical signs of disease],
- (*) **OR** [in the case of eggs and molluscs, come from a farm or mollusc farming area where, according to the records of the farm or mollusc farming area, there is no indication of disease problems];

and

the animals referred to above originate from an area subject to disease control measures regarding (*)[Epizootic haematopoietic necrosis (EHN)] (*)[Viral haemorrhagic septicaemia (VHS)] (*)[Infectious haematopoietic necrosis (IHN)] (*)[Infectious salmon anaemia (ISA)] (genotype HPR deleted) (*)[Koi herpes virus (KHV)] (*)[Bonamia exitiosa] (*)[Perkinsus marinus] (*)[Mikrocytos mackini] (*)[Marteilia refringens] (*)[Bonamia ostreae] (*)[Taura syndrome] (*)[Yellowhead disease] (*)[White spot disease] (*)[Spring viraemia of carp (SVC)] (*)[Bacterial kidney disease (BKD)] (*)[Infection with Gyrodactylus salaris (GS)] (*)[OsHV-1 µvar] (*)[the following emerging disease:];

and

the animals referred to above are allowed to be placed on the market according to the control measures laid down;

and

the consignment is identified by a legible label on the exterior of the container, or when transported by well boat, in the ship's manifest, with the relevant information referred to in boxes 1.8 to 1.13 of Part 1 of this certificate, and the following statement:

'(*)[Fish] (*)[Molluscs] (*)[Crustaceans] originating from an area subject to disease control measures'.]]

AH/A359C Animal transport

the transport conditions of the aquaculture animals referred to above meet the relevant GB requirements.

**Placing on market aquaculture
further processing from British
Islands (non-GB) into GB (BI-FP)
GBHC675**

II.a. Certificate reference no.	II.b.
--	--------------

AH/A360D Animal transport (labelling)

the consignment is identified in accordance with GB requirements and with the following statement::

“(*)[Fish] (*)[Molluscs] (*)[Crustaceans] intended for (*)[further processing] (*)[dispatch centres or similar businesses] (*)[purification centres or similar businesses] before human consumption in Great Britain”;

AH/A721C Animal requirements

comply with the GB requirements for placing on the market

(*) Keep as appropriate.

Official Veterinarian / Official Inspector

By signing this certificate, I certify that the requirements laid out above and in the accompanying notes for completion have been met.

Name (in capital letters):

Qualification and title:

Date:

Signature:

Stamp:

Part III. Notes for completion

These notes for completion must be read and understood by the certifying officer before signing the certificate. Notes are set out in sections that correspond to the sections in the certificate. By signing this certificate, certifiers are verifying that the consignment meets the requirements set out in the certificate and any relevant corresponding notes for completion.

These notes do not need to be printed as part of a paper certificate that accompanies the consignment or in any electronic copy of the certificate.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

References to GB requirements refer to the requirement(s) of Great Britain as set out in the accompanying notes for completion.

Part I

Box reference I.11 and I.12: If appropriate, use the authorisation number for the farm, mollusc farming area or establishment in question.

Box reference I.19: Use the appropriate HS codes: 0301, 0302, 030270, 0303, 0306 or 0307.

Box reference I.20 and I.28: As regards quantity, give the total number.

Part II

Animal Health

AH/T157E Territory requirements (freedom from disease)

This attestation applies to species susceptible to one or more of the diseases referred to in the title. Susceptible species are listed in table B of the document published by the Secretary of State, with the consent of the Scottish Ministers and Welsh Ministers, in accordance with Article 3A of Commission Regulation No 1251/2008.

To be authorised into Great Britain or parts thereof declared free from VHS, IHN, ISA, KHV, *Marteilia refringens*, *Bonamia ostreae*, or Whitespot disease, or with a surveillance or eradication programme, this statement must be kept if the consignment contains species susceptible to the disease(s) for which disease freedom or programmes(s) apply(ies), unless the consignment is intended for processing establishments authorised in accordance with the Aquatic Animal Health (England and Wales) Regulations 2009 or the Aquatic Animal Health (Scotland) Regulation 2009, or for dispatch centres, purification centres or similar businesses which are equipped with an effluent treatment system inactivating the pathogens in question, or where the effluent is subject to other types of treatment reducing the risk of transmitting diseases to the natural waters to an acceptable level.

Published lists of susceptible and vector species are accessible at:

<https://www.gov.uk/guidance/import-or-export-live-fish-and-shellfish>

AH/T158D Territory requirements (freedom from disease)

This attestation only applies to consignments intended for Great Britain or part thereof which is regarded as disease-free, or subject to a surveillance or eradication programme for SVC, BKD, or GS, and the consignment comprises species listed in table C of the document published by the Secretary of State, with the consent of the Welsh Ministers, in accordance with regulation 3B of the Aquatic Animal Health (England and Wales) Regulations 2009, or species listed in a document by the Scottish Ministers in accordance with regulation 3B of the Aquatic Animal Health (Scotland) Regulations 2009 as susceptible to the disease(s) for which the disease-free status or programme(s) apply(ies).

**Placing on market aquaculture
further processing from British
Islands (non-GB) into GB (BI-FP)
GBHC675**

Data on the areas of Great Britain or parts thereof which are regarded as disease-free, or subject to a surveillance or eradication programme for SVC, BKD or GS are accessible at:

<https://www.gov.uk/government/groups/fish-health-inspectorate#disease-status-of-fish-shellfish-and-crustacea-in-england-and-wales>

<https://www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/>

Relevant GB requirements:

- (a) Where relevant, the aquaculture animals must originate from a country/territory, zone or compartment or part thereof:
 - (i) where SVC, GS, and/or BKD are notifiable to the competent authority and reports of suspicion of infection of the relevant disease must be immediately investigated by the competent authority and
 - (ii) where species susceptible to the relevant diseases are not vaccinated against the relevant diseases

AH/T159D Territory requirements (freedom from disease)

This attestation only applies to consignments intended for dispatch centres, purification centres or similar businesses in Great Britain or parts thereof which are regarded as disease-free, or which are under a surveillance programme as regards OsHV-1 μ var, and the consignment comprises species listed table C of the document published by the Secretary of State, with the consent of the Welsh Ministers, in accordance with regulation 3B of the Aquatic Animal Health (England and Wales) Regulations 2009, or species listed in a document published by the Scottish Ministers in accordance with regulation 3B of the Aquatic Animal Health (Scotland) Regulations 2009 as susceptible to OsHV-1 μ var.

Data on the areas of Great Britain or parts thereof which are regarded as disease-free, or subject to a surveillance or eradication programme for OsHV-1 μ var are accessible at:

<https://www.gov.uk/government/groups/fish-health-inspectorate#disease-status-of-fish-shellfish-and-crustacea-in-england-and-wales>

<https://www.gov.scot/publications/health-status-of-fish-and-shellfish-diseases-in-scotland/>

The requirements set out in **AH/T159D** shall not apply to consignments intended for dispatch centres, purification centres or similar businesses which are equipped with an effluent treatment system validated by the competent authority that inactivates enveloped viruses or reduces the risk of transmitting diseases to the natural waters to an acceptable level.

Relevant GB requirements:

- (a) The aquaculture animals must originate from a country/territory, zone or compartment where OsHV-1 μ var must notifiable to the competent authority and reports of suspicion of infection of the relevant disease must be immediately investigated by the competent authority
- (c) The aquaculture animals must originate from a country/territory, zone or compartment
 - EITHER** which comply with requirements for disease freedom equivalent to those laid down in Decision 2009/177
 - AND/OR** in the case of consignments intended for a zone or compartment with a surveillance or eradication programme, which itself is also covered by a surveillance or eradication programme

AH/T510B Territory requirements

This attestation applies to consignments of aquaculture animals and products thereof which according to Article 8 of Regulation No 1251/2008 must be accompanied by a certificate and which in compliance with the placing on the market requirements are allowed by the competent authority to leave an area subject to control provisions or a country/territory, zone or compartment with an eradication programme.

**Placing on market aquaculture
further processing from British
Islands (non-GB) into GB (BI-FP)
GBHC675**

AH/A359C Animal transport

Relevant GB requirements:

The aquaculture animals or products must:

- (a) be placed under conditions, including with a water quality, that do not alter their health status,
- (b) as appropriate, comply with the general conditions for the transport of animals laid down in Article 3 of Regulation No 1/2005

and

- (c) the transport container or well boat prior to loading must be clean and disinfected or previously unused

AH/A360D Animal transport (labelling)

Relevant GB requirements

The consignment must be identified by a legible label on the exterior of the container, or when transported by well boat, in the ship's manifest, with the relevant information referred to in boxes I.8 to I.13 of Part 1 of this certificate and the statement as detailed in the attestation. **AH/A721C Animal requirements**

Relevant GB requirements:

The aquaculture animals must comply with the requirements for placing on the market laid down in Regulation 1251/2008
