Part II. Certification

Animal Health

I, the undersigned official veterinarian responsible for the ^(*)[approved body] ^(*)[institute] ^(*)[centre/holding] of origin certify that the animals described in Part I meet the following requirements:

AH/T123 Territory requirements

they come from the country, territory or part thereof described in box reference I.7:

- (a) where the diseases referred to in this certificate are notifiable;
- (b) which at the date of issuing this certificate has been free for 12 months from rinderpest;

AH/T128 Territory requirements (freedom from disease)

(a) Foot-and-Mouth Disease

- (i)
 - ^(*)**EITHER** [(1) they come from the country, territory or part thereof described in Box I.7. which at the date of issuing this certificate has been free for the past 12 months from foot-and-mouth disease and;]
 - ^(*)**OR** [(2) they have been subjected to a virological and serological test for evidence of foot-and-mouth disease virus infection with negative results, taken in the 10 days prior to dispatch to Great Britain; and]
- (ii) they have not been vaccinated against foot-and-mouth disease.

II.a. Certificate reference no.	II.b.

(b) Brucellosis

- (*) **EITHER** [they come from the country, territory or part thereof described in Box I.7 which has been free for the past 12 months from brucellosis and have not been vaccinated against that disease;]
- (*) **OR** [they have been subjected, with negative results, to a buffered Brucella antigen test for porcine brucellosis taken in the 30 days prior to dispatch to Great Britain;]

(c) Swine vesicular disease

- (*) **EITHER** [they come from the country, territory or part thereof described in box I.7 which has been free for the past 12 months from swine vesicular disease;]
- (*) **OR** [they have been subjected, with negative results, to a virology and serology test for evidence of swine vesicular disease taken in the 30 days prior to dispatch to Great Britain;]

(d) Vesicular Stomatitis

- (*) **EITHER** [they come from the country, territory or part thereof described in Box I.7 which has been free for the last 6 months from vesicular stomatitis;]
- (*) **OR** [they have been subjected, with negative results, to a virology and serology test for evidence of vesicular stomatitis, taken in the 30 days prior to dispatch to Great Britain;]

(e) Classical swine fever

- (*) **EITHER** [they come from the country, territory or part thereof described in Box I.7 which has been free for the past 12 months from classical swine fever;]
- (*) **OR** [they have been subjected to a virological and serological test for classical swine fever, with negative results, taken in the 30 days prior to dispatch to Great Britain;]

(f) African swine fever

- (*) **EITHER** [they come from the country, territory or part thereof described in Box I.7 which has been free for the past 12 months from African swine fever;]
- (*) **OR** [they have been subjected, with negative results, to a virus and serology test for African swine fever taken in the 30 days prior to dispatch to Great Britain;]

(g) Aujeszky's disease

according to official information, no clinical, pathological or serological evidence of Aujeszky's disease has been recorded for the last 12 months in the approved body, institute or centre/holding ^(*) and in an area with a 5 km radius around the approved body, centre or institute, and;

they have been subjected, with negative results, to a virology and serology test for evidence of Aujeszky's disease taken in the 30 days prior to dispatch to Great Britain, and

they have not been vaccinated against Aujeszky's disease and have not been in contact with vaccinated animals;

AH/E419 Establishment requirements

they come from the ^(*)[body] ^(*)[institute] ^(*)[centre/holding] described in box reference I.11;

- (a) which is approved according to GB requirements;
- (b) which is not subjected to any restrictions relating to a national programme for the control of infectious diseases to which the animals referred to in box reference I.28. are susceptible;
- (c) where there have been no clinical cases of the following diseases to which the animals referred to in box reference I.28. are susceptible:
- (i) anthrax for the last 30 days;
 - (ii) foot-and-mouth disease vesicular stomatitis, rabies, African swine fever, classical swine fever and swine vesicular disease for the past 6 months;
- (d) where there have been no clinical or non-clinical cases of tuberculosis and brucellosis for the past 6 months;

II.a. Certificate reference no.	II.b.
--	--------------

- (e) around which in an radius of 10 km for the last 12 months, there has been no case/outbreak of African swine fever, classical swine fever and swine vesicular disease;
- (f) around which in an area of 10 km radius for the past 30 days, there has been no case/outbreak of foot-and-mouth disease or vesicular stomatitis;
- (g) in which they have remained since birth or for the past 6 months before dispatch to Great Britain;

AH/A107 Animal requirements

Other vaccinations

- (a) they have not been vaccinated against rinderpest, vesicular stomatitis, classical swine fever or swine vesicular disease,
- (*) (b) They have been vaccinated against:
 - (*) (i) [anthrax on the (dd/mm/yyyy) with the following vaccine(s) (name of vaccine(s) used)],
 - (*) (ii) [rabies on the (dd/mm/yyyy) with the following vaccine(s)..... (name of vaccine(s) used)].

AH/A352 Animal requirements (transport)

they have been loaded for dispatch to Great Britain on (dd/mm/yyyy) in the means of transport described under box reference I.15 that complies with GB requirements;

AH/A613 Animal requirements

they:

- (a) have not come into contact with other animals not complying with at least the same health requirements as described in this certificate since birth or for the last 30 days and during their transportation from the (*)[approved body] (*)[institute] (*)[centre/holding] to the place of shipment;
- (b) were examined by an official veterinarian within 24 hours of loading and showed no clinical sign of disease and are fit for the intended transport; and
- (c) are not animals to be killed under a national programme for the eradication of diseases;

AH/A614B Animal requirements (AH/A treatment)

they have been treated at least twice during the 40 days prior to dispatch to Great Britain against internal and external parasites with the following product(s) (specify the active ingredients and the doses of the products used)

(*) Keep as appropriate.

Official Veterinarian

By signing this certificate, I certify that the requirements laid out above and in the accompanying notes for completion have been met.

Name (in capital letters):

Qualification and title:

Date:

Signature:

Stamp:

Part III. Notes for completion

These notes for completion must be read and understood by the certifying officer before signing the certificate. Notes are set out in sections that correspond to the sections in the certificate. By signing this certificate, certifiers are verifying that the consignment meets the requirements set out in the certificate and any relevant corresponding notes for completion.

These notes do not need to be printed as part of a paper certificate that accompanies the consignment or in any electronic copy of the certificate.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

References to GB requirements refer to the requirement(s) of Great Britain as set out in the accompanying notes for completion.

This certificate is meant for animals of species listed in the note for Box I. 28. coming from an approved body, institute or centre in a third country, territory or part thereof, and destined to an approved body, institute or centre located within Great Britain.

Part I

Box reference 1.15: Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship) is to be provided. In case of unloading and reloading, the consignor shall inform the BCP of entry into Great Britain.

Box reference 1.28: *Identification system:* Specify the identification system (tag, tattoos, brand, chip, transponder). The identifier shall include the ISO code of the exporting country and permit tracing of their premises of origin.

Age: months.

Sex (M = male, F = female, C = castrated).

Species: Select the species amongst those listed below:

Order	Family	Genera/species
Artiodactyla	Suidae	<i>Babyrousa ssp.</i> , <i>Hylochoerus ssp.</i> , <i>Phacochoerus ssp.</i> , <i>Potamochoerus ssp.</i> , <i>Sus ssp.</i>
	Tayassuidae	<i>Catagonus ssp.</i> , <i>Pecari-Tayassu ssp.</i>
	Hippopotamidae	<i>Hexaprotodon-Choeropsis</i> , <i>Hippopotamus ssp.</i>

Part II

Animal Health

AH/T123 Territory requirements

No further notes for completion

AH/T128 Territory requirements (freedom from disease)

Testing is to be carried out in accordance with one of the prescribed tests for international trade laid down in the WOAHA Manual of Diagnostic Tests and Vaccines for Terrestrial Animals (WOAHA Terrestrial Manual)

To be applicable to point (b)

Tests carried out in accordance with the protocols that, for the disease concerned, are described in Part 6 of Annex 1 to Regulation No 206/2010.

**Animals of the species listed in
Table 2 to Part 1 of Annex 6 of
Regulation 206/2010 (SUI-A)
GBHC717**

AH/E419 Establishment requirements

GB requirements refers to the requirements and conditions set out in Part 3 and 4 of Annex 6 to Regulation No 206/2010.

AH/A107 Animal requirements

Point **(b)** - Vaccination is not compulsory, but if the animals have been vaccinated, information on the vaccine(s) used and the time of vaccination shall be filled in.

AH/A352 Animal requirements (transport)

“GB requirements” refer to means of transport which were cleaned and disinfected before loading with an officially authorised disinfectant and so constructed that faeces, urine, litter or fodder could not flow or fall out of the vehicle or container during transportation.

Date of loading

Imports of these animals shall not be allowed when the animals were loaded either prior to the date of authorisation for exportation to Great Britain of the third country, territory or part thereof referred to in boxes reference I.7 and I.8, or during a period where restrictive measures have been adopted by Great Britain against imports of these animals from this third country, territory or part thereof.

AH/A613 Animal requirements

No further notes for completion

AH/A614B Animal requirements (AH/A treatment)

No further notes for completion.
