Importance: High

Dear Colleagues & Department,

Thank you for contacting us re. the mandatory use of CCTV Regulations 2018.

We would like to add our feed back in few points mentioned below:

The extent to which the regulations have achieved their objectives, as set out in the original Impact Assessment₂

- Whether costs and benefits associated with the regulations were as expected and if not, how much they diverged from the estimates in the original Impact Assessment – **NA**

- Any unexpected consequences, positive or negative, that your organisation has perceived.

It gives assurance to consumers, certifiers and to reduce the non-conformances / non-compliant practices by internal or external cusotmers.

- Refinements that could be made to enhance benefits, reduce burden on business, reduce costs and/or improve compliance.

It improves compliance and it should be expanded to other areas as well in the future especially in the areas of malpractices, common non-conformances – evidence based ie at transport, loading, etc

-
Additionally, we would suggest running **a sample periodic independent audits of the recordings** of CCT's to assure, verify and effectiveness of this scheme.

Please do contact us if you will have any questions.

Kind Regards,
