

QLR4 Weight Pocket	
Aspect	Details
Images	
Alert Number	2308-0055
Product Type	Hobby / Sports Equipment – Scuba Equipment
Product Identifiers	Affected BCD models: Oceanpro, Excursion, Hera Affected BCD serial number ranges: <ul style="list-style-type: none">• 608262-695909• 1170357-1180342• 1200001-1200070• 20031001-22082698 The serial number can be found on the product warning label located on the BCD's cummerbund. Affected weight pockets can also be identified by them not containing a data code on the underside of the handle.
Product Description	The QLR4 contains a weight pocket that is used within a scuba diver's buoyancy compensating device (BCD) to carry weight.
Country of Origin	Unknown
Counterfeit	No
Risk Type	Drowning
Risk Description	The weight pocket handle may break and result in the pocket becoming stuck in the BCD sleeve. There is a risk of drowning if the weight pocket cannot be removed from the BCD sleeve to allow the diver to re-surface safely. The product does not meet the requirements of the General Product Safety Regulations 2005.
Corrective Measures	The product has been recalled from end users. For further information, including a complete list of part and model numbers, access the Oceanic Worldwide recall page at the following link: https://www.oceanicworldwide.com/blog/qlr4-weight-pocket-voluntary-recall/
