Part II. Certification

Animal Health

I, the undersigned official veterinarian, hereby certify, that the day-old chicks described in this certificate:

AH/T008B Territory requirements

meet the provisions of GB legislation and have hatched on:

- (*) **EITHER** [the territory of code;]
- (*) **OR** [compartment(s) (*insert the name*);]

where the flocks from which the hatching eggs come were imported into the country, territory, zone or compartment of origin, this took place in accordance with veterinary conditions at least as strict as the relevant requirements of GB legislation;

AH/T130F Territory requirements

come from:

- (*) **EITHER** [the territory of code;]
- (*) **OR** [compartment(s) (*insert the name*);]
- (*) **EITHER** [(a) which at the date of issue of this certificate was (were) free from Newcastle disease as defined in GB legislation;]
- (*) **OR** [(a) which at the date of issue of this certificate was not free from Newcastle disease as defined in GB legislation;]

II.a. Certificate reference no.	II.b.
---------------------------------	-------

- (b) where a surveillance programme for avian influenza according to GB legislation is carried out;

AH/T131F Territory requirements (freedom from disease)

come from:

- (*) **EITHER** [the territory of code;]
(*) **OR** [compartment(s) (insert the name);]

which at the date of issue of this certificate

(a)

- (*) **EITHER** (i) [was (were) free from highly pathogenic avian influenza as defined in GB legislation;]
(*) **OR** (ii) [was (were) not free from **highly pathogenic avian influenza** as defined in GB legislation, and, where they have occurred a `stamping out` policy has been implemented to control the disease, and comply with GB requirements;]

and

(b)

- (*) **EITHER** [(i) was (were) free from **low pathogenic avian influenza** as defined in GB legislation;]
(*) **OR** [(ii) following case(s) of **low pathogenic avian influenza**,
(*) **EITHER** [(a) a stamping out policy has been implemented or the ratites have been slaughtered to control the disease, and where GB requirements were met]
(*) **AND/OR** [(b) the day old ratites were derived from flocks which have been kept in an establishment that is compliant with GB requirements]]]

AH/E016B Establishment requirements

have been hatched in the establishment(s) defined in Box I.11 of Part I, officially approved in accordance with requirements which are at least equivalent to those laid down in GB legislation and are compliant with GB requirements;

AH/A110G Animal requirements

have been hatched from eggs from flocks which

- (a) have been kept for at least the previous six weeks in officially approved establishments, the approval of which, at the time of consignment of the hatching eggs to the hatchery, had not been suspended or withdrawn;

(b)

- (*) **EITHER** [(i) have been kept in establishments located in a country, territory, zone or compartment which is free from Newcastle disease;]
(*) **OR** [(ii) have been kept in establishments located in a country, territory or zone which is not free from Newcastle disease;]

- (c) at the time of consignment, were not subject to any animal health restriction;

(d)

- (*) **EITHER** [(i) have not been vaccinated against Newcastle disease;]
(*) **OR** [(ii) have been vaccinated against Newcastle disease;

Day old ratites (DOR)
GBHC701

II.a. Certificate reference no.	II.b.
----------------------------------------	--------------

Identification of the flock	Age of the birds	Date of vaccination [dd/mm/yyyy]	Name and type (live or inactivated) of ND virus strain used in vaccine(s)	Batch number	Name and manufacturer of vaccine

] (***AND** [(e) have been vaccinated against other diseases using officially approved vaccines:

Identification of the flock	Age of the birds	Date of vaccination [dd/mm/yyyy]	Vaccinated against	Batch number	Name, manufacturer, and type of officially approved vaccines

] **AH/A111A Animal requirements**

- (a) have not been vaccinated against avian influenza;
- (b) were derived from parent flocks which
 - (***EITHER** [have not been vaccinated against avian influenza;]
 - (***OR** [have been vaccinated against avian influenza in accordance with a vaccination plan under GB legislation using: (name and type of used vaccine(s)) at the age of weeks;]

AH/A264 Animal requirements (examination)

at the time of consignment were examined and showed no clinical signs of or grounds for suspecting any disease;

AH/A618 Animal requirements

have been hatched from eggs which:

- (a) prior to the consignment to the hatchery had been marked in accordance with the instructions of the competent authority;
- (b) had been disinfected in accordance with the instructions of the competent authority;

AH/A626 Animal requirement

hatched on (dd/mm/yyyy);

AH/A627 Animal requirement

have had no contact with ratites or other poultry not meeting the requirements laid down in this certificate;

AH/MS101 Additional guarantees

meet the provisions of GB legislation;

Animal Health Additional

I, the undersigned official veterinarian, further certify that:

AA/A011 Animal health additional guarantees

(*)[the day-old chicks have hatched from eggs collected from breeding ratites which have been examined and tested in accordance with GB legislation.]

Day old ratites (DOR)
GBHC701

II.a. Certificate reference no.	II.b.
---------------------------------	-------

AA/A012 Animal health additional guarantees

(*)[additional health requirements for countries not free from Newcastle disease

the breeding ratites from which the day-old chicks are derived are compliant with GB requirements.

The hatching eggs from which the day-old chicks have been hatched and the day-old chicks have not been in contact in the hatchery or during transport with eggs or poultry including ratites which do not fulfil the abovementioned requirements.]

AA/A106 Animal health additional guarantees (Transport and storage)

Day-old chicks are transported in perfectly clean, disposable boxes used for the first time which:

- (a) contain only day-old chicks of the same species, category and type coming from the same establishment;
- (b) bear the following information in legible writing and in at least English:
 - (i) the name of the country, territory, zone or compartment of consignment,
 - (ii) the species of ratites concerned, - the number of chicks,
 - (iii) the category and type of production for which they are intended,
 - (iv) the name, address and approval number of the breeding establishment,
 - (v) the name, address and approval number of the establishment of origin,
 - (vi) the date of dispatch,
 - (vii) the country of destination in Great Britain:
- (c) are closed in accordance with the instructions of the competent authority to avoid any possibility of substitution of the contents.
- (d) the containers and vehicles in which the boxes mentioned above have been transported have been cleansed and disinfected before loading in accordance with the instructions of the competent authority.

(*) Keep as appropriate.

Official Veterinarian

By signing this certificate, I certify that the requirements laid out above and in the accompanying notes for completion have been met.

Name (in capital letters):

Qualification and title:

Date:

Signature:

Stamp:

Part III. Notes for completion

These notes for completion must be read and understood by the certifying officer before signing the certificate. Notes are set out in sections that correspond to the sections in the certificate. By signing this certificate, certifiers are verifying that the consignment meets the requirements set out in the certificate and any relevant corresponding notes for completion.

These notes do not need to be printed as part of a paper certificate that accompanies the consignment or in any electronic copy of the certificate.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018) and can be viewed on the UK legislation website (legislation.gov.uk).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

References to GB requirements refer to the requirement(s) of Great Britain as set out in the accompanying notes for completion.

This certificate is valid for 10 days.

Part I

- Box reference I.8: Provide the code for the zone or the compartment of origin, if necessary, as defined under code in column 2 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008.^(†)
- Box reference I.11: Names, addresses and approval numbers of hatcheries and breeding establishment.
- Box reference I.15: Indicate the registration number(s) of railway wagons and lorries, the names of ships and, if known, the flight numbers of aircraft. In the case of transport in containers or boxes, the total number of these and their registration and where there is a serial number of the seal it has to be indicated in box I.23.
- Box reference I.28: *Category:* Select one of the following: Pure line/grandparents/parents/others.

Part II

Animal Health

Day-old chicks' as defined in Regulation No 798/2008.

AH/T008B Territory requirements

Code of the territory as it appears in column 2 as set out in a document relating to 'poultry and poultry products' published on GOV.UK, in accordance with Regulation No 798/2008.^(†)

"GB legislation" refers to Directive 2009/158 and any subsidiary legislation.

AH/T130F Territory requirements

Code of the territory as it appears in column 2 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation No 798/2008.^(†)

For countries or territories with the entry 'N' in column 6 for day-old chicks of ratites (DOR) only, this means that in the case of an outbreak of Newcastle disease as defined in Regulation No 798/2008 then the country code or territory code shall continue to be used but this will exclude any area under official restrictions, by the third country concerned in relation to Newcastle disease, at the date of issue of this certificate.

Second option **(a)** referring to territories or compartments not free of Newcastle disease is applicable only to the countries with the entry 'II' in column 5 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation No 798/2008. However, this does not apply to day-old chicks of ratites coming from compartments.

Day old ratites (DOR)
GBHC701

GB legislation refers to:

Regulation No 798/2008.

AH/T131F Territory requirements (freedom from disease)

Insert code of the territory as it appears in column 2 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation No 798/2008. ^(†)

GB legislation refers to:

Regulation No 798/2008.

GB requirements for (a)(ii):

- (i) adequate cleansing and disinfection had been carried out on all previously infected establishments; and
- (ii) following completion of the cleansing and disinfection referred to in point (i) of this paragraph, avian influenza surveillance has been carried out at least by randomised representative sampling of the populations at risk to demonstrate the absence of infection, (taking into account the specific epidemiological circumstances in relation to the occurred outbreak(s)), with negative results; and
- (iii) an opening date has been entered in column 6B in the list of approved countries ('Poultry and poultry products') published on gov.uk, in accordance with Regulation No 798/2008 ^(†)

GB requirements for (B)(ii)(a):

- (i) adequate cleansing and disinfection had been carried out on all previously infected establishments; and
- (ii) following completion of the cleansing and disinfection referred to in point (i) of this paragraph, avian influenza surveillance has been carried out at least by randomised representative sampling of the populations at risk to demonstrate the absence of infection, (taking into account the specific epidemiological circumstances in relation to the occurred outbreak(s)), with negative results;

GB requirements for (B)(ii)(b):

Day old ratites were derived from flocks which have been kept in an establishment:

- (i) in which low pathogenic avian influenza has not been present within the last 30 days prior to the time of collection of the eggs from which the day old chicks were hatched;
- (ii) located in an area which is not placed under official veterinary restrictions by the competent authority in relation to an outbreak of low pathogenic avian influenza and in any case around which within a 1 km radius low pathogenic avian influenza has not been present within the last 30 days prior to the time of the collection of the eggs from which the day old chicks were hatched on any establishment.
- (iii) where there has been no epidemiological link to an establishment where low pathogenic avian influenza has been present within the last 30 days prior to the time on which the day old chick were hatched.

AH/E016B Establishment requirements

GB legislation refers to:

Annex II to Directive 2009/158.

GB requirements:

Have been hatched in the establishment(s):

- (a) the approval of which has not been suspended or withdrawn;
- (b) which is (are), at the time of consignment, not subject to any animal health restriction;
- (c) within a **10 km** radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of highly pathogenic avian influenza or Newcastle disease for at least the previous **30 days**;

Day old ratites (DOR)
GBHC701

AH/A110G Animal requirements

Option (b) (ii) referring to country, territory or zone which is not free from Newcastle disease is applicable only to the countries with the entry 'II' in column 5 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation No 798/2008. ^(†) However, this does not apply to day-old chicks of ratites coming from compartments.

AH/A111A Animal requirements

"GB legislation" refers to Regulation No 798/2008.

AH/A264 Animal requirements (examination)

No further notes for completion.

AH/A618 Animal requirements

No further notes for completion.

AH/A626 Animal requirement

No further notes for completion.

AH/A627 Animal requirement

No further notes for completion.

AH/MS101 Additional guarantees

"GB legislation" refers to: provisions of Directive 2009/158.

Animal Health Additional

AA/A011 Animal health additional guarantees

This guarantee is only required for day-old chicks coming from countries, territories or zones with the entry 'X' in column 5 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation No 798/2008. ^(†)

GB legislation refers to:

Point 8 of Section I of Annex 3 to Regulation No 798/2008

AA/A012 Animal health additional guarantees

Additional health requirements for countries not free from Newcastle disease

This is applicable only to the countries with the entry 'II' in column 5 as set out in a document relating to 'poultry and poultry products' published on gov.uk, in accordance with Regulation (EC) No 798/2008. ^(†) However, this does not apply to day-old chicks of ratites coming from compartments.

GB requirements:

the breeding ratites from which the day-old chicks are derived:

- (a) were placed in isolation under official surveillance not less than 30 days before laying the hatching eggs from which the day-old chicks for import to Great Britain are derived;
- (b) underwent a virus isolation test for Newcastle disease, carried out in an official laboratory 7 to 10 days after their entry into isolation on either cloacal swabs or faeces samples from each bird and in which no avian paramyxovirus type 1 isolates with an intracerebral Pathogenicity Index (ICPI) of more than 0.4 were found. Favourable results were available for all tests carried out before the day-old chicks left the hatchery for import to Great Britain;
- (c) during the last 30 days prior to and during laying of the hatching eggs from which the day-old chicks for import to Great Britain are derived, have not been in contact with poultry (including ratites) which do not fulfil the guarantees mentioned under (a), (b) and (d);
- (d) come from flocks in which surveillance for Newcastle disease has been carried out under a statistically based sampling plan which produced negative results for at least six months immediately prior to import to Great Britain.

Day old ratites (DOR)
GBHC701

AA/A106 Animal health additional guarantees(Transport and storage)

Please note that according to Regulation No 1/2005 animals will be checked by the competent authorities if they are fit to continue the journey after entry into Great Britain. In the case the requirements are not fulfilled, the animals need to be unloaded and further measures taken.
