Subject: Planning application s62a20230019

I have reviewed with dismay yet another planning application for housing in the Takeley area.

My chief objections are as follows:

1. Further destruction of open countryside;
2. The Residential Travel Plan mentions encouraging walking and cycling. However, unless facilities in the local area within walking distance are drastically improved (e.g. supermarket for weekly shop, not just incidentals, and access to a health care centre), car use will only increase. Who is going to cycle with a sick child to the nearest doctor's?
3. Roseacres School would not need enlarging if house building were reduced.

Janis Keith
