With reference to the above consultation car parking planning.

I note that there is no visitor parking at the West side of the development. I suggest that sufficient visitor parking is provided throughout the site, to allow for trade vehicles etc. This will become more important as the site matures and maintenance/improvement activities are undertaken on the properties.

I say this based on the experience from the nearby Fritch Green development where it is often not possible for trade vehicles to park near relevant properties.

Regards

**Pete Young**
