**Strategic Export Controls: Country
Pivot Report**

1st October 2020 - 31st December
2020

August 2023

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st October 2020 and 31st December 2020. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for goods covered by the torture regulation (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3501	3406	95	0
- Permanent Standard	2960	2870	90	0
- Temporary Standard	126	124	2	0
- Transhipment	1	1	0	0
- Incorporation	403	401	2	0
- For goods covered by the torture regulation (Permanent or Temporary)	11	10	1	0
SITCLs	51	46	5	0
OIELs	181	158	23	0
- Standard	162	139	23	0
- Dealer-to-dealer	9	9	0	0
- Cryptographic	8	8	0	0
- Media	0	0	0	0
- Continental Shelf	2	2	0	0
Global Project Licences	0	0	0	0
OITCLs	22	21	1	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 1st October 2020 to 31st December 2020

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	2635	60	3665	83	15 days
- Permanent Standard	2314	61	3207	84	15 days
- Temporary Standard	100	71	125	89	11 days
- Transhipment	2	67	3	100	4 days
- Incorporation	217	48	323	72	21 days
- For goods covered by the torture regulation (Permanent or Temporary)	2	18	7	64	41 days
SITCLs	28	34	55	66	40 days
OIELs	28	14	93	48	65 days

- Media	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	1	33	2	67	21 days
Global Project Licences	n/a	n/a	n/a	n/a	n/a
OITCLs	2	8	4	16	84 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	9	£20,340,562
Non-military	2	£10,272,844
Total	11	£30,613,406

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£13,482,171
ML5	4	£5,857,713
ML7	1	£36,789
ML10	2	£872,889
ML13	1	£91,000
ML21	4	£0
ML22	4	£0

body armour [See footnote 7].

components for body armour [See footnote 7].

components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 10].

- components for NBC protective/defensive equipment [See footnote 8].
- Rv general military aircraft components (2 licences).
- military helmets [See footnote 7].
- NBC protective/defensive equipment [See footnote 8].
- software for targeting equipment (4 licences) [See footnotes 3, 4, 5, 6].
- targeting equipment (4 licences) [See footnotes 3, 4, 5, 6].
- technology for targeting equipment (4 licences) [See footnotes 3, 4, 5, 6].

Rv - Some or all of which have subsequently been revoked.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£10,000,000
5A002	1	£272,795
5D002	1	£49

- counter-improvised explosive device equipment [See footnote 9].
- information security equipment [See footnote 2].
- information security software [See footnote 2].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment [See footnote 1]

Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2255 (2015), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.
2. The Afghanistan (Sanctions) (EU Exit) Regulations 2020, which fully came into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2255 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to the trade in military goods and military technology, which is to, or for the benefit of a designated person as well as the provision to, or for the benefit of a designated person of certain services which enable or facilitate the conduct of armed hostilities in Afghanistan. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.
2. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Humanitarian / international organisation end use.
3. Licence granted for multinational force or peacekeeping end user.
4. Licence granted for multinational force or peacekeeping end user.
5. Licence granted for multinational force or peacekeeping end user.
6. Licence granted for multinational force or peacekeeping end user.
7. Licence granted for personal protective equipment. Humanitarian / international organisation end use.
8. Licence granted for personal protective equipment. Multinational force or peacekeeping end user.
9. Licence granted for explosive detection / disposal purposes. Multinational force or peacekeeping end user.
10. Licence granted for explosive detection / disposal purposes. Multinational force or peacekeeping end user.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£84,750
Non-military	2	£21,498
Total	3	£106,248

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£84,750

constructions for ballistic protection of military systems.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£21,498

information security equipment (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]

Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.

4	1

Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Case & goods Footnotes

1. Licence granted for commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£1,203,855
Non-military	4	£449,383

Total	9	£1,653,238
-------	---	------------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£586,000
ML3	1	£1,500
ML4	1	£570,000
ML10	2	£31,960
ML11	1	£11,500
ML13	1	£2,895
ML22	1	£0

body armour [See footnote 8].
 components for aircraft military communications equipment [See footnote 12].
 components for body armour [See footnote 8].
 components for military guidance/navigation equipment [See footnote 12].
 components for sniper rifles [See footnote 13].
 military aircraft ground equipment [See footnote 11].
 munitions/ordnance detection/disposal equipment [See footnote 14].
 small arms ammunition [See footnote 13].
 sniper rifles (180) [See footnote 13].
 technology for sniper rifles [See footnote 13].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£33
2B352	1	£420,000
2E301	1	£0
5A002	1	£19,990
6A002	1	£9,360

biotechnology equipment [See footnote 9].
 chemicals used for general laboratory work/scientific research [See footnote 10].
 direct view imaging equipment [See footnote 6].
 information security equipment [See footnote 7].
 technology for biotechnology equipment [See footnote 9].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes [See footnote 1]

2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military electronic equipment, military guidance/navigation equipment [See footnote 2]
3	P	underwater telecommunications systems [See footnote 3]
4	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
5	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 4]
6	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]
2	P	inertial equipment [See footnote 2]

Country Footnotes

- On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended. Through Council Decision 2018/280, EU Member States may export certain types of small-calibre sporting rifles, small-calibre sporting pistols and small calibre ammunition, exclusively for use in sports events or sports training, or technical assistance or brokering services, financing or financial assistance related. This will be a limited number and without prejudice to the applicable licensing provisions. Member States shall notify other Member States and the Commission of its intention to grant an authorisation, at least 10 days prior to the authorisation.

All exports for this destination were approved in accordance with the sanctions in place.

- The Republic of Belarus (Sanctions) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements and which apply to military goods and technology, as well as goods and technology, which might be used for internal repression. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

- Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
- Licence granted for commercial end use.
- Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£1,608
Total	1	£1,608

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,608

information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	military support aircraft

Bosnia and Herzegovina

Processing Statistics (excluding amendments)

Median processing time SIELs	11 days

8A002	2	£39,059
FR AI	1	£57,874

biotechnology equipment (2 licences).
 components for marine position fixing equipment.
 components for metal powder production equipment (2 licences).
 deuterium compounds.
 electronics cooling fluids.
 frequency changers.
 imaging cameras (5 licences).
 inertial equipment (6 licences).
 information security equipment (3 licences).
 information security software (2 licences).
 small arms ammunition.
 software for information security equipment (2 licences).
 sonar log equipment.
 submersible equipment (2 licences).
 submersible vehicles.
 technology for information security equipment.
 technology for information security software.
 toxins.
 X-ray generators.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	8	£1,760,213
Total	8	£1,760,213

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£55,000
ML10	7	£1,705,213

airborne refuelling equipment.
components for launching/handling/control equipment for munitions.
components for military support aircraft (4 licences).
components for military training aircraft (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Afghanistan
Burkina Faso
Chile
Colombia
Ecuador
Indonesia
Mali
Mauritania
Nigeria
Philippines
Portugal
Turkmenistan
United States of America

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£272
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£272

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIV	1	£272

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for naval electrical/electronic equipment, components for submarines, equipment for the operation of military aircraft in confined areas, general naval vessel components, military aircraft ground equipment, naval electrical/electronic equipment, naval hull penetrators/connectors, software for aircraft carriers, software for combat naval vessels, software for equipment for the operation of military aircraft in confined areas, software for general naval vessel components, software for military aircraft ground equipment, software for military auxiliary/support vessels, software for military patrol/assault craft, software for naval electrical/electronic equipment, software for naval hull penetrators/connectors, software for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for equipment for the operation of military aircraft in confined areas, technology for general naval vessel components, technology for military aircraft ground equipment, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for naval electrical/electronic equipment, technology for naval hull penetrators/connectors, technology for submarines
2	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes [See footnote 1]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military electronic equipment, military guidance/navigation equipment [See footnote 2]
4	P	components for combat aircraft, components for military support aircraft
5	P	underwater telecommunications systems [See footnote 3]
6	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting

		equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
7	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment, technology for airborne refuelling equipment, technology for military aircraft ground equipment
8	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
9	P	components for combat aircraft, components for military support aircraft, components for military training aircraft, general military aircraft components
10	P	technology for biotechnology equipment
11	T	military support aircraft
12	P	components for military support aircraft
13	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes
14	P	components for launching/handling/control equipment for munitions, equipment for the use of launching/handling/control equipment for munitions, inert torpedoes, launching/handling/control equipment for munitions, software for launching/handling/control equipment for munitions
15	P	components for military support aircraft

16	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment
17	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for munitions/ordnance detection/disposal equipment, technology for software enabling equipment to function as munitions/ordnance detection/disposal equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£301,239
Non-military	7	£348,832
Total	9	£650,071

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£236,239
ML6	1	£65,000

components for munitions/ordnance detection/disposal equipment [See footnote 2].
 military support vehicles [See footnote 3].
 munitions/ordnance detection/disposal equipment [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C353	1	£8
2B350	2	£11,235
5A002	4	£337,589

corrosion resistant chemical manufacturing equipment (2 licences).
 information security equipment (4 licences).
 pathogenic genetic elements.

Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML13	1

components for body armour.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]
2	P	information security equipment, information security software, software for information security equipment [See footnote 2]

Country Footnotes

1. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2536 (2020) extended the arms embargo until 31 July 2021 and decided that the arms embargo shall no longer apply to supplies of unarmed ground military vehicles and ground military vehicles mounted with weapons with a calibre of 14.5 mm or less and their spare parts, and of RPG and ammunition specially designed for such weapons, and provision of related assistance, to the CAR security forces including state civilian law enforcement institutions, as notified in advance to the Committee. The EU implements these measures through Council Decision 2013/798/CFSP, as amended; as well as Council Regulation (EU) No 224/2014, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
2. Licence granted for humanitarian / international organisation / media end use.
3. Licence granted for personal protective equipment. Multinational force or peacekeeping end user.

Chad

Processing Statistics (excluding amendments)

Median processing time SIELs	36 days

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£863,199
Non-military	1	£19,329
Total	5	£882,528

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£169,920
ML10	1	£230,040
ML11	1	£34,339
ML13	1	£8,300
ML15	1	£420,600

body armour [See footnote 2].
 components for body armour [See footnote 2].
 components for military aero-engines [See footnote 4].
 military communications equipment [See footnote 5].
 military helmets [See footnote 2].
 T military image intensifier equipment.
 T military infrared/thermal imaging equipment.
 T weapon night sights.
 T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£19,329

imaging cameras [See footnote 6].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	underwater telecommunications systems [See footnote 1]
2	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 3]
3	T	military support aircraft
4	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for

		torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes
5	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for munitions/ordnance detection/disposal equipment, technology for software enabling equipment to function as munitions/ordnance detection/disposal equipment

Types of goods on licence	No. of licences	Value
Military	3	£244,199
Total	3	£244,199

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	3	£244,199

aircraft military communications equipment.
 components for military aero-engines.
 components for military aircraft head-up/down displays.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Iraq
 Kazakhstan
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for sniper rifles, flash suppressors, gun silencers, sniper rifles
2	P	components for military scenario simulation equipment, components for military training equipment, military scenario simulation equipment, military software, military training equipment, software for military scenario simulation equipment, software for military training equipment, software for modelling/simulating military operation scenarios
3	P	components for assault rifles, components for pistols, components for rifles, components for sniper rifles, components for sporting guns

No.	Type	Goods Summary
1	P	underwater telecommunications systems [See footnote 1]
2	P	information security equipment, information security software, software for information security equipment [See footnote 2]

Country Footnotes

- Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2528 (2020) which extended the arms embargo until 1 July 2021, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee. The EU implements these measures through Council Decision 2010/788/CFSP, as amended; as well as Council Regulation (EU) No 1183/2005, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

- Licence granted for commercial end use.

Non-military	15	£1,944,324
Both Military and Non-military	2	£13,816
Total	80	£12,385,177

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	15	£1,290,930

ML2	2	£297,948
ML3	6	£168,999
ML4	8	£660,623
ML5	6	£3,308,668
ML6	2	£292,890
ML7	2	£25,200
ML9	3	£137,644
ML10	5	£1,502,450
ML11	3	£427,594
ML13	4	£75,755
ML15	1	£319,544
ML18	1	£18,950
ML21	3	£278,840
ML22	8	£1,621,000

- anti-armour ammunition.
- body armour.
- components for air-to-surface missiles.
- components for artillery.
- components for artillery ammunition.
- components for attack alerting/warning equipment.
- components for body armour (4 licences).
- components for combat aircraft (2 licences).
- components for combat helicopters.
- components for crowd control ammunition.
- components for decoying/countermeasure equipment.
- components for launching/handling/control equipment for missiles.
- components for launching/handling/control equipment for munitions (2 licences).
- components for military combat vehicles.
- components for military electronic equipment.
- components for military guidance/navigation equipment.
- components for military helicopters (2 licences).
- components for military infrared/thermal imaging equipment.
- components for military radars.
- T components for munitions/ordnance detection/disposal equipment.
- components for NBC protective/defensive equipment.
- components for rifles.
- components for small arms ammunition.
- components for sniper rifles (4 licences).
- components for sporting guns.
- components for submarines (3 licences).
- components for targeting equipment.
- T electronic warfare equipment.
- equipment for the production of artillery ammunition.
- fuze setting devices.
- gun silencers (2 licences).
- launching/handling/control equipment for munitions (2 licences).
- military aero-engines.
- military helmets.
- military support vehicles.
- T munitions/ordnance detection/disposal equipment.
- T NBC protective/defensive equipment.
- projectile launchers.
- rangefinding equipment (2 licences).
- rifles (2).
- small arms ammunition.
- sniper rifles (1) (2 licences).
- software for air-to-surface missiles.
- software for modelling/simulating military operation scenarios.
- software for multi-role missiles.
- software for surface-to-air missiles.
- software for surface-to-surface missiles.
- software for test equipment for military guidance/navigation equipment.
- sporting guns (1) (4 licences).
- targeting equipment.

technology for air-to-surface missiles (6 licences).
 technology for combat aircraft.
 technology for launching/handling/control equipment for missiles.
 technology for multi-role missiles.
 technology for production installations for air-to-surface missiles (3 licences).
 technology for sniper rifles.
 technology for software for weapon system software.
 technology for surface-to-air missiles.
 technology for surface-to-surface missiles.
 wall/door breaching projectiles/ammunition.
 weapon night sights (2 licences).
 weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£50,000
0E001	10	£1,580,010
1A004	2	£53,120
1C233	2	£7,969
PL9011	1	£253,225

civil explosive detection/identification equipment (2 licences).
 components for nuclear reactors.
 devices containing enriched lithium manufactures.
 products containing enriched lithium.
 sporting shotguns (1).
 technology for nuclear reactors (10 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£13,612
PL9011	2	£204

components for sporting guns.
 components for sporting shotguns.
 gun silencers.
 sporting guns (13).
 sporting shotguns (1).

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aerial target equipment, components for air-to-surface missiles, components for combat aircraft, components for equipment for the production of military aero-engines, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for tanks, equipment for the production of military aero-engines, military aircraft ground equipment, technology for aerial target equipment, technology for air-to-surface missiles, technology for combat aircraft, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for tanks [See footnote 1]
2	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for NBC protective/defensive equipment
3	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment
4	P	components for sniper rifles, flash suppressors, gun silencers, sniper rifles
5	T	components for military electronic equipment, components for military training equipment, components for projectile launchers, components for targeting equipment, military electronic equipment, military training equipment, projectile launchers, software for military electronic equipment, software for projectile launchers, software for targeting equipment, targeting equipment, technology for military electronic equipment, technology for military training equipment, technology for projectile launchers, technology for targeting equipment [See footnote 2]
6	P	components for combat aircraft, components for military support aircraft
7	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
8	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment, technology for airborne refuelling equipment, technology for military aircraft ground equipment
9	P	triggered spark gaps
10	P	components for military aero-engines [See footnote 3]
11	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military guidance/navigation equipment, components for military support aircraft, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew life support equipment, equipment for the use of military aircrew safety equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military guidance/navigation equipment, technology for aircraft military communications equipment, technology for general

		military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military support aircraft, technology for military training aircraft
12	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 4]
13	P	components for combat aircraft, components for environmental test facilities for military aero-engines, components for equipment for the production of military aero-engines, components for military aero-engines, components for military support aircraft, components for military training aircraft, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, general military aircraft components, military aero-engines, military aircraft ground equipment, software for environmental test facilities for military aero-engines, software for military aero-engines, technology for environmental test facilities for military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines
14	T	military support aircraft
15	P	components for military scenario simulation equipment, components for military training equipment, military scenario simulation equipment, military software, military training equipment, software for military scenario simulation equipment, software for military training equipment, software for modelling/simulating military operation scenarios
16	P	components for military training equipment, components for projectile launchers, military image intensifier equipment, military infrared/thermal imaging equipment, military training equipment, projectile launchers, rangefinding equipment, software for military image intensifier equipment, software for military infrared/thermal imaging equipment, software for projectile launchers, targeting equipment, technology for military image intensifier equipment, technology for military infrared/thermal imaging equipment, technology for military training equipment, technology for projectile launchers, technology for rangefinding equipment, technology for targeting equipment
17	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment,

		technology for military helicopters, technology for military radars, technology for torpedoes
18	P	components for military helicopters
19	P	components for sporting guns
20	P	technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation
21	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment
22	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for munitions/ordnance detection/disposal equipment, technology for software enabling equipment to function as munitions/ordnance detection/disposal equipment

T	weapon sights (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0D001	4	£300,001
0E001	9	£8
1C001	1	£300
6A001	2	£31,264
PL9011	6	£38,039

electromagnetic wave absorbing materials.
 hydrophones (2 licences).
 software for nuclear reactors (4 licences).
 sporting guns (1).
 sporting shotguns (1) (4 licences).
 sporting shotguns (2).
 technology for materials controlled by entry 0C of the Dual-Use Regulation.
 technology for nuclear grade graphite.
 technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation.
 technology for nuclear reactors (8 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	56	£6,069,267
Non-military	1	£9,196
Total	57	£6,078,463

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	6	£4,464,206
ML5	10	£238,740
ML6	2	£3,250
ML9	7	£200,418
ML10	16	£315,471
ML11	7	£718,438
ML16	3	£26,770
ML21	5	£30,560
ML22	6	£71,415

components for aircraft missile protection systems.
components for combat aircraft (8 licences).
components for combat naval vessels (3 licences) [See footnotes 10, 9].
components for decoying/countermeasure equipment.
components for launching/handling/control equipment for missiles (3 licences) [See footnotes 5, 6].
components for military aero-engines (5 licences).
components for military guidance/navigation equipment (7 licences) [See footnotes 11, 7].
components for military helicopters (2 licences).
components for military radars (8 licences).
components for periscopes.
components for submarines (2 licences).
components for surface-to-surface missiles.
components for turrets.
components for weapon control equipment.
equipment for the use of military guidance/navigation equipment.
general military aircraft components.
general naval vessel components (2 licences) [See footnote 12].
ground vehicle military communications equipment.
software enabling equipment to function as munitions/ordnance detection/disposal equipment (4 licences).
software for military auxiliary/support vessels.
technology for combat aircraft (2 licences).
technology for launching/handling/control equipment for missiles.
technology for military guidance/navigation equipment (2 licences) [See footnote 11].
technology for software for military auxiliary/support vessels.
technology for unfinished products for combat aircraft.
unfinished products for combat aircraft (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	1	£9,196

extended temperature range integrated circuits.

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£1,500
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£1,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR All	1	£1,500

T thumb/finger-screws [See footnote 3].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for NBC protective/defensive equipment
2	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military electronic equipment, military guidance/navigation equipment [See footnote 1]
4	P	components for sniper rifles, flash suppressors, gun silencers, sniper rifles
5	T	components for military electronic equipment, components for military training equipment, components for projectile launchers, components for targeting equipment, military electronic equipment, military training equipment, projectile launchers, software for military electronic equipment, software for projectile launchers, software for targeting equipment, targeting equipment, technology for military electronic equipment, technology for military training equipment, technology for projectile launchers, technology for targeting equipment [See footnote 2]
6	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
7	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment, technology for airborne refuelling equipment, technology for military aircraft ground equipment
8	P	triggered spark gaps
9	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for

		military guidance/navigation equipment, components for military support aircraft, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew life support equipment, equipment for the use of military aircrew safety equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military guidance/navigation equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military support aircraft, technology for military training aircraft
10	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft seals, aircraft valve seats, components for equipment for the production of military aero-engines, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, military aero-engines, military aircraft ground equipment, military parametric technical databases, software for environmental test facilities for military aero-engines, software for equipment for the production of military aero-engines, software for military aero-engines, software for military aircraft ground equipment, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, unfinished products for military aero-engines
11	P	components for environmental test facilities for military aero-engines, components for equipment for the production of military aero-engines, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for environmental test facilities for military aero-engines, software for equipment for the use of military aero-engines, software for military aero-engines, software for military aircraft ground equipment, technology for environmental test facilities for military aero-engines, technology for equipment for the use of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for software for environmental test facilities for military aero-engines, technology for software for equipment for the use of military aero-engines, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines
12	P	components for military scenario simulation equipment, components for military training equipment, military scenario simulation equipment, military software, military training equipment, software for military scenario simulation equipment, software for military training equipment, software for modelling/simulating military operation scenarios
13	P	components for military support aircraft
14	P	aircraft military communications equipment, command communications control and intelligence software, command/control equipment for unmanned air vehicles, components for aircraft military communications equipment, components for command/control equipment for unmanned air vehicles, components for electronic warfare equipment, components for equipment for the use of targeting equipment, components for equipment for the use of weapon control equipment, components for global navigation satellite systems jamming equipment, components for launching/ground support equipment for unmanned air vehicles, components for military cameras/photographic equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for radar equipment, components for rangefinding equipment, components for unmanned air vehicles, electronic warfare equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, global navigation satellite systems jamming equipment, launching/ground support equipment for unmanned air vehicles, military cameras/photographic equipment, military communications equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, radar equipment, software for

		aircraft military communications equipment, software for command/control equipment for unmanned air vehicles, software for electronic warfare equipment, software for launching/ground support equipment for unmanned air vehicles, software for military cameras/photographic equipment, software for military communications equipment, software for military guidance/navigation equipment, software for military image recording/processing equipment, software for military infrared/thermal imaging equipment, software for radar equipment, software for rangefinding equipment, technology for aircraft military communications equipment, technology for combat naval vessels, technology for command/control equipment for unmanned air vehicles, technology for equipment for the use of targeting equipment, technology for equipment for the use of weapon control equipment, technology for global navigation satellite systems jamming equipment, technology for launching/ground support equipment for unmanned air vehicles, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for radar equipment, technology for rangefinding equipment, technology for unmanned air vehicles, unmanned air vehicles
15	P	components for military training equipment, components for projectile launchers, military image intensifier equipment, military infrared/thermal imaging equipment, military training equipment, projectile launchers, rangefinding equipment, software for military image intensifier equipment, software for military infrared/thermal imaging equipment, software for projectile launchers, targeting equipment, technology for military image intensifier equipment, technology for military infrared/thermal imaging equipment, technology for military training equipment, technology for projectile launchers, technology for rangefinding equipment, technology for targeting equipment
16	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes
17	P	barbiturate anaesthetic agents for injection [See footnote 4]
18	P	components for sporting guns

19	P	software for nuclear reactors, technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation
20	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment
21	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for munitions/ordnance detection/disposal equipment, technology for software enabling equipment to function as munitions/ordnance detection/disposal equipment
22	P	components for military aero-engines, environmental test facilities for military aero-engines, equipment for the operation of military aircraft in confined areas, equipment for the production of military aero-engines, equipment for the use of military aero-engines, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, software for military aero-engines, technology for military aero-engines, unfinished products for military aero-engines

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£82,668
Total	1	£82,668

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£82,668

civil explosive detection/identification equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes [See footnote 1]
2	P	underwater telecommunications systems [See footnote 2]
3	P	components for assault rifles, components for pistols, components for rifles, components for sniper rifles, components for sporting guns

military helmets [See footnote 3].

Country Footnotes

1. Following its meeting in Madrid of 26 and 27 June 1989, the European Council agreed a Declaration that it was necessary for Member States to adopt an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. Since 2000 the UK has applied this embargo to Macao and since July 2020 it has been applied to Hong Kong.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for commercial end use.
2. Licence granted for components / accessories / spare parts. Humanitarian / international organisation end use.
3. Licence granted for explosive detection / disposal purposes.
4. Licence granted for explosive detection / disposal purposes.
5. Licence granted for testing and evaluation by the potential end user.

aircraft military communications equipment (3 licences).
 assault rifles (10).
 components for aircraft carriers.
 components for aircraft military communications equipment.
 components for artillery.
 components for attack alerting/warning equipment.
 components for body armour [See footnote 7].
 components for combat aircraft (8 licences).
 components for combat helicopters (3 licences).
 components for combat naval vessels.
 components for electronic warfare equipment (4 licences).
 components for launching/handling/control equipment for missiles (2 licences).
 components for launching/handling/control equipment for munitions (3 licences).
 components for machine guns.
 components for military aero-engines (9 licences).
 components for military aircraft head-up/down displays (2 licences).
 components for military auxiliary/support vessels (4 licences).
 components for military communications equipment.
 components for military electronic equipment.
 components for military field generators.
 components for military guidance/navigation equipment (6 licences).
 components for military helicopters (6 licences).
 components for military radars (8 licences).
 components for military sonars.
 components for military support vehicles.
 components for military training aircraft (8 licences).
 components for naval communications equipment (2 licences).
 components for naval electrical/electronic equipment (2 licences).
 components for NBC detection equipment (2 licences).
 components for pistols.
 components for submarines (2 licences).
 components for surface-to-surface missiles.
 components for weapon control equipment.
 electronic countermeasure equipment.
 equipment for the use of combat aircraft.
 general military aircraft components.
 general naval vessel components (4 licences).
 military aero-engines.
 military combat vehicles.
 military electronic equipment (2 licences).
 military field generators.
 military guidance/navigation equipment (3 licences).
 NBC detection equipment (2 licences).
 projectile launchers.
 software for electronic countermeasure equipment.
 software for NBC detection equipment.
 sporting guns (1).
 technology for combat helicopters.
 technology for military auxiliary/support vessels.
 technology for military guidance/navigation equipment.
 technology for military image intensifier equipment.
 technology for multi-role missiles.
 technology for NBC detection equipment.
 training small arms ammunition (2 licences).

- accelerometers.
biotechnology equipment (3 licences) [See footnote 5].
calibration equipment for guidance/navigation equipment.
civil explosive detection/identification equipment (5 licences).
components for corrosion resistant chemical manufacturing equipment.
components for information security equipment.
corrosion resistant chemical manufacturing equipment (2 licences).
dimensional measuring equipment.
direct view imaging equipment.
frequency changers.
general purpose integrated circuits.
imaging cameras (7 licences).
T imaging cameras [See footnote 10].
inertial equipment (5 licences).
information security equipment (32 licences).
information security software.
instrumentation cameras.
machine tools (6 licences).
magnetometers (2 licences).
metal alloy cylindrical forms (3 licences).
nickel powders (2 licences).
oscillators.
T radar equipment [See footnote 3].
semiconductor wafers with epitaxial layers.
software for information security equipment (27 licences).
spacecraft attitude and orbit control systems.
spacecraft telemetry and telecommand equipment.
technology for autoclaves (2 licences).
technology for biotechnology equipment (2 licences).
technology for civil unmanned air vehicles.
technology for corrosion resistant chemical manufacturing equipment.
technology for fibre preforms (2 licences).
technology for fibre prepregs (2 licences).
technology for fibrous/filamentary materials (2 licences).
technology for focal plane arrays.
technology for gas turbine engines (3 licences).
technology for hydroclaves (2 licences).
technology for information security equipment (2 licences).
technology for metal alloy materials (2 licences).
technology for metal-working manufacturing processes (2 licences).

technology for radar equipment.
toxins.
triggered spark gaps.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£2,940,000
ML21	1	£395,416

diver location sonars.
software enabling equipment to function as military sonars.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£895,996
Non-military	1	£42,000
Total	3	£937,996

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£895,996

components for combat helicopters.
components for military helicopters.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5B001	1	£20,000
9A110	1	£22,000

equipment for the development of extended temperature range telecommunications equipment.
rocket structures.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for naval electrical/electronic equipment, components for submarines, equipment for the operation of military aircraft in confined areas, general naval vessel components, military aircraft ground equipment, naval electrical/electronic equipment, naval hull penetrators/connectors, software for aircraft carriers, software for combat naval vessels, software for equipment for the operation of military aircraft in confined areas, software for general naval vessel components, software for military aircraft ground equipment, software for military auxiliary/support vessels, software for military patrol/assault craft, software for naval electrical/electronic equipment, software for naval hull penetrators/connectors, software for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for equipment for the operation of military aircraft in confined areas, technology for general naval vessel components, technology for military aircraft ground equipment, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for naval electrical/electronic equipment, technology for naval hull penetrators/connectors, technology for submarines
2	P	information security equipment
3	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes [See footnote 1]
4	P	information security software [See footnote 2]
5	P	biotechnology equipment, components for biotechnology equipment [See footnote 9]
6	P	components for military electronic equipment, equipment for the use of general naval vessel components, general naval vessel components, military electronic equipment, technology for equipment for the use of general naval vessel components, technology for general naval vessel components, technology for military electronic equipment
7	P	metal alloy cylindrical forms
8	P	underwater telecommunications systems [See footnote 4]
9	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment, technology for airborne refuelling equipment, technology for military aircraft ground equipment
10	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
11	P	components for combat aircraft, components for military support aircraft, components for military training aircraft, general military aircraft components
12	P	technology for biotechnology equipment
13	P	toxins
14	P	components for combat helicopters [See footnote 6]
15	P	components for combat aircraft, components for environmental test facilities for military aero-engines, components for equipment for the production of military aero-engines, components for military aero-engines, components for military support aircraft, components for military training aircraft, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, general military aircraft components, military aero-engines, military aircraft ground equipment, software for environmental test facilities for military aero-engines, software for military aero-engines, technology for environmental test facilities for military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines

16	P	aircraft military communications equipment, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military communications equipment, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components, military aero-engines, military communications equipment, military guidance/navigation equipment
17	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes
18	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment
19	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for munitions/ordnance detection/disposal equipment, technology for software enabling equipment to function as munitions/ordnance detection/disposal equipment

20	P	components for military aero-engines, environmental test facilities for military aero-engines, equipment for the operation of military aircraft in confined areas, equipment for the production of military aero-engines, equipment for the use of military aero-engines, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, software for military aero-engines, technology for military aero-engines, unfinished products for military aero-engines

Country Footnotes

1. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP, as amended, and EU Council Regulation (EU) No 267/2012, as amended. Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

2. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, and Council Regulation (EU) No 359/2011, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment [See footnote 5]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004). This is implemented in the EU with Common Position 2003/495/CFSP, as amended, Council Regulation (EC) No 1210/2003, as amended, and Council Regulation (EEC) No 3541/92.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for goods which will be returned to the UK. Diplomatic mission end use.
2. Licence granted for explosive detection / disposal purposes.
3. Licence granted for commercial end use.
4. Licence granted for disaster / emergency response purposes.
5. Licence granted for humanitarian / international organisation / media end use.
6. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for NBC protective/defensive equipment
2	P	components for sniper rifles, flash suppressors, gun silencers, sniper rifles
3	P	technology for combat aircraft, technology for military aero-engines, unfinished products for combat aircraft, unfinished products for military aero-engines
4	T	components for military electronic equipment, components for military training equipment, components for projectile launchers, components for targeting equipment, military electronic equipment, military training equipment, projectile launchers, software for military electronic equipment, software for projectile launchers, software for targeting equipment, targeting equipment, technology for military electronic equipment, technology for military training equipment, technology for projectile launchers, technology for targeting equipment [See footnote 2]
5	P	technology for unfinished products for combat aircraft, technology for unfinished products for military aero-engines, unfinished products for combat aircraft, unfinished products for military aero-engines
6	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
7	P	triggered spark gaps
8	P	aircraft bladders, aircraft diaphragms, aircraft gaskets, aircraft seals, aircraft valve seats, components for equipment for the production of military aero-engines, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, military aero-engines, military aircraft ground equipment, military parametric technical databases, software for environmental test facilities for military aero-engines, software for equipment for the production of military aero-engines, software for military aero-engines, software for military aircraft ground equipment, technology for environmental test facilities for military aero-engines, technology for equipment for the production of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, unfinished products for military aero-engines
9	P	components for environmental test facilities for military aero-engines, components for equipment for the production of military aero-engines, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for environmental test facilities for military aero-engines, software for equipment for the use of military aero-engines, software for military aero-engines, software for military aircraft ground equipment, technology for environmental test facilities for military aero-engines, technology for equipment for the use of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for software for environmental test facilities for military aero-engines, technology for software for equipment for the use of military aero-engines, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines
10	P	components for military scenario simulation equipment, components for military training equipment, military scenario simulation equipment, military software, military training equipment, software for military scenario simulation equipment, software for military training equipment, software for modelling/simulating military operation scenarios

11	P	components for military training equipment, components for projectile launchers, military image intensifier equipment, military infrared/thermal imaging equipment, military training equipment, projectile launchers, rangefinding equipment, software for military image intensifier equipment, software for military infrared/thermal imaging equipment, software for projectile launchers, targeting equipment, technology for military image intensifier equipment, technology for military infrared/thermal imaging equipment, technology for military training equipment, technology for projectile launchers, technology for rangefinding equipment, technology for targeting equipment
12	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes
13	P	components for sporting guns
14	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment
15	P	components for environmental test facilities for military aero-engines, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the production of military aero-engines, general military aircraft components, military aero-engines, military aircraft ground equipment, software for military aero-engines, unfinished products for military aero-engines
16	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device

		decoying/detection/disposal/jamming equipment, technology for munitions/ordnance detection/disposal equipment, technology for software enabling equipment to function as munitions/ordnance detection/disposal equipment

Issued

airborne refuelling equipment.
aircraft military communications equipment.
bomb suits [See footnote 3].
components for airborne refuelling equipment.
components for aircraft military communications equipment.
components for body armour [See footnote 3].
components for bomb suits [See footnote 3].
components for combat aircraft.
components for countermeasure equipment.
components for electronic warfare equipment.
components for military aero-engines.
components for military communications equipment.
components for military electronic equipment.
components for military guidance/navigation equipment.
components for rangefinding equipment.
components for targeting equipment.
countermeasure equipment.
electronic warfare equipment.
military aero-engines.
military communications equipment.
military electronic equipment.
military guidance/navigation equipment.
military helmets [See footnote 3].
promoting the supply of combat aircraft.
rangefinding equipment.
targeting equipment.

Case & goods Footnotes

1. Licence granted for a Military end user.
2. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
3. Licence granted for explosive detection / disposal purposes.
4. Licence granted for personal protective equipment. Humanitarian / international organisation end use.
5. Licence granted for disaster / emergency response purposes.
6. Licence granted for a Military end user.
7. Licence granted for a Military end user.

8. Licence granted for a Military end user.
9. Licence granted for Military (Navy) end user.

Ivory Coast

Processing Statistics (excluding amendments)

Median processing time SIELs	36 days
% and number of SIELs completed in 20 working days	33% (1)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	193 days
% and number of OIELs completed in 20 working days	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£111,200
Total	2	£111,200

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£111,200

information security equipment (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment
2	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]
3	P	information security equipment, information security software, software for information security equipment [See footnote 2]

4	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment
---	---	--

Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
2. Licence granted for humanitarian / international organisation / media end use.

Jamaica

Country Footnotes

1. UN Security Council Resolution 1701 (2006) established an embargo on the supply of arms and related material to Lebanon, with the exemption of arms and related materiel authorised by the Government of Lebanon or by UNFIL. This is implemented in the EU by Common Position 2006/625/CFSP, as amended, and Council Regulation (EC) No 1412/2006, as amended; as well as Common Position 2005/888/CFSP, as amended, and Council Regulation (EC) No 305/2006, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

2	P	information security equipment, information security software, software for information security equipment [See footnote 3]

Country Footnotes

1. UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) 2095 (2013) and 2362 (2017). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

UNSCR 2017/2362 states that the authorisation to inspect designated high seas vessels found in UNSCR 2146 (2014) shall apply with respect to vessels loading, transporting, or discharging petroleum, including crude oil and refined petroleum products, illicitly exported or attempted to be exported from Libya. UNSCR 2509 expands the scope of the concept of threat to peace, security and stability of Libya to include vessels illicitly importing oil into Libya. The length of time a vessel can be sanctioned has been extended from 90 days to 1 year.

EU Council Decision (CFSP) 2011/137, as amended, and Council Regulation (EU) 2016/446, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

Common Position 2004/698/CFSP, as amended, and Council Regulation (EC) No 3275/1993, as amended, are also in place.

All exports for this destination must be in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.
2. Licence granted for commercial end use.
3. Licence granted for humanitarian / international organisation / media end use.
4. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.

Country Footnotes

1. Following its meeting in Madrid of 26 and 27 June 1989, the European Council agreed a Declaration that it was necessary for Member States to adopt an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. Since 2000 the UK has applied this embargo to Macao and since July 2020 it has been applied to Hong Kong.

All licences for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. United Nations Security Council Resolution 2374 (2017) was adopted in September 2017 establishing a sanctions regime on Mali which imposes travel bans and assets freezes on individuals and entities engaged in activities that threaten the peace, security or stability of the country.

The EU implements this sanctions regime via Council Decision (CFSP) 2017/1775 and Council Regulation (EU) 2017/1770.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£86,639
Total	1	£86,639

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£1,842
ML14	1	£84,797
ML21	1	£0

accessories for small arms training equipment.
 components for small arms training equipment.
 equipment for the use of small arms training equipment.
 small arms training equipment.
 software for small arms training equipment.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,731,960
Total	1	£1,731,960

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£1,731,960

components for military combat vehicles.
components for turrets.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]

Country Footnotes

1. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP, as amended; these include an embargo on the provision of arms and related material, on the export of dual-use goods for military and Border Guard Police end users, as well as of equipment that might be used for internal repression, including the export of equipment for monitoring communications as specified in Annex I to Council Regulation (EU) No 401/2013, as amended. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited, and there are restrictions on military training and cooperation.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£1,328,523
Non-military	7	£70,329
Total	13	£1,398,852

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£51,500
ML2	1	£2,125
ML13	1	£18,000
ML15	1	£1,094,898
ML17	1	£162,000

accessories for military image intensifier equipment.
body armour.
components for artillery.
components for military image intensifier equipment.
components for sporting guns.
military bridges/pontoons/ferries.
military image intensifier equipment.
sporting guns (1).
weapon night sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C011	1	£481
1C353	1	£3
FR AI	5	£69,845

constituents of propellants.
pathogenic genetic elements.
sporting guns (2).
sporting shotguns (1).
sporting shotguns (2) (3 licences).

components for corrosion resistant chemical manufacturing equipment.
 corrosion resistant chemical manufacturing equipment.
 deuterium compounds [See footnote 4].
 T imaging cameras.
 information security equipment.
 small arms ammunition (2 licences).
 software for information security equipment.
 T technology for telecommunications interception equipment [See footnote 9].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment
2	P	components for military guidance/navigation equipment, components for military radars, components for radar equipment, military guidance/navigation equipment, military radars, radar equipment, software for military guidance/navigation equipment, software for military radars, software for radar equipment, technology for military guidance/navigation equipment, technology for military radars, technology for software for military guidance/navigation equipment, technology for software for military radars [See footnote 3]
3	P	components for military combat vehicles [See footnote 5]
4	P	components for military combat vehicles, components for tanks [See footnote 6]
5	P	underwater telecommunications systems [See footnote 7]
6	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production

		of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
7	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
8	P	components for combat aircraft, components for military support aircraft, components for military training aircraft, general military aircraft components
9	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military guidance/navigation equipment, components for military support aircraft, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew life support equipment, equipment for the use of military aircrew safety equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military guidance/navigation equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military support aircraft, technology for military training aircraft
10	P	components for combat aircraft, components for environmental test facilities for military aero-engines, components for military aero-engines, components for military support aircraft, components for military training aircraft, environmental test facilities for military aero-engines, general military aircraft components, military aero-engines, military aircraft ground equipment, software for environmental test facilities for military aero-engines, software for military aero-engines, technology for environmental test facilities for military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines
11	P	components for environmental test facilities for military aero-engines, components for military aero-engines, environmental test facilities for military aero-engines, equipment for the use of military aero-engines, military aero-engines, military aircraft ground equipment, software for environmental test facilities for military aero-engines, software for equipment for the use of military aero-engines, software for military aero-engines, software for military aircraft ground equipment, technology for environmental test facilities for military aero-engines, technology for equipment for the use of military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for software for environmental test facilities for military aero-engines, technology for software for equipment for the use of military aero-engines, technology for software for military aero-engines, technology for software for military aircraft ground equipment, technology for unfinished products for military aero-engines
12	T	military support aircraft
13	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment

body armour [See footnote 3].
 components for body armour [See footnote 3].
 military helmets [See footnote 3].
 NBC protective/defensive equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£953
6A002	2	£32,500
6A003	2	£23,470
9E001	2	£13,520,000
9E002	2	£0

components for corrosion resistant chemical manufacturing equipment.

direct view imaging equipment (2 licences).
 imaging cameras (2 licences).
 technology for spacecraft (2 licences).
 technology for spacecraft attitude and orbit control systems (2 licences).
 technology for spacecraft buses (2 licences).
 technology for spacecraft command and telemetry data handling systems (2 licences).
 technology for spacecraft payload data handling systems (2 licences).
 technology for spacecraft payloads (2 licences).
 technology for spacecraft telemetry and telecommand equipment (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment
2	P	underwater telecommunications systems [See footnote 1]
3	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
4	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 2]
5	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for equipment for the use of military communications equipment, technology for general military vehicle components, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for military radars, technology for munitions/ordnance detection/disposal equipment
6	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for

		launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes
7	P	components for launching/handling/control equipment for munitions, equipment for the use of launching/handling/control equipment for munitions, inert torpedoes, launching/handling/control equipment for munitions, software for launching/handling/control equipment for munitions
8	P	software for inertial equipment

Case & goods Footnotes

1. Licence granted for commercial end use.
2. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
3. Licence granted for testing and evaluation by the potential end user.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	20	£5,500,132
Non-military	1	£3,725
Total	21	£5,503,857

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£1,332,897
ML3	3	£1,057,532
ML6	3	£125,072
ML7	2	£213,411
ML10	3	£924,051
ML11	1	£1,752,928
ML16	1	£9,374
ML17	1	£4,866
ML21	1	£60,000
ML22	1	£20,000

components for assault rifles (2 licences).
 components for military training aircraft (2 licences).
 components for sporting guns (2 licences).
 general military vehicle components (3 licences).
 military aero-engines.
 military electronic equipment.
 NBC protective/defensive equipment (2 licences).
 shotgun ammunition.
 signature suppression fittings/coatings/treatments for military use.
 software for software for military combat vehicles.
 sporting guns (1).
 technology for software for software for military combat vehicles.
 training small arms ammunition (2 licences).
 unfinished products for military support aircraft.
 weapon night sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9011	1	£3,725

sporting shotguns (1).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£18,600

Total	2	£18,600
-------	---	---------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£18,600
ML22	1	£0

components for military training aircraft (2 licences).
technology for military training aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United Kingdom

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for NBC protective/defensive equipment
2	P	components for sniper rifles, flash suppressors, gun silencers, sniper rifles
3	P	components for military scenario simulation equipment, components for military training equipment, military scenario simulation equipment, military software, military training equipment, software for military scenario simulation equipment, software for military training equipment, software for modelling/simulating military operation scenarios
4	P	components for assault rifles, components for pistols, components for rifles, components for sniper rifles, components for sporting guns
5	P	components for sporting guns
6	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment

Portugal

Country Footnotes

1. Restrictions currently in force with respect to Guinea are set out in Council Decision 2010/638/CFSP, as amended; these include an embargo on the provision of technical and financial assistance and other services related to military equipment, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 1284/2009, as amended, with exemptions for certain humanitarian, protective and UN or EU end uses. Amendments to Council Decision 2010/638/CFSP in 2011 and 2012 introduce further exemptions for the supply of non-lethal equipment to be used for maintaining public order by the police and gendarmerie in Guinea, for the return of non-combat helicopters to Guinea, and for the provision of explosives and related equipment intended solely for civilian use in mining and infrastructure investments. In April 2014, Council Decision 2014/213/CFSP, as amended, lifts the arms embargo though measures against individuals remain in place.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for commercial end use.

Country Footnotes

1. Council Decision 2014/512/CFSP, as amended and Council Regulation (EU) No 833/2014, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

2. The Russia (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements, which apply to military goods and technology, dual use goods and technology and energy-related goods. It also imposes a prohibition on the provision of military-related services, as well as other prohibitions on the import of goods from Crimea or Sevastopol, the export of goods related to infrastructure to, or for use in, Crimea or Sevastopol, and the provision of services related to infrastructure and tourism. There are also measures that curtail Russian access to certain specified energy-related equipment and services.

The Regulations makes provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£12,248
Total	1	£12,248

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML7	1	£12,248

components for NBC detection equipment [See footnote 3].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment
2	P	underwater telecommunications systems [See footnote 1]
3	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment [See footnote 1]

Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.

No.	Type	Goods Summary
1	P	information security equipment
2	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes [See footnote 1]
3	P	components for military electronic equipment, equipment for the use of general naval vessel components, general naval vessel components, military electronic equipment, technology for equipment for the use of general naval vessel components, technology for general naval vessel components, technology for military electronic equipment

4	T	components for military electronic equipment, components for military training equipment, components for projectile launchers, components for targeting equipment, military electronic equipment, military training equipment, projectile launchers, software for military electronic equipment, software for projectile launchers, software for targeting equipment, targeting equipment, technology for military electronic equipment, technology for military training equipment, technology for projectile launchers, technology for targeting equipment [See footnote 2]
5	P	metal alloy cylindrical forms
6	P	civil NBC protection equipment, components for civil NBC protection equipment
7	P	underwater telecommunications systems [See footnote 3]
8	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
9	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment, technology for airborne refuelling equipment, technology for military aircraft ground equipment
10	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
11	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military guidance/navigation equipment, components for military support aircraft, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew life support equipment, equipment for the use of military aircrew safety equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military guidance/navigation equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military support aircraft, technology for military training aircraft
12	P	technology for biotechnology equipment
13	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 4]
14	P	components for combat aircraft, components for military aero-engines, components for military support aircraft, components for military training aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, software for environmental test facilities for military aero-engines, software for military aero-engines, technology for environmental test facilities for military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines, unfinished products for military aero-engines

15	P	inertial equipment [See footnote 6]
16	P	components for military training equipment, components for projectile launchers, military image intensifier equipment, military infrared/thermal imaging equipment, military training equipment, projectile launchers, rangefinding equipment, software for military image intensifier equipment, software for military infrared/thermal imaging equipment, software for projectile launchers, targeting equipment, technology for military image intensifier equipment, technology for military infrared/thermal imaging equipment, technology for military training equipment, technology for projectile launchers, technology for rangefinding equipment, technology for targeting equipment
17	P	software for inertial equipment
18	P	barbiturate anaesthetic agents for injection [See footnote 8]
19	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment
20	P	components for corrosion resistant chemical manufacturing equipment, corrosion resistant chemical manufacturing equipment
21	P	information security equipment, information security software
22	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for munitions/ordnance detection/disposal equipment, technology for software enabling equipment to function as munitions/ordnance detection/disposal equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£24,686
Non-military	1	£18,455
Total	6	£43,141

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£4,062
ML3	1	£1,890
ML6	2	£18,493
ML13	1	£242

general military vehicle components.
military helmets.
military support vehicles.
sniper rifles (1).
training small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9011	1	£18,455

small arms ammunition.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for sniper rifles, flash suppressors, gun silencers, sniper rifles

anti-armour ammunition [See footnote 2].
 promoting the supply of pistols (1005).
 promoting the supply of small arms ammunition [See footnote 3].

Country Footnotes

1. UN Security Council Resolution 2444 (2019) extended the partial lift of the embargo on the supply of arms and related material until 15 November 2019, it was agreed on the 15 November 2019 that the partial lift would be extended for another year. UNSCR 2444 also consolidated and streamlined the provisions of the arms embargo and imposed an IED components ban. There are a number of exemptions, including standing exemptions, those requiring notification and those requiring permission from the Somalia UN sanctions committee.
2. The UN Security Council adopted resolution 2551 (2020) on 12 November 2020 renewing the UN sanctions regime on Somalia, including the partial arms embargo, charcoal ban and IED components ban, until the Council decides otherwise. There are a number of exemptions, including standing exemptions, those requiring notification and those requiring permission from the Somalia UN sanctions committee.
 The EU implements this UN sanction regime via Council Decision 2010/231/CFSP, as amended, Council Regulation (EU) No 356/2010, as amended and Council Regulation (EC) No 147/2003, as amended.

Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
2. Licence granted for manufacturing purposes. Military (Army) end use.
3. Licence granted for manufacturing purposes. Military (Army) end use.
4. Licence granted for humanitarian / international organisation / media end use.
5. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.
6. Licence granted for disaster / emergency response purposes. Humanitarian / international organisation end use.
7. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Multinational force or peacekeeping end user.
8. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Humanitarian / international organisation end use.
9. Licence granted for humanitarian / international organisation / media end use.
10. Licence granted for humanitarian / international organisation / media end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	67	£27,671,148
Non-military	61	£699,258,785
Total	128	£726,929,933

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£11,382
ML3	5	£98,300
ML4	6	£202,125
ML5	8	£2,433,868
ML6	1	£58,823
ML7	1	£1,411
ML9	9	£10,256,324
ML10	23	£11,795,690
ML11	13	£2,116,034
ML13	1	£4,200
ML17	1	£400,000
ML18	2	£109,812
ML21	3	£65,178
ML22	4	£118,002

T

- aircraft military communications equipment (2 licences).
- anti-armour ammunition (2 licences).
- body armour.
- components for aircraft military communications equipment (3 licences).
- components for assault rifles.
- components for attack alerting/warning equipment.
- components for ballistic test equipment.
- components for body armour.
- components for combat aircraft.
- components for combat aircraft.
- components for combat helicopters (3 licences).
- components for combat naval vessels (2 licences).

components for launching/handling/control equipment for missiles (2 licences).
 components for launching/handling/control equipment for munitions.
 components for military aero-engines (2 licences).
 components for military aircraft head-up/down displays.
 components for military combat vehicles.
 components for military communications equipment (5 licences).
 components for military guidance/navigation equipment (8 licences).
 components for military helicopters (7 licences).
 components for military radars (4 licences).
 components for military support aircraft.
 components for military training aircraft (2 licences).
 components for munitions/ordnance detection/disposal equipment.
 components for naval electrical/electronic equipment.
 components for small arms ammunition.
 components for submarines (4 licences).
 components for surface-to-air missiles (3 licences).
 components for targeting equipment (2 licences).
 T equipment for the production of combat aircraft.
 equipment for the use of military communications equipment.
 general naval vessel components (3 licences).
 military aircrew safety equipment.
 military communications equipment.
 military guidance/navigation equipment.
 military helmets.
 naval electrical/electronic equipment.
 NBC protective/defensive equipment.
 small arms ammunition (3 licences).
 software enabling equipment to function as equipment for the use of military communications equipment.
 software for ballistic test equipment.
 software for military communications equipment.
 targeting equipment.
 technology for military communications equipment.
 technology for NBC protective/defensive equipment.
 technology for surface-to-air missiles.
 technology for test models for combat aircraft.
 test models for combat aircraft.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

Military	3	£7,596
Total	3	£7,596

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£2,627

ML10	1	£4,959
ML18	1	£10

components for combat aircraft.
components for launching/handling/control equipment for munitions (2 licences).
equipment for the production of launching/handling/control equipment for munitions.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Philippines
United Kingdom

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for naval electrical/electronic equipment, components for submarines, equipment for the operation of military aircraft in confined areas, general naval vessel components, military aircraft ground equipment, naval electrical/electronic equipment, naval hull penetrators/connectors, software for aircraft carriers, software for combat naval vessels, software for equipment for the operation of military aircraft in confined areas, software for general naval vessel components, software for military aircraft ground equipment, software for military auxiliary/support vessels, software for military patrol/assault craft, software for naval electrical/electronic equipment, software for naval hull penetrators/connectors, software for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for equipment for the operation of military aircraft in confined areas, technology for general naval vessel components, technology for military aircraft ground equipment, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for naval electrical/electronic equipment, technology for naval hull penetrators/connectors, technology for submarines
2	P	civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military electronic equipment, military guidance/navigation equipment [See footnote 1]
4	P	components for military electronic equipment, equipment for the use of general naval vessel components, general naval vessel components, military electronic equipment, technology for equipment for the use of general naval vessel components, technology for general naval vessel components, technology for military electronic equipment
5	P	components for combat aircraft, equipment for the production of combat aircraft, technology for combat aircraft
6	P	underwater telecommunications systems [See footnote 2]
7	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for

		the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
8	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment, technology for airborne refuelling equipment, technology for military aircraft ground equipment
9	P	triggered spark gaps
10	P	components for aircraft carriers, components for combat naval vessels, components for military auxiliary/support vessels, components for military patrol/assault craft, components for submarines, technology for aircraft carriers, technology for combat naval vessels, technology for military auxiliary/support vessels, technology for military patrol/assault craft, technology for submarines
11	P	technology for biotechnology equipment
12	P	components for combat aircraft, components for military aero-engines, components for military support aircraft, components for military training aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, software for environmental test facilities for military aero-engines, software for military aero-engines, technology for environmental test facilities for military aero-engines, technology for military aero-engines, technology for military aircraft ground equipment, technology for unfinished products for military aero-engines
13	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes

14	P	components for launching/handling/control equipment for munitions, equipment for the use of launching/handling/control equipment for munitions, inert torpedoes, launching/handling/control equipment for munitions, software for launching/handling/control equipment for munitions
15	P	software for inertial equipment
16	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment
17	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military electronic equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, general military vehicle components, ground vehicle military communications equipment, military communications equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, munitions/ordnance detection/disposal equipment, software enabling equipment to function as munitions/ordnance detection/disposal equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military electronic equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for munitions/ordnance detection/disposal equipment, technology for software enabling equipment to function as munitions/ordnance detection/disposal equipment

Case & goods Footnotes

1. Licence granted for components / accessories / spare parts.
2. Licence granted for commercial end use.
3. Licence granted for energy exploration / generation purposes.

 promoting the supply of training multi-role missiles [See footnote 1].
 promoting the supply of training smoke canisters [See footnote 1].
 promoting the supply of training surface launched rockets [See footnote 1].
 promoting the supply of training surface-to-surface missiles [See footnote 1].

Country Footnotes

1. EU Council Decision (CFSP) 2015/740, as amended and Council Regulation (EU) 2015/735, as amended, transpose UNSCR 2206 (2015). This provides for restrictive measures in the form of travel restrictions and asset freezes that may be applied in relation to persons and entities designated by the Security Council Committee.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

On 13 July 2018, UN Security Council Resolution 2428 (2018), established an embargo on the supply of arms and related material to South Sudan. Exemptions exist for equipment intended for the support of or use by UN personnel, humanitarian use, in support of the African Union Regional Task Force intended solely for regional operations to counter the Lords Resistance Army and intended solely in support of the implementation of the terms of the peace agreement.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.
2. Licence granted for humanitarian / international organisation / media end use.
3. Licence granted for personal protective equipment. Humanitarian / international organisation end use.
4. Licence granted for personal protective equipment. Humanitarian / international organisation end use.
5. Licence granted for disaster / emergency response purposes. Humanitarian / international organisation end use.
6. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Humanitarian / international organisation end use.
7. Licence granted for humanitarian / international organisation / media end use.
8. Licence granted for humanitarian / international organisation / media end use.
9. Licence granted for personal protective equipment. Humanitarian / international organisation end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	31	£3,532,064
Non-military	3	£21,220
Total	34	£3,553,284

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML1	1	£812,200
ML3	1	£4,703
ML4	1	£7,600
ML5	1	£222,735
ML7	2	£74,250
ML9	1	£229,308
ML10	15	£646,685
ML11	2	£56,814
ML16	1	£926,904
ML17	1	£4,022
ML21	1	£443,504
ML22	1	£100,000
PL5001	3	£3,340

aircraft military communications equipment.
anti-riot/ballistic shields (3 licences).
components for airborne refuelling equipment (10 licences).
components for combat aircraft.
components for electronic warfare equipment (2 licences).
components for hand grenades.
components for military support aircraft (3 licences).
components for NBC protective/defensive equipment.
components for submarines.
components for weapon control equipment.
NBC protective/defensive equipment.
shotgun ammunition.
signature suppression fittings/coatings/treatments for military use.
software for modelling/simulating military operation scenarios.
technology for airborne refuelling equipment.
technology for military aircraft ground equipment.
unfinished products for military aero-engines.
weapon night sights.

Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010. This is implemented by Council Regulation (EC) No 747/2014, as amended.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	31	£55,241,535
Non-military	2	£88,106
Total	33	£55,329,641

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£1,467,161
ML2	5	£48,534
ML3	3	£2,099,728
ML4	4	£587,356
ML5	5	£6,521,947
ML7	1	£1,300
ML10	5	£44,479,617
ML11	1	£100
ML18	1	£236
ML21	2	£12,010
ML22	5	£23,546

- components for artillery.
- components for artillery ammunition (2 licences).
- components for combat aircraft (4 licences).
- components for man portable air defence system missiles (2 licences).
- components for military radars (5 licences).
- components for naval guns (4 licences).
- T components for NBC protective/defensive equipment.
- components for sniper rifles.
- components for sporting guns.
- components for weapon night sights.
- decoying/countermeasure equipment.
- gun mountings.
- launching/handling/control equipment for missiles.
- military aircrew life support equipment.
- T military communications equipment.
- T NBC protective/defensive equipment.
- shotgun ammunition.
- software for military radars.

software for modelling/simulating/evaluating weapon systems.
 technology for decoying/countermeasure equipment.
 technology for military combat vehicles (2 licences).
 technology for military support aircraft.
 technology for software for modelling/simulating/evaluating weapon systems.
 test equipment for weapon night sights.
 weapon night sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0D001	1	£1
0E001	1	£1
1A007	1	£83,104
1E201	1	£5,000

non-military firing sets.
 software for nuclear reactors.
 technology for non-military firing sets.
 technology for nuclear reactors.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	21	£144,320,514
Total	21	£144,320,514

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£1,310
ML5	5	£353,142
ML6	2	£42,008
ML9	1	£5,950
ML10	8	£132,082,325
ML11	1	£9,870
ML16	2	£11,640,816
ML17	1	£185,093

components for aircraft military communications equipment.
 components for attack alerting/warning equipment.
 components for combat aircraft (2 licences).
 components for decoying/countermeasure equipment.
 components for electronic warfare equipment.
 components for military combat vehicles.
 components for military radars (3 licences).
 components for military support aircraft (3 licences).

components for unmanned air vehicles (2 licences).
 general military vehicle components.
 general naval vessel components.
 goods treated for signature suppression for military use.
 rangefinding equipment [See footnote 1].
 unfinished products for anti-armour weapons (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
 Belgium
 Brazil
 Canada
 Czech Republic
 Denmark
 Egypt
 Estonia
 France
 Germany
 Hungary
 India
 Indonesia
 Latvia
 Netherlands
 Norway
 Pakistan
 Poland
 Saudi Arabia
 Singapore
 Slovakia
 Slovenia
 South Africa
 South Korea
 Switzerland
 Thailand
 United Arab Emirates
 United Kingdom
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for artillery ammunition
2	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for NBC protective/defensive equipment
3	P	components for sniper rifles, flash suppressors, gun silencers, sniper rifles
4	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun

		installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
5	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment, technology for airborne refuelling equipment, technology for military aircraft ground equipment
6	P	components for military scenario simulation equipment, components for military training equipment, military scenario simulation equipment, military software, military training equipment, software for military scenario simulation equipment, software for military training equipment, software for modelling/simulating military operation scenarios
7	P	aircraft military communications equipment, command communications control and intelligence software, command/control equipment for unmanned air vehicles, components for aircraft military communications equipment, components for command/control equipment for unmanned air vehicles, components for electronic warfare equipment, components for equipment for the use of targeting equipment, components for equipment for the use of weapon control equipment, components for global navigation satellite systems jamming equipment, components for launching/ground support equipment for unmanned air vehicles, components for military cameras/photographic equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for radar equipment, components for rangefinding equipment, components for unmanned air vehicles, electronic warfare equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, global navigation satellite systems jamming equipment, launching/ground support equipment for unmanned air vehicles, military cameras/photographic equipment, military communications equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, radar equipment, software for aircraft military communications equipment, software for command/control equipment for unmanned air vehicles, software for electronic warfare equipment, software for launching/ground support equipment for unmanned air vehicles, software for military cameras/photographic equipment, software for military communications equipment, software for military guidance/navigation equipment, software for military image recording/processing equipment, software for military infrared/thermal imaging equipment, software for radar equipment, software for rangefinding equipment, technology for aircraft military communications equipment, technology for combat naval vessels, technology for command/control equipment for unmanned air vehicles, technology for equipment for the use of targeting equipment, technology for equipment for the use of weapon control equipment, technology for global navigation satellite systems jamming equipment, technology for launching/ground support equipment for unmanned air vehicles, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for radar equipment, technology for rangefinding equipment, technology for unmanned air vehicles, unmanned air vehicles
8	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for launching/handling/control equipment for missiles, components for

		launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes
9	P	components for combat aircraft
10	P	components for sporting guns
11	P	software for nuclear reactors, technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation
12	P	general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment

No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment [See footnote 1]

Country Footnotes

1. On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, as amended, and Council Regulation (EU) No 36/2012, as amended, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

Common Position 2005/888/CFSP, as amended, and Council Regulation (EC) No 305/2006, as amended, are also in place.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.

body armour.
 civil body armour.
 components for body armour.
 military helmets.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£550,500
Total	1	£550,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3C001	1	£550,500

semiconductor wafers with epitaxial layers.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment
2	P	civil NBC protection equipment, components for civil NBC protection equipment
3	P	components for submarines, software for submarines, technology for submarines
4	P	military infrared/thermal imaging equipment

Case & goods Footnotes

1. Licence granted for research and development purposes, including academic and medical.

Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
2. Licence granted for leisure / hunting / sporting purposes, including use by athletes in training and competition.
3. Licence granted for research and development purposes, including academic and medical. Academic / civilian end users.
4. Licence granted for chemical manufacturing purposes.
5. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
6. Licence granted for testing and evaluation by the potential end user.
7. Licence granted for commercial end use.
8. Licence granted for training purposes.
9. Licence granted for humanitarian / international organisation / media end use.
10. Licence granted for chemical manufacturing purposes.
11. Licence granted for testing and evaluation by the potential end user.
12. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
13. Licence granted for commercial end use.
14. Licence granted for commercial end use.
15. Licence granted for humanitarian / international organisation / media end use.
16. Licence granted for research and development purposes, including academic and medical.
17. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
18. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
19. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. End use by the (Military) Navy.

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£18,008
Non-military	1	£16,377

Both Military and Non-military	1	£348,150
Total	5	£382,536

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,841
ML3	1	£5,217
ML13	2	£10,950

body armour.
 components for assault rifles.
 components for body armour.
 military helmets.
 training small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£16,377

direct view imaging equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£209,800
ML1	1	£138,350

imaging cameras.
 weapon night sights.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	military support aircraft
2	P	aircraft cannons, command communications control and intelligence software, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft cannons, components for aircraft carriers, components for anti-aircraft guns, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for decoying/countermeasure equipment, components for depth charges, components for electronic warfare equipment, components for

	launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for machine guns, components for military aero-engines, components for military auxiliary/support vessels, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military underwater remotely operated vehicles, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval guns, components for naval mines, components for periscopes, components for sensor integration equipment, components for submarines, components for surface launched rockets, components for surface-to-surface missiles, components for targeting equipment, components for torpedoes, components for weapon control equipment, components for weapon mountings, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, general naval vessel components, launching/handling/control equipment for missiles, military aero-engines, military radars, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft cannons, technology for combat aircraft, technology for combat helicopters, technology for depth charges, technology for electronic warfare equipment, technology for general military aircraft components, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for machine guns, technology for military aero-engines, technology for military electronic equipment, technology for military helicopters, technology for military radars, technology for torpedoes

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£8,806
Total	1	£8,806

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£8,806

information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment [See footnote 1]

Country Footnotes

1. EU Council Decision (CSFP) 2017/2074 and Council Regulation (EU) 2017/2063 were introduced in November 2017. It includes an asset freeze, travel ban and arms embargo, embargo on equipment that could be used for repression, and restrictions on monitoring equipment. Targeted restrictions should be imposed against those responsible for serious human rights violations or abuses or the repression of civil society and democratic opposition; or those whose actions, policies or activities otherwise undermine democracy or the rule of law in Venezuela.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£7,440
Non-military	11	£1,967,694
Total	13	£1,975,134

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£6,600
ML18	1	£840

ballistic test equipment.
components for military support aircraft.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£19,220
1C006	1	£117,300
1C353	4	£9
5A002	3	£11,165
5D002	2	£0
7A103	2	£1,820,000

civil explosive detection/identification equipment.
electronics cooling fluids.
Rv inertial equipment (2 licences) [See footnotes 3, 5].
information security equipment (3 licences).
pathogenic genetic elements (4 licences).
software for information security equipment (2 licences).

Rv - Some or all of which have subsequently been revoked.

Refused

	Count
Non-military	2
Total	2

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except

where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry
5A001	2
5D001	1
5E001	1

components for telecommunications interception equipment.
 software for telecommunications interception equipment.
 technology for telecommunications interception equipment.
 telecommunications interception equipment (2 licences).

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£23,863
Total	1	£23,863

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A005	1	£23,863

laser electro-optical components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, guidance/navigation equipment, gyroscopes [See footnote 1]
2	P	underwater telecommunications systems [See footnote 2]
3	P	artillery, artillery ammunition, components for artillery, components for equipment for the production of naval gun installations/mountings, components for equipment for the use of naval gun installations/mountings, components for fire location equipment, components for heavy machine guns, components for machine guns, components for military cameras/photographic equipment, components for military infrared/thermal imaging equipment, components for naval gun installations/mountings, components for naval guns, components for targeting equipment, components for weapon control equipment, equipment for the production of naval gun installations/mountings, equipment for the use of fire location equipment, equipment for the use of naval gun installations/mountings, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, fire location equipment, heavy machine guns, machine guns, military cameras/photographic equipment, military infrared/thermal imaging equipment, naval gun installations/mountings, naval guns, small arms ammunition, software for modelling/simulating/evaluating weapon systems, software for naval gun installations/mountings, targeting equipment, technology for naval gun installations/mountings, unfinished products for naval gun installations/mountings, weapon control equipment
4	P	technology for biotechnology equipment

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	inertial equipment

OITCLs

Source	Issued	Refused	Revoked
Italy	1	0	0
South Africa	1	0	0

Issued

bomb suits [See footnote 4].
components for body armour [See footnote 4].
components for bomb suits [See footnote 4].
military helmets [See footnote 4].
promoting the supply of military diving apparatus.

components for sporting guns.
small arms ammunition.
sporting guns.

Country Footnotes

1. UN Security Council Resolution 2216 (2015) established a targeted arms embargo to prevent the direct or indirect supply, sale or transfer to, or for the benefit of designated individuals and entities and those acting on their behalf or at their direction in Yemen, of arms and related material of all types, and of technical assistance, training, financial assistance or other assistance related to military activities or the provision, maintenance or use of any arms and related material. This adds to earlier resolution 2140 (2014) establishing asset freezes and travel bans of designated individuals and entities. The EU implements these measures through Council Decision (CFSP) 2015/882, as amended; as well as Council Regulation (EU) 2015/878, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

UNSCR 2511 contains a humanitarian exemption to assist the work of the UN and other humanitarian organisations operating in Yemen or for any other purpose connected with UNSCRs 2140 and 2216.

Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.
2. Licence granted for humanitarian / international organisation / media end use.
3. Licence granted for humanitarian / international organisation / media end use.
4. Licence granted for humanitarian / international organisation / media end use.
5. Licence granted for humanitarian / international organisation / media end use.
6. Licence granted for commercial end use.

Country Footnotes

1. Restrictions currently in force with respect to Zimbabwe are set out in Council Decision 2011/101/CFSP, as amended, and Council Regulation No. 314/2004, as amended. These include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for disaster / emergency response purposes. Humanitarian / international organisation end use.
2. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. State-owned end user.
