International Trade

**Strategic Export Controls: Country  
Pivot Report**

1st January 2021 - 31st March  
2021

August 2023

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2021 and 31st March 2021. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for goods covered by the torture regulation** (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

## Global Project Licences

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

# Reporting

## Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

## Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3265	3196	69	0
- Permanent Standard	2798	2732	66	0
- Temporary Standard	112	112	0	0
- Transshipment	1	1	0	0
- Incorporation	344	342	2	0
- For goods covered by the torture regulation (Permanent or Temporary)	10	9	1	0
SITCLs	50	46	4	0
OIELs	145	117	28	0
- Standard	135	108	27	0
- Dealer-to-dealer	0	0	0	0
- Cryptographic	10	9	1	0
- Media	0	0	0	0
- Continental Shelf	0	0	0	0
Global Project Licences	0	0	0	0
OITCLs	27	26	1	0

### Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

## Overall Processing Statistics

### Processing statistics covering the period 1st January 2021 to 31st March 2021

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3233	75	3933	92	11 days
- Permanent Standard	2878	76	3480	92	11 days
- Temporary Standard	105	80	127	96	10 days
- Transhipment	1	100	1	100	8 days
- Incorporation	242	66	317	87	14 days
- For goods covered by the torture regulation (Permanent or Temporary)	7	70	8	80	14 days
SITCLs	35	51	60	88	20 days
OIELs	36	21	88	51	57 days
- Standard	23	15	72	46	70 days
- Dealer-to-dealer	1	100	1	100	1 day
- Cryptographic	12	80	15	100	6 days
- Media	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	n/a	n/a	n/a	n/a	n/a
Global Project Licences	n/a	n/a	n/a	n/a	n/a
OITCLs	3	10	22	71	41 days

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Virtual EU	0	0	0
EU GEA 2019/125	0	0	0
Open General Export Licence (Export of Dual-Use items to EU Member States)	273	0	0
General Trade Licence (Syria Sanctions - Earthquake relief efforts in Syria)	0	0	0
EU GEA 001 (EU001)	38	0	0

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	4	£533,350
Non-military	2	£10,000,018
Total	6	£10,533,368

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£497,650
ML11	1	£24,700
ML13	1	£11,000

assault rifles (90) [See footnote 1].  
 assault rifles (182) [See footnote 2].  
 body armour [See footnote 5].  
 components for assault rifles (2 licences) [See footnotes 1, 2].  
 components for body armour [See footnote 5].  
 components for pistols (2 licences) [See footnotes 1, 2].  
 machine guns (4) [See footnote 1].  
 machine guns (7) [See footnote 2].  
 military communications equipment.

military helmets [See footnote 5].  
 pistols (25) [See footnote 1].  
 pistols (103) [See footnote 2].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£18
5A001	1	£10,000,000

chemicals used for general laboratory work/scientific research [See footnote 3].  
 counter-improvised explosive device equipment [See footnote 4].

### SIELs for goods covered by the torture regulation

#### Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£3,000
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£3,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£3,000

tear gas/riot control agents [See footnote 2].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 6]

2 (Rv)	P	components for combat aircraft, components for equipment for the production of combat aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the production of combat aircraft, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes, signalling devices, software for combat aircraft, technology for combat aircraft, test models for combat aircraft
--------	---	---

Rv - Some or all of which have subsequently been revoked.

#### SITCLs

Source	Issued	Refused	Revoked
Bulgaria	2	0	0
Romania	1	0	0

#### Issued

- Rv mortar bombs.
- Rv promoting the supply of exploding grenade ammunition.
- Rv small arms ammunition.

Rv - Some or all of which have subsequently been revoked.

#### Country Footnotes

1. The Afghanistan (Sanctions) (EU Exit) Regulations 2020, which fully came into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2255 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to the trade in military goods and military technology, which is to, or for the benefit of a designated person as well as the provision to, or for the benefit of a designated person of certain services which enable or facilitate the conduct of armed hostilities in Afghanistan. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

#### Case & goods Footnotes

1. Licence granted for a diplomatic mission.
2. Licence granted for a diplomatic mission.
3. Licence granted for commercial end use.
4. Licence granted for Military (Air Force) end user.
5. Licence granted for humanitarian / international organisation / media end use.
6. Licence granted for humanitarian / international organisation / media end use.

## Albania

---	---	--

### Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

### Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.

## Australia

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 2]
2	T	acoustic seabed survey equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment [See footnote 1]

### Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

### Case & goods Footnotes

1. Licence granted for commercial end use.
2. Licence granted for humanitarian / international organisation / media end use.

### Country Footnotes

1. The Central African Republic (Sanctions) (EU Exit) Regulations 2020, which came fully into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2127 (2013). The Regulations impose trade sanctions prohibitions and requirements which apply to military goods and technology as well as the provision of certain services which enable or facilitate the conduct of armed hostilities in the Central African Republic. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Total	13	£48,089

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£653
ML3	3	£11,063
ML4	1	£0
ML13	1	£100

body armour.  
 components for pistols.  
 components for sporting guns.  
 gun silencers.  
 hand grenades.  
 small arms ammunition.  
 training crowd control ammunition.  
 training small arms ammunition.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

0C001	1	£1
FR AI	2	£1,555

components for sporting shotguns.  
products containing natural uranium.  
sporting shotguns (1).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£7,156
FR AI	1	£1,260
ML1	1	£3,268
ML3	2	£11,410
ML7	1	£10,401
PL9010	1	£1,222

assault rifles (1).  
components for civil NBC protection equipment.  
NBC protective/defensive equipment.  
pistols (1).  
small arms ammunition (2 licences).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£3,062
Total	1	£3,062

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£3,062

components for military combat vehicles.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United Kingdom

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.

### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for manufacturing purposes. Commercial end use.
2. Licence granted for goods which will be returned to the UK.
3. Licence granted for research and development purposes, including academic and medical.
4. Licence granted for commercial end use.
5. Licence granted for research and development purposes, including academic and medical. Commercial end use.
6. Licence granted for commercial end use.
7. Licence granted for humanitarian / international organisation / media end use.

promoting the supply of military support aircraft.

#### Country Footnotes

1. The Democratic Republic of the Congo (Sanctions) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020 impose trade sanctions prohibitions and requirements which apply to military goods and technology, as well as the provision of certain services which enable, or facilitate the conduct of armed hostilities in the Democratic Republic of Congo. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place

## Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.

## Denmark

T  
unfinished products for sporting guns.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	41	£20,654,232
Total	41	£20,654,232

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	6	£1,392,305
ML5	5	£1,396,565
ML9	5	£434,705
ML10	17	£1,441,393
ML11	8	£1,126,563
ML13	1	£2,838
ML14	3	£14,259,539
ML16	1	£488,785
ML18	1	£315
ML21	1	£98,025
ML22	5	£13,200

components for aerial target equipment (3 licences) [See footnote 4].

components for air-to-air missiles.  
components for air-to-surface missiles (3 licences) [See footnote 4].  
components for body armour.  
components for combat aircraft (4 licences).  
components for combat naval vessels.  
components for electronic countermeasure equipment.  
components for equipment for the production of air-to-air missiles.  
components for military aero-engines (5 licences).  
components for military communications equipment (4 licences).  
components for military guidance/navigation equipment (3 licences).  
components for military helicopters (6 licences).  
components for military sonars.  
components for military training aircraft.  
components for naval communications equipment.  
components for submarines.  
components for surface-to-air missiles.  
components for targeting equipment (3 licences) [See footnote 3].  
equipment for the use of naval communications equipment.  
general military aircraft components.  
launching/handling/control equipment for munitions.  
military aircrew safety equipment.  
military communications equipment (2 licences).  
military guidance/navigation equipment.  
naval electrical/electronic equipment (2 licences).  
software for military communications equipment.  
technology for aerial target equipment.  
technology for air-to-surface missiles (2 licences) [See footnote 4].  
technology for military aero-engines.  
technology for military communications equipment.  
unfinished products for military aero-engines.

No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment [See footnote 2]
2	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military combat vehicles, components for military helicopters, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military combat vehicles, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military support vehicles, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general military vehicle components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military combat vehicles, technology for military helicopters, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for naval engines
3	P	components for uranium isotope separation equipment, software for uranium conversion equipment, software for uranium isotope separation equipment, technology for uranium conversion equipment, technology for uranium isotope separation equipment, uranium conversion equipment, uranium isotope separation equipment
4	P	materials containing enriched uranium, products containing enriched uranium, software for nuclear reactors, technology for depleted uranium, technology for deuterium production equipment, technology for enriched uranium, technology for heavy water production equipment, technology for materials containing natural uranium, technology for natural uranium, technology for nuclear fuel reprocessing equipment, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for products containing natural uranium, technology for software controlled by entry 0D of the Dual-Use Regulation, technology for thorium
5	P	shotgun ammunition
6	P	components for military radars, equipment for the use of military radars, software for military radars, software for software for military radars, technology for military radars

7	P	components for small arms ammunition, equipment for the production of small arms ammunition [See footnote 3]
8	P	americium-241, neutron generators, non-military firing sets, oxidisers, technology for non-military firing sets
9	P	components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
10	T	aerial target equipment, aircraft military communications equipment, attack alerting/warning equipment, components for aerial target equipment, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military training aircraft, components for military training equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of aircraft military communications equipment, equipment for the use of attack alerting/warning equipment, equipment for the use of electronic warfare equipment, equipment for the use of military training equipment, general military aircraft components, military training aircraft, military training equipment, technology for aerial target equipment, technology for aircraft military communications equipment, technology for attack alerting/warning equipment, technology for electronic warfare equipment, technology for equipment for the use of aerial target equipment, technology for equipment for the use of aircraft military communications equipment, technology for equipment for the use of attack alerting/warning equipment, technology for equipment for the use of electronic warfare equipment, technology for military training aircraft, technology for military training equipment [See footnote 1]
11	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for software for aircraft military communications equipment, technology for software for military guidance/navigation equipment
12	P	components for sporting guns, small arms ammunition, sporting guns, weapon sights

#### OITCLs

Source	Issued	Refused	Revoked
Belgium, Channel Islands, Channel Islands, Denmark, Estonia, Finland, France, Germany, Isle Of Man, Italy, Latvia, Lithuania, Netherlands, Norway, Poland, Portugal, Russia, Spain, Sweden	1	0	0
Sri Lanka	1	0	0

#### Issued

components for military support aircraft.  
 explosive charges/devices.  
 military equipment for initiating explosives.  
 technology for military support aircraft.  
 technology for unfinished products for military support aircraft.  
 unfinished products for military support aircraft.

## Case & goods Footnotes

1. Licence granted for training purposes.
2. Licence granted for energy exploration / generation purposes. Commercial end use.
3. Licence granted for academic / civilian end users.

## Ghana

### Processing Statistics (excluding amendments)

Median processing time SIELs	33 days
% and number of SIELs completed in 20 working days	13% (1)
% and number of SIELs completed in 60 working days	88% (7)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	131 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£505,325
Non-military	6	£87,046
Total	8	£592,371

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£500,000
ML13	1	£5,325

body armour.  
components for body armour.  
military helicopters.  
military helmets.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£1
5A002	4	£59,885
6A003	1	£27,160

imaging cameras.  
information security equipment (4 licences).  
natural uranium.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 2]
2	T	military support aircraft
3	P	components for military support aircraft [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for components / accessories / spare parts.
2. Licence granted for humanitarian / international organisation / media end use.

## Gibraltar

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	100% (8)
% and number of SIELs completed in 60 working days	100% (8)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£4,281
Non-military	3	£141,867
Total	4	£146,148

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£4,281

blank/inert ammunition.  
small arms ammunition.  
training small arms ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	3	£141,867

information security equipment (3 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	shotgun ammunition

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Greece

### Processing Statistics (excluding amendments)

Median processing time SIELs	8 days
% and number of SIELs completed in 20 working days	85% (11)
% and number of SIELs completed in 60 working days	100% (13)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

% and number of OIELs completed in 20 working days	33% (2)
% and number of OIELs completed in 60 working days	33% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	6	£701,179
Non-military	3	£138,601
Total	9	£839,780

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£505,962
ML3	1	£5,022
ML7	1	£1,102
ML9	3	£189,093
ML22	2	£0

components for assault rifles.  
components for combat naval vessels.  
components for sniper rifles.  
components for submarines.  
general naval vessel components.  
NBC protective/defensive equipment.  
sniper rifles (11).  
technology for general naval vessel components.  
technology for sniper rifles.  
training small arms ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£1
FR AI	2	£138,600

sporting shotguns (1) (2 licences).  
toxins.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	4	£13,882
Total	4	£13,882

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£4,236
ML9	1	£9,159
ML10	1	£488

components for launching/handling/control equipment for missiles (2 licences).  
 components for submarines.  
 general military aircraft components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Germany
- Singapore
- United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military combat vehicles, components for military helicopters, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military combat vehicles, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military support vehicles, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general military vehicle components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military combat vehicles, technology for military helicopters, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for naval engines

Control Entry	No. of licences with goods rated using Control Entry
FR AI	1
ML1	1

components for machine guns.  
sporting guns (1).  
sporting shotguns (1).

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	4

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 2]
2	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, military helmets

## Country Footnotes

1. Following its meeting in Madrid of 26 and 27 June 1989, the European Council agreed a Declaration that it was necessary for Member States to adopt an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. Since 2000 the UK has applied this embargo to Macao and since July 2020 it has been applied to Hong Kong.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
2. Licence granted for humanitarian / international organisation / media end use.

# Hungary

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£253,625
Non-military	3	£311,730
Total	6	£565,355

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	3	£253,625

components for shotgun ammunition.

small arms ammunition (2 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B352	1	£180,245
6A003	1	£126,700
FR AI	1	£4,785

T biotechnology equipment.  
T components for biotechnology equipment.  
imaging cameras.  
small arms ammunition.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military combat vehicles, components for military helicopters, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military combat vehicles, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military support vehicles, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general military vehicle components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military combat vehicles, technology for military helicopters, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for naval engines
2	P	shotgun ammunition
3	P	components for small arms ammunition, equipment for the production of small arms ammunition [See footnote 2]
4	P	shotgun ammunition, small arms ammunition
5	T	aerial target equipment, aircraft military communications equipment, attack alerting/warning equipment, components for aerial target equipment, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military training aircraft, components for military training equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of aircraft military communications equipment, equipment for the use of attack alerting/warning equipment, equipment for the use of electronic warfare equipment, equipment for the use of military training equipment, general military

		aircraft components, military training aircraft, military training equipment, technology for aerial target equipment, technology for aircraft military communications equipment, technology for attack alerting/warning equipment, technology for electronic warfare equipment, technology for equipment for the use of aerial target equipment, technology for equipment for the use of aircraft military communications equipment, technology for equipment for the use of attack alerting/warning equipment, technology for equipment for the use of electronic warfare equipment, technology for military training aircraft, technology for military training equipment [See footnote 1]

### Country Footnotes

1. Following the implementation of the Joint Comprehensive Plan of Action and UN Security Council Resolution 2231 (2015), the flow of certain goods and services to Iran that were previously prohibited are now permitted. However, some restrictions remain in place. The Iran (Sanctions) (Nuclear) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements which apply to military goods and technology, missile-related goods and technology, nuclear-related goods and technology, graphite and relevant metals, and enterprise resource planning software, and other restricted goods and technology. They also impose prohibitions on entering into arrangements relating to uranium mining or to certain restricted goods and technology such as missile-related goods. In addition, they impose prohibitions on providing services in relation to certain ships and aircraft, where they are carrying relevant restricted items. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

2. The Iran (Sanctions) (Human Rights) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirement, which apply to goods and technology, which might be used for internal repression and monitoring and interception goods and technology. It also imposes trade prohibitions in respect of the provision of interception and monitoring services to, or for the benefit of, the Government of Iran. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	17	£526,190
Non-military	16	£869,687
Both Military and Non-military	7	£36,700
Total	40	£1,432,577

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	9	£21,634
ML3	3	£30,225
ML6	1	£26,000

ML7	2	£428,286
ML8	1	£45
ML14	1	£20,000

blank/inert ammunition.  
 components for NBC protective/defensive equipment.  
 military support vehicles.  
 NBC protective/defensive equipment.  
 precursors for energetic materials.  
 shotgun ammunition.  
 small arms ammunition.  
 small arms training equipment.  
 sniper rifles (1) (3 licences).  
 sporting guns (1) (3 licences).  
 sporting guns (2) (3 licences).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£1
0C002	1	£0
1C351	2	£35,393
3B002	1	£10,575
FR AI	10	£99,498
PL8001	1	£4,220
PL9002	1	£720,000

components for semiconductor device test equipment.  
 components for sporting guns.  
 devices for initiating explosives.  
 natural uranium.  
 non-military energetic materials.  
 plutonium-239.  
 sporting guns (2).  
 sporting guns (50) (2 licences).  
 sporting shotguns (1) (4 licences).  
 sporting shotguns (4).  
 sporting shotguns (5).  
 sporting shotguns (16).  
 toxins (2 licences).

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
FR AI	7	£17,569
ML1	7	£19,132

sniper rifles (2).  
 sporting guns (1) (3 licences).  
 sporting guns (2).  
 sporting guns (3) (2 licences).  
 sporting guns (4).  
 sporting shotguns (1) (4 licences).  
 sporting shotguns (2) (3 licences).

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	shotgun ammunition
2	P	components for small arms ammunition, equipment for the production of small arms ammunition [See footnote 2]
3	P	components for military support aircraft [See footnote 1]
4	P	americium-241, neutron generators, non-military firing sets, oxidisers, technology for non-military firing sets
5	P	components for pistols, components for rifles, components for sporting guns, components for sporting shotguns, small arms ammunition
6	P	chemicals used for chemical/materials production

#### Case & goods Footnotes

1. Licence granted for components / accessories / spare parts.
2. Licence granted for academic / civilian end users.

## Isle Of Man

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	3	£58,340
Total	3	£58,340

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£53,388
5D002	1	£2
PL8001	1	£4,950

devices for initiating explosives.  
information security equipment (2 licences).  
information security software.

#### OIELs (excluding Other OIELs)

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment [See footnote 1]

## Case & goods Footnotes

1. Licence granted for commercial end use.

## Jamaica

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	2	£747,950
Non-military	5	£33,200
Total	7	£781,150

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£355,950
ML13	1	£392,000

military helmets.  
shotgun ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	4	£32,763
5D002	2	£0
5E002	2	£437

information security equipment (4 licences).  
software for information security equipment (2 licences).  
technology for information security equipment (2 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 1]
2	P	shotgun ammunition, small arms ammunition

#### Country Footnotes

- All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

#### Case & goods Footnotes

- Licence granted for humanitarian / international organisation / media end use.

## Japan

### Processing Statistics (excluding amendments)

Median processing time SIELs	9 days
% and number of SIELs completed in 20 working days	85% (22)

3A001	2	£14,212
3A225	1	£4,641
6A006	1	£76,750

constituents of propellants.  
 devices containing enriched lithium compounds.  
 electronic components.  
 extended temperature range integrated circuits.  
 frequency changers.  
 magnetometers.  
 metal alloy cylindrical forms.  
 metal alloy tubes.  
 natural uranium.  
 products containing enriched lithium (2 licences).  
 toxic gas detectors (2 licences).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£25,500
Non-military	2	£13,968
Total	3	£39,468

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£25,500

components for military radars.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A006	2	£13,968

magnetometers (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Philippines
- Taiwan
- United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 2]

### SIELs - Transhipment

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£590,800
Total	1	£590,800

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£590,800

military support vehicles [See footnote 1].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	military support aircraft

### Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.

Control Entry	No. of licences with goods rated using Control Entry	Value
7A103	1	£23,500

inertial equipment.

## OIELs (excluding Other OIELs)

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	T	military support aircraft

## Country Footnotes

- Following its meeting in Madrid of 26 and 27 June 1989, the European Council agreed a Declaration that it was necessary for Member States to adopt an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. Since 2000 the UK has applied this embargo to Macao and since July 2020 it has been applied to Hong Kong.

All licences for this destination were approved in accordance with the sanctions in place.

## Madagascar

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£351,256
Both Military and Non-military	1	£49,100
Total	3	£400,356

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	2	£351,256

body armour [See footnote 1].  
 components for body armour (2 licences) [See footnotes 1, 3].  
 military helmets (2 licences) [See footnotes 1, 3].

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£47,300
PL8001	1	£1,800

components for military equipment for initiating explosives [See footnote 2].  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2].  
 devices for initiating explosives [See footnote 2].  
 military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	military support aircraft

#### SITCLs

Source	Issued	Refused	Revoked
South Africa	1	0	0

#### Issued

bomb suits.  
 components for bomb suits.  
 military helmets.

## Country Footnotes

1. United Nations Security Council Resolution 2374 (2017) was adopted in September 2017 establishing a sanctions regime on Mali which imposes travel bans and assets freezes on individuals and entities engaged in activities that threaten the peace, security or stability of the country.

The UK implements this sanctions regime via The Mali (Sanctions) (EU Exit) Regulations 2020.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for personal protective equipment. Humanitarian / international organisation end use.
2. Licence granted for explosive detection / disposal purposes.
3. Licence granted for personal protective equipment.

## Malta

## Country Footnotes

1. The Myanmar (Sanctions) (EU Exit) Regulations 2019, impose trade sanctions prohibitions and requirements, which apply to military goods and technology; dual use goods and technology; goods and technology, which might be used for internal repression, as well as of monitoring and interception goods and technology. It also imposes trade prohibitions in respect of the provision of interception and monitoring services to, or for the benefit of, the Government of Myanmar, or the provision of certain services, funds or armed personnel to, or for the benefit of, the Tatmadaw (i.e. the Myanmar Armed Forces). The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

acoustic seabed survey equipment.  
civil explosive detection/identification equipment (2 licences).  
corrosion resistant chemical manufacturing equipment.  
devices for initiating explosives.  
direct view imaging equipment [See footnote 6].  
imaging cameras [See footnote 4].  
inertial equipment.  
information security equipment (3 licences).  
products containing natural uranium.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 7]
2	T	military support aircraft
3	T	acoustic seabed survey equipment, guidance/navigation equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment [See footnote 2]

#### Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.
2. Licence granted for commercial end use.
3. Licence granted for personal protective equipment. Commercial end use.
4. Licence granted for commercial end use.
5. Licence granted for Military (Air Force) end user.
6. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
7. Licence granted for humanitarian / international organisation / media end use.

## Non Specific Country

% [as a % of all OIELs cases processed] and number of OIELs refused	100% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£420
Non-military	2	£94,168
Both Military and Non-military	1	£28,790
Total	4	£123,378

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£420

hand grenades [See footnote 1].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£402
5D002	1	£2,236
6A008	1	£91,530

information security equipment.  
radar equipment.  
software for information security equipment.

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£8,343
5D002	1	£0
5E002	1	£128
ML11	1	£19,888
ML21	1	£104
ML22	1	£327

components for military communications equipment.  
 information security equipment.  
 military communications equipment.  
 software for information security equipment.  
 software for military communications equipment.  
 technology for information security equipment.  
 technology for military communications equipment.

### OIELs (excluding Other OIELs)

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	information security equipment, technology for information security equipment

#### Case & goods Footnotes

1. Licence granted for testing and evaluation by the potential end user.

No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military combat vehicles, components for military helicopters, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat

		helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military combat vehicles, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military support vehicles, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general military vehicle components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military combat vehicles, technology for military helicopters, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for naval engines
2	P	shotgun ammunition
3	P	components for military support aircraft [See footnote 1]
4	P	components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
5	T	aerial target equipment, aircraft military communications equipment, attack alerting/warning equipment, components for aerial target equipment, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military training aircraft, components for military training equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of aircraft military communications equipment, equipment for the use of attack alerting/warning equipment, equipment for the use of electronic warfare equipment, equipment for the use of military training equipment, general military aircraft components, military training aircraft, military training equipment, technology for aerial target equipment, technology for aircraft military communications equipment, technology for attack alerting/warning equipment, technology for electronic warfare equipment, technology for equipment for the use of aerial target equipment, technology for equipment for the use of aircraft military communications equipment, technology for equipment for the use of attack alerting/warning equipment, technology for equipment for the use of electronic warfare equipment, technology for military training aircraft, technology for military training equipment [See footnote 2]

#### OITCLs

Source	Issued	Refused	Revoked
Belgium, Channel Islands, Channel Islands, Denmark, Estonia, Finland, France, Germany, Isle Of Man, Italy, Latvia, Lithuania, Netherlands, Norway, Poland, Portugal, Russia, Spain, Sweden	1	0	0

#### Issued

explosive charges/devices.  
military equipment for initiating explosives.

### Case & goods Footnotes

1. Licence granted for components / accessories / spare parts.
2. Licence granted for training purposes.

## Puerto Rico

### Processing Statistics (excluding amendments)

Median processing time SIELs	6 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£12,468
Total	1	£12,468

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£12,468

information security equipment.

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Qatar

### Processing Statistics (excluding amendments)

explosive charges/devices.  
military equipment for initiating explosives.

## Country Footnotes

1. The Russia (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements, which apply to military goods and technology, dual use goods and technology and energy-related goods. It also imposes a prohibition on the provision of military-related services, as well as other prohibitions on the import of goods from Crimea or Sevastopol, the export of goods related to infrastructure to, or for use in, Crimea or Sevastopol, and the provision of services related to infrastructure and tourism. There are also measures that curtail Russian access to certain specified energy-related equipment and services.

The Regulations makes provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for counter-piracy operations. Commercial end use.
2. Licence granted for counter-piracy operations. Commercial end use.
3. Licence granted for counter-piracy operations. Commercial end use.

## Sierra Leone

### Processing Statistics (excluding amendments)

Median processing time SIELs	78 days
% and number of SIELs completed in 20 working days	33% (1)
% and number of SIELs completed in 60 working days	33% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	111 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£4,000
Non-military	1	£1,055
Total	2	£5,055

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£4,000

military support vehicles.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,055

information security equipment.

#### OIELs (excluding Other OIELs)

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 1]
2	T	military support aircraft

## Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.

## Singapore

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	82% (63)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£1,000,500
Total	1	£1,000,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£950,500
5E001	1	£50,000

counter-improvised explosive device equipment [See footnote 1].  
technology for counter-improvised explosive device equipment [See footnote 1].

## SITCLs

Source	Issued	Refused	Revoked
Turkey	1	0	0

## Issued

promoting the supply of pistols (1000).

## Country Footnotes

1. The Somalia (Sanctions) (EU Exit) Regulations 2020 which came fully into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2551 (2020). The Regulations impose trade sanctions prohibitions and requirements, which apply to military goods and technology and improvised explosive device components. It also imposes prohibitions on the import of charcoal from Somalia and the provision of certain services that enable or facilitate the conduct of armed hostilities in Somalia. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.

## South Africa

### Country Footnotes

1. The South Sudan (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2206 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to military goods and technology and the provision of certain services that enable or facilitate the conduct of armed hostilities in South Sudan. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.
2. Licence granted for components / accessories / spare parts. Humanitarian / international organisation end use.
3. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Humanitarian / international organisation end use.

## Spain

#### Issued

explosive charges/devices.  
military equipment for initiating explosives.

#### Case & goods Footnotes

1. Licence granted for energy exploration / generation purposes. Commercial end use.
2. Licence granted for academic / civilian end users.

## Switzerland

### Processing Statistics (excluding amendments)

Median processing time SIELs	9 days
% and number of SIELs completed in 20 working days	86% (43)
% and number of SIELs completed in 60 working days	96% (48)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	109 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	29% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	20	£1,330,480
Non-military	12	£2,459,886
Both Military and Non-military	2	£32,843
Total	34	£3,823,209

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£339,360
ML3	1	£124,200
ML4	2	£55,051
ML6	3	£82,747
ML10	5	£22,222
ML11	1	£6,000
ML13	4	£693,400
ML18	1	£7,500
ML22	1	£0

- assault rifles (63).
- blank/inert ammunition.
- body armour (3 licences) [See footnotes 2, 3].
- components for assault rifles (2 licences).
- components for body armour (4 licences) [See footnotes 2, 3].
- components for machine guns.
- components for military aircrew life support equipment.
- T components for military guidance/navigation equipment.
- components for military training aircraft (2 licences).
- components for munitions/ordnance detection/disposal equipment.
- components for pistols.
- components for surface-to-surface missiles.
- components for tanks.
- T environmental test facilities for military guidance/navigation equipment.
- general military aircraft components (2 licences).
- machine guns (60).
- magazines.
- military aircrew safety equipment.
- military helmets (2 licences) [See footnote 2].
- military support vehicles (2 licences).
- rifles (1).
- sporting guns (1).
- technology for assault rifles.
- training small arms ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	2	£5,166
1C351	2	£139
2B352	1	£282,580
5A002	1	£94,250
FR AI	6	£2,077,751

- bacteria.
- biotechnology equipment.
- components for sporting shotguns.
- devices containing enriched lithium (2 licences).
- information security equipment.
- small arms ammunition (2 licences).
- sporting guns (1).
- sporting shotguns (1).
- sporting shotguns (2).
- sporting shotguns (3).
- toxins.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
FR AI	2	£2,622
ML1	2	£30,221

pistols (4).  
rifles (1).  
sporting guns (2).  
sporting guns (8).  
sporting shotguns (1).

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	12	£2,477,122
Total	12	£2,477,122

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£13,345
ML5	7	£2,145,041
ML6	3	£13,192
ML10	1	£305,544
ML21	1	£0
ML22	1	£0

components for heavy machine guns.  
components for military radars (4 licences).  
components for military training aircraft [See footnote 1].  
components for rangefinding equipment.  
components for weapon control equipment.  
general military vehicle components (3 licences).  
rangefinding equipment.  
software for military radars.  
technology for military radars.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
Brazil  
Canada  
China  
Czech Republic  
Germany  
India  
Ireland

Mexico  
 Netherlands  
 Norway  
 Poland  
 Qatar  
 Saudi Arabia  
 South Africa  
 Turkey  
 United Kingdom  
 United States of America

**SIELs for goods covered by the torture regulation**

**Issued**

bomb suits [See footnote 1].  
 components for bomb suits [See footnote 1].  
 military helmets [See footnote 1].

#### Country Footnotes

1. The Syria (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements which apply to goods and technology related to chemical and biological weapons, and goods and technology which might be used for internal repression, and interception and monitoring goods and technology. They also impose prohibitions on the provision of interception and monitoring services, to or for the benefit of the Syrian regime. They also impose prohibitions on the import, purchase and transportation of military goods and technology, crude oil and petroleum products from Syria and on the transfer of military technology. Luxury goods and other items listed in Schedule 2 of the Regulation are also subject to trade prohibitions.

The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£7,990
Total	1	£7,990

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5D002	1	£7,990

information security software.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 1]
2	T	military support aircraft

### Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.

## Ukraine

36	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 13]
37	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment

Rv - Some or all of which have subsequently been revoked.

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary

small arms ammunition (3 licences).

### Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
2. Licence granted for manufacturing purposes. Commercial end use.
3. Licence granted for public services (Government) end use.
4. Licence granted for components / accessories / spare parts.
5. Licence granted for Military (Navy) end user.
6. Licence granted for testing and evaluation by the potential end user.
7. Licence granted for a Military end user.
8. Licence granted for training purposes.
9. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
10. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
11. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
12. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
13. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security.
14. Licence granted for humanitarian / international organisation / media end use.
15. Licence granted for academic / civilian end users.

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	23	£42,474,285
Total	23	£42,474,285

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£25
1C353	1	£8
2B352	1	£0
3A101	13	£40,300,000
5A002	4	£73,144
5D002	4	£13,545
6A003	1	£53,700
8A001	1	£1,477,016
8A002	1	£556,846

bacteria.  
biotechnology equipment.  
imaging cameras.  
information security equipment (4 licences).  
information security software.  
pathogenic genetic elements.  
software for information security equipment (3 licences).  
submersible equipment.  
submersible vehicles.  
X-ray accelerators (13 licences).  
X-ray generators (13 licences).

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 2]
2	P	technology for composite laminates, technology for composite structures, technology for composite tubes, technology for stretch-forming equipment
3	T	military support aircraft
4	P	components for military support aircraft [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for components / accessories / spare parts.
2. Licence granted for humanitarian / international organisation / media end use.

## Issued

components for sporting guns [See footnote 1].  
small arms ammunition [See footnote 1].  
sporting guns [See footnote 1].

## Country Footnotes

1. The Yemen (Sanctions) (EU Exit) (No. 2) Regulations 2020 which came into force on 31 December 2020 implement UK obligations under United Nations Security Council Resolutions 2140 (2014) and 2216 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to military goods and technology, including targeted trade sanctions prohibitions where the trade is to, or benefits, a designated person. There are also prohibitions on the provision of certain services which enable or facilitate the conduct of armed hostilities in Yemen. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for counter-piracy operations. Humanitarian / international organisation end use.
2. Licence granted for humanitarian / international organisation / media end use.

## Zambia

#### SIELs for goods covered by the torture regulation

##### Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£142,721
Goods covered by the torture regulation and Military	0	£0

Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£142,721

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIV	1	£142,721

barbiturate anaesthetic agents for injection [See footnote 2].

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 3]

#### Country Footnotes

1. The Zimbabwe (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, include trade sanctions prohibitions and requirements which apply to military goods and technology and goods and technology that might be used for internal repression. The regime also imposes a prohibition on the provision of military-related services to or for the benefit of the Zimbabwe Defence Forces. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Public Services (Government) end use.
2. Licence granted for research and development purposes, including academic and medical. State-owned end user.
3. Licence granted for humanitarian / international organisation / media end use.
