We have not changed our objection on Westen Homes development of Bulls Field south of Priors Wood. Every time Westen Group put in another application they lower the amount of homes that want to build Now its gone down to 96 but the problems still remain the same Very low water pressure ,Building and Parking areas covered with cement over high quaility agricultural land. There is a drain that runs from Bulls Field along Jacks Lane directly into the River Roding , there is much talk of protecting our rivers. The wildlife runs to Priors would would be affected. The village of Takeley and Little Canfield would miss the freedom of space ,breathing fresh air and relaxing the mind which we all need today for good mental health Please consider our objections very carefully
