> It is a beautiful rural area with many listed homes surrounding it, wildlife that would be decimated and should be protected. It has beautiful walking areas that would be badly affected. The countryside also adds to the historical character of the listed properties in and around the proposed site.

>

> I live in [REDACTED] that is a grade 2\* listed property and as such would very much like to keep it a semi rural property.

> Smiths Green does not have the capability to accommodate any more cars. The surrounding schools and doctors would also suffer as they are at full capacity already.

> Our water pressure is not good and added properties must only add to Anglian Water's problems.

> The street lighting would have to be altered for safety reason and again this would all be detrimental to our rural location.
