**TRADE REMEDIES**

**Section A**  
**General Provisions**

**Article 3.1**  
**Definitions**

For the purposes of this Chapter:

“bilateral safeguard measure” means a measure referred to in paragraph 2 of Article 3.6 (Application of a Bilateral Safeguard Measure);

“customs duty reduction or elimination” means any customs duty reduction or elimination in accordance with paragraph 2 of Article 2.5 (Treatment of Customs Duties – Trade in Goods);

“domestic industry” means, with respect to an imported good, the producers as a whole of the like or directly competitive good operating within the territory of a Party, or those whose collective output of the like or directly competitive good constitutes a major proportion of the total domestic production of the good;

“serious injury” means a significant overall impairment in the position of a domestic industry;

“threat of serious injury” means serious injury that is clearly imminent, in accordance with the provisions of Article 3.8 (Investigation Procedure). A determination of the existence of a threat of serious injury shall be based on facts and not merely on allegation, conjecture, or remote possibility; and

“transition period” means, in relation to a good, the entry into force of this Agreement until five years after the completion of the customs duty reduction or elimination in relation to the good.

**Section B**  
**Anti-dumping and Countervailing Measures**

**Article 3.2**  
**General Provision**

Except as provided in this Section, each Party affirms its rights and obligations under Article VI of GATT 1994, the AD Agreement, and the SCM Agreement.

**Article 3.3**  
**Investigations**

1. After receipt by a Party's investigating authority of a properly documented application for an anti-dumping investigation or a countervailing duty investigation with respect to imports from the other Party and before initiating an investigation, the importing Party shall provide written notification to the other Party of its receipt of the application.
2. Without prejudice to its other rights and obligations under the SCM Agreement, prior to initiating a countervailing duty investigation against imports from the other Party, the importing Party shall afford to the other Party a reasonable opportunity to consult with the aim of clarifying the situation on matters raised in the application and arriving at a mutually agreed solution. Any such consultations shall not unnecessarily delay or prevent a Party from proceeding expeditiously to initiate and conduct an investigation.
3. The Parties reaffirm their rights and obligations under Articles 6.2 and 6.3 of the AD Agreement and Article 12.2 of the SCM Agreement, including with respect to the rights of interested parties to present information orally and to defend their interests in the conduct of an anti-dumping investigation or a countervailing duty investigation.
4. Each Party shall ensure, before a final determination is made, full and meaningful disclosure of all essential facts under consideration which form the basis for the decision whether to apply definitive measures in an anti-dumping investigation or a countervailing duty investigation. This is without prejudice to Article 6.5 of the AD Agreement and Article 12.4 of the SCM Agreement. Disclosures shall be made in writing, and allow interested parties sufficient time to defend their interests.

**Article 3.4**  
**Lesser-duty Rule**

Each Party's investigating authority may consider whether the amount of the anti-dumping or countervailing duty to be imposed shall be the full margin of dumping or total amount of the subsidy or a lesser amount, in accordance with the Party's laws and regulations.

**Section C**  
**Global Safeguard Measures**

**Article 3.5**  
**General Provisions and Transparency**

1. Except as provided in this Section, nothing in this Agreement affects either Party's rights and obligations under Article XIX of GATT 1994 and the Agreement on Safeguards.
2. A Party that initiates a safeguard investigatory process shall provide to the other Party an electronic copy of any notification given to the WTO Committee on Safeguards under Article 12.1 of the Agreement on Safeguards.
3. To the extent permitted by the Agreement on Safeguards, when imposing safeguard measures, each Party shall endeavour to impose them in a way that least affects bilateral trade.

**Section D**  
**Bilateral Safeguard Measures**

**Article 3.6**  
**Application of a Bilateral Safeguard Measure**

1. If, as a result of customs duty reduction or elimination, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause serious injury or threat of serious injury, the importing Party may apply a safeguard provided for in paragraph 2 to the extent necessary to prevent or remedy the serious injury and to facilitate the adjustment of the domestic industry.

2. In accordance with paragraph 1, the importing Party may apply one of the following bilateral safeguard measures:
  - (a) a suspension of the further customs duty reduction or elimination in relation to the good; or
  - (b) an increase in the rate of customs duty on the good to a level that does not exceed the lesser of:
    - (i) the most-favoured-nation applied rate of customs duty in effect at the time the measure is applied; or
    - (ii) the most-favoured-nation applied rate of customs duty on the good in effect on the day immediately preceding the date of entry into force of this Agreement.

### **Article 3.7 Duration and Scope**

1. A Party shall apply a bilateral safeguard measure only for such period of time as may be necessary to prevent or remedy serious injury and to facilitate the adjustment of the domestic industry.
2. The period referred to in paragraph 1 shall not exceed two years, except that the period may be extended by no more than two years if the competent authority of the Party that applies the measure determines, in conformity with the procedures set out in Article 3.8 (Investigation Procedure), that the bilateral safeguard measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment.
3. In order to facilitate adjustment in a situation where the expected duration of a bilateral safeguard measure is more than one year, the Party that applies the measure shall progressively liberalise it at regular intervals during its period of application.
4. Neither Party shall apply a bilateral safeguard measure on a good that has already been subject to a bilateral safeguard measure for a period of time equal to the duration of the previous safeguard or one year after its termination, whichever is longer.
5. When a Party terminates a bilateral safeguard measure on a good, the rate of customs duty for that good shall be the rate that would have been in effect in accordance with the Party's Schedule to Annex 2A (Tariff Commitments) but for the bilateral safeguard measure.

6. Neither Party shall apply or maintain a bilateral safeguard measure after the transition period.

### **Article 3.8 Investigation Procedure**

1. A Party shall apply a bilateral safeguard measure only following an investigation by the Party's competent authority in accordance with the same procedures as those provided for in Articles 3 and 4.2 of the Safeguards Agreement; to this end, Articles 3 and 4.2 of the Safeguards Agreement are incorporated into and made part of this Agreement, *mutatis mutandis*.
2. An investigation shall not exceed one year, but a Party may, in exceptional circumstances, and as mutually agreed with the other Party, extend the investigation for no more than the time necessary to complete the investigation. The other Party should not unreasonably withhold its agreement to the extension.

### **Article 3.9 Notification and Consultation**

1. A Party shall provide written notice to the other Party immediately after:
  - (a) initiating an investigation referred to in Article 3.8 (Investigation Procedure);
  - (b) making a finding of serious injury or threat of serious injury caused by increased imports of an originating good of the other Party as a result of a customs duty reduction or elimination in relation to the good;
  - (c) taking a decision to apply or extend a bilateral safeguard measure; or
  - (d) taking a decision to modify a bilateral safeguard measure for progressive liberalisation.
2. A Party shall provide promptly to the other Party a copy of the public version of the report of its competent authority following the conclusion of its investigation as set out under Article 3.8 (Investigation Procedure).
3. The Party providing a written notice referred to in paragraph 1 shall provide the other Party with all pertinent information, which shall include:

- (a) in the written notice referred to in subparagraph 1(a), the reason for the initiation of the investigation, a precise description of the good subject to the investigation (including its subheading in the Harmonized System), the importation period subject to the investigation, and the date of initiation of the investigation; and
  - (b) in the written notice referred to in subparagraphs 1(b) through (d), the evidence of the serious injury or the threat of serious injury caused by the increased imports of the good as a result of the customs duty reduction or elimination, a precise description of the good subject to the proposed bilateral safeguard measure (including its subheading in the Harmonized System), a precise description of the bilateral safeguard measure, and, as applicable, the proposed date of the introduction, extension, or modification of the bilateral safeguard measure, its expected duration, and the timetable for the progressive liberalisation of the measure. In the case of an extension of a bilateral safeguard measure, evidence that the domestic industry concerned is adjusting shall also be provided.
4. A Party proposing to apply or extend a bilateral safeguard measure shall provide adequate opportunity for prior consultations with the other Party with a view to reviewing the information provided under subparagraph 3(b), exchanging views on the bilateral safeguard measure, and reaching an agreement on compensation set out in Article 3.11 (Compensation).

**Article 3.10**  
**Provisional Application of a Bilateral Safeguard Measure**

1. In critical circumstances, a Party may apply a bilateral safeguard measure on a provisional basis if:
- (a) delay would cause damage to a domestic industry that would be difficult to repair; and
  - (b) the Party's competent authority makes a preliminary determination that there is clear evidence that imports of an originating good of the other Party have increased as the result of the customs duty reduction or elimination in relation to the good, and that those increased imports have caused or are threatening to cause serious injury.
2. Before applying a bilateral safeguard measure on a provisional basis the applying Party shall provide written notice to the other Party. Consultation between the Parties on the application of the measure on a provisional basis shall be initiated immediately after the measure is applied.

3. A bilateral safeguard measure applied on a provisional basis shall not be maintained for more than 200 days. The duration of a bilateral safeguard applied on a provisional basis shall be counted as part of the period described in paragraph 2 of Article 3.7 (Duration and Scope).
4. The increase in customs duty paid as a result of the application of the bilateral safeguard measure on a provisional basis shall be promptly refunded if the Party's competent authority, in the investigation referred to in paragraph 1 of Article 3.8 (Investigation Procedure), does not determine that the increase in imports of the good subject to the measure has caused or threatened to cause serious injury.

### **Article 3.11 Compensation**

1. A Party applying a bilateral safeguard measure shall, in consultation with the other Party, provide mutually agreed trade liberalising compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral safeguard measure. The Party shall provide an opportunity for those consultations no later than 30 days after the application or the extension of the bilateral safeguard measure.
2. If the consultations under paragraph 1 do not result in the Parties agreeing on trade liberalising compensation within 30 days, the Party against whose good the bilateral safeguard measure is applied may suspend the application of substantially equivalent concessions to the trade of the Party applying the bilateral safeguard measure.
3. The Party against whose good the bilateral safeguard measure is applied shall notify the other Party in writing at least 30 days before it suspends concessions in accordance with paragraph 2.
4. The obligation to provide compensation under paragraph 1 and the right to suspend concessions under paragraph 2 terminates on the termination of the bilateral safeguard measure.

### **Article 3.12 Non-cumulation**

1. Neither Party shall apply or maintain two or more of the following measures, with respect to the same good at the same time:

- (a) a bilateral safeguard measure;
- (b) a safeguard measure under Article XIX of GATT 1994 and the Agreement on Safeguards;
- (c) a safeguard measure under the *Agreement on Agriculture*, in Annex 1A to the WTO Agreement;
- (d) a product-specific safeguard under the Party's Schedule to Annex 2A (Tariff Commitments).

**Article 3.13**  
**Non-application of Dispute Settlement**

Neither Party shall have recourse to dispute settlement under Chapter 30 (Dispute Settlement) for any matter arising under Section B or C.

**CHAPTER 4**  
**RULES OF ORIGIN AND ORIGIN PROCEDURES**

**Section A**  
**Rules of Origin**

**Article 4.1**  
**Definitions**

“aquaculture” means the farming of aquatic organisms, including fish, molluscs, crustaceans, other aquatic invertebrates and aquatic plants from seed stock, including seed stock imported from non-parties, such as eggs, fry, fingerlings, or larvae, parr, smolts, or other immature fish at a post-larval stage, by intervention in the rearing or growth processes to enhance production such as regular stocking, feeding, or protection from predators;

“fungible goods or materials” means goods or materials that are interchangeable for commercial purposes and whose properties are essentially identical, irrespective of minor differences in appearance that are not relevant to a determination of origin;

“generally accepted accounting principles” means those principles recognised by consensus or with substantial authoritative support in the territory of a Party with respect to the recording of revenues, expenses, costs, assets and liabilities; the disclosure of information; and the preparation of financial statements. These principles may encompass broad guidelines for general application, as well as detailed standards, practices, and procedures;

“indirect material” means a material used in the production, testing, or inspection of a good but not physically incorporated into the good; or a material used in the maintenance of buildings or the operation of equipment, associated with the production of a good, including:

- (a) fuel, energy, catalysts, and solvents;
- (b) equipment, devices, and supplies used to test or inspect the good;
- (c) gloves, glasses, footwear, clothing, safety equipment, and supplies;

- (e) spare parts and materials used in the maintenance of equipment and buildings;

- (f) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings; and
- (g) any other material that is not incorporated into the good but the use of which in the production of the good can reasonably be demonstrated to be a part of that production;

“material” means a good that is used in the production of another good;

“non-originating good” or “non-originating material” means a good or material that does not qualify as originating in accordance with this Chapter;

“originating good” or “originating material” means a good or material that qualifies as originating in accordance with this Chapter;

“production value” means the price paid or payable to the producer of the good at the place where the last production was carried out, and must include the value of all materials. If there is no price paid or payable or if it does not include the value of all materials, the value of the good:

- (a) must include the value of all materials and the cost of production employed in producing the good, calculated in accordance with accounting principles which are generally accepted in the Party of the producer; and
- (b) may include amounts for general expenses and profit to the producer that can be reasonably allocated to the good.

Any internal taxes which are, or may be, repaid when the good obtained is exported are excluded. If value of the good includes costs incurred subsequent to the good leaving the place of production, such as freight, insurance, packing, and all other costs incurred to transport the good, those costs are to be excluded; and

“value of the good” means, in relation to a good, either:

- (a) the production value of the good; or
- (b) the price actually paid or payable for the good when sold for export or other value determined in accordance with the Customs Valuation Agreement, excluding any costs incurred in the international shipment of the good.

## **Article 4.2 Origin Criteria**

Except as otherwise provided in this Chapter, a good shall be regarded as originating if it is:

- (a) wholly obtained or produced in the territory of one or both of the Parties, as established in Article 4.3 (Wholly Obtained or Produced Goods);
- (b) produced entirely in the territory of one or both of the Parties, exclusively from originating materials; or
- (c) produced entirely in the territory of one or both of the Parties using non-originating materials, provided the good satisfies all applicable requirements of Annex 4B (Product-Specific Rules),

in each case, provided the good satisfies all other applicable requirements of this Chapter.

## **Article 4.3 Wholly Obtained or Produced Goods**

For the purposes of Article 4.2 (Origin Criteria) the following goods shall be considered as wholly obtained or produced in the territory of one or both of the Parties if they are:

- (a) a plant, plant good, or fungus, grown, cultivated, harvested, picked, or gathered there;
- (b) a live animal born and raised there;
- (c) a good obtained from a live animal there;
- (d) an animal obtained by hunting, trapping, fishing, gathering, or capturing there but not beyond the outer limits of a Party's territorial sea;

- (e) a good obtained from aquaculture there but not beyond the outer limits of a Party's territorial sea;
- (f) a mineral or other naturally occurring substance, not included in subparagraphs (a) through (e), extracted or taken from there;

- (h) fish, shellfish, and other marine life taken from the sea, seabed, or subsoil beyond the outer limits of the territories of each Party and, in accordance with international law, outside the territorial sea of non-parties by vessels that are registered, listed, or recorded with a Party and entitled to fly the flag of that Party;

- (k) a good that is:
  - (i) waste or scrap derived from production there; or
  - (ii) waste or scrap derived from used goods collected there, provided that those goods are fit only for the recovery of raw materials; and

#### **Article 4.4 Regional Value Content**

1. Where a regional value content requirement is specified in this Chapter, including related Annexes, to determine whether a good is originating, the regional value content shall be calculated using one of the following methods:

Build-Down Method: based on the value of non-originating materials

$$RVC = \frac{\text{value of the good} - \text{value of non-originating materials}}{\text{value of the good}} \times 100$$

Build-Up Method: based on the value of originating materials

$$RVC = \frac{\text{value of originating materials}}{\text{value of the good}} \times 100$$

in each case where:

**RVC** is the regional value content of a good, expressed as a percentage;

**value of non-originating materials** is the value of non-originating materials, including materials of undetermined origin, used in the production of the good; and

**value of originating materials** is the value of originating materials used in the production of the good in the territory of one or both Parties.

2. All costs considered for the calculation of regional value content shall be recorded and maintained in conformity with the generally accepted accounting principles applicable in the territory of a Party where the good is produced.

#### **Article 4.5 Materials Used in Production**

1. If a non-originating material undergoes further production such that it satisfies the requirements of this Chapter, the material shall be treated as originating when determining the originating status of the subsequently produced good, regardless of whether that material was produced by the producer of the good.
2. If a non-originating material is used in the production of a good, the following may be counted as originating content in determining whether the resulting good meets a regional value content requirement:
  - (a) the value of production of the non-originating material undertaken in the territory of one or both Parties by one or more producers; and
  - (b) the value of any originating material used in the production of the non-

originating material undertaken in the territory of one or both Parties by one or more producers.

#### **Article 4.6** **Value of Materials Used in Production**

For the purposes of this Chapter, the value of a material is:

- (a) for a material imported by the producer of the good, the price actually paid or payable for the material at the time of importation or other value determined in accordance with the Customs Valuation Agreement, including the costs incurred in the international shipment of the material;
- (b) for a material acquired in the territory where the good is produced:
  - (i) the price paid or payable by the producer in the Party where the producer is located;
  - (ii) the value as determined for an imported material in subparagraph (a); or
  - (iii) the earliest ascertainable price paid or payable in the territory of the Party; or
- (c) for a material that is self-produced:
  - (i) all the costs incurred in the production of the material, which includes general expenses; and
  - (ii) an amount equivalent to the profit added in the normal course of trade, or equal to the profit that is usually reflected in the sale of goods of the same class or kind as the self-produced material that is being valued.

#### **Article 4.7** **Further Adjustments to the Value of Materials**

1. For an originating material, the following expenses may be added to the value of the material, if not included under Article 4.6 (Value of Materials Used in Production):
  - (a) the costs of freight, insurance, packing, and all other costs incurred to transport the material to the location of the producer of the good;
  - (b) duties, taxes, and customs brokerage fees on the material, paid in the territory of a Party, other than duties and taxes that are waived, refunded,

- refundable, or otherwise recoverable, which include credit against duty or tax paid or payable; and
- (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of reusable scrap or by-product.
2. For a non-originating material or material of undetermined origin, the following expenses may be deducted from the value of the material:
- (a) the costs of freight, insurance, packing, and all other costs incurred in transporting the material to the location of the producer of the good;
  - (b) duties, taxes, and customs brokerage fees on the material paid in the territory of one or both Parties, other than duties and taxes that are waived, refunded, refundable, or otherwise recoverable, which include credit against duty or tax paid or payable; and
  - (c) the cost of waste and spoilage resulting from the use of the material in the production of the good, less the value of reusable scrap or by-product.
3. For greater certainty, when a non-originating material is used in the production of a good, the values referred to in subparagraph 2(a) and subparagraph 2(b) of Article 4.5 (Materials Used in Production) may be:
- (a) deducted from the value of the non-originating material if calculating the regional value content requirement using the Build-Down Method; or
  - (b) included in the value of originating materials if calculating the regional value content requirement using the Build-Up Method.
4. For the purposes of this Article, if a cost, expense, or value is unknown or documentary evidence of the amount of the adjustment is not available, then no adjustment is allowed for that cost, expense, or value.

#### **Article 4.8**

##### **Recovered Materials and Remanufactured Goods**

1. A recovered material derived in the territory of one or both of the Parties shall be treated as originating when it is used in the production of, and incorporated into, a remanufactured good.
2. For greater certainty:
- (a) a remanufactured good shall be treated as originating only if it satisfies the applicable requirements of Article 4.2 (Origin Criteria); and

- (b) a recovered material that is not used or incorporated in the production of a remanufactured good shall be treated as originating only if it satisfies the applicable requirements of Article 4.2 (Origin Criteria).

**Article 4.9  
Accumulation**

1. A good shall be regarded as originating if the good is produced in the territory of one or both of the Parties by one or more producers, provided that the good satisfies the requirements of Article 4.2 (Origin Criteria) and all other applicable requirements in this Chapter.
2. An originating good or material of one Party shall be considered originating in the territory of the other Party when used in the production of a good in the territory of the other Party.
3. Production undertaken on a non-originating material in the territory of one or both Parties by one or more producers may contribute toward the originating content of a good for the purpose of determining its origin, regardless of whether that production was sufficient to confer originating status to the material itself.

**Article 4.10  
Tolerance**

1. A good that contains non-originating materials that do not satisfy the applicable change in tariff classification requirement specified in Annex 4B (Product-Specific Rules) for the good shall nonetheless be regarded as originating if:
  - (a) in the case of goods in Chapters 1 through 24 and 50 through 63 of the Harmonized System:
    - (i) the total weight of those materials does not exceed 10 per cent of the weight of the good not including the weight of any packaging;  
or
    - (ii) the value of those materials does not exceed 10 per cent of the value of the good; or
  - (b) in the case of goods in Chapters 25 through 49 and 64 through 97 of the Harmonized System, the value of those materials does not exceed 10 per cent of the value of the good,

and the good meets all other applicable requirements of this Chapter.

2. If a good described in paragraph 1 is also subject to a regional value content requirement, the value of those non-originating materials shall be included in the

value of non-originating materials for any applicable regional value content requirement.

**Article 4.11**  
**Fungible Goods or Materials**

1. A fungible good or material shall be treated as originating based on the:
  - (a) physical segregation of each fungible good or material; or
  - (b) use of any inventory management method recognised in the generally accepted accounting principles of the Party where the production is performed, if originating and non-originating fungible goods or materials are comingled, provided that the inventory management method selected is used throughout the fiscal year of the person that selected the inventory management method.
2. The inventory management system must ensure that no more goods or material receive originating status than would have been the case if the fungible goods or materials had been physically segregated.

**Article 4.12**  
**Accessories, Spare Parts, Tools, and Instructional or Other Information Materials**

1. For the purpose of determining origin of a good, accessories, spare parts, tools, and instructional or other information materials classified and delivered with, but not invoiced separately from a good shall be:
  - (a) disregarded in determining whether a good is wholly obtained or satisfies a process or change in tariff classification requirement set out in Annex 4B (Product-Specific Rules) for the good; and
  - (b) taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good,

provided the quantities, value, and type of accessories, spare parts, tools, and instructional or other information material are customary for the good.
2. Accessories, spare parts, tools, and instructional or other information materials, described in paragraph 1 shall be deemed to have the same originating status as the good with which they are delivered.

**Article 4.13**  
**Packaging Materials and Containers for Retail Sale**

Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good, be:

- (a) disregarded in determining whether the non-originating materials used in the production of the good have satisfied the applicable process or change in tariff classification requirement set out in Annex 4B (Product-Specific Rules), or whether the good is wholly obtained or produced; and
- (b) taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

**Article 4.14**  
**Packing Materials and Containers for Shipment**

Packing materials and containers for shipment shall be disregarded in determining whether a good is originating.

**Article 4.15**  
**Indirect Materials**

An indirect material shall be considered to be originating without regard to where it is produced.

**Article 4.16**  
**Sets of Goods**

1. For a set classified as a result of the application of rule 3(a) or rule 3(b) of the General Rules for the Interpretation of the Harmonized System, the originating status of the set shall be determined in accordance with the product-specific rule of origin that applies to the set.
2. For a set classified as a result of the application of rule 3(c) of the General Rules for the Interpretation of the Harmonized System, the set shall be originating only if each good in the set is originating and both the set and the goods meet the other applicable requirements of this Chapter.
3. Notwithstanding paragraph 2, for a set classified as a result of the application of rule 3(c) of the General Rules for the Interpretation of the Harmonized System, the set is originating if the value of all the non-originating goods in the set does not exceed 20 per cent of the value of the set.

4. For the purposes of paragraph 3, the value of the non-originating goods in the set and the value of the set shall be calculated in the same manner as the value of non-originating materials and the value of the good.

**Article 4.17**  
**Non-Alteration**

1. An originating good shall retain its originating status if the good has been transported to the importing Party without passing through the territory of a non-party.
2. An originating good transported through the territory of one or more non-parties shall retain its originating status provided that the good:
  - (a) does not undergo further production or any other operation outside the territories of the Parties, other than unloading, reloading, separation from a bulk shipment or splitting of a consignment, storing, repacking, labelling or marking required by the importing Party or any other operation necessary to preserve it in good condition or to transport the good to the territory of the importing Party.
  - (b) is not released to free circulation in the territory of any non-party.<sup>1</sup>

**Section B**  
**Origin Procedures**

**Article 4.18**  
**Claims for Preferential Tariff Treatment**

1. Each Party shall provide that an importer may make a claim for preferential tariff treatment, based on a declaration of origin completed by the exporter, producer, or, in the case of an exporter or producer in Australia, an authorised representative of the exporter or producer, or the importer's knowledge that a good is originating.
2. Each Party shall provide that a declaration of origin:
  - (a) need not follow a prescribed format;
  - (b) be in writing, including electronic format;

---

<sup>1</sup>The Working Group on Rules of Origin and Customs and Trade Facilitation shall report to the Joint Committee on the operation of subparagraph (b) within one year of the date of entry into force of this Agreement.

- (c) specifies that the good is both originating and meets the requirements of this Chapter;
  - (d) be attached to, or provided on, an invoice or any other commercial document that describes the goods concerned in sufficient detail to enable them to be identified; and
  - (e) fulfils the data requirements as set out in Annex 4A (Data Requirements).
3. Each Party shall provide that a declaration of origin may apply to:
- (a) a single shipment of a good into the territory of a Party; or
  - (b) multiple shipments of identical goods within any period specified in the declaration of origin, but not exceeding 12 months.
4. Each Party shall provide that a declaration of origin is valid for one year after the date that it was completed or for such longer period specified by the laws and regulations of the importing Party.
5. If unassembled or disassembled products within the meaning of rule 2(a) of the General Rules for the Interpretation of the Harmonized System falling within Sections XV to XXI of the Harmonized System are imported by more than one shipment, a single declaration of origin for such products may be used on request of the importer and in accordance with the requirements laid down by the customs authority of the importing Party.

**Article 4.19**  
**Basis of a Declaration of Origin or Importer's Knowledge**

1. Each Party shall provide that if a producer declares the origin of a good, the declaration of origin is completed on the basis of the producer having information that the good is originating.
2. Each Party shall provide that if the exporter is not the producer of the good, a declaration of origin may be completed by the exporter of the good on the basis of:
- (a) the exporter having information that the good is originating; or
  - (b) reasonable reliance on the producer's information that the good is originating.
3. Each Party shall provide that if an importer of the good makes a claim for preferential tariff treatment on the basis of the importer's knowledge the good is originating, the claim is made on the basis of:
- (a) the importer having documentation that the good is originating; or

- (b) reasonable reliance on supporting documentation provided by the exporter or producer that the good is originating.
- 4. Australia shall also provide that a declaration of origin may be completed by an authorised representative of an exporter or producer of the good, on the basis of reasonable reliance on supporting documentation provided by the exporter or producer that the good is originating.
- 5. For greater certainty, nothing in paragraph 1 or paragraph 2 shall be construed to allow a Party to require an exporter or producer to complete a declaration of origin or provide a declaration of origin to another person.

#### **Article 4.20 Discrepancies**

A Party shall not reject a declaration of origin due to minor errors or discrepancies, such as slight discrepancies between documents, omissions of information or typing errors, provided these minor discrepancies or errors do not create doubt as to the originating status of the good.

#### **Article 4.21 Waiver of Declaration of Origin**

A Party shall not require a declaration of origin if:

- (a) the customs value of the importation does not exceed, in the case of Australia, 1,000 Australian Dollars or, in the case of the United Kingdom, 1,000 Pound Sterling, or any higher amount as the importing Party may establish; or
- (b) it is a good for which the importing Party has waived the requirement or does not require the importer to present a declaration of origin,

provided that the importation does not form part of a series of importations, which the customs authority of the importing Party reasonably considers to have been carried out or planned for the purpose of evading compliance with the importing Party's laws and regulations governing claims for preferential tariff treatment under this Agreement.

#### **Article 4.22 Obligations Relating to Importation**

- 1. Except as otherwise provided for in this Chapter, each Party shall provide that, for the purpose of claiming preferential tariff treatment, the importer shall:

- (a) declare that the good qualifies as an originating good;
  - (b) possess either:
    - (i) a valid declaration of origin; or
    - (ii) documentation that formed the basis for the importer's knowledge that the good is originating;
  - (c) provide to the importing Party a copy of any declaration of origin and other evidence that the good qualifies as an originating good, if required by the importing Party; and
  - (d) if required by an importing Party to demonstrate that the requirements in Article 4.17 (Non-Alteration) have been satisfied, provide relevant documents, such as transport documents, and in the case of storage, storage documents.
2. Each Party shall provide that if the importer has reason to believe that the claim for preferential tariff treatment is based on incorrect information that could affect the accuracy or validity of the declaration of origin, the importer shall correct the importation document and pay any customs duty and, if applicable, penalties owed.
3. Each Party may provide that if the exporter or producer has reason to believe that the declaration of origin is based on incorrect information that could affect the accuracy or validity of the declaration of origin, they shall be obliged to immediately notify the importer in writing of any change affecting the originating status of each good to which the declaration of origin applies.
4. Each Party shall encourage its customs authority, when considering imposing a penalty in relation to a claim for preferential tariff treatment, to consider as a significant mitigating factor a voluntary notification given prior to the discovery of that error by the Party and in accordance with paragraph 2 or paragraph 3, provided that in the case of a notification given by an importer, the importer corrects the error and repays any duties owing.

### **Article 4.23**

#### **Record Keeping Requirements**

1. Each Party shall provide that an importer claiming preferential tariff treatment for a good imported into the territory of that Party shall maintain, for a period of four years from the date of importation of the good, or such longer period as the importing Party specifies:
- (a) documentation related to the good's importation, including any declaration of origin that served as the basis for the claim; and

- (b) all records necessary to demonstrate that the good is originating and qualified for preferential tariff treatment, if the claim was based on the importer's knowledge that the good was originating.
- 2. Each Party shall provide that a producer or exporter in its territory that provides a declaration of origin shall maintain, for a period of four years from the date the declaration of origin was issued, or such longer period as the importing Party specifies, all records necessary to demonstrate that a good for which the exporter or producer provided a declaration of origin is originating.
- 3. Each Party shall provide that an importer, exporter, or producer in its territory may choose to maintain the records specified in paragraphs 1 and 2 in any medium that allows for prompt retrieval, including electronic, optical, magnetic, or written form in accordance with that Party's laws and regulations.

#### **Article 4.24 Verification of Origin**

##### *Initiating a verification of origin*

- 1. For the purpose of determining whether a good imported into its territory is originating, the customs authority of the importing Party may conduct a verification of any claim for preferential tariff treatment by one or more of the following:
  - (a) a written request for information from the importer of the good;
  - (b) a written request for information from the exporter or producer of the good, where the customs authority of the importing Party considers the information obtained under subparagraph (a) is not sufficient to make a determination and the customs authority of the importing Party would like additional information; or
  - (c) a written request for information from the customs authority of the exporting Party where the customs authority of the importing Party considers the information obtained under subparagraph (a) and subparagraph (b) is not sufficient to make a determination and the customs authority of the importing Party would like additional information.

A verification under this paragraph may be conducted at the time the customs import declaration is lodged, or before or after the release of the good by the customs authority of the importing Party.

- 2. If the customs authority of the importing Party decides to conduct a verification pursuant to paragraph 1, it shall accept information directly from the importer, exporter, or producer.

3. Where a written request is made under subparagraph 1(b) the customs authority of the importing Party shall:
  - (a) ensure that the information requested is limited to information pertaining to the fulfilment of the requirements of this Chapter as follows:
    - (i) if the claim was based on a declaration of origin, that declaration of origin; and
    - (ii) where the claim was based on the good having been wholly obtained or produced pursuant to subparagraph (a) of Article 4.2 (Origin Criteria), the applicable subparagraph in Article 4.3 (Wholly Obtained or Produced Goods), and the place of production; or
    - (iii) where the claim was based on the good having been produced entirely pursuant to subparagraph (b) of Article 4.2 (Origin Criteria), information on the origin of the materials, and the place of production; or
    - (iv) where the claim was based on a change in tariff classification, a list of all the non-originating materials used in the production of the good in a Party, including their tariff classification (in two, four, or six-digit format, depending on the relevant product-specific rule of origin); or
    - (v) where the claim was based on the regional value content, the value of the final good, the value of all non-originating materials used in the production (where the build-down method is used) or the value of all originating materials used in the production (where the build-up method is used), as well as information on how such values were determined; or
    - (vi) where the claim was based on a production process, a specific description of that process; and
    - (vii) information on any tolerances relied on under Article 3.9 (Tolerance); and
    - (viii) information relating to compliance with the non-alteration provisions under Article 4.17 (Non-Alteration).
  - (b) allow the exporter or producer at least 30 days from the date of receipt of the request to provide the requested information; and
  - (c) notify the customs authority of the exporting Party of the request.
4. Where a written request is made under subparagraph 1(c) the customs authority of the importing Party may request specific documentation and information from the

customs authority of the exporting Party as part of a verification of origin not later than two years after the date on which a claim for preferential tariff treatment was made. The customs authority of the exporting Party shall provide the customs authority of the importing Party with a written acknowledgement of receipt of this request within 45 days of the date of the request, or any other time period as may be decided between the Parties.

*Actions of the customs authority of the exporting Party*

5. Following a request under subparagraph 1(c), the customs authority of the exporting Party may, in accordance with the laws and regulations of the exporting Party:
  - (a) request the records referred to in paragraphs 1 and 2 of Article 4.23 (Record Keeping Requirements);
  - (b) ask questions of the exporter, a producer, or a supplier of the good to verify the origin of the goods; and
  - (c) visit the premises of the exporter, a producer, or a supplier to review the records referred to in paragraphs 1 and 2 of Article 4.23 (Record Keeping Requirements) or to observe the facilities used in the production of the good.
6. As soon as possible, and in any event within 10 months after receiving the written request under paragraph 4, the customs authority of the exporting Party shall wherever possible provide the customs authority of the importing Party with the following:
  - (a) the documentation requested by the customs authority of the importing Party under paragraph 4 where available;
  - (b) the description of the good that is subject to examination, including its tariff classification in two, four, or six-digit format, depending on the origin criterion;
  - (c) a description of the production process;
  - (d) information on the manner in which the examination of the good pursuant to paragraph 5 was conducted; and
  - (e) supporting documentation, where appropriate.

*Release of goods subject to verification*

7. During verification, the importing Party shall allow the release of the good, subject to payment of any duties or provision of any security as provided for in its laws and regulations. If as a result of the verification the importing Party determines that the

good is an originating good, it shall grant preferential tariff treatment to the good and refund any excess duties paid or release any security provided, unless the security also covers other obligations.

#### *Completing a verification of origin*

8. The customs authority of the importing Party shall:
  - (a) make a determination following a verification as expeditiously as possible and no later than 90 days after it receives the information necessary to make the determination, and no later than 365 days after the first request for information or other action under paragraph 1. If permitted by its laws and regulations, a Party may extend the 365-day period in exceptional cases, such as where the technical information concerned is very complex;
  - (b) provide the importer with a written determination of whether the good is originating that includes the basis for the determination; and
  - (c) provide the importer, exporter, or producer that provided information during the verification or certified that the good was originating with the results of the verification and the reasons for that result.

#### *Cooperation*

9. The customs authorities of the Parties shall discuss the overall operation and administration of the verification process, including forecasting of workload and discussing priorities. If there is an unmanageable number of requests, the customs authorities of the Parties shall consult to establish priorities and consider steps to manage the workload, taking into consideration operational requirements.

### **Article 4.25**

#### **Determinations on Claims for Preferential Tariff Treatment**

1. Except as otherwise provided in paragraph 2, each Party shall grant a claim for preferential tariff treatment made in accordance with this Chapter for a good that arrives in its territory on or after the date of entry into force of this Agreement. In addition, if permitted by the importing Party, the importing Party shall grant a claim for preferential tariff treatment made in accordance with this Chapter for a good which is imported into its territory or released from customs control on or after the date of entry into force of this Agreement.
2. The importing Party may deny a claim for preferential tariff treatment if:
  - (a) it determines that the good does not satisfy any of the requirements of this Chapter;

- (b) pursuant to a verification under Article 4.24 (Verification of Origin), it has not received sufficient information to determine that the good qualifies as originating, or that the importer, exporter, producer, or supplier has failed to comply with any requirements of this Chapter;
  - (c) the exporter, producer, or importer fails to respond to a written request for information in accordance with Article 4.24 (Verification of Origin); or
  - (d) the importer, exporter, or producer fails to comply with any of the relevant requirements for obtaining preferential tariff treatment.
3. If an importing Party denies a claim for preferential tariff treatment, it shall issue a determination to the importer that includes the reasons for the determination.
  4. A Party shall not reject a claim for preferential tariff treatment for the sole reason that the invoice or other commercial document was issued in a non-party. If an invoice is issued in a non-party, a Party shall require that the declaration of origin be separate from the invoice.

#### **Article 4.26**

#### **Refunds and Claims for Preferential Tariff Treatment after Importation**

1. Each Party shall provide that an importer may apply for preferential tariff treatment and a refund of any excess duties paid for a good if the importer did not make a claim for preferential tariff treatment at the time of importation, provided that the good would have qualified for preferential tariff treatment when it was imported into the territory of the Party.
2. As a condition for preferential tariff treatment under paragraph 1, the importing Party may require that the importer:
  - (a) make a claim for preferential tariff treatment;
  - (b) where applicable, provide a copy of any declaration of origin; and
  - (c) provide such other documentation relating to the importation of the good as the importing Party may require,

no later than two years after the date of importation or a longer period if specified in the importing Party's laws and regulations.

For the purposes of this rule:

“biotechnological processing” means one or more of the following biotechnological processes:

- (a) biological or biotechnological culturing, hybridisation or genetic modification of:
  - (i) micro-organisms (including bacteria and viruses (including phages)); or

	SECTION VII	<p><b>SECTION VII</b>  <b>PLASTICS AND ARTICLES THEREOF; RUBBER AND ARTICLES THEREOF</b></p> <p><b>Chapter Note 1: Chemical Reaction Rule</b>  Notwithstanding the applicable product specific rules of origin, a good of chapter 39 or 40 that is the product of a chemical reaction satisfies the requirements of this Annex if the chemical reaction occurs in the territory of one or both of the Parties.</p> <p>For the purposes of this rule:</p> <p>“chemical reaction” means a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not chemical reactions:</p> <p>(a) dissolving in water or other solvents;</p> <p>(b) the elimination of solvents including solvent water; or</p> <p>(c) the addition or elimination of water of crystallisation.</p>	
		<p><b>Chapter Note 2: Purification Rule</b>  Notwithstanding the applicable product specific rules of origin, a good of chapter 39 that is the product of purification satisfies the requirements of this Annex, if the purification occurred in the territory of one or both Parties.</p> <p>For the purposes of this rule:  “purification” means purification which results in one of the following criteria being satisfied:</p> <p>(a) purification of a good resulting in the elimination of 80 per cent of the content of existing impurities; or</p> <p>(b) the reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:</p> <p>(i) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;</p> <p>(ii) chemical products and reagents for analytical, diagnostic or laboratory uses;</p> <p>(iii) elements and components for use in micro-elements;</p>

**Chapter Note 3: Change in Particle Size Rule**

Notwithstanding the applicable product specific rules of origin, a good of chapter 39 satisfies the requirements of this Annex if it undergoes a change in particle size in the territory of one or both of the Parties.

For the purposes of this rule:

“change in particle size” means the deliberate and controlled modification in particle size of a good, including micronising by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in a different physical or chemical characteristics from the input materials and that has:

- (a) a defined particle size;
- (b) defined particle size distribution; or
- (c) defined surface area,

that is relevant to the purposes of the resulting good.

**Chapter Note 4: Standard Materials Rule**

Notwithstanding the applicable product specific rules of origin, a standard material of chapter 39 satisfies the requirements of this Annex if the production of such good occurs in the territory of one or both of the Parties.

For the purposes of this rule:

“standard materials” means a preparation (including a solution) suitable for analytical, calibrating or referencing uses having precise degrees of purity or proportions which are certified by the manufacturer.

**Chapter Note 5: Isomer Separation Rule**

Notwithstanding the applicable product specific rules of origin, a good of chapter 39 satisfies the requirements of this Annex if the isolation or separation of isomers from a mixture of isomers occurs in the territory of one or both of the Parties.
